

Chapter 1381

People living in the urban area couldn't imagine that there was such a bad village around Yinzhou. It was hard to imagine what these people, who had already treated bad behavior as normal, would look like once they stepped into society.

Back then, Henry had wanted to kill all the people in Li's Village. However, he was suffering all sorts of restrictions.

Now, no one could stop him.

Li's Village was not within the city area. When Henry and Jenny walked over, the sunset had already ended.

Everything around Henry was desolate. The actions of Li's village had already made it a place where no one wanted to come.

The people of Li's Village were very domineering. Back then, because of one matter, they went to demolish Rosy Night Club.

The people of Li's Village were very overbearing. Back then, they were so casual that they ignored everything and locked Jenny up.

The road that led to Li's Village, in Jenny's eyes, was like a huge mouth in the abyss, revealing its fangs, about to swallow her up.

Her footsteps gradually slowed down.

"I'm in charge of everything." Henry slightly opened his mouth as he noticed the change in Jenny's footsteps.

After Henry finished his words, he felt that Jenny held his hand harder, which proved that Jenny was getting more and more nervous.

Henry held Jenny's hand and walked with bigger strides.

The sky was getting darker and darker, and the last glimpse of the twilight disappeared completely. There were no lights along the way, and the original street lamps had been torn down by the villagers of Li's Village.

Behind them, car after a car blocked the road to Li's Village.

Gardiner appeared. The sparks of the cigarette lit up and went dark.

"Block all the roads. From now on, no one is allowed to enter."

Although no one would go to Li's Village for no reason, Gardiner was still taking precautions. The current matter was about the affairs of the Qi-refining Realm, and everything was handed over to them.

"Boss, when are we going in?" One of them asked Gardiner.

"Go in?" Gardiner was puzzled. "Why should we go in? When that guy kills all of them, he will come out."

"Kill all of them..."

Hearing Gardiner's words, many members of the Section Nine were stunned. This was a village! Although it was related to the world of Qi practitioners and the secular world did not care, but this...

Someone still wanted to say something, but seeing that Gardiner's eyes had been staring at the direction of Li's Village, he did not continue.

The night was very dark without any light. Just as Henry expected during the day, the sky was covered with dark clouds, which blocked the moonlight.

Under the dark night sky, Henry and Jenny quietly came to the entrance of Li's Village. In the darkness, only their footsteps and breathing could be heard.

The closer they got to Li's Village, the faster Jenny's breathing became. This was a sign of her mood.

Henry, on the other hand, became more and more calm.

Facing the same thing, the performance of the two was completely different.

What could make Henry excited was a hot-blooded battle, and a massacre would only make Henry exceptionally calm.

The instant he stepped into Li's village, the surrounding air seemed to become even colder!

In the distance, countless cigarette butts were put out under Gardiner's feet. When a faint smell of blood floated into Gardiner's nose, Gardiner knew that the ending of Li's Village had arrived.

In Li's Village, the fire was so fierce that many of the houses were burned down.

Jenny stood behind Henry. The fire was shining on her face. She did not show any emotional change, and if she had been breathing fast, at this moment, she was unusually calm.

In front of Henry, there were more than a hundred villagers of Li's Village standing, all staring at him with hostility.

The village chief of Li's Village stood at the forefront of the crowd and looked at Henry.

"From your expressions, it seems that you are not convinced?" Henry swung his hand and threw the body of a villager of Li's Village aside. The fire was put by Henry, and the person was also killed by Henry.

From the moment he stepped into Li's village, he had made up his mind that no one in this village would be able to survive! Not a single one of those who had tried to hurt Jenny in any way could escape!

Once, he was just a kid in his early teens who could do something like that. Now, how could he let go of Li's Village's people? If he let them go, he would not be Henry!

"Expert from the Qi-controlling Realm, don't attack ordinary people." The village patriarch of Li's Village stared at Henry with a serious expression in his eyes.

Henry smiled and said, "Who made the rule?"

Village patriarch replied solemnly, "The man surnamed Lu."

"From now on, the rules have been changed." Henry didn't care at all.

The village patriarch took a deep breath. He didn't expect that this person didn't care about that rule at all, so he could only put it in another way, "If you attack our Li's Village, the Section Nine won't let you off."

"Then you can let Section Nine come." Henry did not care.

"Our Li Clan will not let you off either!"

"Ha." Henry chuckled, and then his eyes focused. "The Li Clan? Do you want to use the Li Clan to threaten me? Is the Li Clan your capital? Because the Li Clan is behind you, you dared to treat Jenny like that? Then I'll tell you now, the Section Nine can't save you. The Li Clan can't save you. The Martial Emperor can't save you! Tonight, no one will survive to see the sun!"

Behind Henry, a white shadow appeared and the shadow raised the long sword in its hand.

When Li's Village's hundred or so people saw this, they immediately shouted out.

"Kill him!"

"Catch the woman behind him!"

Most of the people rushed towards Jenny.

"A group of garbage." Henry threw a disdainful look at the people of Li's Village, then turned back, looked at Jenny, and whispered, "Don't worry, from today on, these people who have hurt you will no longer breathe in the air of the world, and it's

time for your nightmare to dissipate."

As soon as Henry finished his words, the white shadow behind him waved its sword. This sword did not make any sound, but those villagers of Li's Village who rushed to Jenny were all stunned in place by this sword. Then, their bodies split from the waist, and everyone's face was full of incredible astonishment.

At that time, Henry was going to charge into Li's Village bit by bit. But now, he could completely solve the problem of the entire Li's Village without any action.

The fire was raging, and everything in front of him had become a hellish scene.

Under this scene, the heart's obsession that had been tormenting Jenny had been completely released.

The people of Li's Village had done evil things for many years, and they had no limits. Now, they finally paid the price. The only one who could still stand there was the patriarch of Li's Village.

"I'll give you a chance." Henry looked at the patriarch of the Li Clan. "I will stay here for three days. Three days later, I will leave. In these three days, call all the people you can call."

