

Chapter 1409

The 13 subordinates of Master Niu were all ready to fight.

"There's no rush."

Master Niu stared at Henry's back. "This person will be killed sooner or later, but not now. Let's go!"

After saying that, Master Niu waved his hand and left with his men.

Henry's confident appearance really made Master Niu apprehensive. If he took action now, Master Niu was not sure whether he could take this person down. Now the situation in Ensver City was not suitable for him to continue to make enemies! Moreover, there was an important party to attend tonight, so he didn't have time to waste here. He didn't know how to behave, and sooner or later, he would be exposed! Henry walked toward his home, and the old man sitting at the gate of the community had disappeared.

After Henry returned home, he laid on the sofa leisurely and continued to watch TV. On the way, Derbey called Henry and told him that he had an appointment with different forces in Ensver City at Stardance Hotel at eight o'clock in the evening. This party was suggested by Henry. Henry remembered the time and agreed.

In the afternoon, Henry washed the dishes and cooked. When the dishes were ready, Zylvia rang the doorbell.

There were four dishes and one soup. There was no food left on Zylvia's plate. If it weren't for her own image, Zylvia would definitely have licked the plate clean.

"Is she a reincarnation of a hungry ghost?"

Henry looked at the empty plate without any food left

and rolled his eyes.

When Zylvia was eating, she ate like a wolf. When she finished eating, she felt shy and her eyes always drifted to other places instead of looking directly at Henry.

Henry threw the dishes into the washing machine, stretched and said to Zylvia, "All right, you've had enough. Shouldn't you go home to rest?"

"Well..." Zylvia looked at Henry. She wanted to say something but stopped on second thought. "What are you going to do later?"

"Why?"

Asked Henry.

"Because."

Zylvia suddenly lowered her head and said in a low voice, "I want you to go to a party with me. I heard that a big shot will show up at this party. You know, now I'm not on good terms with Master Niu. I asked my friend for help so that I can get the qualification to participate in this party. I just want to get in touch with that big shot, but I dare not go alone, so I think..."

Henry was slightly interested. "What big shot?"

Henry now wanted to gain a firm foothold in Ensver City, so he had to do some understanding of the heads of different forces.

All of a sudden, she raised her head and asked, "Have you heard of Radiant Island?"

Henry was stunned. He didn't expect that Zylvia would mention this to him. He nodded and said, "Of course."

Zylvia clearly saw Henry's stunned expression and continued to say, "I think you must have heard about it. Now there's no one in Ensver City who doesn't know about Radiant Island. I heard that the representative of

Radiant Island will appear at the gathering tonight. You know what I mean."

"I see."

Henry nodded and said, "I'll also go to this party tonight. It's okay for us to go together."

"That's great!"

Zylvia was pleasantly surprised. "You've also been invited, haven't you? I saw you fight yesterday. Your strength is at least in the Divine Realm. Right, how could I forget about this? With your strength, you'll definitely be invited. That's great, I feel much more at ease with someone accompanying me. Wait for me, I'll go to change my clothes, it won't take long."

After Zylvia finished her words, she rushed out of Henry's house excitedly and went back to her home.

Zylvia was so slow that Henry had waited for more than half an hour. Then he saw Zylvia appear in front of him in a red evening dress. This dress was tailor-made for Zylvia. It showed her perfect figure. She was plump, nice, and eye-catching. Her long hair draped over her shoulders, accentuating the charm of a woman as much as possible.

"Do I look nice?"

As Zylvia stepped on high heels, her tall and pretty figure made a turn in front of Henry.

"Not bad."

Henry glanced at her and then got up. "Let's go. It's almost eight o'clock."

Zylvia noticed that the man in front of her didn't look at her carefully at all. Even when she asked him, he just glanced at her. For the rest of the time, most of his eyes were on the boring TV series in front of him.

"You are a..." Zylvia looked at Henry and wanted to say something, but didn't know where to start. Zylvia had seen many men and different kinds of people. Even if they pretended to be serious, they would subconsciously look at her. However, she could tell if this man was serious or not at first glance. In her eyes, it seemed that he couldn't be trapped by any other woman.

