

## Chapter 479

When Henry arrived in Capital City, he contacted Wade and asked him to check Sylvia's current location.

"Boss, my sister-in-law is at the R&X Hotel."

"The R&X Hotel?" Henry had an impression of this restaurant. "Isn't that the Ji family's place?"

"Boss, don't tell me you don't know?" Wade's voice was strange.

"What?" Henry asked strangely.

"The Big Underground Meeting will be held in three days..." At this point, Wade could not continue. This meeting was hosted by Radiant Island. As a result, the owner of Radiant Island did not even know about it.

"Er... Is that so?" Henry touched his nose in embarrassment. Indeed, he had never thought about this matter.

Wade sighed. "Boss, you should also get ready. This time, all the ancient kungfu families will go to Ji family's hotel to gather together, then go to France, and then go to the island together. If you don't like this, you can come with sister-in-law. It's not too late."

"Okay, I got it."

Henry hung up the phone and felt ashamed. As the king of the underground world, he should have known this. He was not qualified to be the king of the underground world.

Henry got a taxi from the airport and went straight to the R&X Hotel.

As the first family in the ancient martial arts circle of China, the Ji family was extraordinarily detached in both the

business area and the official field. The R&X Hotel was located in the centre of the capital city. The decoration of this place on the surface was just like the ancient palace. Every night, there would be lights, and it was regarded as a landmark building. Many people would take a picture in front of this hotel.

This hotel was not open to the public. Without special invitations, there was no way to get in.

In the past two days, each room of the hotel was booked. The people who lived in the rooms were all the members of the ancient kungfu families, regardless of the size. Even the Four Direction Sect from Ning province had their representatives here.

The hotel had all kinds of entertainment, banquet, swimming pool, spa, etc.

Henry took a taxi to the entrance of the hotel and looked at the hotel. Last time when he came here, the decoration was not this good. He remembered that he had made a lot of suggestions to the old man in the Ji family.

Henry looked around and found that the two stone lions that were originally placed at the entrance of the hotel before were removed. He felt too awkward at that time, so he told the old man to remove them. The pillars of the door, which were carved with dragons and phoenixes, were also not that flattering and had also been removed.

Then they were replaced with some simple patterns. Although it was not as flamboyant as before, it gave people a more stable and introverted momentum.

Henry came to the door and stepped in.

"Sir, please show your invitation." The security guard standing at the door of the hotel was a disciple of the Ji family. When he saw Henry's unfamiliar face, he stopped

him.

"An invitation?" Henry's eyes were full of doubt. He realized that the R&X hotel was not a place that he could enter at will. He explained, "My wife is inside. I'll go in and look for my wife."

The security guard in front of the door shook his head. "Sir, you are not allowed to enter without an invitation. You can ask your wife to come out to pick you up."

Henry shook his head. "My wife's phone is off. I'll go in and find her first, and then show you the invitation?"

"This is not allowed, sir." The security guard stretched out his hand and stood in front of Henry.

Henry was helpless. This was their rule. He had no other way. He was just about to take out his mobile phone and let Wade call the old man in the Ji family. After all, he only knew the old man in the Ji family.

"Wow, Magical doctor! It's you, Magical doctor!" behind Henry, there was a female voice of surprise.

Henry looked back and saw a little beauty of 17 or 18 years old, wearing a very ancient white dress, standing behind him with excitement.

Henry looked at this little beauty and found out that she was a bit familiar, but he couldn't remember from where.

"Magical doctor, don't you remember me? It was you who saved my father in Yinzhou last time!" The little beauty quickly said.

After hearing the little beauty's words, Henry realized that this little beauty was the one who took her father to see a doctor in Yinzhou last time.

Henry looked behind the little beauty. There stood a middle-aged man in his forties.

"Little brother, you've forgotten us. We can't forget you. If it wasn't for you, I would be a corpse now." The middle-aged man was full of gratitude.

He was weak when he was poisoned before, but his consciousness was still clear.

Henry laughed and said, "Sorry, sorry, I was stunned by this little beauty and didn't recognize her. I'm really sorry."

The little beauty glanced at her mouth. "You're such a liar. I wanted to get your phone number, but you didn't give it to me. I left you a business card, and you didn't contact me."

Henry smiled awkwardly and didn't know how to answer.

"Little brother, are you going in?" The middle-aged man asked.

Henry nodded and said, "Well, my wife is in the hotel. Unfortunately, I don't have an invitation, so I can't get in."

