

The Mightiest Little Peasant Chapter 3434

“An extremely ancient ... Pill cauldron?”

“Yeah! As long as you look a little deeper into the pill Sea Mountain, you’ll be able to see it. Of course, now that it’s covered in rocks, you can’t see what the cauldron looks like anymore.” That person said.

“On top of this mountain formed by this ruined cauldron, there will be spring water, and that’s the essence of the thousand pills. Just adding a little bit of it can greatly increase the quality of the pill, and it’s a rare divine item.”

As he spoke, his expression became a little excited.

“It’s so magical!”

Tang Hao was shocked.

That pill cauldron was definitely of an extremely high grade and had a great background.

“That cauldron is really destroyed? If it was really crippled, how could it produce such a miraculous spiritual liquid?”

Tang Hao asked after some thought.

“I don’t know. Everyone says it’s useless because many people have tried to subdue this cauldron in the past, but there was no reaction. The grandmasters of the pill Sea Mountain have also tried, but none of them succeeded. Tell me, if this isn’t useless, what is it?”

The man shook his head.

“I see!”

Tang Hao nodded and stopped asking.

He raised his head and looked forward, continuing to watch the duel between the two masters.

After the fusion was complete, it was the calcining process. This process was rather long and lasted for more than half a day.

When the pills were almost complete, the two of them opened the White jade bottles and took out a handful of spiritual liquid, which they then fused into the pills.

“Hahaha! I’ve won!”

After the pill was formed, master Xu laughed and stood up.

He held a purple divine elixir in his hand and showed it off in all directions.

As for Grandmaster Zhou, he picked up his pill and looked at it, a look of annoyance on his face.

Originally, the two of them were of similar standards, so the pills they refined should have been equal, but the other party had more myriad pill liquid than him, so the quality of the pills was higher.

“Old man Zhou, are you convinced?”

Master Xu said proudly.

“Hmph!”

Master Zhou stood up resentfully and turned to leave.

“Master Xu, you’re amazing!”

The crowd all began to flatter master Xu.

Tang Hao squeezed his way out of the crowd after watching the show.

He flew up until he reached a height of ten million feet. Then, he focused his eyes and looked into the depths of the pill Sea Mountain.

Soon, his gaze passed through the majestic peaks and saw the scene in the depths.

There was indeed a mountain there.

Compared to the surrounding mountains, which were tens of millions of feet tall, it was particularly small. The top was caved in, and at first glance, it was impossible to tell that it was actually a cauldron.

But if one knew and looked at it again, they would be somewhat similar.

“It must be a treasure of an ancient ancestral God of the Celestials!”

Tang Hao guessed.

He wanted to go in and take a look, but he was a little hesitant.

This pill Sea Mountain forbade outsiders from entering. Once he entered, he would be discovered and chased out.

It wasn't easy to sneak in. According to what he knew, there were several great paragons in the mountain, which were late-stage yang gods.

"Forget it!"

He shook his head and was about to land.

Although this thing was good, it was not easy to snatch it. There was no need to take the risk.

He already had the great void divine furnace, so he was more than qualified to concoct pills.

Just as he turned around, his heart suddenly throbbed.

"This is ...?"

The next moment, he turned around and stared at the mountain in the distance with wide eyes.

In an instant, he had felt a fluctuation coming from there.

"The great void divine furnace is moving!"

Then, he made an even more shocking discovery.

The great void divine furnace in his body seemed to resonate with the existence there and started to tremble.

“The Shennong cauldron! That is the real Shennong cauldron!”

Another wave of fluctuations came, and many images flashed in his mind.

This also made him clear what kind of cauldron it was.

It was the legendary Shennong’s cauldron!

Shennong, Taixu, and the human Emperor Xuanyuan were all people of the same era. They were all mythical existences.

Among the human alchemists, the Shennong cauldron was like a religion. Many pill cauldrons in the later generations were made by imitating the real Shennong cauldron.

“I didn’t expect it to be the Shennong cauldron!”

He was a little excited.

The Shennong cauldron was not only a Supreme treasure of the Dao of alchemy, but it also had a great symbolic meaning, just like the human sovereign’s Xuanyuan sword.

“The Shen clan must have seized this Shennong cauldron and brought it to this world. However, for some reason, it fell here and formed a mountain ... Later, someone discovered its mystical properties and built the pill Sea Mountain here.”

He guessed.

“This is the treasure of the human race. We must get it back!”

He took a deep breath, and his eyes revealed a determined look.

He couldn't let this Supreme treasure of the human race continue to sleep here and be used by the gods race.

“I still can't take it by force. If I'm not strong enough, what can I do to successfully obtain this treasure?”

He stood in place for a long time, frowning and pondering.

“There it is!”

After a while, his expression changed.

“Since it's an alchemy force, then we'll follow the rules of the alchemy world!”

He mumbled as his body sank and fell.

At the same time, he changed his appearance.

A moment later, a white-robed figure walked over from the entrance of the pill Sea Mountain.

On both sides of the gate stood a disciple.

Upon seeing this person, a disciple stepped forward and shouted, "Who's there? Who are you looking for?"

He raised his face, but his expression was somewhat arrogant.

The white-robed figure didn't say a word and stepped forward.

"The pill Sea Mountain ..."

He looked to the side and saw the words "pill Sea Mountain" carved on the tall stone tablet.

"I'm not looking for anyone. I'm here ... To challenge your pill Sea Mountain!"

As he spoke, he flicked his sleeve. With a boom, the stone tablet shook and fell to the ground under the shocked gazes of the two disciples.

"You ... How dare you!"

"You're looking for death!"

They were stunned for a while before they came back to their senses and revealed a shocked expression.

“Then what’s the matter?”

“Why did the stone tablet fall?”

Someone looked over from behind and shouted in shock.

The commotion quickly spread.

Many people looked at him with shocked expressions.

That was dan hai mountain’s stele, and pushing it down was the same as slapping dan hai mountain’s face. It was the most serious provocation!

Ever since pill Sea Mountain was established, no one had ever dared to do this.

“You ... Just you wait. Don’t leave if you have the guts!”

The two disciples shouted as they raised their hands and threw out a few divine lights towards the mountain behind them.

A moment later, the mountain was in an uproar.

“Who is it?”

“Who’s not afraid of death? who dares to provoke our pill Sea Mountain?”

A series of angry and confused shouts came from the mountain.

Then, beams of divine light swept over from all directions.

Whoosh! Whoosh! Whoosh!

There were many figures flying over and landing around the mountain Gate.

After they revealed themselves, they all looked coldly at the white-robed figure in front of the door. Their eyes were filled with ridicule and contempt.

In the past, there had been people who had come to challenge their pill Sea Mountain, but they had all lost miserably. It had been nearly a thousand years since anyone had dared to do so.

I don't know where this guy's confidence came from, but he dared to come to our door. He's really overestimating his own ability!