After saying this, Henry looked at Jenny again.

This time, Jenny smiled at Henry.

Henry knew that the things around Jenny had dissipated. He took out his mobile phone and dialed a number.

"Hey, bring your people in and take my friend away."

Chapter 1382

How could Henry not realize that the Section Nine was near?

Li's Village was ablaze with flames. Gardiner brought two members with him. When they arrived near Henry, they only felt nauseated.

The intense smell of blood in the air made people feel very uncomfortable, especially in the place where Henry was. Hundreds of people from Li's Village were cut in half at the waist, and all kinds of things were sprinkled out. Those who were a little bit weaker could not accept such a scene.

"I'll leave my friend to you." Henry saw Gardiner coming over.

"You've decided to leave." Gardiner looked around without any emotion in his eyes. "You just leave. I can settle the matter for you."

"No." Henry shook his head. "I'll do it. I'll stay for three days."

Gardiner's calm eyes suddenly changed. He knew very well what Henry meant by staying for three days. If he stayed for three days after killing the people from Li's Village, it meant that he wanted to challenge the whole Li Clan!

The Li Clan, as the strongest of the five major clans, had existed for many years, and there were countless masters in it!

The Li Clan might have thought that they would be challenged, but they would never have thought that after they showed up, the person who challenged them was a person who had been in Qi-world for less than a year!

Gardiner took a deep breath and said, "Be careful. I'm around. Call me if you need me."

"Okay." Henry nodded, then turned around and said to Jenny, "In the future, no one will bully you, whoever bullies you won't

live long."

Jenny didn't say anything, but the way she looked at Henry was enough to explain her thoughts.

When Gardiner left with Jenny, Henry stood there, giving the Li Clan three days.

A storm hit all the clans.

The clans were born not long ago. Except for those who had met Henry, most members of the clans did not know that there was such a young man in the outside world. When they learned that someone had slaughtered Li's Village in Yinzhou overnight and said he would wait for three days, all clans went crazy. What they were crazy about was, who was so bold to challenge the majesty of the Li Clan?

Li's Village was just a common branch of the Li Clan. There was even no Qi-controlling Realm expert in the village. He slaughtered such a village alone, which proved that he had the capital to provoke the clans.

Before dawn, the Li Clan sent out a strong team. As the strongest of the five clans, one could see the Li clan's rich capital as soon as they made a move, even though they thought that the other party was just a stupid young man who knew nothing. The Li Clan also sent three strong Qi-concentrating Realm to lead the team. Similarly, the other four clans also sent people to Li's Village to watch the battle. Actually, it was just because they wanted to show their presence.

There were more than ten Qi-concentrating Realm experts from the five major clans. With such strength, they had already crushed the vast majority of Qi-refining experts in the world.

These people set off late at night and arrived at Li's Village before dawn. The fire in Li's Village burned for an entire night before it was extinguished. They saw the young man standing

in Li's Village, but they never came out again.

After daybreak, the major clans received the news that none of the Qi-concentrating Realm experts they sent left Li's Village. They immediately understood that this was not a rash move. Someone was trying to take advantage of the clan's reputation to establish his prestige!

When they figured this out, the major clans sent people again, because now this was not just related to the Li Clan.

This time, the Qi-concentrating Realm experts only followed, and the Divine Realm experts led a team. At noon, they arrived at Li's Village. Under the bright light of the sun, the Divine Realm experts from the great clans all stayed in Li's Village.

The village chief of Li's Village had been watching from the side. Even though the sun was shining brightly, his body was still covered in a layer of frost. He had personally witnessed several Divine Realm Experts being killed with a single slash of a sword, causing his heart to start to waver.

Several Divine Realm experts did not come out of the village, which made the clans fly into a rage. The Li Clan did not hesitate anymore, but one of the experts came out. He claimed to be invincible and had a super fighting consciousness. His name is Giulio Li!

One could see just how arrogant this person was.

Giulio's departure from the Li Clan made people understand that the Li Clan was going to take serious action. The major clans sent people to Li's Village again, but this time they didn't have any intention of stepping into the trouble. They just wanted to watch the battle. It was not easy to see Giulio take action.

When Giulio arrived at Li's Village before dark, the four clan members came to witness Giulio's attack.

The Li Clan sent Giulio directly because they wanted to tell everyone that the majesty of a clan could not be provoked. One should not think that with a little bit of strength, he could stand up to the clan. For a clan, what was the so-called master? Nothing!

Giulio walked into Li's Village, and then he declared that he would kill all the people who disrespected his clan.

Now, not only the clans but also the forces of the Qi-refining world were paying attention to the matter of Li's Village in Yinzhou. They also wanted to know who came to challenge the majesty of the clans.

These hidden forces naturally could not escape Gardiner's eyes. Gardiner did not deliberately block the news. He also understood Henry's real purpose. Henry wanted to build his prestige! He had to leave! But before leaving, he needed to leave his prestige behind!

Giulio spoke heroically and claimed to be invincible under the Spirit-controlling realm. However, in the end, during sunset, he fled out of Li's Village. Someone saw that one of Giulio's arms had already disappeared!

Everyone assumed that Giulio would be able to slay the person in Li's Village, but they had never imagined that it would end like this. From the fact that Giulio had entered the village, it was obvious that the two had not experienced any sort of fierce battle. Most likely, they had only fought for a few moves. However, in just a few moves, Giulio had managed to escape and had even left behind an arm.

Such a result stunned everyone.

Giulio was a person who said he would kill anyone who had disrespected his clan.

Giulio was known to be invincible under the Spirit-controlling realm.

The Li Clan wanted to use Giulio to tell everyone that the majesty of the clan was not to be provoked.

In the end, Giulio was the one who was defeated!

The Qi practitioners and forces from the world all wanted to know what exactly had happened in Li's Village. However, no one could answer them about what exactly had happened.

The other four clan members who had gone to Li's Village to watch the battle also left as quickly as they could. They did not mention what had happened there.