"Little brother, your wife is also from the ancient kungfu family?" The middle-aged man asked curiously.

"Yes, from Su Family," Henry replied with a nod.

"The Su Family, haha, the future master of the Su Family, is a young and beautiful girl named Sylvia Lin. Is she your wife?" The middle-aged man guessed at once.

"Yes," Henry replied.

"Little brother, you can go in with us." The middle-aged man took out an invitation card from his pocket and handed it to the security guard at the door. When the security guard saw the invitation card, he immediately reached out his hand to let them pass.

Henry followed the father and the daughter into the hotel.

During the conversation, Henry learned that the father and the daughter came from Hangshi, and they were from the Yue Family. This middle-aged man was the current Master

of the Yue Family, Ryan Yue, and the little elegant beauty was named Lucy Yue.

The three of them walked inside the hotel while chatting.

At half-past seven in the afternoon, Sylvia Lin, dressed in a long black dress, was sitting in the dining area. Her face had slight makeup on, which attracted many people's attention. Many people wanted to come up to greet her, but they didn't have the courage, because, in the past few days, they found out that this woman was the future master of the Su Family.

Although the Su's were not as powerful as the Ji's, they were more powerful than some small ancient kungfu families.

A handsome young man, who was 1.85 meters tall, slowly walked over and sat opposite Sylvia.

This young man was the man in the photo that Wade had sent to Henry.

"President Lin, I've been looking for you. I didn't expect you to be here." The young man smiled at Sylvia and sat opposite her.

"Mr. Jiang, what's the matter?" Sylvia asked with a smile.

The young man sitting opposite Sylvia was the young master of the Jiang family in Wan City, the future heir of the Jiang family, Saul Jiang.

The status of the Jiang family in the ancient kungfu circle was slightly higher than that of the Su Family.

## Chapter 480

Although the Su Family was located in Yanjing, there were many ancient kungfu families in Yanjing. Apart from the Su Family and Nangong family, there were many ancient kungfu families, big or small. However, the Jiang family was the only family in Wan City.

"In the past two days, I chatted very openly with you, so I want to make friends with you. Tomorrow, we are going to go to France and then go to the Island. Some friends are going to a party tonight. Would you like to come?" When Saul spoke, there was a strong sense of confidence in his eyes.

Sylvia smiled slightly and said, "Mr. Jiang, I'm not feeling well these two days. I think that during this period of time, we mainly talk about the cooperation between the two families. If there are too many personal feelings, I'm afraid it's not good."

Sylvia politely refused Saul's invitation. At the same time, she reached out her left hand without making any noise, deliberately letting Saul's left hand see the wedding ring on her left hand's ring finger.

In the past two days, Saul had secretly investigated Sylvia's identity. After all, a man with a foreign surname would take over as the future master of the Su Family, so anyone would be curious about her. And Saul himself was quite interested in Sylvia.

During the investigation, Saul Jiang learned some things. For example, Sylvia was just an abandoned member of the Su Family. She returned to the Su Family during this period of time and became the future Master of the Su Family because of the last wish of the Su Family's Old Master and

his guilt. Before that, she was just the president of a company in a small city. As for the marriage, her husband was just some son-in-law.

Therefore, Saul did not care about Sylvia's marriage at all.

"President Lin, you will meet many descendants of aristocratic families in the future. Our families have never been public. If we want to develop better, we must set up our own circle. I think this is an opportunity. President Lin, what do you think?" Saul spoke again.

"I think it's impolite for you to invite a married woman to a so-called private party in the evening." A voice came from the side.

At the moment when she heard the voice, Sylvia was shocked. She was very familiar with the voice. Looking in the direction of the voice, she saw Henry slowly walking toward her.

Megan Su, who was by Sylvia's side, also saw Henry. She frowned. Why did this person come here? What did an ordinary person come here for at this gathering of the ancient kungfu families? Wasn't he just causing trouble for President Lin?

After Saul saw Henry, he still sat there and said impolitely, "Who are you?"

In this gathering, he didn't know everyone, but he could recognize everybody, especially those families who had a higher status than his Jiang family. He remembered them clearly, but he didn't remember such a person in front of him.

Henry shrugged his shoulders. "President Lin is my wife. Who do you think I am?"

"Oh? That poor guy." Hearing this, Saul smiled disdainfully. At that time, he wondered what kind of person was willing

to be a son-in-law, but now he finally saw him.

Sylvia's face changed when she heard Saul's words. How did Saul know that? Was he investigating her?

