

Chapter 400

As the men in green approached, the members of the Zhu family couldn't wait any longer and attacked those men.

The people of the Zhu family rushed to the front men in green. Almost unexpectedly, all of them were defeated in one move.

These men in green looked calm, as if what they were doing now was as simple as eating and drinking.

The people of the Zhu family were shocked. The strength of the opponent made them look irresistible. They were too strong. Members of the Zhu family have never felt something like this before. Even the Ji family, the biggest ancient kungfu family in China, would not have so many experts. These twenty men in green had the strength to wipe out the entire Zhu

family.

Wilbur saw that his younger generation was retreating one step after another. With a livid face, he shouted and rushed toward one of the men.

Facing Wilbur, the man was not fighting as fiercely as before.

Wilbur only made a few moves. He found that the opponent's strength was not high and his speed was not fast. But every time he made a move, he had an unclear feeling.

"Is this Qi?" It was the first time for Wilbur to face such an opponent.

Henry narrowed his eyes and watched Wilbur and the man in green fight. After a few moves, Henry stepped forward and rushed between them. At the same time, he threw his fists at Wilbur and the man in green respectively.

Facing Henry's punch, Wilbur did not dare to take it directly and quickly retreated.

The calm face of the man in green finally changed. He took two steps back and escaped Henry's punch.

"What are you doing?" When the Zhu family saw Henry attack their family head, they shouted loudly.

Henry ignored the people of the Zhu family and looked at the woman in a red dress. "Do you people of the Zhu family like to kill each other?"

Upon hearing Henry's words, the corners of her eyes lifted slightly.

Wilbur was also shocked. He looked at Henry and said with his mouth wide open, "You mean..."

"Old Zhu, take a closer look, these people's fighting skills are extremely similar to yours. In other words, many of

the moves you're using are derived from them." Henry glanced at the group of people in green.

"What!" Wilbur widened his eyes.

"Don't talk nonsense!" A member of the Zhu family roared, "Our Zhu family has a history of hundreds of years. How can our family's ancient martial arts be derived from other people's fighting skills?"

"Don't discredit our Zhu family!"

In the crowd of the Zhu family, there was a shout. Obviously, Henry's words irritated them.

"Shut up, all of you!" Wilbur shouted. After Wilbur finished scolding his juniors, he looked back at Henry.

Henry smiled slightly. "I have a question, and I have been curious about why the news that someone wants to destroy the Zhu family came out after Master Zhu

found out the existence of Qi. As far as I know, no force is able to keep an eye on the ancient kungfu family like the Zhu family and pay attention to their every move without being noticed by them. If you really can do this, you can't be unknown."

After Henry finished speaking, his eyes were once again fixed on the woman in red. "Your dressing is similar to the style of the last year of the Ming dynasty. That is, in the time when the Zhu family's ancestors established the Zhu family, most people were used to wearing this style at that time. They would hang their names around their waists. Am I right, Jennifer Zhu?"

After Henry finished speaking, he looked at the woman's waist where there was a wooden token hanging.

"You!" The face of the woman in red, who had been calm all the time, finally changed.

"It seems that I'm right. You were following every move of the Zhu family. When Wilbur found the stone cave, you spread the news throughout the underground world that you want to destroy the Zhu family and create an illusion that you know everything. The purpose of it is to make people fear you." Henry took two steps forward. "A powerful organization. If you really want to make people fear you, you don't have to create such an illusion. You know the cultivation method of Qi, but you don't want to let it leak out. You're hiding these things. To say it roughly, you're afraid of the secret being exposed!"

The woman in red took a deep breath and slowly exhaled. "Do you think you can see through everything?"

Henry shook his head. "I don't dare to say that I understand everything. I only see that you have a lot to do with the Zhu family. The Zhu family was a big surname

in the Ming Dynasty, and they had the habit of training men for sacrifice. If I'm right, these 20 people are all sacrifice men trained by you. You gave them the names sacrifice men, they are nameless and divided by numbers, that means..."

Henry suddenly turned his head and looked at the man in green who was closest to him and he grabbed him.

Seeing that Henry was coming for him, the man moved forward instead of retreating and attacked Henry.