Zylvia still remembered that this person's eyes were particularly gentle when mentioning his wife.

Henry casually put on some clothes and went out. When he went downstairs, he received a message from Derbey, telling him that most of the people were in place and waiting for him to show up.

Henry took a glance at it and didn't care about it anymore.

As a A-list movie star, Zylvia naturally had her car. A fancy supercar stopped in front of Henry, and the whole car was filled with a sense of science fiction. Even if Henry did not understand this civilization, he knew that this thing was definitely not ordinary stuff.

Henry opened the door and sat in the passenger's seat. The moment Zylvia started the car, the motor roared.

Henry was stunned. "Is this an oil car?"

"That's right."

Zylvia nodded.

Henry touched his nose. It seemed to be a casual chat, but in fact, he said, "You, the stars, are really rich. This kind of car is very rare now."

"That's right."

Zylvia replied, "But with your cooking skills, it shouldn't be difficult for you to buy such a car, right?"

"Ha ha."

Henry laughed and said, "I can't afford it. Let's drive!"

Zylvia stepped on the accelerator, and the long roar made Henry feel particularly warm.

More than ten minutes later, the car stopped in front of Stardance Hotel. A well-dressed Zylvia got out of the car with Henry, who was casually dressed. When the two of them walked together, it seemed very awkward.

Stardance Hotel was not opened to the public again today.

Henry took a glance at the cars parked in front of the Stardance Hotel, each of which had an exaggerated style, symbolizing that it was expensive. Those who could come to Stardance Hotel to attend the party today were all famous figures in Ensver City.

Henry and Zylvia walked toward the entrance of Stardance Hotel. As soon as they entered the hotel, a man and a woman came in front of them.

The woman was also dressed in a red evening dress, with exquisite facial features. She was a beautiful woman, and the person walking next to the beautiful woman was a handsome young man.

When Henry and Zylvia came to the front, the woman in the red evening dress suddenly said, "Isn't this Zylvia?"

"Is she still alive?"

Chapter 1410

Zylvia looked at the woman in red in front of her, and her face was a little ugly.

"Zylvia, I thought you're really dead. I heard that you've asked for a lot of help and spent a lot of money in order to earn the qualification to enter the gathering today. In the end, your male companion is this kind of person?"

"Do you think this guy is going to get you in?"

The woman in red looked Henry up and down as she spoke.

"Taneka, don't think that I don't know what you are thinking."

Zylvia stared at the person in front of her. "You're eager for me to die now, right? Do you think that as long as I die, all my sponsors and those TV dramas will hire you?"

"It doesn't matter."

Taneka shook her head. "I'm happy to see you die. I don't care about the rest."

"Ha ha."

Zylvia sneered. "If that's the case, I'm afraid I'll have to disappoint you."

After finishing her words, Zylvia strode into the hotel.

Henry followed Zylvia with a calm face. He was not affected by the two women's chatting at all.

Taneka realized that her words did not have much of an impact on Zylvia. She immediately turned to look at Henry and said, "Hey, can you enter this place as well?"

"Even Zylvia got a qualification by using her connections. Do you think she can get you in?"

Henry gave Taneka a puzzled look and asked in return,

"Who told you that she needs to take me in?"

"I'm also invited to the party."

"Is that so?"

Taneka sneered. She obviously didn't believe it.

"Taneka, put away your arrogance. He is an expert at the early stage of the Divine Realm. Is it normal for him to have the qualifications to participate?"

Zylvia looked at Taneka with a disdainful expression. The early stage of the Divine Realm. That was the peak level expert in Ensver City.

When Taneka met such an expert, she had to be careful. This was a world that valued force. Although Taneka was also a female star in the film industry, this was not the capital that she could use to deal with an expert in the Divine Realm. After all, there were too many possibilities for an expert in the Divine Realm to kill her unless her personal bodyguards stayed close to her. However, based on her status, there was only one bodyguard she could hire at the early stage of the Divine Realm. Moreover, she had to treat him with care.