One day had just passed.

Gardiner deliberately leaked the news that Henry was going to stay in Li's Village for three days, but did not tell Henry's identity.

When this news came out, the major forces of the Qi refining world were watching. They wanted to know how the Li Clan would deal with this person over the remaining two days.

Chapter 1383

In a short time, the news had spread to the major Qi-refining masters.

Everyone was waiting and guessing what the clans were going to do next. After all, Giulio was known as one of the strongest in the Li Clan. From the looks of it, his arm had been cut off in the blink of an eye and he had fled. Who could they send next? A Spirit-controlling expert? How many Spirit-controlling experts were there in the world? There was only a single Martial Emperor in the clan. Would Martial Emperor be able to make a move?

To such speculation, the clans soon gave an answer. For one night, the clans remained silent. But at the dawn of the next day, a large army appeared in Li's Village. Each of the five clans sent twenty experts.

A team of 100 people from the five clans gathered together appeared, and there were five of them were at the same level as Giulio. They were only one step away from entering the Spirit-controlling Realm. This was the strongest sign of the strength of the clan. Among the remaining 95 people, there were thirty of them who possessed the strength of the Divine Realm, while the rest were all at the late stage of the Qi-concentrating Realm. It could be said that this set of the luxurious lineup could not even be taken out by the Alvin League, the Recluse Association, or even the Noble Berserkers. In this world, only the five major clans could afford such a grand team.

When the hundred-people team walked into Li's village, the Qi practitioners wanted to see what had happened in the village, but they were stopped by the Section Nine. They could not force their way in, so they could only wait outside for the

result.

The strength that a team of a hundred people could display was too terrifying. There were five people who were on the same level as Giulio!

The thirty or so Divine Realm experts could cause people's hearts to tremble.

This group of people walking into Li's Village was definitely a huge wave. No matter how strong the person inside was, he would not be able to withstand such a force. The dignity of the clans was indeed not to be provoked.

Although the clans had been quiet for a long time, their strength instantly made people understand that the clans were always the clans, which would stand on the top of the food chain as soon as they came into the world.

On this day, someone saw Spiritual Qi prevailing above Li's Village.

On this day, there were people who saw sword energy rushing out, the radiance was extremely far away, but all of them able to clearly sense it.

On this day, some people saw smoke and dust rising up in all directions within Li's village.

On this day, at noon, the clans came out. However, when they went in, there were more than a hundred people. When they came out, there were less than fifty people, and only three of the five top experts came out, and all of them were seriously injured.

They left directly and no one knew what was going on in Li's Village.

"That guy who provoked the clan was beheaded!"

The news, coming out of nowhere, immediately caused a commotion.

"I'm sure he was killed!"

"Experts from the clans are all sent out. If they can't kill a person, it'll be too much."

"Don't bet on it. We'll have to wait and see."

"What are we waiting for? What's there to wait? If they didn't kill that person, would they leave? Where's that person?"

"That's right, but I have to say, that person is extremely powerful. The clans had left so many people behind and lost two top experts in order to kill that person."

"He is provoking all clans. If he had provoked one force, I'm afraid they wouldn't be able to control this person."

All sorts of voices could be heard amongst the various Qi cultivators. When the clans left late into the night, no one appeared. Another day passed, and Li's Village was still as calm as ever.

"It's all over. The man is dead, and the clans won't appear. Sure enough, the prestige of the clans is not something anyone can provoke."

"That's right. After all, the clans have existed for such a long time. We can't imagine their history."

"He dares to provoke our clan. I'm afraid he must have the nerve of a bear."

By nightfall, many of the Qi-refining experts would have to leave. That was because three days were about to pass.

In the outer perimeter of Li's Village, the people from Section Nine had been waiting for three days.

"Boss, it's time for us to go."

"No." Gardiner shook his head and lit up his cigarette. "Let's wait for him to come out."

"Wait for him to come out?" The members of Section

Nine repeated Gardiner's words, and then their eyes suddenly widened. "Boss, you mean he..."

"Yes, he will come out." Gardiner nodded with great confidence.

"Boss, if he isn't dead, the clans didn't send anyone here for even half a day. Wouldn't that mean..." One of them stared in the direction of Li's Village in disbelief.

A smile appeared on Gardiner's face. "Yes, that is to say, the clans admitted defeat!"

The clans admitted defeat!

The five big clans had admitted defeat!

As one of the four major Qi-refining forces in the world, they had been killed by a single person to the point where they were forced to retreat. Well...

The members of Section Nine who heard Gardiner's words didn't know how to express their inner thoughts. It was a little, too scary!

Night fell completely.

Henry, who was standing in the middle of Li's Village, looked up into the sky. Tonight, there were no dark clouds, and the crescent moon hung high up in the sky.

Li's Village had long been turned into ruins in the fire.

The patriarch of Li's Village stood to the side, his eyes blank. From the moment the clans' army fled, he had maintained the same expression and did not change.

As a patriarch of the branch of the Li Clan, the patriarch of Li's village was very proud. In his eyes, the Li Clan was the powerful capital. Otherwise, he would not allow the people in the village to do those things in the past, and would not imprison Jenny as a wild beast for a little trivial matter. Since the departure of the clans' army, his pride, his lifetime pride,

was completely shattered, and the ground around him was covered with the bodies of the clan members, which was shocking. Such a scene was like a heavy slap on the face of the clan.

However, one and a half days had passed, and the clans did not take any action. At the moment when the night fell, the three days had passed completely. The clans were afraid!

"It seems that the clans are not as strong as you think." Henry said and looked at the village chief, "If there is really the next life, you should restrain your arrogance, if you don't have strength, otherwise, the tree you rely on can't really protect a ruined leaf."

After Henry finished, he turned around and walked away. The dull eyes of the Li Clan's patriarch bulged suddenly, and a streak of blood appeared from his neck. Then, a circle of blood could be seen around his neck. The head of the patriarch rolled to the ground.

