

The Mightiest Little Peasant Chapter 3445

Tang Hao sat cross-legged in the hall.

With a flick of his sleeve, a green pill cauldron flew out.

“The Shennong cauldron ...”

Looking at the cauldron, he sighed softly.

This was the ancestor of all cauldrons, the most precious treasure of the human race. Who would have thought that it would fall into the hands of the Shen clan and even become a so-called useless cauldron?

“Although those cauldrons back then were weapons of the celestial race, the celestial race’s alchemy Dao was still inherited from the human race. Therefore, this Shennong cauldron can still intimidate them, which is why the phenomenon of the 10000 cauldrons submitting to it appeared.”

He said to himself.

He was also a little surprised by the strange phenomenon that day.

“In the future, I will use this cauldron to refine pills. As for the others, it is more suitable to use the great void divine furnace.”

He took out the great void divine furnace and made a comparison.

A furnace, a cauldron, they were all good treasures, each with their own use, none of them could be lost.

Let's try the effects of the Shennong cauldron!

He kept the divine furnace and took out the Shennong cauldron.

After obtaining the cauldron, he had successfully refined it and could easily control it.

BOOM!

The cauldron trembled, and a green divine flame ignited inside.

This was the flame of the Shennong!

It was said that this was a fire created by the ancient God farmer by gathering all the fires in the world. It might not be as powerful as the Taixu divine fire, but in terms of alchemy, there was no better fire.

"So fast!"

He threw a yang grade divine herb into the furnace, and it was completely refined in less than half a day.

Previously, when he used the great void divine furnace, he would usually need to spend about three days.

"As expected of the Shennong cauldron!"

He was overjoyed.

With this cauldron, his efficiency in refining pills was greatly improved. He originally needed five days to refine pills, but now, he only needed one day.

A few hours later, the cauldron shook and a golden elixir flew out of it and landed in his palm.

“Even the medicinal effect has increased by twenty to thirty percent ...”

He examined it carefully and was shocked.

This was a Celestial King-grade pill, and it was already very difficult to increase its medicinal effects by even a little. But now, without adding anything, just changing the cauldron, the medicinal effects had increased by 20 to 30%. It was truly shocking!

“It seems like ... There’s hope for a five-star!”

He chuckled and was overjoyed.

According to his original estimation, after refining all the materials and swallowing the Yang God pills, he would not be able to reach five stars.

But now, after seeing the magical effects of the Shennong cauldron, he was confident that he could reach five-star.

“Continue!”

He took out another set of materials and continued to refine.

When he had accepted the position of Grand pill elder, he had received ten godly medicines, and eleven from the sacred lands like Mount Jade Dragon and the heavenly sunflower Palace. In total, he had twenty-one godly medicines.

It took him half a month to finish refining all the materials.

Of the 21 yang God pills, other than the first pill, which was refined using the great void divine furnace, the rest were refined using the Shennong cauldron, so their medicinal effects were stronger.

After a short rest, he began to swallow.

He would first consume the Yang God pill.

The Yang spirit pill wasn't very effective, and the ingredients weren't yang level divine herbs. It was usually made by stacking spirit level divine herbs together.

After all, yang grade divine herbs were too difficult to cultivate, and only a sacred land like Mount Jade Dragon had the ability to do so.

The divine martial Kingdom didn't have the ability to do so.

More than 150 yang spirit pills were thrown into his mouth like beans.

As he swallowed, he refined.

After swallowing all of them, he picked up a sun god elixir and swallowed it.

BOOM!

The medicinal power of the big pill was stronger and more violent. As soon as it entered his stomach, it turned into a raging tide that rushed to his limbs and bones.

He focused his mind and began refining.

A day later, a violent Qi force suddenly spread out in the hall, and a bright divine light burst out.

He had broken through!

He had advanced to four-star!

Four-star meant that he was already in the middle stage of the Yang God Realm, which was the high-level realm.

He didn't stop and continued to swallow.

A day later, there was another strange phenomenon in the main hall.

"I'm a five-star!"

Tang Hao retracted his Chi-Jin, opened his eyes, and smiled.

Thanks to the Shennong cauldron, he had successfully advanced to five-star.

He clenched his fist and activated the divine essence in his body. He roughly estimated his current strength.

With that perfect-grade divine crystal, he could even take on a late-stage great senior.

I wonder who's stronger now, me, the night Immortal King, or the immortal execution King?

He muttered to himself for a moment and then smiled bitterly.

When he was in the immortal world, he was still a puny celestial of the great all-embracing heaven and couldn't tell the strength of the celestial Kings at all, so he didn't know the true strength of these two celestial Kings.

But according to his guess, they should be even stronger than his current cultivation level.

After all, the immortal execution King was the daughter of an immortal Emperor. How could his cultivation be weak?

The night Immortal King, on the other hand, had been able to fight the immortal execution King for thousands of years without a clear winner. They were clearly on the same level.

"It seems like I have to work harder and reach the late stage, or even the peak stage ..."

He muttered and stood up.

Since he had made a breakthrough in his cultivation, it was time for him to leave.

It had been more than four months since he left the divine martial Kingdom. It was time to go back.

“We’re leaving just like this?”

After leaving the hall, he found elder Yan dan and told him about his departure.

Elder Yan dan was a little disappointed.

It would be even better if this person could stay for a while longer.

However, he couldn’t force her. A person like her wouldn’t really stay in his pill Sea Mountain.

“These are some of the pill Dao insights I’ve prepared. They’re even more detailed than the ones I’ve given out before.” Tang Hao took out a Jade slip and handed it to her.

Elder Yan Dan’s eyes widened as he stared at the Jade slip.

“Many thanks!”

After receiving it, he gave a solemn bow.

“Wait a moment, after receiving such a valuable item, we should return the favor. There aren’t many yang level divine herbs left in the mountain, but we can still spare three stalks.” He summoned a person and went to the medicine storage to retrieve three godly medicines.

Tang Hao accepted it.

Yang grade divine herbs were treasures that the more the better.

“Farewell, great pill elder!”

As the news spread, the other pill elders and a group of grandmasters came to see him off.

All the Masters bowed in salutation as they arrived at the mountain Gate.

They all respected him from the bottom of their hearts.

“Let’s go!”

Tang Hao stood in front of the door and smiled at them. He then turned around and left.

Far away from the pill Sea Mountain, he wiped his face and returned to his appearance as a lecher.

“Return to the divine martial Kingdom!”

He turned around and headed east.

The divine martial Kingdom was located in the eastern wasteland of the East continent.

On the way, he entered a city and inquired about the situation in the divine martial Kingdom. He was only relieved after learning that there was nothing major.

A few days later, he neared the divine martial Kingdom.

At this moment, a figure was sitting cross-legged in the void outside the divine martial Kingdom.

He spread out his spiritual will and was currently monitoring the surroundings.

The people coming and going, even some birds, could not escape his detection.

“Still nothing?”

He suddenly mumbled in disappointment.

He had been waiting here for more than two months, but the target had not returned.