Henry's action was not to hurt his opponent. Instead, he reached out and grabbed a wooden token that was smaller than the size of a palm from his opponent's waist.

Henry glanced at the wooden token and sneered. Then, he threw the token to Wilbur.

Wilbur took over the token. At the sight of the token, his pupils contracted. On the token, there were words "329 Zhu" were written, same as Henry expected. These people were given the surname Zhu, and their names were the numbers.

Wilbur held the wooden token tightly and looked at the woman in red. "You are also a member of the Zhu family!"

The woman in red sneered. "Not also. I am a member of the Zhu family, but you are not."

"B*llshit!" A loud shout sounded from the crowd.

In the Zhu family, there was a strong sense of family honour. If someone insulted them, the Zhu family could bear it, but if they insulted their family, they couldn't bear it.

"Our Zhu family has been passed down for six hundred years since ancient times. Do

you think we are not members of the Zhu family?"

"A group of outsiders dare to call themselves the Zhu family. It's ridiculous!" The woman in red glared at the people of the Zhu family. "The Zhu family is orthodox and has only one line of descendants. With your messy bloodline and surname Zhu, it's an insult to the Zhu family!"

The woman in red shouted, and with a flash, she lifted her long dress and tried to grab Henry.

"I'll kill you first!" The woman in red stared at Henry with strong killing intent in her eyes.

At the moment when the woman in red attacked, Henry had a feeling that he had already experienced this kind of momentum before. This feeling was exactly the same as the one he felt facing The King Region.

Henry murmured in his heart. Sure enough, what he used at that time was also anger.

Qi was an indescribable thing. The woman in red punched out as if she had set up a thin wall of Qi on the surface of her fist.

Henry found that this woman's use of Qi was far beyond the one the leader of The King Region used, but her strength was much worse.

At that time, Henry could only resist the punch of the leader of The King Region. The instant sense of oppression made Henry feel that he could not breathe. But now, this woman could not do that.

Facing the move of the woman in red, Henry did not fight back, but only resisted and dodged. He wanted to take this opportunity to take a good look at the Qi and see what it was.

Chapter 401

The young woman attacked Henry. When she found that Henry had no strength to fight back, she smiled and said, "You were so sharp-tongued just now. I thought you were some kind of master, but in the end, you are nothing!"

Although the younger generation of the Zhu family was very unhappy with Henry, they were also anxious when they saw that Henry was at a disadvantage.

"The opponent is too strong."

"Is she really from the Zhu family?"

"I've never heard of it!"

Although they didn't know how strong Henry's real was, they had seen Henry fight many times. Although this woman in red was strong, she was still much weaker

than Henry, so she shouldn't have pushed him into such a situation.

"I thought you have the ability, but in the end, I see that you are weak. You're willing to be their leader, so you have to be ready to pay the price!" The young woman clapped at Henry again.

Henry reached out his hand to block it. At the same time, he felt the Qi accompanying his opponent's palm and coming towards him.

"This should be what Wilbur's great-grandfather had described in the records."

Henry carefully felt the power brought by this palm of the woman in red. He found that the power of the woman's palm was not much, and the greatest lethality came from the Qi.

In the early years, Henry had visited several famous masters. One of them used

his stomach to suck a bowl. At that time, Henry used forty per cent of his strength to take the bowl out from the other side's abdomen.

After all, forty per cent of his strength was enough to easily lift an adult man.

That master told Henry that Qi existed in real life, and was divided into two types: external and internal. The internal Qi was stored in his body and was his internal strength. While the external strength could release external Qi.

At that time, Henry found this statement a bit incredible and fascinating.

But now, after exchanging moves with the woman in red, Henry had a general understanding that the so-called Qi was just another way of releasing strength, just like how he could make an exploding sound with one punch. This was also Qi.

However, he did all this with absolute strength. The opponent relied on some skills to use Qi, which would make them defeat the people whose strength and speed was almost the same as theirs.

Henry once again resisted the punch from the woman in red. He swung his arm and chuckled, "I used to think about what is Qi. In the end, it's just kind of charade."

"What a joke, you are so stupid..." Just as the woman in red was about to speak, Henry took the initiative to punch her.

This was the first time that Henry took the initiative to attack after fighting with the woman in red.