From today onwards, Li's Village would completely disappear from Yinzhou. From that night onward, the name of one person would resound throughout the world of Qi practitioners!

Henry strode out of Li's village, and as soon as he did, the entire world of Qi practitioners seethed with excitement.

The person who provoked the clans did not die!

Chapter 1384

Under the night sky, Henry strode out of Li's Village. The moment he walked out, he was immediately recognized by others.

"Oh, my god, it's him!"

"Who is he?" There were also some unknown forces who could not recognize Henry.

"The King of Hell! In the inheritance of the Loulan, he made a deal with the Alliance Chief of the Alvin League."

"Made deal with a Spirit-controlling expert? Did I hear you wrong?"

"It turns out that he is the one who provoked the majesty of the clans. How old is he?"

"No! If it is him, he is not dead, but the clans dare not come, that means..." Someone has hit on the crux of the matter.

"He alone has killed so many experts, and now the clans didn't dare to come!"

He slaughtered so many clan members causing them to feel a chill in their hearts!

After bitterly waiting for the last day, the clans did not dare to appear.

Five of the top experts and the hundred people from clans came with an overbearing aura, but returned defeated!

Those who were invincible under the Spirit-controlling were killed by Henry. One had his arm cut off, and three others were seriously wounded!

Could it be that Henry had already entered the Spirit-controlling realm?! Otherwise, how could he kill these people on his own? Otherwise, how could he make a deal with the chief of

the Alvin League?

The news that Henry went out of Li's Village and the clans were frightened immediately spread all over the world. In this era, such news almost spread everywhere in a few minutes.

Given the size of the clans, these words naturally could not escape their ears. However, they did not say a single word and allowed such news to spread everywhere. They were truly afraid!

Others didn't know how strong Henry was.

However, the people who had come to Li's Village could not be more clear about it!

"Brat, you were clearly able to kill those people, yet you still released some of them. Aren't you afraid that they will come back to you?" The Heretic God inside the jade pendant said to Henry as he walked out of the Li's Village. "With your current strength, you can actually fight whoever just entered the Spirit-controlling realm. Although your chances of winning aren't great, you already possess the ability to control spirits. From ancient times to the present, I can't say that there hasn't been anyone, but there are only a handful of people who are capable of doing this."

Henry smiled slightly. "If I kill them all, who will spread my name? Who will be afraid of me? I want them to remember for years. Whenever their clans hear my name, they have to tremble all over!"

At this moment, Henry was in high spirits. At this moment, Henry threw away all his burdens. At this moment, the emperor came back!

The Heretic God was silent and did not say anything.

This night, Henry's name would surely be spread throughout the Qi-refining people and forces.

After this night, Henry would be as famous as the five major forces!

After this night, no one among the Qi-refining masters dared to challenge Henry's fame!

"Let's go to clean up the mess." Gardiner saw Henry's figure in the distance. He put out the cigarette in his hand and walked toward Li's Village. When he passed by Henry, they looked at each other and smiled without saying anything else.

From this moment on, Henry would give up everything here and go to the Core. If he could come back, the world would still tremble because of his name. If he could not come back, his prestige would still exist for several years and the people around him would be safe.

The night in Yinzhou was not beautiful, but it was particularly attractive to Henry. He greedily looked at the night in Yinzhou. He didn't know when he would return after he left.

"Your Excellency." A figure in a black robe appeared behind Henry. "My Lord wants me to tell you that the next inheritance will be activated tomorrow. The inheritance of Stone City, the Zhao clan!"

After the man finished speaking, he quietly disappeared. He didn't get Henry's answer. The purpose of his coming was not to get Henry's answer but to tell Henry when the heritage would be activated. If it didn't work this time, then Henry would have to wait for the next time.

"Stone City. What a coincidence. We don't need that fatty to run anymore."

Henry smiled faintly.

At dawn the next day, Henry had already appeared in Stone City.

The Zhao clan of Stone City was a very large clan. The clan

had many branches, and there was no such thing as a direct line of descent. It was because every branch believed that they were the direct line of descent, and there was no way to prove that any branch was a direct line of descent.

In the Zhao clan, there were countless interests involved. The inheritance had been passed down for many years, and it was clearly distributed. It was nothing more than money rights. When the balance was reached, the branches did not interfere in each other's affairs.

They did not interfere just because the conflict had not yet appeared. When an irreconcilable interest appeared, the conflict in the Zhao clan began.

As inheritors of the clan, the descendants of the Zhao clan were well aware of what their ancestors had left behind. It was something that could change anything.

Not to mention how much power could be gained by the Zhao clan's inheritance, the Zhao clan's all branches would go crazy if the one who got the inheritance could be the master of the Zhao clan!

There were a total of three branches of the Zhao clan who were qualified to accept the inheritance this time.

Tihomir Zhao, Zecharya Zhao, and Lizmarie Zhao, two men and one woman. They were arguably the most outstanding people of the younger generation in the Zhao clan.

Before Tihomir and the other two graduated from college, their family had paved the way for them. Everyone went out to make a living. After returning, they immediately inherited the Zhao clan's branch.

It could be said that although there were many branches of the Zhao clan, they were all led by these three people.

The competition for the inheritance this time would among

these three people. They didn't care how much power the inheritance would have. As a family of businessmen, the Zhao clan didn't have much contact with the inheritance. It was just that recently some inheritors had found them. Moreover, the elders in the family watched the emergence of the inheritances and then told them about it.

As for Qi and inheritance, Tihomir and the other two didn't have a direct impression of it. But one thing they were very clear about was that if anyone got the rights this time, then all the branches of the Zhao clan would be gathered together, and the person who got the right would be the master of the entire Zhao clan!

This fact alone was enough to tempt Tihomir and the other two people.

Today was the day when the inheritance would be activated.

Tihomir, Zecharya, and Lizmarie were all fully prepared. They had secretly roped in many supporters. Today, all the branches had gathered here. Whoever had more supporters would have the right to obtain the inheritance.