Henry did not pay attention to what Saul said. He walked up to Sylvia and said, "Dear, why did you come to Capital City without saying a word and is your phone off? Did I make you unhappy?"

Sylvia looked at the man in front of her. He didn't make her unhappy at all. She really wanted to be with him every day. During the time when she didn't contact him, she thought about what he was doing and how he was doing. But Sylvia knew that the closer she was to him, the more dangerous it was for him.

The words that Megan said to Sylvia had always been kept in her mind. Although the ancient kungfu families were powerful and detached from the world, they were not invincible. There were many people who wanted to deal with the Su Family. In the future, she would inherit the position of Master of the Su Family. The enemies she faced would be stronger. If she did not have the strength to protect Henry, he would be constantly in danger with her.

"Dear?" Henry saw that Sylvia didn't say anything, so he asked again.

Sylvia shook her head. "You didn't make me unhappy. I just... don't like you."

"I don't like you!"

These words exploded like a spring thunder in Henry's ears.

Even in the face of thousands of troops, Henry remained calm. At this moment, his mind was in turmoil. He grabbed Sylvia's shoulders with both hands and said, "Honey, what's wrong with you? Tell me if you have any difficulties."

"Let her go!" Megan, who was standing aside, stepped forward and slapped Henry's hand. "Don't you understand what President Lin said? She doesn't like you!"

Henry didn't look at Megan. He stared at Sylvia and asked, "Dear, tell me, what happened?"

"Some people really have no knowledge of themselves." Saul, who was sitting by the side, said slowly, "She has said that she doesn't like you. Why are you still so thick-skinned to ask what's the matter?"

Henry frowned and suddenly glared at Saul. "What does it have to do with you if I talk to my wife?"

At the moment when Saul was targeted by Henry, he couldn't help but feel a panic in his heart, and even his heart began to beat faster.

Saul shook his head and calmed down. He thought to himself, "How could I be scared by such a coward!"

He said unhappily, "I'm just curious. How did you get into this hotel without an invitation, huh?"

"I brought him in. Is there anything wrong with that?" Ryan Yue asked.

"Master Yue?" Saul's expression changed. He did not understand how Henry got in touch with the Yue Family from Hangshi.

Saul said to Ryan, "Master Yue, you may not know that the man in front of you is not qualified to come here at all. President Lin has just stated that she doesn't like..."

"This little brother saved my life, is he not qualified? Hmm?" Ryan stared at Saul and snorted.

"What!"

Saul was shocked. "Has this kid saved Master Yue's life?"

The Yue family from Hangshi had a high status among the

ancient kungfu families, second only to the Zhu family from Du Hai. In the whole of China, they ranked fifth, and he couldn't afford to mess with them. This guy was so lucky that he had saved Master Yue's life.

Sylvia took a deep breath and said to Henry, "Henry Zhang, I'm not clear enough? I don't like you anymore. When you were with me, it was just because of the contract. I could tear it apart at any time. So, please don't call yourself my husband again!"

After saying this, Sylvia suddenly turned around. At the moment when she turned around, a stream of tears flowed down her eyes. Only she knew how heart-breaking the words she just said were!

## Chapter 481

Megan glared at Henry with a disgusted look. Although she did not know how Henry got to know the Yue family, it was useless. In the end, he was just an ordinary person. What could he bring to the Su Family? Would the Yue family have a good relationship with the Su Family because of him?

Megan said to Henry, "Don't make trouble for President Lin, okay? You shouldn't be here."

After Megan said that, she turned to Saul and said, "Mr. Jiang, I've accepted your invitation on behalf of President Lin. She'll call you tonight."

"Really!" Saul's face was filled with joy, and he looked at Henry with a proud look.

Henry grinned and said to Saul in a cold voice, "Whether she agrees or not is none of my business. But if you dare to invite her, I'll tear your mouth!"

Saul's face was full of disdain. If it was not for Ryan's support, he would have beaten Henry a long time ago.

Saul said, "I just invited her. I'd like to see how you can tear my mouth."

Saul did not believe that Ryan would stand up for Henry. After all, he was the heir of the Jiang family. Besides, he was reasonable in this matter. If this guy really dared to disrespect him, Ryan Yue would not be able to protect him!

Henry shrugged his shoulders. "You can try, but I have changed my mind now. As long as you dare to talk to my wife, I will tear your mouth."

"Ha." Saul chuckled, turned to look at Sylvia next to him, and said, "Sylvia..."