His punch carried out a strong wind-breaking sound.

The woman also threw a punch, with a stream of Qi, but she found that all the Qi she threw out had dissipated.

"You also practise Qi!" The woman in red widened her eyes and stared at Henry. "Which family are you from?"

"Practise Qi?" Henry laughed. "If you think it's Qi, then it is!"

Henry's punch landed heavily on the woman's arm, forcing her back three meters.

Henry smiled and said, "Since your appearance, you have deliberately created a strong momentum. All the Qi you mentioned can be broken by force. The reason you are not afraid of the Zhu family is that you have seen through their fighting method. You can analyze all their techniques and easily win."

"Do you think you know everything?" The woman in red swung her arm. Henry's punch made her arm numb and unable to use her power. "I must destroy this branch today!"

After the woman in red finished her words, she took out a bamboo tube from behind her waist and twisted it hard.

A sharp red arrow with red smoke shot out of the bamboo tube and went straight to the sky. In the thick mist, it brought up a thick red smoke and exploded in the sky.

She stared at Henry. "Although I don't know who you are, you must pay for what happened today!"

The footsteps could be heard in front of the gate of the Zhu family. These footsteps were powerful enough to cause the ground to shake.

At first, the Zhu family saw Henry gain the upper hand in the fight with the woman in red. They just showed joy, but now their faces changed greatly.

As expected, there were much more people.

Under the thick fog, the Zhu family couldn't tell how many people the other party had brought. Just by listening to the orderly footsteps, they could tell that there were at least hundreds of people.

"Kill all of them!" The woman in red stood there and ordered. She didn't even look behind her.

As soon as the woman in red finished her words, she found that there was no movement behind her.

"What are you waiting for? Kill them!"

Behind her, there was still silence.

Henry was looking at her with a smile.

"What are you laughing at?"

"I'm sorry." Henry shook his head. "Your people couldn't come."

"What!" Her face suddenly changed, and

she looked back.

There were many black figures standing behind her in the dense white fog. Each of them held a bright sharp blade in their hands and wore a ghost mask with tusks.

When the woman in red saw these figures, she was obviously shocked.

"Reapers..."

"Tsk, tsk, it seems that the reputation of our Radiant Island is not small," Henry said with a smile.

"Radiant Island!" Standing in the crowd of the Zhu family, Xavier and the others widened their eyes when they heard Henry's words.

Just a few moments ago, they were talking about Radiant Island, saying that it was the most powerful organization in the world. They didn't expect that he actually came from Radiant Island.

Helen's beautiful eyes were full of doubts. She finally knew where Henry came from, Radiant Island!

When Helen was training at The Sharp Knife, she heard about Radiant Island more than once. Even the instructor at The Sharp Knife spoke with a hint of respect when he mentioned Radiant Island. It's a venerable organisation with a name on it.

Henry looked at the woman in red and said calmly, "I'll give you three chances. Tell me where you are from and what's your purpose of hiding Qi. Otherwise, believe me, you won't leave here."

"No way!" The woman in red gnashed her teeth. "Radiant Island is just a Holy Land bestowed upon you by a group of barbarians. In our eyes, you are just a group of stupid people! You don't even have the ability to keep me here!"

"Really?" Henry's mouth curved into a light

smile. "Then, bye."

As soon as Henry finished his words, a cold light swept toward the neck of the woman in red.

Chapter 402

At the moment when the cold light slashed toward the woman in red, a loud voice suddenly sounded.

"Stop!"

The voice came from the dense fog with an extremely strong momentum, which made people subconsciously admire it.

The cold light did not stop because of this shout but continued to move towards the neck of the woman in red like a viper sticking out its tongue.

The cold light was already in front of the woman in red. In the thick fog, a big hand reached out and almost grabbed the blade from the Reaper in an instant.

But the Reaper was about to strike again.

"Stop, you are no match for him." Henry stretched out his arm and made a gesture.

The Reaper lowered his head and retreated to the side.

Henry squinted and saw the appearance of the person. He was a man in his forties, dressed in ordinary casual clothes.

The man also looked at Henry and said directly, "You can't kill her!"