Many branches of the Zhao clan sat in the ancestral land and held a grand ceremony, and then they were ready to vote.

Lizmarie was full of confidence. Although she was a female, she did not fear her two other brothers at all this time. She had made sufficient preparations for this time.

"The voting begins!" The clan elder of the Zhao clan waved his hand.

Lizmarie and the other two became nervous. After all, if the Zhao clan was unified, their position in Stone City would directly surpass the Wu Clan and become the number one clan in the city!

When the Zhao clan was ready to vote, Henry appeared in the

ancestral land.

"I'll take this inheritance."

Chapter 1385

Henry's appearance was very abrupt. He came together with Ranjeet and Yaffah.

Obviously, the Zhao clan did not expect that when their own family was fighting for the inheritance, someone would directly come out and say that the inheritance belonged to him without shame.

"Who are you? Who allowed you to come to our ancestral land? Get out!" The elder scolded.

"There's a saying in our country that says 'An ordinary man's only crime is to carry a jade'." Henry strode to the centre of the Zhao clan, where their inheritance lay.

Henry looked around and said, "I don't think there is anyone who can stop me. As for the three inheritors you chose today, each of them lacks Qi. Even if they get the inheritance, they can't keep it."

Henry took out the ring from his pocket. The ring was shining. As Henry threw it away, the wedding ring, which was originally given to Sylvia, was floating in the air.

"Haha, Henry Zhang, you are always more anxious than me." In the sky, a figure suddenly appeared, and Ranulfo appeared.

"Don't talk nonsense." Henry's expression was cold. "Ranulfo, if I come back, I'll get even with you again!"

"Of course." Ranulfo looked normal. "But the premise is that you can come back."

Ranulfo gestured and shouted, "Henry."

Henry snorted, and a sacred lotus appeared above his head.

The moment the lotus appeared, the ring floating in the air emitted a strange light, covering the lotus above Henry's head.

At the same time, the ancestral land was in a fierce wind! The strong wind made clan members unable to open their eyes. By the time the members reacted, they did not even know how, but they had already left the ancestral land.

All the people of the Zhao clan, who suddenly left the ancestral land, looked at each other. They didn't know what had happened at all. They could only feel that they were small! In front of those people who appeared today, they were really small. Their means were like gods! Was this Qi...

Those from the Zhao clan, who wanted to obtain the right of inheritance only to be the master of the clan, were angry. Just this time alone, they were confused about their own life. This was an act of an immortal. No matter how much money one had, he could not exchange money for this.

Henry did not know how much shock what he had done today would shock the Zhao clan. What he was now paying attention to was what was in front of him.

A path of light formed in front of him.

Ranulfo said seriously, "Henry, this passage will not be open for too long. Get in!"

Henry took a deep breath, looked back at the civilization on the surface, and then strode to the light passage.

"Brother, wait for us!" Ranjeet pulled Yaffah and plunged into the passageway.

Watching Henry walking into the passage, Ranulfo's face showed a relieved expression. At this moment, his whole temperament had completely changed!

If the former Ranulfo was like a sharp knife, then the current Ranulfo was like a blunt treasure and no one could feel its edge.

The Alvin League had been established for many years. The so-

called God Creation, and the so-called atavism, were all for this day. Now, everything had come to an end.

Ranulfo seemed to have aged a lot.

"It's time to rest for a while." Ranulfo sighed as he watched the light tunnel disappear. He looked in the direction of Mount Kunlun and said, "The ancient battlefield shouldn't be able to stop Dougal and the others. This is a rare opportunity to relax before they come back."

For most of the people living in this world, today was just a very ordinary day.

Henry only felt that everything went black, and then a strong sense of weightlessness came. This process, even Henry did not know how long it lasted. He subconsciously counted the time in his heart, but he found that he could not do it at all. Just when the weightlessness came, it seemed that time had stopped and nothing could be seen.

When Henry was able to see clearly, what appeared in his eyes was continuous mountains. Henry breathed a sigh of relief. He found that he could feel a faint Spiritual Qi every time he breathed!

Henry subconsciously looked around. A blue sky like this could only be seen when he was young. The sun hung high in the sky and warmed the sky. A ring fell from the sky and fell into Henry's palm.

"Is this... the Core?" Henry was puzzled.

"That's right, this is the Core..." The Heretic God said. He seemed to be sighing with emotion as he continued after a long time, "Although I've been away for so long, I can still remember the aura of this place. After so many years, this place has not changed at all."

Henry stared at the sun in the sky. The so-called Core did not

seem to be the same as what he thought.

Henry turned around and looked around, but he did not find Ranjeet and Yaffah.

"There's no need to search." The Heretic God's voice rang out again. "You and your friends didn't enter the passageway at the same time, so you will naturally appear in different places. That friend of yours is a little strange..."

"Strange?"

"Yes, he is natural. He can feel the existence of heroic spirits, and he is able to have a simple communication with the heroic spirits that have not yet completely awakened. The heroic spirits attached to him were actually about to awaken long ago, but they have always been suppressed by him. There will be another spirit controller in the Core, hahaha."

The Heretic God was laughing loudly, making Henry's hair stand on end. What did all of this have to do with the Heretic God?

Just as Henry was about to ask something about the Core of the Earth, a shout sounded in front of Henry.

"Don't move! Who are you?!"

This shout made Henry stunned for a moment. He heard it correctly, this person was speaking his language!

How long has it been since Yan Xia language appeared? Who would think that the Core would actually use this language?

"Don't be surprised," the Heretic God said. His voice was very weak as if he was afraid of something. "Every civilization has a fixed mark of time, be it in the Core or on the ground. Their civilization is completely similar. However, after undergoing a series of huge purges on the surface, this civilization has been destroyed countless times, but it has never been able to rise to the top of the earth. As the old saying goes, the Core's

civilization is undergoing a cycle of reincarnation, and the Core has long since gone through this cycle of reincarnation."

