

The Mightiest Little Peasant Chapter 3525

“Kid, this lineup should be enough!”

The Shura Emperor laughed.

“Enough! That’s enough!”

Tang Hao smiled and nodded.

“Still laughing! This guy must have been scared silly!”

Someone sneered.

The Shura Emperor sneered disdainfully.

As far as he knew, this guy’s cultivation was at most four or five stars. With the three great seniors on their side, it was enough to suppress him.

Today, no matter what methods this brat had, he would not be able to escape even if he had wings!

“Enough for me to kill!”

Tang Hao smiled again.

The Shura Emperor and the others were stunned. They couldn’t believe their ears.

This kid ... What was he saying?

He must be sick!

“Little mu, don’t be so quick with your words. You’re dead today!” Emperor Vermillion Bird roared as his body trembled, and a monstrous aura surged out.

Since the Vermillion Bird country had been destroyed and he could not take revenge on Emperor shenwu, he would take it out on this kid first.

The others also activated their auras. Some of them wore battle armor, while others drew out their weapons, ready to attack.

Tang Hao also made his move.

He stretched out his hand, and a golden light flashed in his palm. A golden divine halberd appeared.

“An ancestral god weapon?”

The Shura Emperor and the others were shocked.

However, he soon felt at ease. This kid was Emperor shenwu's trusted aide, so it was not strange for him to have an ancestral god weapon.

However, what happened next stunned them, and their eyes widened.

Buzzzzzz!

The divine halberd fell into the crystal-like palm and trembled. An indescribable surging Qi power burst out without any warning. Accompanied by a dazzling divine light, it rushed out madly.

This aura was terrifying to the extreme, causing their hearts to tremble!

"This ..."

The Shura Emperor's Tiger-like eyes were about to explode.

His face was completely twisted due to extreme shock.

This ... This was not a four or five-star sun god at all!

This was the power of nine-star level!

The guy in front of him was not that perverted Bandit surnamed mu, but that heaven-defying monster!

This discovery almost scared him out of his wits.

"Isn't ... Isn't he that mu kid? How did you ...?" On the side, there were also screams of fear.

The Vermillion Bird Emperor's face was also filled with fear and disbelief.

"Impossible!"

The Grandmaster from Jade Dragon Mountain also exclaimed in disbelief.

How did this mu brat become that heaven-defying monster?

That demon was a Supreme genius. How could he lower himself and pretend to be this shameless pervert?

"I, I am me!"

"Die!" Tang Hao shouted coldly as he channeled the divine energy in his body into the divine halberd.

The divine halberd trembled violently, and the power that surged out had already compressed the void in all directions.

"What?"

Emperor Shura and the others were all shocked.

Me, I am me?

Could it be that this mu person was actually that heaven-defying monster?

As soon as this thought appeared, it shocked them so much that they were completely dumbfounded. Their minds buzzed and went blank.

This fact was too shocking!

They couldn't believe it.

“Go!”

“Die!” Tang Hao shouted and threw the halberd with all his strength.

Whoosh!

The divine halberd broke through the air, turning into a golden divine light as it struck out.

Wherever it passed, the void shattered.

“Ah!”

With a low cry, the first six-star Supreme venerable was torn into pieces by the violent Qi before he could be hit by the halberd. Then, another person was also turned into powder.

“This is too terrifying!”

Emperor Shura's eyes almost popped out of their sockets.

What a powerful attack!

Just its sharpness alone could tear apart a six-star Supreme venerable!

This guy was even more terrifying than the last time he saw him.

He could not avoid it. He could only grab a divine spear and meet the attack, trying to block the halberd.

Clang!

There was a loud explosion.

Then, there was a cry of pain.

The divine spear left his hand, and he was sent flying, spewing divine blood.

The difference was too great!

They weren't on the same level at all. He was just an ordinary seven-star, but this guy's battle strength was that of a nine-star matchless great venerable.

Peng Peng Peng!

The divine halberd continued to strike forward with unstoppable momentum, turning several high-level exalts in its path into dust.

At this moment, everyone's faces were extremely pale and they were extremely frightened.

"I'm finally in!"

"Hurry up! If we are too slow, the treasure will fall into the hands of Jade Dragon Mountain!"

At this moment, a voice came from the void at the entrance.

Then, two figures came out.

It was Wang Feiyu and the two flawless geniuses, Feng and Bai.

They all looked excited.

What was inside was the treasure left behind by the origin spirit God ancestor! If they could snatch it, they would be rich!

"That mu guy has to work hard. Don't die!"

Wang Feiyu muttered.

If that mu fellow were to die too quickly, wouldn't the treasure fall into the hands of Jade Dragon Mountain? that would be bad.

It would be best to hold on for a while and let him snatch the treasure first.

They laughed excitedly and were about to fly forward.

However, before they could travel a few feet, their bodies froze and they could no longer laugh.

"What ... What the hell is going on?"

Their eyes were wide open as they stared straight ahead.

There was an incomparably resplendent divine light with an extremely terrifying aura. It pierced through the void and bombarded over. Along the way, one high-level powerhouse after another exploded and turned into dust.

There were even Seven Star great Venerables whose bodies were blown up, spitting out blood and flying backward.

This scene was simply terrifying!

Looking forward, a white-robed figure stood in the stone Hall. Divine light shot out of his eyes, and his aura was shocking. He was simply like a demonic god.

'F * ck!'

Wang Feiyu's brain was about to explode.

Isn't this the guy with the surname mu?

When did he become so fierce?

He was still thinking of letting this guy live up to expectations, but this guy was too F * cking hardworking. He was almost scared to death.

"Not ... Not good! Hurry, run!"

At the side, Feng Bai was also dumbfounded.

Then, his body trembled and he was so scared that he almost peed.

After the golden light destroyed the last high holiness, it headed straight for them.

"Motherf * cker!"

Wang Feiyu came back to his senses and cursed.

This was simply an undeserved disaster!

He wanted to Dodge, but it was too late. Under the suppression of that terrifying aura, he had no way to avoid it.

Ah!

With a shrill scream, he was blown up by the golden light.

At the same time, Feng Bai was also blasted into dust.

"Hurry! Let's go!"

In the next moment, after re-forming their bodies, the two of them screamed madly and rushed toward the exit.

They had never worked so hard in their entire lives.

“Let’s go!”

Shura Emperor and the others also shouted and tried to escape.

At this moment, a ray of black light shot into the sky. It suddenly opened up and turned into a huge black hole, suppressing the entire void.

The black hole rotated slowly and produced a monstrous suction force, pulling them in.