The corners of Henry's mouth curled into a playful smile. "Are you threatening me?"

"I don't dare." The middle-aged man shook his head. "There are one hundred thousand Reapers all over the world. Who dares to threaten you in this world? The Island Owner of Radiant Island, known as The Conqueror around the world."

The middle-aged man's words made all the Zhu family members present to open their mouths wide at this moment, and their

eyes were full of disbelief at Henry.

The Conqueror!

He was the owner of Radiant Island, known as the most powerful man in the world!

Zavier stood outside the platform and felt a turmoil in his heart. His idol was The Conqueror. For a long time, he had been imagining what a man The Conqueror was. But he didn't expect that he was a young man about the same age as himself, who had been invincible in the world and was in charge of the most powerful organization in the world!

Zavier recalled that he had said that he was invincible among his peers before. Now he realized how ridiculous his words were. The Conqueror was truly invincible. His vision too short, and when he said that he wanted to establish a club, he was here to teach him how to lead. He was still laughing at him. But now? He was really an

idiot.

Helen's beautiful eyes lit up. Her man turned out to be the legendary The Conqueror, the owner of Radiant Island.

Henry stared at the middle-aged man. "It seems that your preparations are good. What's next? Do you think that I dare not kill you because you know my identity?"

The middle-aged man continued to shake his head. "This is not what I mean. I know that no one in this world dares to kill The Conqueror. But this time, you have to do me a favour."

After that, the middle-aged man took out a coin from his pocket and threw it to Henry from a distance.

The moment Henry caught the coin, his pupils contracted and he pondered for three seconds. "Because of him, you can go now."

"Thank you." The middle-aged man gave Henry a palm salute and pulled the sleeve of the woman in red. "Let's go!"

As his voice fell, the two of them disappeared into the thick fog at an extremely fast speed.

The 20 men in green gradually hid in the thick fog.

Henry waved his hand to the people around him.

The Reapers who were standing in the thick fog also disappeared gradually and made no sound.

The Zhu family looked at Henry, who was standing at the very front of the platform. They had a lot of emotions in their hearts, but no one dared to come forward and say a word to Henry. "This is The Conqueror!"

Wilbur slowly walked up and looked at the thick fog. He opened his mouth but did not

speak.

"Look at this." Henry threw the coin that the middle-aged man threw to Wilbur.

Wilbur took the coin and engraved the word "Lu" on it.

"Master Lu!" Wilbur widened his eyes.

"Master Lu gave seven coins like this around the world, and before he died, he also told me that whoever had these coins, as long as their requirement was reasonable, I had to do them a favour." Henry sighed. "These people are well prepared."

Wilbur carefully returned the coin to Henry.

Henry put the coin in his pocket and said, "Well, after this time, they won't come again. Let everybody continue with their activities."

Wilbur nodded and began to make

arrangements. He warned everyone not to spread the news about today's incident, whether it was the woman in red or Henry.

The Zhu family kept their mouths shut and didn't even dare to discuss it.

The name of The Conqueror was too much to deal with.

When the crowd dispersed, Henry came to Wilbur's room with Helen.

Henry found that when he was walking in the Zhu family manor, the people of the Zhu family did not even dare to look at him.

"Am I that scary?" Henry touched his nose and curiously asked Helen next to him.

"You are scary." Helen nodded without hesitation. "Even when I heard your name just now, there was fear in my heart."

Henry laughed out loud. "That's not bad."

In the room, Wilbur was ready to make tea.

Outside the Zhu family manor.

The woman in red and the middle-aged man were sitting in an ordinary public car.

"How was it?" The middle-aged man looked at the woman in red.

"Without any problems." The red-clothed woman's face lit up. "I've successfully misled him. He should have his own understanding of Qi."

The middle-aged man nodded. "It was best to do so. He is Master Lu's pro-disciple and the only person in the world who is a threat to us. This is a critical moment. We can't let him find any clues."

"Was Master Lu really so scary?" The woman in red had a puzzled look on her face.

A hint of fear unconsciously appeared on

the middle-aged man's face. "His name among our generation is the same as his disciple's name in the ordinary ancient kungfu family. Just his name alone is deterrent."

In Zhu family's manor.