Henry was shocked by these words. "The reincarnation of civilization! Is there really such a thing as reincarnation?"

Henry looked at the coming person. It was a woman who seemed to be less than 20 years old. The other party walked through the air and came over. Apparently, she had the strength equal to the Transformation realm.

Behind this woman, there were more than ten people following. These people were also walking through the air, but from their movements, it seemed like they were not very skilled. It was obvious that they had just entered the Transformation realm.

"Look at their clothes. Totally the same! They're wearing the school uniform!"

Chapter 1386

Henry saw these more than ten young people approaching.

"Who are you? Why are you in our hunting ground?" The leading woman landed in front of Henry and asked.

Hunting ground?

Henry was puzzled. He observed these young people in school uniforms and found that there were something like beast claws or beast teeth hanging on their waists. It seemed that they had just been pulled out.

Henry had no idea what the Core world was like. Facing the question of this girl, he made up his mind.

"I don't know."

"You don't know?" The girl narrowed her eyes. Obviously, she didn't believe Henry's words.

"Yes." Henry nodded. He had already thought it over. He didn't know what he was going to say and what he wanted to do.

According to Henry's experience, if he was given a little time to figure out what the situation of the Core world was, he would be able to make up a reasonable identity for himself. After all, Henry had done this kind of thing many times.

However, Henry didn't know anything about this world at all, so he couldn't make up anything.

"What a joke!" The leading woman sneered. "You don't know anything, do you? You broke into our hunting ground for no reason? Tell me, which school are you from?"

After the leading woman said this sentence, Henry noticed that the words "Thunder Academy" were written on her school uniform.

The Heretic God's weak voice rang out, "Qi isn't anything

secretive in this world. Every single person will attend the academy. As for the usage of Qi, every year they will be tested. These tests are even important than the annual imperial examinations on the surface. Soon, I'll find an opportunity to tell you a few things about the Core, but I can't say anything more. There's an existence in the Divine Realm that can detect me."

After the Heretic God finished speaking, he quickly quietened down.

Henry also understood why these people were wearing school uniforms. Even if Henry had many shallow questions, they couldn't respond.

"Say it!" The leader's voice rang out again. "Which school are you from? What are you doing here at our hunting ground?"

The words "War Academy" naturally popped up in Henry's mind. He had heard a lot of them before, so he blurted them out.

"I knew you were from another school." The leading woman's face changed, and then she waved her hand. The people behind her immediately surrounded Henry.

"Junior Sister, what's going on?" A young man's voice sounded from the distance, and then a figure quickly approached from the air.

From a distance, Henry could sense that this person had the strength of the late stage of the Transformation Realm. Moreover, Henry also noticed that when this figure approached, the remaining students of the Thunder Academy revealed respectful gazes. Clearly, the person who had arrived had a very high position in their hearts.

The young man's figure landed on the ground. He was about 23 or 24 years old, and he was also wearing the uniform with the words "Thunder Academy". It was just that the colour was

pure red, which was completely different from the leading women.

"Senior Baron!"

After the young man landed, everyone present greeted him in unison.

Senior Baron nodded and then looked at Henry. "Who is he?"

The leading woman immediately replied, "Senior brother, he's from the War Academy."

"War Academy?" Senior Baron had a puzzled look on his face. "Where does the War Academy come from? I've never heard of such a place."

Henry waved his hand and said, "Our academy doesn't belong to any party. Our main purpose is to ease the conflict between Encetol and Athesall and the rest of the continent."

Henry didn't even know what this Core was. He could only talk nonsense. He could only remember some names from games and movies.

The doubts in Senior Baron's eyes were even more intense. Of course, he had never heard of the 'Encetol'. But he noticed the meaning of Henry's words, which was to regulate the fighting amongst themselves.

"So, My lord, are you here to help the Thunder Academy deal with the Seven Protectors of Mountain Heng?"

"Yes." Henry nodded. "According to the order of the War Academy, we are here to regulate the conflict between the two sides."

Henry's heart was in a mess at the moment, but the reality forced him to continue to talk nonsense.

"That's great!" There was joy in Senior Baron's eyes. "I don't know how to call you."

"Syl Zhang."

"Brother Zhang, thanks for your help. Recently, the Seven Protectors of Mountain Heng have become more and more arrogant. Their people have invaded our hunting ground many times. Our Thunder Academy has also been hurt because of this." Senior Baron made a gesture of invitation.

Henry nodded and walked forward.

Henry took a step forward and suddenly turned back.

Senior Baron, who was polite a second ago, suddenly punched at Henry's back from behind. Obviously, what happened just now was just a show.

Henry was not a fledgling. He knew very well that his words naturally could not fool others. Although this kind of Transforming level expert could not pose any threat to him, he still paid attention to it. Henry responded at the first moment of the other side's action.

Facing the fist of Senior Baron, Henry slightly stepped back.

"I knew something was wrong with you!" Senior Baron said with a cold face. As he passed by Henry's waist, a signal flare shot up to the sky.

Henry cursed in his heart. The other party was obviously calling for help. Although these people in front of him had ordinary strength, who knew what level the people they called were. Henry was not afraid of fighting, but his purpose of coming to the Core was obviously not to fight with others, but to find Sylvia, which was his primary goal.

Henry didn't stop for a second. His figure turned into a phantom and disappeared quickly.

"Qi-concentrating Realm!" Senior Baron exclaimed. He wanted to catch up, but he was unable to do it.

A few minutes later, another few figures descended. They were

all middle-aged individuals.

"Jenkins, what happened?" A middle-aged woman frowned. She said that she saw the signal flare coming. The signal flare was sent in the hunting ground, indicating that something serious had happened.

"Teacher, someone broke into our hunting grounds with the strength of the Qi-concentrating realm." Jenkins explained what had just happened.

When the middle-aged heard that, they all looked terrible. The hunting ground was the foundation of an academy. Reaching the hunting ground meant touching the bottom line of an academy.

"Are they the men of the Seven Protectors of Mountain Heng?" The middle-aged female teacher asked.