No matter how famous the stars were, they were all the same in front of the power. This was the case in any civilization.

If it was in the past, when Taneka heard about the Divine Realm expert, she would definitely think highly of him. However, for now, she was dismissive of him. Firstly, Taneka did not want to show her weakness in front of Zylvia. Secondly, it was because, other than the children of those large families, the ones who attended today's gathering were all strong. The weakest among them were all at the early stage of the Divine Realm. There were even a few who were at the late stage of the Divine Realm. Just now, Taneka had already grown tired of the

Divine Realm expert.

The most important thing was that the young man standing next to Taneka was the young master of the Meng Family in Ensver City. Although he was only from a branch family, the Meng Family was one of the three great families in Ensver City. Currently, there was one person from the family who was the principal of the Northern Academy! Just this one person alone was enough to cause the entire Meng Family to rise to this position! A master at the early stage of Divine Realm, Taneka was gradually starting to look down on him.

"Early stage of the Divine Realm?"

Beside Taneka, the young master of the Meng Family, Orfeo, laughed in disdain. "So it turns out that outside, there's only a weak master at the early stage the Divine Realm, yet you're still so confident?"

"Who gave you this kind of courage? Even trash at the early stage of Divine Realm dared to be so arrogant in front of me?"

Orfeo naturally could not sit idly by and watch the woman beside him argue with others. He had already regarded Taneka as his lover tonight.

Henry tilted his head and looked at Orfeo. He asked curiously, "You're just at the early stage of the Qi-concentrating Realm, aren't you?"

"You don't even care about the Divine Realm Stage?"

"Ha ha."

Orfeo looked at Henry. "You are the first person who dares to mock my strength. You are very courageous."

"Is this considered a kind of courage?"

Henry's mouth was wide open. "If I want to kill you, I just need to snap my fingers. Am I very courageous by mocking you?"

"Don't you want to see something more courageous than it, huh?"

An invisible pressure burst out from Henry's body and went straight to Orfeo.

Under the pressure of Henry, Orfeo felt a heavy weight on his body. His legs couldn't bear such weight and directly bent down, almost kneeling on the ground.

Henry looked at Orfeo with a faint smile.

Orfeo's back was wet with cold sweat. Just now, he was scared. Today, he came to the gathering, so he didn't think of bringing any bodyguards with him. If he was desperate and wanted to kill the man in front of him, he couldn't get away. Only himself knew well that the person in charge of the Meng Family now was Juda Meng, who looked down on the low-levelled disciples of the Meng Family. If he was killed, the Meng Family would almost not fight for him! The most important thing was that even if the man was punished by the Meng Family, he would be dead already! The arrogance of Orfeo was gone under the pressure of Henry.

Looking at the faint smile on Henry's face, Orfeo took a deep breath and said, "Well, you are very brave. I hope that you can still be so arrogant. If it weren't for the fact that I have an important visitor to greet today, I would definitely make you suffer!"

Orfeo left a tough message. He didn't dare to stay any longer, so he turned around and left.

When Taneka saw that Orfeo had left, she naturally wouldn't stay. Without even having the time to say anything, she turned around and chased after Orfeo.

"Master Meng, that guy is too arrogant. I can't stand him anymore!"

Taneka followed beside Orfeo and said.

"It's alright."

Orfeo's eyes were gloomy. "It's important to greet Master Niu now. When I finish things here today, I will let him pay the price!"

Seeing Taneka leaving with disappointment, a smile spread across Zylvia's face and she gave a thumbs-up to Henry.

"All right, let's go."

Henry shook his head. He thought that in the world that valued force, it would be a little different from the surface, but now it seemed that no matter which civilization it was, society's outlook was the same. Although the person who spoke just now was not very powerful, from his tone, it seemed he was from a big family. Just because he was a member of a big family, he didn't take a master far beyond him seriously. It was simply ridiculous. Henry had seen too many such roles on the surface.

