

The Mightiest Little Peasant Chapter 3522

The beautiful woman said respectfully as she boarded the divine martial warship.

She raised her eyes and looked ahead, but her eyes were a little worried.

Her Highness's actions were a little too out of line. If he didn't stop her, he was really afraid that something would happen.

This was something that the sunflowers would not allow.

"How boring!"

The sky sunflower Holy maiden turned around, and her face turned cold.

She was in high spirits, so she was naturally unhappy to be stopped by this shout.

"Your Highness!"

The beautiful woman called out again.

"I know!"

The Tian kui Holy maiden replied in an unpleasant tone.

"Young master mu, I'll be leaving first. See you next time! By the way, you have to be careful of the people from Jade Dragon Mountain!" She whispered into Tang Hao's ear. Then, she stood up, waved her hand, and left.

After returning to her own palace, she lay down on the Lotus seat and couldn't help but smile when she recalled what had happened just now.

"This young master mu is really interesting! Putting aside the fact that it's so powerful, its words are so pleasant to the ears. Just now ... I touched it, and it's really as elder Xu said, it's a rare Grand artifact in the world."

As she spoke, she stretched out her slender hand and made a gesture of grasping something.

Her foxy eyes were filled with surprise.

"Your Highness, that young master mu is indeed a wonderful person, but you don't have to pay so much attention to him. After this primordial spirit assembly, we don't know if he'll still be alive!" The beautiful woman said.

"You mean ... Jade Dragon Mountain, right?"

The Tian kui Holy maiden stopped and her voice turned cold.

“That’s right! Jade Dragon Mountain has suffered many losses in the previous confrontations. With their style, they will never let this matter go. ” That beautiful woman said, “right now, Jade Dragon Mountain definitely wouldn’t dare to attack the divine martial country directly. In that case, they can do some small tricks and kill a few important figures of the divine martial country. That’s their only method.”

“One of the two people from the divine martial Kingdom is the only flawless-level genius in the divine martial Kingdom, and the other is Emperor shenwu’s trusted aide. Your Highness, do you think Jade Dragon Mountain will not make a move?”

The Tian kui Holy maiden laughed.

“Of course, I know that Jade Dragon Mountain might make a move. In fact, anyone can predict it. I don’t believe that Emperor shenwu can’t predict it.” She said, “I think they must have some preventive measures.”

“Moreover, I keep feeling that young master mu ... Isn’t that simple!”

She mumbled to herself as she furrowed her brows in deep thought.

She already had such an opinion the last time she visited.

She had always felt that she could not see through this young master mu.

The interaction just now had undoubtedly confirmed her thoughts.

Just now, she had stuck her entire body to him and was extremely intimate with him. Although young master mu had some frivolous actions, they were all on the surface and more like he was putting on an act.

If it was someone else, they would have attacked her directly and attacked her vital points.

Although it was possible that it was because of mu hanyan, who was beside her, the possibility was not high. According to what she knew, the two of them were just in a relationship and it was not true.

“Not simple?”

The beautiful woman was startled and somewhat surprised, “his cultivation is at most four or five stars. How extraordinary can he be?”

“I don’t know, it’s just a feeling!”

The Tian kui Holy maiden smiled.

The beautiful woman shook her head and no longer spoke.

She didn’t think highly of the two people from the divine martial Kingdom, but she couldn’t convince His Highness, so she could only stop. When the final result was out, everything would be self-evident.

“You’re quite happy touching it!”

Mu hanyan laughed coldly after the Tian kui Holy maiden left.

“Cough! It’s a free gift, so it’s a waste not to touch it!”

Tang Hao cleared his throat.

Mu hanyan’s eyelids twitched, and she was extremely angry.

“Hu!”

Then, she took a deep breath and tried to calm herself down.

“I have nothing to do with him, what’s there to be angry about? if I’m angry, doesn’t that mean I care about him? So, I can’t be angry!” She advised herself.

After a while, she finally calmed down, and her heart was as still as water.

“The demoness of the heavenly sunflower Palace has always eaten people without spitting out their bones. You’d better stop thinking about her and think more about how to deal with Mount Jade Dragon later!” She said coldly.

She was a four-star now, and this guy was also a four-star Supreme venerable. There were only two four-star Supreme Venerables, but there must be more than two Supreme Venerables on Jade Dragon Mountain.

“Isn’t it Just Jade Dragon Mountain? don’t worry!”

Tang Hao smiled and said calmly.

“You’re quite arrogant!”

She snorted and was a little angry.

Thus, she simply went to the cabin and meditated.

Tang Hao sat at the bow of the ship. He sipped his tea while sizing up the people around him. Sunflowers Palace, Jade Dragon Mountain, war god mountain ... He looked at each and every one of them.

Finally, he looked up.

In the middle of the island, there was a high platform that looked like an altar.

On the stage, a beam of light shot into the sky.

That was the entrance to the yuan Ling divine world.

It was said that this ruin was discovered more than two thousand years ago. There were indeed many treasures in the first time. There were ancestral God weapons, peerless divine pills, rare divine medicines, and so on.

After that, several big forces in the East continent fought each other for this place. However, no one could monopolize it, so they simply opened it up and kept it in the form of the Yuan Ling Association.

As long as they entered, they would be able to obtain some yang grade divine herbs.

However, there were still some legends about this Yuan Ling divine world that were passed down.

Some said that there was a hidden treasure in the divine realm that had not been found. This treasure was also the reason why the divine realm could maintain its exuberant vitality and produce so many yang grade divine herbs.

This was a well-thought-out story. Many people had believed it and went in to search for it. However, after so many years, there was not a single trace of it.

Tang Hao was about to go in and search for it.

After all, it was better to believe it than not.

Time slowly passed by ...

More and more people arrived and waited in the sky above the island.

A day passed just like that.

Finally, the passage opened.

With a hum, the altar in the center of the island trembled, and the beam of divine light shot into the sky.

A ripple appeared in the void.

“We can go in now!”

“Let’s go! The earlier we enter, the more godly medicines we can harvest!”

The four sides were in an uproar.

The people from the various forces kept their palaces and flying boats and moved toward the entrance.

Everyone was fighting to be the first.

This was because the first person to enter would have a great advantage in the Association.

“Let’s go!”

Mu Hanyan walked out of the cabin. She had already taken off her chiffon dress and changed into the sexy and valiant Fire Phoenix Armor.

Her slim waist and her mountain-like buttocks were even more shocking under the armor.

And that pair of Jade-like legs, they were even more slender and perfect.

Bang!

With a light stomp of her foot, she flew up, her black hair dancing in the wind, beautiful beyond words.

“Let’s go!”

Tang Hao glanced at her, then put away the Swift Boat and left.