Jenkins shook his head. "I don't know. The other party claimed to be from the War Academy, but I've never heard of such an academy."

"Haha, War!" The female teacher sneered. "Apart from the forces under the Noble Berserkers, which school would have such a name? The Noble Berserkers is secretly protecting the Seven Protectors of Mountain Heng. That person must have something to do with the Seven Protectors of Mountain Heng! We should also do what we should do!"

Chapter 1387

Henry flew away. In this place, he didn't need to hide or hold his strength at all.

With Spiritual Qi prevailing around, Henry flew out of the mountain range. He finally understood what the hunting ground meant. In the mountain range, Henry saw many strange species. Although they were not as aggressive as the experimental subjects of the Alvin League, they were completely different from creatures that existed on the surface. They were prey.

As soon as Henry came out of the mountain and slowed down, he heard the voice of the Heretic God.

"Speed up, you barged into the hunting grounds, so there is no way those academies will give up just like that. There are people watching you from behind, get rid of them."

Hearing this, Henry immediately sped up and asked at the same time, "Is the hunting ground very important for the academy?"

"Of course."

Heretic God replied, "Each academy is equivalent to the official authority of a town. The hunting ground is the meat resource of the whole town. The species you see are to be hunted and eaten. You have rushed into their granary. Can they easily let you go?"

Henry was shocked inwardly. The hunting ground turned out to be granary, and the species he had just seen were food.

"Come on, let's go to the town first and get an identity. I'll tell you more about this Core world."

After Henry went out of the mountain, he saw a town in the distance. The tall buildings of the town were no different from

the world above. The biggest difference was that there was an academy in the centre of the town. Above the academy, the word "Thunder" was the most prominent word in the whole town.

"Alright, those have been gotten rid of. Slow down. In this type of third-tier town, the early stage of the Divine Realm is considered a top-tier expert. If you display too much power, it will be easy for you to get into trouble."

The Heretic God reminded.

Henry nodded, landed on the ground, and walked towards the town.

And at this time, the Heretic God began to impart the knowledge of the Core world to Henry.

The first was a town. The name of each town was the same as that of the academy. The town in front of Henry was called Thunder Town. According to the number of people, this kind of residence was designated as a town, a city, and a district respectively.

The town belonged to the third line, while the city was the second line, and the district was the first line.

Generally speaking, the population in the districts was over a million, and at least three academies were under the joint jurisdiction of one district. Each of them was filled with countless experts.

However, there was only one Thunder Academy in a third-tier town like Thunder Town. It was the highest official system in the town. It was responsible for recruiting all the outstanding talents in the town and then help them reach another level.

Based on the explanation of the Heretic God, Henry came to Thunder Town. The moment he stepped into the town, Henry felt as if he was in a different world. In front of him, there were

still familiar high-rise buildings from his world. The cars were running on the road, but he did not know any of those car's brands, and the shape was also different. However, there was really no difference between the rest of the road and the civilization on the ground.

"What's the matter? You didn't expect this."

The Heretic God spoke.

"That's true."

Henry nodded and said, "I thought it would be different."

"What did you expect?"

There was a hint of sarcasm in the Heretic God's voice, but no one knew if he was mocking Henry or the whole civilization.

"Could it be that, like those science fiction movies, cars can fly in the sky, and houses can also balance in the sky?"

"That's just a fantasy. You know the faster civilization develops, the faster resources will be consumed. When resources are scarce, what those people have to do is not developing science and technology, but transforming energy. In other words, the largest development of science and technology is the endless regeneration of energy. For the sake of energy alone, the Core civilization had used countless years. In the past thousand years, they had found new energy sources, new ways to apply energy, and new ways to transform energy. At the same time, they also found the real way to reproduce energy, which is where the Core civilization is truly ahead of the surface."

Henry didn't say anything.

"Of course, the era is changing, and many things will be more advanced than the surface, but the lifestyle pattern of people has not changed, neither has the traffic. The view on the world changed. Henry, I can see the character hidden in your heart."

Believe me, the Core civilization is more suitable for you than the surface. I am very much looking forward to what will happen to you here."

Heretic God's expression was very interested.

"I'm afraid you'll be disappointed."

Henry shook his head slightly. "Nothing will happen. I will find my wife, leave you here, and then go back immediately."

"Ha ha."

The Heretic God let out two meaningful laughs and then fell silent.

Henry blended in with Thunder Town. Everything here was the same as on the surface. Only the food and the things they had used were different, but these were easy to accept. Henry was now considering how to find a place to stay, and then he would find a way to inquire about Sylvia.

Henry did not know how big the Core was. Finding somebody here was like looking for a needle in a haystack. Even so, Henry would not give up.

After some observation, Henry found that the people here had a communication device bound to their wrists. This kind of communication device could replace all the certificates, mobile phones, and payment on the surface. Everything could be done by a simple projection of the communication device on the wrist. The money here was also electronic. They did not use cash, so Henry could not do anything to take their money.

He didn't know who was rich. But surely he knew he was poor at the moment.

However, Henry was not in a hurry for the time being. He had prepared some compressed solid food, which was enough for him to hold on for a few days. Henry was not picky with the place where he stayed, so he could stay anywhere.

In this way, Henry spent three days in Thunder Town. He didn't go anywhere for three days. He was just observing to let himself integrate into the Core civilization as soon as possible. Since the Heretic God let out the meaningful laughter last time, he didn't say anything in the next few days.

Three days was enough for Henry to figure out the town.

In this world, with absolute military strength, the academy would distribute money every month based on the strength of the town's residents. According to the rumours, a Qi-concentrating realm expert was chilling at home every day. The money given by the academy alone was enough for him to live. Of course, there were also basic staff members and merchants here, but businessmen liked to hire some experts to protect themselves, so they offered a high salary.

Here, the most valuable person was the one who was strong! On the fourth day, Henry sat up from a lounge chair in a park. As soon as he got up, a man came up to Henry and said with a sneaky face, "Brother, are you from mafia?"

