

The Mightiest Little Peasant Chapter 3453

“Where is he?”

In the divine City of Vermillion Bird, the Azure-armored general looked around in confusion.

According to the plan, the invited sun god should have attacked and worked with the Army of Suzaku to destroy Flying Phoenix City.

But now, not a single one of them had made a move.

“Venerable envoy? Where are those few people?”

After waiting for a while longer, he still did not see any movement. He could not help but turn around and look at the messenger from Jade Dragon Mountain in the city.

“This ...”

The envoy was also dumbfounded.

He could not understand what was going on.

Logically speaking, those people should have made a move.

“Let’s wait a little longer!”

He looked around and said helplessly.

Those people had all hidden themselves and had no Jade talismans to send messages. He couldn't contact them either.

Now, they could only wait.

"Maybe they think the time isn't right, so they haven't made a move yet!" He guessed.

The Azure-armored general couldn't help but nod.

This was very possible.

The sturdiness of Flying Phoenix City was beyond his expectations. After bombarding it for so long, there was still no obvious effect.

"Then we'll wait!"

The Azure-armored warrior nodded.

He took action personally. He drew out a divine bow and shot out divine light continuously at the flying Phoenix City.

After a quarter of an hour, they finally destroyed another layer of the light screen.

"It's time for them to make a move!"

He looked around and was a little anxious.

Why was there still no movement?

He felt that something was not right, but he could not put his finger on it.

“Strange!”

The Jade Dragon emissary probed once more and became a little anxious.

It could be said that the time wasn't right just now, but what about now?

“They didn't do it on purpose, did they?” “I say, venerable emissary, of all people, why did you have to find a bunch of evil demons? these people have strange moods. How are you going to control them?”

“Impossible!”

The Jade Dragon envoy shook his head. “No matter how unreasonable they are, they won't dare to provoke our Jade Dragon Mountain.”

“Then what's going on?”

The Azure-armored warrior threw up his hands in rage.

“This ... I'm not sure. Why don't you shout and remind them?” The emissary said.

“Alright then!”

The Azure-armored warrior said helplessly.

“Everyone, it’s time for you to make your move!” He stood on top of the city wall and shouted in all directions.

Mu hanyan’s expression changed when she heard this.

There was an ambush?

A divine light bloomed in her eyes as she swept her gaze in all directions.

However, to her surprise, there was no movement around her for a long time after she finished speaking.

There was no ambush at all!

“Woof! Do you people from Suzaku only know how to scare people?”

She looked at the divine general in Azure armor and sneered mercilessly.

“This ...”

The divine general in green armor looked around him, his face red with embarrassment and anger.

“This group of bastards!”

He angrily cursed.

“What’s going on?”

The messenger from Jade Dragon Mountain looked around with a gloomy expression. He also thought that this group of people had done it on purpose.

“Something’s wrong! Something’s not right!”

When he released his divine sense and scanned the surroundings, his expression changed.

He thoroughly searched the surrounding void and found nothing. The six people were gone.

Furthermore, they were in the array. If the six of them wanted to leave, it was impossible for him not to sense it. In other words, these six people were definitely still in the array and had not left since the beginning.

However, they didn’t leave, and there was no trace of them here. Where did they go?

After thinking about it carefully, a terrifying thought appeared in his mind.

The six of them had been suppressed and might even be dead.

As soon as this thought appeared, his body trembled and he felt a chill as if he had fallen into an ice cellar.

To be able to silently take care of six yang God powerhouses under his nose, what kind of terrifying strength was this!

He must be a great senior!

“Emperor shenwu is so terrifying! No, it could also be the force behind him!”

He took in a breath of cold air and was extremely shocked.

Just now, he was still pleased with himself, thinking that his plan had succeeded. Little did he know that the divine martial Kingdom had already seen through everything and sent an expert over to easily break the situation.

“Go! Let’s go!”

After understanding everything, he looked toward the direction of the flying Phoenix City and felt a chill down his spine. His hair stood on end.

That expert was in the city!

He had already taken care of those six people. Next, it was time to take care of them.

“Leave what?”

The Azure-armored warrior was stunned.

“Those six people are all dead! If you don’t leave, you’re going to die!” The messenger from Jade Dragon Mountain roared.

“What?”

The Azure-armored General’s eyes went wide with shock.

Those six people were dead?

How was that possible?

They were six yang God powerhouses, especially that Ling konghe, who was in the middle stage.

He could not believe it.

However, when he saw the Jade Dragon envoy’s terrified expression, he knew that it was most likely true.

Oh my God!

He looked at Flying Phoenix City again, his expression full of fear.

“Let’s go, let’s go!”

“Run!” He shouted as he activated the divine city, tearing open the void to escape.

“He’s leaving just like that?”

Seeing this, mu hanyan was stunned and could not react in time.

Didn’t this guy clamor just now that he wanted to break into her city? Why did he run away in the blink of an eye?

That shouldn’t be the case!

With the formation, that fellow still had a slight advantage.

“Forget it! Who cares!”

After thinking for a while, she still didn’t understand, so she didn’t feel conflicted.

It was good that the other party had left. Both sides were about the same in strength, and if they continued to fight, it would only continue to be a stalemate. There was no meaning to it.

“Where did you go just now?”

She descended and saw her fiancé again.

She clearly remembered that he was not here just now.

“Oh! I felt that it was dangerous outside, so I went inside.” Tang Hao said with a smile.

“Hmph!”

Mu Hanyan glanced at him coldly with some disdain.

It was fine if he didn't put in any effort, but he still hid inside. Was he still a man?

She was annoyed for a while and ignored him. Instead, she activated the divine city, tore open the array, and continued to go to the bottom of the abyss.

When she reached the bottom, she took action and kept the mine vein.

Then, he returned to his residence and quickly returned to the divine martial Kingdom.

“Since there's nothing else, I'll take my leave.”

Tang Hao was the first to leave the city. He used the teleportation formation and returned to the imperial capital.

He immediately returned to the carefree mansion and sat down in the small pavilion by the lake.

Along the way, he had been using the divine furnace to refine the six people. He had already refined a few of them.

He continued to refine them, and soon, all six of them were completely refined.

He took out the six divine crystals and swallowed them along with the essence. Then, he began to absorb them.

A day later, his cultivation level broke through smoothly and he entered the six-star realm.

It took him another day to absorb all the essence.

“This Jade Dragon Mountain is quite good to me. They have sent people to me several times. If it weren’t for them, I wouldn’t have been able to reach six-star so quickly.”

He opened his eyes and smiled in joy.

With his current cultivation level, it was as if he had sat on a rocket and was skyrocketing.

In just a few months, he had soared from two-star to six-star.

However, when he reached the six-star realm, his speed should slow down because the further he advanced, the more energy he would need.

“Jade Dragon Mountain ...”

He sat in the same place and pondered for a long time. He was thinking about how to return the favor to this Jade Dragon Mountain.

After a long time, he got up and left the manor.
