

The Mightiest Little Peasant Chapter 3490

Emperor shenwu was a little flustered.

He was very clear about his family's background. There was no major power behind his divine martial Kingdom. It was all just the imagination of others.

The so-called power behind him was actually just this kid.

This kid is powerful, but he can't hold up against Jade Dragon Mountain!

There was a nine-star sun god on Jade Dragon Mountain.

Moreover, they had a wide network and could invite many great venerable experts.

If they were to use all their strength to attack, his divine martial Kingdom would be annihilated in an instant.

"Is my divine martial Kingdom going to be destroyed again?"

He was so worried that he paced back and forth in the hall a few times, like an ant on a hot pan.

Tang Hao was calm. He sat there and sipped his tea.

"Is your information accurate?"

Emperor shenwu asked anxiously as he walked back after a few more rounds.

"I only know that the people from Jade Dragon Mountain will make their move soon. As for whether they will come to the imperial capital, I'm not sure." Tang Hao said.

"So you're saying that you're not sure?"

Emperor shenwu was stunned for a moment before he heaved a sigh of relief.

"A!"

After sitting down, he sighed, his face full of worry.

Although he knew that Jade Dragon Mountain would take revenge sooner or later, he still could not help but be a little flustered when the day came.

After all, his divine martial Kingdom was only a small Kingdom, while Jade Dragon Mountain was a great Holy Land that shook the East continent. The difference in strength was too great.

"Do you have any other powerful formations? Take them all out, I'll lay them all out, and with our strength, we might have a chance to stop them. "

After pondering for a moment, his expression eased a little.

With just two Seven Star great Venerables, they would definitely not be able to stop Jade Dragon Mountain. However, this kid had many powerful formations. He might be able to create a miracle like the battle in the North.

"There are some!"

Tang Hao nodded.

He had quite a few formations on him, and they were all made when he had nothing to do.

With a wave of his sleeve, he sent out a series of formations.

“These are all defensive formations. These are killing formations. As for this one, it’s the previous one. It’s called the three thousand great Dao formation.” He gave a brief introduction.

“This is good stuff!”

Emperor shenwu’s eyes lit up. He grabbed the array disc and held it in his hands as if he had obtained a precious treasure.

He had heard of the power of this formation. It was definitely a Supreme divine formation.

“I’ll call old Yu over right now and have him lay down all these formations. ”

He laughed out loud, his confidence rising.

They chatted for a while longer before Tang Hao left.

After returning to the mansion, he began to wait.

He did not know what plans Jade Dragon Mountain had. The spies he had planted were not enough to find out such confidential matters.

All he could do was wait.

This wait lasted seven days.

“You’re here?”

On this day, he was sitting by the lake. Suddenly, his mind moved and he looked up at the sky.

There, there was a strange movement in the void.

But the next moment, he was a little confused.

His spies on Mount Yulong had yet to send back any news.

If the people from Jade Dragon Mountain had come out, he would definitely have received the news.

“What’s going on?”

Staring at the vortex that was gradually appearing in the void in front of the Imperial City, he frowned slightly.

At this moment, Emperor shenwu, who was in the palace, also noticed it.

He immediately activated the great formation of the Royal Palace.

In the next moment, pillars of light shot up into the sky from all four corners of the Imperial City, and layers of light screens opened up one after another.

“What’s going on?”

“Why is the formation open?”

The Imperial City was in an uproar.

Everyone looked up at the sky in confusion.

“Guys, look ... What’s that?”

Soon, they saw the twisted void vortex above the Imperial City.

At the center of the whirlpool, a terrifying aura was being nurtured.

“Old man divine martial, you killed 300000 of my Asura country’s Army. Today, I will slaughter your imperial capital and destroy your divine martial country!”

A loud shout came from the center of the vortex.

His voice was like muffled Thunder, shaking the world.

“It’s Emperor Shura! Emperor Shura is here again!”

Within the imperial capital, there was a wave of exclamations.

“The Shura Emperor? Hmph! This great Senior Spirit Dragon is really cautious, to the point that he’s being overly cautious.”

Tang Hao laughed in the carefree mansion.

“It seems like they’re not coming over. They’re going to attack the capital from a distance.”

Tang Hao understood after staring at the vortex for a while.

That great Senior Spirit Dragon was too cautious. He was afraid that he would be trapped by the formation if he came personally. Thus, he thought of this method.

And this was indeed a good idea, as it could minimize the risk.

“Old man shenwu, die!”

With another loud shout, a dense divine light suddenly burst out from the vortex and spread out in an instant, filling the entire sky.

In an instant, the entire world was filled with this piercing divine light.

In the divine light, a golden divine spear drilled out. It hummed and trembled, emitting a shocking divine might.

Whoosh!

The divine spear turned into a shooting star and shot over.

BOOM!

When it crashed into the city's protective formation, a deafening boom erupted, and the entire city trembled.

In the city, everyone's body trembled and their faces turned pale.

The power of this attack was too terrifying!

They had never seen such terrifying power!

"Is that really the Shura Emperor?"

"Impossible! The Shura Emperor is only in the seven-star realm, but the power of this attack is comparable to that of the nine-star realm. Someone from Jade Dragon Mountain must have attacked."

As they discussed, their faces were covered with a layer of worry.

If it was really the Shura Emperor, then there was no need to worry. Even if the Shura country attacked with the power of the entire country, the divine martial country would not be afraid. However, if they had the support of Mount Jade Dragon, then the situation would be terrible.

"What do we do now?"

In the palace, Emperor shenwu was dumbfounded when he saw the Golden divine spear in the air.

He had never thought that the people of Jade Dragon Mountain would attack him in such a way.

At the moment, he could only watch and had no way of retaliating.

If this continued, even if he had a powerful defensive formation, it would be destroyed sooner or later.

“Tsk!”

In the carefree mansion, Tang Hao furrowed his brows.

The current situation was a little troublesome.

“What’s going on?”

An ice-blue figure appeared behind him.

She raised her head to look at the sky and frowned. “Why is there a nine-star venerable?”

“They are from Jade Dragon Mountain. Moreover, they are not nine-star great Venerables. They are just a group of seven-star and eight-star great Venerables!” Tang Hao explained.

“That’s still a nine-star strength. How can the divine martial Kingdom withstand it? let’s hurry up and leave!”

She said hurriedly, her expression somewhat worried.

Even in the entire divine realm, the strength of a nine-Star Warrior was considered quite powerful. The divine martial country was unable to withstand it.

No matter how powerful the formation was, it would be broken by force.

“No need!”

Tang Hao glanced at her, smiled, and shook his head. “He’s only a nine-star cultivator. As long as the ancestor God doesn’t come in person, this city and my carefree mansion won’t be broken!”