Chapter 1388

Henry looked at the man who suddenly appeared in front of him. He was in his thirties, and he looked like a ticket scalper in front of the ticket office of a large concert.

Henry did not say a word, but the other side continued, "I see that you have been sleeping here for three days. You probably have no house. Let me tell you, the academy's guards have eyed you. When they are sure that you are in the mafia, they will get you arrested. Don't think I don't know where you come from. Once you fall into the hands of the academy, I am afraid you will die."

In the Core, the academy's guards were equivalent to the policemen in the surface world.

Henry still said nothing. The other side continued, "Brother, you came from the mountains, right? Which bandits did you fool around with before? I've seen a lot of people who want to enter the city, but here, if you don't have a household registration, you can't do anything. Even if you do odd jobs, no one would want you. I can find a job for you. What do you think? At least you will have a place to stay and make a living."

"I don't have any money." Henry said. He looked very dull.

"Haha." He laughed in disdain. "How can I not know that you don't have money? You don't even have a household registration. How can you possibly have money?"

"Then what do you want?" Henry's eyes were dull and he was just like a young man who had just stepped into society.

"Of course, I want money." The other side glanced at Henry. "However, you don't need to give me money, someone else will. I will introduce you to a job. Give me your salary for the first month. After that, when you have enough money to register,

you can take the money yourself."

With just a few words, Henry figured out what he was doing. Just like those shady agents, they lured people who were eager to find a job in the black coal mine, so that he could get some money himself.

"Okay." Henry nodded dully.

"Okay." When Henry agreed, the man's face lit up. "Let's go. I'll take you there."

Henry followed him around Thunder Town for quite some time before he was finally brought to the edge of the town. There was a place similar to a factory. From the outside, the factory looked completely abandoned. Its front door was locked, and the lock was in tatters.

However, when this middle-aged man came to the front of the door, after reaching out his hand and knocking a few times rhythmically on the door a few times, this old steel door was opened from the inside.

It was a middle-aged woman in her fifties who opened the door. She first saw the person who led the way for Henry and then saw Henry. Then her eyes lit up and she looked Henry up and down. After that, she said to the middle-aged man doubtfully, "A newcomer?"

"Yes, young and strong, and he can do this." The middle-aged man reached out and made a gesture of grabbing.

This posture, in their line of work, represents the ability to use Qi. The middle-aged man had just tried to find out if Henry was a rebel of the outside world, but Henry did not deny it, so he assumed he was.

After all, as long as one was an ordinary person, no one was willing to admit that he had a relationship with the rebel bandits. If he was caught by the academy, he would be directly

killed.

"Come in quickly." The middle-aged woman quickly waved her hand. After the middle-aged man and Henry entered the factory, the middle-aged woman leaned her head out of the iron gate and looked back and forth. After making sure no one followed them, she closed the door.

"Let's go. Come with me." The middle-aged woman looked at Henry again. She liked his fair and clean appearance very much.

Following the middle-aged woman, Henry came to the factory building. The factory building was also in tatters and there was a table. There were more than a dozen strong men sitting next to the table, all of whom looked fierce. As soon as Henry entered the room, these strong men all stared at Henry.

"What are you staring at? Are you gonna pay me if you all scare him off?" The middle-aged woman waved to those strong men and pretended to be coquettish.

The middle-aged woman's behaviour made the middle-aged man feel chills, but he didn't dare to say it out loud.

"All right, you wait here for a while." The middle-aged woman turned her head and said, then walked to the back of the factory.

After a few minutes, another middle-aged man came out. As soon as he appeared, he stared at Henry. Then he showed a satisfied expression and said to the man who was leading Henry, "Where did he come from?"

"He's from the mountain."

"Registered or unregistered?"

"Unregistered."

"How many levels of strength does he have?"

Henry's guide thought for a while and then suddenly waved his

fist at Henry.

It was not until the opponent's fist had stopped in front of him for a second that Henry reacted in a hurry and took a step back, showing a look of shock.

The middle-aged man who led the way for Henry did not answer, and the middle-aged man who walked out of the factory also had an answer.

"One level of strength is just so-so, but the advantage is that he is young. How much do you want?" The factory man said.

"This much." The man who led the way for Henry went to the factory building man and stretched out a finger.

"Oh, you're really asking for an exorbitant price." The factory man whispered.

"Boss, it's not easy to recruit people now. The people around you all know that they will die in less than a month if they come to you. Now it's good enough to find one for you. This person is young and has some strength. I don't think this price is high, is it?" The man who led the way rubbed his fingers.

"And you should know that recently, the Seven Protectors of Mountain Heng are very influential, and the academy is also very strict. It's really difficult to find people. It's risky for me to go out and help you pull people out."

"All right." The factory man nodded. Then he tapped on his wrist a few times, and a projection appeared. The guide did the same. Here, there was no cash. The transfer was a way to directly transfer the money to the other side's household register. They couldn't even lose money.

After receiving the money, the man who led the way left with a smile and did not look at Henry again. In his eyes, Henry was already a person who would die soon.

The factory man walked up to Henry and said, "Do you know

what you're here for?"

Henry shook his head hard. "I don't know."

"Ha." The factory man smiled. "It's good that you don't know. Let's go. Come with me first."

He brought Henry to the interior of the factory. There was a passage down there. After they passed through the passage, an underground mine appeared in Henry's eyes. The stone walls around the mine were dirty and it was dark.

Henry recognized what was around the mine at a glance. He frowned. "A coal mine?"

In Henry's world, places that used coal became fewer and fewer, and many cities were forbidden from using coal. First of all, coal's output was limited, and second, coal had a great impact on the air.

The Core civilization had developed for so long, but there was still coal? And obviously, the function of this mine was to dig coal.

"Keep your voice down!" The factory man was like a cat whose tail was stepped on. "Remember, just pretend that you didn't see anything. Do you understand? Otherwise, you can't go out alive!"
