

The Mightiest Little Peasant Chapter 3437

“You ...”

Master Xu was stunned, his face full of astonishment.

Even the man who was leading the way was stunned and couldn't understand.

Master Xu had clearly said that he only needed to complete one, but why did he have to ask for trouble and take all of them away?

Where did he get the confidence to believe that he could complete all these questions?

Since master Xu dared to take it out, the questions in these scrolls must be extremely difficult. It was already difficult to complete one of them, so how could he complete all of them?

“You're still as arrogant as ever!”

After a while, master Xu came back to his senses and took a deep breath.

“Alright! Since you're looking for death, I'll grant your wish!” He snorted coldly, his expression still somewhat disdainful.

In his opinion, this guy was just bluffing!

“Then I'll start!”

Tang Hao smiled. He took one of the scrolls and unfurled it.

“Grass?”

He glanced at it and raised his eyebrows.

This was a question about plants and vegetation. There were nearly 100000 types of plants listed on it. He needed to sort out and organize all of them within 15 minutes.

“Hmph!”

In front of him, master Xu sneered.

This question seemed simple, but in reality, it was extremely difficult. Firstly, there was a time limit, which was only a short fifteen minutes. Secondly, he had hidden many profound mysteries within the 100000 types of plants.

Some of them were fake, and he had created them himself. There were also some that were extremely rare and unfamiliar. Even grandmasters of the same level would not know about them.

“This is simple!”

Tang Hao smiled when he saw that.

“Simple? Hahaha! What a big tone!”

Master Xu immediately sneered. “Now, the time starts!”

As he spoke, he flicked his sleeve and a hourglass flew out, placing it in front of him.

“You’d better hurry up. You only have 15 minutes. If you exceed that time, you’ll lose!”

“Why do you need fifteen minutes?”

Tang Hao chuckled and tossed the scroll in his hand. Golden light burst out from the scroll, and the names of plants appeared in the air.

He used his divine will to control these names and quickly arranged them.

For a time, the Golden characters danced in the air, dazzling the eyes.

“So fast!”

On the side, the man who was leading the way looked up for a while, and then revealed a shocked expression.

The speed at which this person was tidying up was unbelievably fast!

At this speed, it would indeed not take 15 minutes. One-third of the time would be enough.

However, even if there was speed, what about accuracy?

That was 100,000 types of plants, many of which he had never heard of. If he were to do it, he wouldn’t be able to sort them out even if he spent a day.

“This ...”

Master Xu raised his head, squinted his eyes, and looked carefully.

In the beginning, he didn't think much of it, thinking that the guy was just messing around, which was why he was so fast.

However, as he looked through the names of these plants, his expression gradually turned serious.

Not a single one was wrong!

Not only was this fellow extremely fast, but it was also extremely accurate. At least until now, he had not made a single mistake.

“You've got some skills!”

He looked at that guy again and said to himself, his eyes no longer filled with contempt.

He had originally thought that this was an idiot, but now it seemed that this was not the case.

“It's still not stopping, it's still so fast!”

He raised his head and continued to read, his expression becoming more and more serious.

In his heart, he was already somewhat aghast.

This guy didn't hesitate at all, as if he knew all these plants like the back of his hand!

"Alright, I'm done!"

A moment later, Tang Hao stopped and smiled at master Xu. "These 100000 types of plants have a lot of water content. These 108 types are all made up by you. There's no such plant in any ancient books."

Master Xu raised his head and took a closer look, and his face became extremely gloomy.

There was no mistake!

This guy only used a quarter of the time to complete his question!

This performance was truly a little shocking!

Even if it was him, when faced with similar questions set by other Masters, it was impossible to answer so quickly and so perfectly!

This guy was an expert!

He raised his eyes and looked at the figure in front of him. His heart was already extremely heavy.

"Luckily! He's too arrogant, otherwise, if he had picked this question, he would have already won and I would have completely lost the face of dan hai mountain." He thought to himself, but was extremely fortunate.

One had been broken, and there were four left.

Three of them were similar questions, and the last one was a competition of alchemy techniques.

He had absolute confidence that he could stop this guy on this question.

“Master Xu, I’ve already solved this question. Do you have any objections?”

Tang Hao said with a smile as he kept the scroll.

Master Xu’s face darkened, and he reluctantly nodded.

“That’s good!”

Tang Hao put the scroll aside, then took another one and unfurled it.

“Knowledge pill? That’s simple!”

Tang Hao smiled. He flicked the scroll, and ten pills flew out. They all had different auras.

For this question, he needed to identify the use of these ten pills, as well as all the refining materials.

To him, this was very simple.

The gods race’s alchemy Dao had also developed and evolved from the human race’s alchemy Dao. Although there were some changes, they were not very big.

After coming here, he had read all the alchemy books that he could find. He knew the alchemy of the Shen clan like the back of his hand.

To him, identifying herbs and medicinal pills was an extremely simple task.

He picked up a pill and identified it. Then, he began to list the ingredients of the pill.

Hearing him say it was easy, master Xu sneered disdainfully to himself.

This question was much more difficult than the previous one.

In the pill world, recognizing pills had always been more difficult than identifying plants.

However, as Tang Hao listed out the materials, his expression changed again.

At first, he froze and was a little dazed.

Tang Hao picked up the second pill and scanned through it. When he read the names of the plants, his eyes widened in shock and disbelief.

How did this guy see through his pill so quickly?

Furthermore, it was so accurate?

This ... Was simply unbelievable!

By the time the third, fourth, and the same thing happened, he was completely stunned.

He sat there with his eyes wide open and his mouth agape.

On the side, the man who was leading the way also had the same dumbfounded expression.

He was also completely shocked!

Although he wasn't a level 1 Alchemist, but a level 2 Alchemist, and his alchemy skills weren't as high as those of a level 1 Alchemist, he had seen a lot. He knew very well how shocking the performance of this person in front of him was!

Even the five most powerful pill elders might not be able to do it!

"This is unbelievable!"

"He ... Who is he?"

The more he looked, the more shocked he was and the more curious he became.
