

The Mightiest Little Peasant Chapter 3489

Sky-devouring jar!

This was the name of the black jar.

It was full of momentum, and of course, its power was also quite extraordinary. No matter what it was, it could devour. When it was pushed to the extreme, it could even swallow the sky and devour the earth.

The things that were devoured could be refined very quickly, and the efficiency would be even higher than his great void divine furnace.

This item was especially good at refining living creatures.

Tang Hao understood the history of this item after looking through the memories.

This item was created eight or nine thousand years ago when the divine world was already established. The ancestor God who created this treasure was the one who broke through to the ancestor God Realm after the divine world was created. He could be considered the ancestor God of the later generation.

From Tang Hao's point of view, the ancestral gods of the divine realm could be divided into two groups: the Ancient Ones and the later ones.

The Ancient Ones had all experienced the Great War against Pangu world, and were the most ancient bloodlines.

As for the later generations, they broke through one after another after the divine realm was established. Many of their bloodlines were not so ancient anymore.

This Elder God, who called himself the divine ancestor heaven Devourer, was one of the most senior Elder Gods of the later generations.

The sky devouring jar that he had refined had once shocked the entire God World and was rather infamous.

“Not bad! It can replace the great void divine furnace!”

Tang Hao was quite satisfied with the treasure.

He finally had an ancestral god weapon that he could use.

“Let’s test its power!”

After successfully refining the treasure, he stood up and left the place.

Half a day later, he came to the closest dangerous place and found a yang God Realm beast, a golden ancient divine ape.

“Collect!”

He tore open the void and descended into the divine ape’s lair. With a wave of his sleeve, he took out the sky devouring jar.

Buzzzzzz!

The sky-devouring jar shook and suddenly expanded. A terrifying suction force was produced from within.

From a distance, it looked like a huge black hole, and the surrounding void was distorted.

Whoosh! Whoosh!

Under this terrifying suction force, everything in the surroundings was sucked in. Rocks, grass, and even the three-star sun god divine ape couldn't escape and was gradually sucked in.

He screamed and struggled madly, trying to resist this power.

However, it was all in vain. He couldn't break free at all. He was pulled closer and closer.

Tang Hao observed and nodded to himself.

He hadn't even used his full power, but it already had such power that a three-star ancient divine ape couldn't resist. If he used his full power, even a five-or six-star sun god would be killed.

"Not bad!"

He continued to activate the sky-devouring jar and swallowed the divine ape in one go.

Then, after waiting for a few minutes, he looked into the jar again. The divine ape had already been completely refined.

"So fast!"

Tang Hao was surprised.

Just now, he didn't even activate the jar. It was all refined by itself.

"With this treasure, I can save a lot of time and effort in refining!"

Tang Hao grinned.

In the past, when he used the great void divine furnace, he had to refine it himself. Now that he had this fully automatic sky devouring jar, he didn't have to go through so much trouble.

"I'll go find some more ferocious beasts and devour more. "

He continued to search for his target in this dangerous place.

After killing them, he continued to head to another dangerous place.

On the previous trip, he was only a two-star sun god, so he didn't have much confidence in killing these fierce beasts. Now that he was a seven-star sun god, he naturally wouldn't let go of such a powerful treasure.

Although the essence of these ferocious beasts was much less than that of the Protoss of the same level, no matter how small a mosquito's leg was, it was still meat!

Moreover, these were not mosquito legs.

Just like that, he killed his way through. Whenever he saw a yang God beast, he would use the heaven swallowing jar to capture it.

Soon, half a month had passed.

He did not know how many yang God beasts he had killed.

In any case, a large amount of essence had already accumulated in the jar.

“It’s almost done, I’ll swallow it first!”

He found a place and sat down.

He took out the jar, opened his mouth, and sucked. The divine liquid inside gushed out and was directly swallowed into his stomach.

In an instant, the divine liquid turned into the purest divine essence and entered his dantian divine sea.

A few hours later, he opened his eyes and let out a breath.

He looked inside himself and revealed a satisfied expression.

This time, his cultivation had increased by a large margin.

After counting, since he broke through to seven-star, his cultivation level had increased three times.

The first time, he killed Qing Yang, Wu tuo, and the others, as well as those from the violet Qilin mountain. He devoured them all and his cultivation base improved by a lot.

The second time was in the hundred territories, where he killed a group of evil sects, and his cultivation soared again.

This was the third time, and it had increased by a large amount.

He estimated that he was not far from eight-star. He would be able to break through after two or three more opportunities like this.

There were many seven-star cultivators in the East continent, but there were only 20 to 30 eight-star cultivators.

“Continue!”

After a short rest, he got up and rushed to the next dangerous place.

Soon, he had explored all the dangerous places recorded in the East continent and killed more than half of the Yang God Realm beasts.

Some of them were too cunning and he could not kill them. There were also some in the seven Star realm who were not easy to deal with.

“Jade Dragon Mountain ... Is making a move?”

One day, he suddenly received a communication jade talisman.

It was from the informer he had planted on Jade Dragon Mountain.

It was said that there had been an unusual movement on Mount Jade Dragon these days. Suddenly, many great seniors came to visit, and Emperor Shura was among them.

“The Shura Emperor?”

Tang Hao raised an eyebrow when he heard the name.

He knew that this guy had no other purpose in coming to Jade Dragon Mountain other than to deal with the divine martial Kingdom.

The death of an Army of hundreds of thousands and twenty-three sun gods was a blood feud that the Shura Emperor had to avenge.

“They’re finally moving!”

Tang Hao was not worried. On the contrary, he was happy.

He couldn’t wait for this group of people to make a move, so that he would have the opportunity to make a move.

“Now that the matters of Mount Jade Dragon are all under the control of great Senior Spirit Dragon, he must be the one planning to deal with the divine martial Kingdom. This person has a calm and cautious personality. He would not make a move easily, but once he does, it means that he has a meticulous plan.”

“It seems like something will happen to the divine martial Kingdom soon. I have to hurry back.”

He muttered to himself for a moment before he stood up and headed towards the divine martial Kingdom.

With so many great Paragon experts gathered, the other party's target would not be small. There was an 80 – 90% chance that they would directly attack the imperial capital. Thus, he had to return.

He did not care if Emperor shenwu died or not. However, he still had a Senior Sister in his residence.

“It's alright, nothing happened!”

When he rushed back to the divine martial Kingdom, the imperial capital was still peaceful.

He heaved a sigh of relief.

He did not return to the carefree mansion. Instead, he went to the palace to see Emperor shenwu.

“What? You're saying that those people from Jade Dragon Mountain are coming to the Imperial City?”

Emperor shenwu shuddered and almost jumped up from the ground when he heard that.

His eyes were wide open, revealing an intense shock and panic.
