

The Mightiest Little Peasant Chapter 3510

The divine boat trembled and sped away.

After a short while, they entered the sea and flew close to the surface of the sea.

“A bewildering formation! Simple! This old man has done a lot of research on bewildering formations. No matter what kind of bewildering formation it is, give me a day and I’ll definitely break it!”

Among the three grandmasters, an old man with a white beard and a green robe was speaking with fervor and assurance, boasting about his own abilities.

“Hahaha! How can I not believe in your abilities, master Xu!”

Chen Qingsong sat to the side and began to flatter.

Master Xu laughed heartily, feeling pleased.

“Although these two aren’t as good as me in terms of formations, their overall level is about the same as mine. They might be able to help this time.” He pointed to the two grandmasters on his left and right.

“That’s right. This time, we still have to rely on the joint efforts of the three masters. If we can successfully break the array, the reward will not be little.”

Chen Qingsong laughed.

“Good! We still have faith in your Chen family’s reputation.” Master Xu laughed.

Just like that, after flying for an hour, the divine boat suddenly sank and plunged into the sea.

“We’re almost there!”

Chen Qingsong stood up, walked to the bow of the ship, and pointed to the deep sea below.

Ten minutes later, the divine boat arrived at the bottom of the sea.

“It’s there!” Chen Qingsong raised his hand and pointed at a trench not far away. “That formation covers an extremely large area. As long as we get close to that trench, we’ll step into it.”

“Good! I’ll go break it now!”

Master Xu stood up and smiled.

He looked ahead with a disdainful expression.

This kind of bewildering formation was nothing in his eyes. He could definitely break it in a day at most.

“Sister hanyan, let’s go!”

Chen Qingsong looked towards mu hanyan and smiled politely.

“By the way, you, remember to follow closely later and don’t get lost. Don’t think that just because you know a little bit of array Dao, you can break the array. If you are trapped inside, don’t blame us!”

Then, he looked at Tang Hao and shouted coldly.

If this guy was trapped inside, the Chen family’s follow-up plan would not be able to be implemented.

“Oh? Does this person also know array Dao?”

Master Xu turned around.

He looked at Tang Hao from head to toe, then shook his head in disdain.

He’s just a yellow-haired kid with the level of a half-baked hooligan at most. It’s already difficult for him to break an ordinary bewildering formation, let alone this kind of ancient bewildering formation.

“Kid, follow closely! Don’t try to show off!”

He sneered and led the way out of the divine boat, heading toward the trench.

The other two grandmasters, as well as the Chen siblings, followed closely behind.

Tang Hao followed him without a change in his expression.

As soon as they approached the trench, the figures in front of them disappeared one after another.

The next moment, Tang Hao sensed the void around him change. It turned from a deep sea into a vast starry sky.

He looked around and saw the rest of the people standing not far away.

“I understand now!”

Master Xu’s eyes shone as he scanned the surroundings. He then smiled. “The principle behind this array is actually very simple. Look, there are many stars here, and the exit is hidden on one of them.”

“Then ... How do we find this star?”

Chen Qingsong asked.

The other grandmasters had also noticed this, but in the end, none of them had been able to find it. There were simply too many planets, and they seemed to be endless. After searching for a few days, the grandmasters had given up, exhausted.

“Well, I’ll have to do more research on this. But don’t worry, it’ll be quick!”

Master Xu said with a smile.

“Then I’ll have to trouble you, master!”

Chen Qingsong cupped his hands and smiled.

“Go! Let’s take a look around and see what this formation is all about!”

Master Xu took the lead and swept forward.

“How is it?” Mu hanyan looked at Tang Hao and asked softly.

“I’m looking ...”

Tang Hao said.

“Sister hanyan, you’re really counting on him! I don’t think he’ll be able to break this formation even if he spent a few years.” Chen Qingsong, who was in front, turned around and sneered.

Mu hanyan furrowed her brows slightly.

She was a little nervous when she saw Tang Hao’s expression.

“You can follow them first!”

Tang Hao said to her.

She nodded and followed the group in front.

Tang Hao was at the back. He narrowed his eyes as he scanned his surroundings.

In his eyes, the trajectories of these stars were clearly displayed in his mind.

Soon, the starry sky was perfectly replicated in his mind, and he could clearly grasp the trajectory of every star.

“There it is!”

Ten minutes later, he made a discovery and locked onto the life gate, which was the exit.

However, he did not speak. Instead, he continued to follow behind them silently.

“This formation is quite exquisite. It must be the work of a master.” Master Xu praised as he flew ahead.

The Chen siblings followed behind him, looking at him with eager eyes.

Tang Hao waited for a while, then took advantage of the time when the others were flying toward one of the stars. His body flickered and he suddenly disappeared.

When he reappeared, he was already far away.

“Over there!”

He rushed to the gate of rebirth.

The Chen siblings were so annoying, so he naturally wouldn't reveal the location of the life gate so that they could have a share.

Mu hanyan was the only one who had discovered the ruins, and the Chen family had no part in it.

He was prepared to collect it alone, and when the time came, he would just give mu hanyan a little.

“This is the place!”

When he arrived at a star, he carefully examined it and found the exact location. It was a stone on the star.

He fell down and picked up the stone.

The next moment, the void around him changed and he returned to the bottom of the sea.

However, he was in the depths of the trench. Not far from him, there was a stone door, which was obviously the entrance to the cave.

There were still some mechanisms on the stone door, but they were not difficult for him to break through.

“A small world!”

As he stepped through the stone door, the void changed again.

However, this was a real world, unlike the starry sky just now, which was just an illusionary space created by a bewildering formation.

“There's a Palace over there!”

“There are so many ferocious beasts and divine herbs ... Not bad!”

He looked around, and his eyes gradually lit up.

Originally, he didn't have much hope for this immortal's cave, but this discovery made him quite pleasantly surprised.

In this world, there were many yang god level beasts. Although most of them were at the early stage of the Yang God Realm, they were still quite good. Moreover, there were many divine herbs growing on these divine mountains, and there was no lack of yang god level herbs.

“I’ve kept it! Take them all, leave not a single hair for them!”

He grinned, and his figure flashed over as he began to keep it.

Whoosh!

The sky-devouring jar flew out and buzzed. It gave off a monstrous black light that rolled up and sucked all the Yang God beasts into it.

Then, he flew toward the divine mountains. With a wave of his sleeve, all the divine herbs flew over.

Wherever he passed, not even a blade of grass grew, and everything was bare.

After collecting the ferocious beasts and divine medicine, he went to the palace and tore down all the bricks and tiles.

Very soon, this small world became bare, with nothing left.