Wilbur asked Henry with tea, "What do you think of Qi?"

"I don't know." Henry shook his head.

"You don't know?" Wilbur looked puzzled. "That girl used it just now, isn't it..."

"It's not Qi." Henry denied, "Or, she hid the real Qi. She wanted to mislead me so that people would think that Qi is just something ordinary."

"This..." Wilbur frowned.

Henry smiled. "This is a good thing as well as a bad thing. The good thing is that they are not as powerful as we thought. They

are also afraid. At the very least, they are afraid of the ace in my sleeve. The bad thing is the Qi, we have to slowly explore it."

Henry stretched out his arm. In the battle just now, countless Qi poured into his arm. If looked carefully, it could be seen that Henry's skin was trembling slightly.

Chapter 403

Listening to Henry's words, Wilbur fell into silence. The identity of those people who came here today left countless doubts in his mind, but now he only felt that the fog in front of him could not be uncovered.

"All right, just live how you used to. Why they did those things just now, to put it bluntly, was because they were afraid." Henry put down his teacup and stood up. "If they are really fearless, there would be no need to make so much trouble. Regardless of whether it's Qi or a trick, if you are strong, you don't have to be afraid of anything. To be honest, they hide Qi, they are just a group of rats hiding in the sewer. They don't even dare to reveal their faces. What can they do?"

Wilbur looked at Henry. On his body, there was a kind of confidence that Wilbur could

not help but sigh. People with this kind of confidence, when facing anything, were fearless.

"I'll leave first. If you have any discovery, you can contact me at any time and call me privately." Henry knocked on the table and left the Zhu family with Helen.

"I'll see you off." Wilbur ridding got up.

By the time Henry and Helen arrived in the city, the thick fog had almost dissipated.

The two of them declined Wilbur's request to find someone to take them out to have fun and started walking around Du Hai.

A few minutes later, Helen received a call from Captain Sun. Captain Sun told her that the superiors had made the arrangements. The He family would not pursue this matter at all, and the punishment would not fall on them.

They were very clear that it was Wilbur

who was able to deal with the matter in this way. However, the reason why he would show up was Henry.

Captain Sun also told Helen that her vacation would end the next day so that Helen could enjoy the leisure time of the last day. The next day morning, their team would go to the port. The superiors arranged someone to take them to negotiate with the Sea God's fleet.

Helen had little confidence in negotiating with Sea God. But now, she was full of confidence. The reason why she feared Sea God was that Sea God was extremely powerful. The second reason was that Sea God was one of the ten kings of Radiant Island.

And the man beside her was the leader of Radiant Island. With him around, this matter was very easy.

Henry and Helen had been around Du Hai

for a whole day. They didn't go to any museum, they went to many fun places and took some pictures together.

When they returned to the hotel in the evening, Helen was crazier than she was two days ago, and she had to take the initiative, which made Henry a little passive.

Early the next morning, Henry and Helen went to the airport to take a private plane to the port.

Originally, Henry was going to call Sea God and inform him of this matter. As a result, he didn't call him at all. Henry simply went with her. Anyway, it was just a matter of a day.

When they arrived at the airport, Captain Sun and others had been waiting here, including Nat and Eden.

When they saw that Helen was walking,

she was no longer as valiant as before. On the contrary, she was a little bashful. Those who had experienced human affairs naturally understood why she was walking like this.

Helen felt that there was something strange in everyone's eyes, and her pretty face turned red.

Nat and Eden welcomed Henry. Both of them had been fascinated by Henry's identity. They knew that Henry was powerful and had a strong background. Otherwise, why would Wilbur personally take charge of the matter about Jerry He?

They took a private plane to the port and came to a small cruise ship.

Henry saw that there was already a person sitting on the deck of the cruise ship.

"Why are you so late?" On the deck of the cruise ship, there was a young man with

short hair. He looked at Nat and others impatiently. Finally, he fixed his eyes on Helen. "Hey, are you from this batch of newcomers?"

Nat introduced Captain Sun and others to the young man on deck, Felix Gu, who was in charge of the Sharp Knife's mission at sea and had good relations with all the forces on the sea.

"Hello, Captain Gu." Everyone stepped on the deck and greeted Felix.