As soon as Saul just said a word, he felt a strong wind coming from his side.

Ryan widened his eyes and stared at Henry who was standing in front of him. Even he was unable to react to Henry's attack. Henry was so fast, he was just too fast!

When Saul realized what was going on, Henry's fist had already hit his face. Saul, who stood there a second ago, directly flew backwards and fell to the ground. He glided for another distance until he hit a corner of the table.

No one had expected that someone would dare to take action in the Ji family's place.

Megan looked at Henry in a daze. She didn't expect that this person had such good skills. If the punch was aimed at her, she would have no room for resistance, just like Saul.

However, no matter how good his skills were, he was still an ordinary person. If he was to face an entire aristocratic family, he would still be an ant.

After Sylvia was slightly stunned, her face suddenly changed and she shouted at Henry, "Henry Zhang, what did you do?"

Sylvia's face turned red and she looked very angry. The reason why she was angry was not that Henry had hit Saul, but because she was afraid that Henry was in trouble.

In the past two days, Sylvia often heard a lot of stories about ancient kungfu families. She didn't dare to think about some things.

For example, Sylvia had seen a piece of news before that a good company suddenly went bankrupt or a high-ranking official suddenly fell off the throne. She found out that these were all done by the ancient kungfu families.

The privilege of these ancient kungfu families was beyond many people's imagination. Now that Henry had beaten the

future heir of the Jiang family, it could cause a lot of trouble. Henry could be totally destroyed.

"Henry Zhang, apologize to Mr. Jiang, hurry up!" Sylvia shouted.

Saul wiped the corner of his mouth and got up from the ground. He stared at Henry fiercely and said, "D\*mn you, how dare you hit me?"

"I said, if you dare to say a word to my wife, I will tear your mouth." Henry walked slowly to Saul.

Looking at Henry, who was approaching slowly, Saul clenched his fists. He thought that he had not paid attention to Henry just now, so this guy had succeeded. He must get his revenge now!

"Boy, I'm going to kill you!" Saul roared and punched at Henry's face.

Facing Saul's punch, Henry just reached out a hand, easily clenched Saul's fist, and then punched Saul's face.

Saul was suddenly shocked. He did not expect such a punch from him to be blocked so easily by this person!

Henry's punch knocked Saul to the ground again. Blood flowed down from the corner of his mouth. Everyone saw clearly that Saul's lips had cracked.

After Henry punched, he did not stop. He grabbed Saul's collar, pulled him up from the ground, and smashed his fist on Saul's mouth again.

When this punch hit on Saul's mouth, it brought a sense of shock, which made the onlookers subconsciously shrink their necks.

Saul was hit by this punch in the back of his mouth, and his head slammed to the ground with a bang. He opened his mouth and two bloody teeth fell to the ground.

Henry let go of his clenched fist and said, "You seemed to be questioning my words just now."

The onlookers swallowed saliva subconsciously. "Where does this tough guy come from? Saul's the heir of the Jiang family. He's beaten him so easily and he had no mercy."

Those who originally had some thoughts about Sylvia were all glad at this moment. Fortunately, they knew their own limits. Otherwise, they would be the one lying there if they met such a ruthless person.

Today there were more members of the Jiang family attending this event. After the commotion, two people who accompanied Saul immediately ran over. These two people were both Saul's elders. One was the uncle of Saul, and the other was Saul's father.

The two elders of the Jiang family looked at Saul, who was lying on the ground with his mouth full of blood, and their faces were pale with anger. They stared at Henry coldly and said, "Kid, how dare you touch the people of our Jiang family!"

Henry sneered and said, "Jiang family? Are you very powerful?"

Listening to Henry's words, Megan looked at him as if she was looking at an idiot. He didn't even know the Jiang family, but he dared to fight with them. He was really too arrogant. Did he think that no one could beat him just because he had learned some skills?

Saul's father suddenly became angry and shouted, "Kid, you're so arrogant!"

"Master Jiang, don't worry about the younger generation." Ryan stood up. He had been saved by Henry, so he couldn't stand by and watch.

Saul's father frowned when he saw Ryan speaking. He

knew that the Yue family was not someone the Jiang family could afford to offend.

Saul's father said, "Master Yue, are you defending this guy? He beat my son and the future heir of my Jiang family!"

Ryan smiled and said, "I don't care who Brother Zhang fights with. All I know is that Brother Zhang once saved me. If it weren't for him, I would have been a corpse long ago. So, whoever dares to hurt Brother Zhang will have to deal with me!"
