

The Mightiest Little Peasant Chapter 3463

“General mu, please sit!”

Emperor shenwu was very enthusiastic.

“Your Majesty, what’s the matter?”

Tang Hao sat down and smiled.

“General mu, haven’t you heard about the three divine nations?” Emperor shenwu’s eyes twitched.

This news had already caused an uproar in the Imperial City. He didn’t believe that this kid didn’t hear it.

Asking this now, isn’t it asking the obvious?

However, he couldn’t point it out. After all, he still had a favor to ask of her.

“Oh! It’s this matter!” “I’ve heard about it.” Tang Hao said, “it’s quite scary. The three divine nations are coming in full force!” However, I believe that with Your Majesty’s wisdom, you must have a way!”

Emperor shenwu’s face twitched when he heard that.

This kid was mocking him!

He cursed in his heart.

“Cough! Of course, didn’t I invite you here, general mu?” Emperor shenwu coughed and said.

“Me?”

“Your Majesty, I can’t shoulder this heavy responsibility. You also know that it’s an empty post, and in terms of strength, I can’t compare to the other ten Lord Divine generals. It’s better to leave this heavy responsibility to them!”

“General mu is too humble!”

The divine Martial Emperor said, “you are still young and can’t compare to general Fei Long and the others. However, you have your own strengths. In this battle, the divine martial Kingdom is weak and at a disadvantage. If we want to stop the Three Kingdoms, we will need general mu to help us refine a few sets of array techniques.”

“A formation?”

“Right!”

“This ...”

Tang Hao muttered to himself.

“What do you want? just tell me. As long as it’s not too much, I’ll agree!”

Emperor shenwu said bluntly.

He had long seen through this kid. He was exceptionally shrewd and was a character who wouldn't act without seeing the rabbit.

Tang Hao raised an eyebrow. He was still hesitant.

He had almost touched all of the divine martial Kingdom's assets. There were a few treasures, but they all belonged to the divine martial imperial family. He didn't think that old man divine martial would give them away so easily. As for the other items, they were very ordinary.

"Sure!"

After a moment, he nodded. "But I have a few conditions."

"Speak!"

Emperor shenwu was overjoyed.

"First of all, I'll take whatever I want from the divine martial Kingdom's Treasury." Tang Hao said.

"No problem!"

Emperor shenwu slapped his thigh and said decisively.

It was just a few treasures. At this point, he didn't care at all.

"Secondly, I'm going to the front line. I'll go to Asura country. I'll make all the decisions there." Tang Hao said.

“What?”

Emperor shenwu turned pale with fright when he heard that.

The pressure on Asura was the greatest among the three battlefields. They were facing Asura, which was far more powerful than Vermillion Bird and maple forest. According to the news from the front lines, Asura had dispatched more than twenty sun gods.

The divine martial Kingdom had only sent seven.

The battle over there would definitely be the most tragic. What was he going there for?

“What’s wrong? I can ‘t?”

Tang Hao said with a smile.

“You can go to the front line, but it’ll be difficult for you to make the decision. Divine general Fei Long is the commander there. If I make you the commander, how will you convince the people?”

Emperor shenwu shook his head.

“There’s no need for that. You just need divine general flying dragon and the others to listen to me. ”
Tang Hao said.

“This ... Alright!”

Emperor shenwu pondered for a long time before he gritted his teeth and nodded.

Given the current situation, divine general flying Dragon's side would not be able to hold on for long. He might as well take a gamble and let the kid think of a way. With his array, he might have a chance to stop them.

As long as the Asura Kingdom's side could block the attack, the other two sides would be easy to deal with.

"How about this? I'll give you the title of carefree divine general and send you to the northern battlefield. I'll secretly send a message to divine general Wyvern and the others and have them listen to your arrangements. What do you think?"

Emperor shenwu said.

"Alright!"

Tang Hao nodded in satisfaction.

"General mu, how confident are you in this?"

Emperor shenwu hesitated for a moment before he asked uneasily.

The difference in strength between the enemy and himself was too great. Even with the formation, he did not have much confidence in blocking it.

" 100%!"

Tang Hao smiled.

" 100%?"

Emperor shenwu was dumbfounded. He could not believe it.

"Alright, I'll go to the treasure vault first and pick some materials." Tang Hao got up, took Emperor shenwu's token, and went to the treasure vault.

"This kid ..."

Emperor shenwu was still in a daze as he watched him leave.

He really couldn't understand where this kid got his confidence from. He dared to say that he was 100% confident. Even if he was at the front line, he wouldn't have such high confidence!

"You really know how to brag!"

After a while, he came back to his senses and muttered softly.

He naturally didn't believe that this kid was 100% confident. It was already very high for him to have 70% to 80% confidence.

"I'll take a gamble!"

He took a light breath, took out a few Jade talismans, and sent them out.

Then, he called the purple-robed man standing at the door and drew up a divine decree.

Tang Hao had looted more than half of the items in the royal treasury.

He didn't stand on ceremony at all. As long as it was slightly useful, he would take it. For example, he would take some Spirit Rank and heaven rank godly medicines as he saw fit. He also took countless materials for the path of crafts and the path of arrays.

After returning to his carefree mansion, he began to refine the formation.

He was refining a defensive formation, a total of three sets, which could solve the urgent needs of the front line.

Three days later, he came out of seclusion.

After inquiring about the news at the front line, it was not optimistic. He was afraid that they would not be able to hold on for a few days.

"It's just in time!"

He left the residence happily and went to the palace first. He gave the two sets of formation techniques to Emperor Shenwu and asked him to send them to the Fenglin Kingdom and the Vermillion Bird Kingdom's Battlefront.

Then, he went to the northern Battlefront through the teleportation array.

"General!"

The moment he reached the front line, someone came to pick him up and led him to the commander city.

“General Xiaoyao!”

Divine general Fei Long led a few people out of the city to welcome them.

“General Fei Long!”

Tang Hao cupped his hands and called out to him.

“I didn’t expect you to become a two-star sun god in just half a year, general Xiaoyao, and even become a divine general ...” Divine general flying dragon sighed.

The few people behind him had the same expression.

The speed of this person’s rise was too shocking!

“I heard from Her Majesty that you’ve brought a set of formation techniques. Quick, take it out!”

After exchanging a few pleasantries, divine general Feilong asked anxiously.

Tang Hao immediately took out the formation.

“Good! That’s great!”

Divine general Feilong took the array and examined it carefully. He couldn't help but laugh in delight.

With his cultivation realm, he could tell that this was a top-notch defensive formation. As long as he set it up, he could rely on the spiritual veins in the divine martial Kingdom to resist the Asura Kingdom's attack and hold on for a while.

Immediately, he summoned the people from the array Department, took the array, and set it up.

"His Majesty also said that since you're here, you'll be in charge of all the decisions here. Do you have any plans?"

Divine general Feilong said after a moment's hesitation.

He looked at Tang Hao with suspicion.

Although he was talented and courageous, he was still young. How could he command the Army on the front line and resist the powerful Asura country?