Among the Sharp Knife, there was an unwritten rule that any team member who was older than them should be called as captain.

Felix nodded symbolically, and finally turned his eyes to Helen, "Is this new member interested in coming to my team?"

"Felix, the famous flower has a partner. Don't think too much about it." Nat walked

to Felix and pouted at Henry. "Look, her boyfriend is right next to you."

"Boyfriend?" Felix smiled and said, "I remember that we are not allowed to have a relationship within our team. That boy, you are fired. Let's go."

Felix waved his hand to Henry and motioned him to get off the ship.

"Haha." Henry smiled. "I'm not on your team. I'm here to help negotiate with Sea God."

"Negotiate? Do I need you?" Felix's eyes showed a hint of dissatisfaction. "Nat, what do you mean? Do you think that my words are not as useful as this boy's?"

Eden came over with a smile and said, "Well, Felix, he is kind enough to help you. We can't refuse, can we? All right, let's get on the ship."

"Let's go," Nat said.

Hearing Eden and Nat talking, Felix snorted and started the cruise ship.

Since the cruise ship was launched at full speed, it would take about three hours to get to the high seas.

During this period of time, there was nothing they could do. Some of them stayed in the cabin, while others were lying on the deck.

Three hours later, they reached the high seas.

Helen and Henry were lying on the fence. Helen pointed to the bottom of the ship and said, "This is the sunken ship below. Only half of it is within the Chinese sea."

After Helen finished speaking, she pointed to the west.

"Look, it's the Sea God's fleet."

Three warships were parked in the

direction that Helen pointed.

Helen asked Henry curiously, "How many warships are there on your Radiant Island? It is said that outside the sea of these countries, there are three warships of Radiant Island."

Henry shook his head and said, "I don't know either. It's all the Sea God's business. It depends on how much Felix invested."

Helen rolled her eyes and said, "You still educated the people of the Zhu family today. It seems that you are not as good as a leader."

Henry gave a hollow laugh and did not reply.

At this moment, on the three warships not far from Henry, a bald white strong man was standing on the deck, staring down.

"A sunken Chinese ship? Big Boss is Chinese. He must be interested in this

ship. You did a good job this time, Leon." The white strong man turned around and gave a thumbs-up to a western man behind him.

Leon's face was full of joy. He was the captain of this fleet. This time, after discovering the sunken ship, he reported it immediately. He didn't expect that Sea God would come in person.

Chapter 404

Standing on the deck, Sea God saw a cruise ship gradually sail out of the Chinese sea, into the high seas, and headed for his own side.

"What are they doing? Go and have a look." Sea God frowned slightly and said.

Leon quickly nodded and put down a speedboat from the fleet. He took two people, sat on the speedboat, and headed for the cruise ship.

Standing on the deck of the cruise ship, Felix saw a speedboat coming towards him. As the distance approached, he also saw the person on the speedboat.

"Captain Gu, do you know those people on the boat?" A member of the Sharp Knife candidate stood beside Felix and asked.

"Of course." Felix's face showed a hint of pride. "That's Leon, the captain of this fleet, an old friend."

As Felix said, he asked people to speed up the ship and drove toward the fast boat.

Henry stood on the deck and felt that something was wrong when he saw the three warships in the distance.

"Everyone on the battleship has entered the state of war readiness. What's going on?" Henry frowned and said to Felix, "How about I go?"

"You?" Felix looked at Henry with contempt. "Do you think that they will respect you? Don't take yourself too seriously!"

When Felix was speaking, the speedboat driving by Leon had arrived at the front of the cruise ship.

"Hi, Leon, my old friend, I haven't seen you

for a long time." Felix stood on the deck and greeted Leon indiscriminately.

Leon sat on the boat, frowned, and said in Chinese that was not fluent, "Felix, why are you here? What's the matter?"

"Old friend, we found a sunken ship in China. It's underneath," Felix said, pointing at the sea under him. "We're ready to salvage it. You don't have to worry about it."

On normal days, if Felix made this request, Leon would certainly let him do it, but today, Sea God personally gave an order to salvage the ship.

Leon shook his head at Felix and said, "Felix, half of this sunken ship is in our territory. Don't cross the line. Go back."

Felix was originally full of confidence, but because of what Leon said, his face was stunned and he felt a sense of shame.

Just now, he had said things like everything could be settled, but the reality has slapped him hard.

Felix's face suddenly darkened. "Leon, so, you're not going to do me a favour?"

"Favour?" Leon's face also darkened. Now that Sea God was right behind him, how could he lose the momentum? "Well, do you think you are qualified to ask me for a favour in high seas?"

After that, he picked up a walkie-talkie and said to the walkie-talkie.

The next second, the biggest gun barrels on the three warships in the distance were all aimed at the cruise ship where Felix was.

This action caused everyone on the ship to turn pale. They would not doubt that the three warships were only trying to scare them. Everyone on the sea was well aware

of the fame of Sea God.

"Felix, apologize to me. Otherwise, don't doubt that my bullets will land on your body," Leon said in a low voice.

"Apologize?" Felix looked at the appearance of Leon and felt a sense of humiliation rising from the bottom of his heart. Usually, if he was alone, he would have admitted defeat. But now there were so many new people and a beautiful woman on the ship. If he admitted defeat, where would he put his reputation in the future?

Felix shook his head. "Leon, I belong to the Sharp Knife. Your Sea God, is he really going to start a war with us?"

Leon chuckled. "The Sharp Knife? Threatening our Sea God? Go back and ask around. Are you sure you want to start a war with us, Sea God and Radiant Island?"

As soon as the word Radiant Island came out, it was like a heavy hammer pounded on Felix's chest, making him feel like he couldn't breathe.

"Well, this is the last chance I'll give you. Apologize to me!" Leon said again.

Felix opened his mouth and looked back. He found that everyone on the boat was looking at him.

"Apologize!" Leon shouted. At the same time as he shouted, the three warships in the distance were moving toward them at an extremely fast speed.

Felix swallowed hard, and sweat flowed down his ears and temples.

Leon picked up the walkie-talkie and yelled at the walkie-talkie, "Prepare the artillery fire! Listen to my command."

On the warship, the black cannon barrel, with a sense of chill, aimed at this cruise

ship.

Felix only felt that his legs were weak.

Nat and Eden also didn't expect such a result.

"Quickly, retreat. As long as we retreat to the Chinese sea, they can't attack us!" Nat ordered quickly.

The helmsman who was driving the ship immediately put up the back-ists.

"No need to retreat." Henry shook his head and walked to the deck. At this moment, the three warships had already driven to the side of the cruise ship. With Henry's eyesight, he saw the person standing on the first warship.

A bald white strong man appeared in Henry's sight.

Henry shouted at the warship, "Bald Head!"

"Bald Head?"

Hearing Henry's shout, Nat and others, as well as Felix, subconsciously looked at the warship. When they saw the bald figure on the warship, their legs went weak and almost collapsed on the deck.

"Who is this? This is Sea God! He is one of the ten kings of Radiant Island, known as the dominator of the sea! You call him Bald Head? Are you looking for death?"

Nat and the others saw that the warship, which had been rushing toward them, speeded up again. In just ten seconds, it was already near.

Sea God on the deck jumped from the deck, flew out like a cannonball, and then fell heavily on the deck of this cruise ship.

As Sea God with the bald head landed, the whole cruise ship shook.

Nat and the others only felt a strong

momentum emanating from Sea God. This momentum alone made them feel like they couldn't breathe.

"It's over, it's over!" Felix murmured. He looked at Henry with reproach in his eyes. This was the personal arrival of Sea God. How could he call Sea God Bald Head!

Henry walked toward Sea God.

Sea God also strode toward Henry.

The distance between them was getting shorter and shorter.

Nat was nervous. He glanced at Eden and said in a low voice, "Is he going to fight with Sea God?"

"I don't know." Eden was also nervous.

As they were getting closer and closer, Nat and Eden thought that they were going to fight, they gave each other a big hug.

This scene stunned the others. What was going on? Did Henry and Sea God know each other? This was the famous overlord of the sea!

"Bald Head, why didn't you pick it up when I called you?" Henry asked curiously.

"I left the phone on the main ship, haha." Sea God laughed. "Boss, I didn't expect to see you here."