Henry and Zylvia came all the way to the banquet hall. In the banquet hall, there were more than a hundred people at this time. The hall was filled with food for self-service. Many people were sitting together, laughing and chatting.

As soon as they arrived at the banquet hall, a middle-aged woman came up anxiously and stood directly in front of Zylvia. She said in a low voice, "Zylvia, what's wrong with you?! You have provoked Master Niu. Why are you still arguing with the young master of the Meng Family?"

"Master Meng?"

Zylvia was stunned. She did not remember when she had provoked someone like this.

"You don't know?"

"The person who was with Taneka just now was the young master of the Meng Family, Orfeo Meng. Now the news has spread!"

Chapter 1411

The one with Taneka was the young master of the Meng Family!

Hearing this news, Zylvia was completely stunned as if she had been struck by lightning.

"Tell me, what were you thinking!" The middle-aged woman frowned. "You don't get along with Taneka, but she has been waiting for a long time. Now, everyone in the circle knows that Master Niu wants to deal with you. If Taneka doesn't have any confidence, how can she take the initiative to make trouble for you? Even worse, you couldn't solve the problem with Master Niu, and now there's another issue with the Meng family. From now, unless you really can get in touch with the big shot today, no one in Ensver City can protect you. But do you think it's all up to that big shot? Have you thought about what you're going to pay?"

Zylvia's pretty face became more and more ugly. She said feebly, "Sister Sun, I know."

From Zylvia's attitude, it could be seen that she knew her current situation very well.

"Well, I can't help you with this." Sister Sun patted Zylvia's shoulder. "The rest of it, you can think of a way yourself. Either give in to Master Niu, or run out of the city to save your life."

After Sister Sun finished her words, she immediately strode away. She was going to distance herself from Zylvia.

Zylvia, who had merely fought against Taneka a bit earlier, did not have the slightest expression of happiness on her face at this moment. When she found

out that the person beside Taneka was the young master of the Meng Family, her heart immediately sunk to the bottom.

Henry looked around. The gathering here was exactly the same as what he had seen on the surface. What was different was that most of the people here would talk about strength and power. The big things they talked about were which Supremacy Master had a conflict with which Supremacy Master, which force had a conflict with which one, and what was on the surface. In short, that was what people were concerned about. What people talked about were the things that were vital to their interests.

"Eh, Zylvia, why do you have such a poker face?" Taneka's voice sounded again. She came back again. As for Zylvia's expression, she had guessed it before she came back. Because it was she who deliberately spread the news that Zylvia had provoked the young master of the Meng Family. The news was immediately spread out.

Zylvia glanced at Taneka and pursed her red lips, but she didn't reply.

Although Zylvia was a movie star, she was very clear that people like her might be idols in ordinary people's eyes. But in the eyes of a big family like the Meng family, she was just an actress. There were so many people in the world who were better at acting. With the strength of the Meng family, they didn't care about who she was. They could kill her directly if they wanted to.

"What's wrong? Why isn't the poker face saying anything?" Taneka walked up to them and mocked them.

"Where is the person who said he wanted to kill me? Where is he?" Orfeo's voice also rang in the banquet hall.

When Orfeo's words came out, it immediately attracted

the attention of many people present. Everyone knew that this was the young master of the Meng Family, Orfeo Meng. They had just heard the news that Zylvia had offended the young master of the Meng Family. However, they didn't know the details. Now that they heard what Orfeo said, they were immediately shocked. Wasn't the person too bold to say that he wanted to kill the young master of the Meng Family?

Orfeo saw Henry. He strode to Henry and said proudly, "Boy, didn't you say you want to kill me? I'm standing in front of you now. Where's your ruthlessness just now?"

The people in the banquet hall instantly fixed their eyes on Henry. With such a strange face, they couldn't help but guess who he was.

"He's a newcomer, isn't he?"

"There will always be some people appearing in Ensver City. Their strength is ordinary, but they always feel that they have enough power. In the end, they would die outside Ensver City."

"You even dare to provoke the Meng Family. The young people these days don't know the immensity of heaven and earth."

All kinds of private conversations rang out, and these voices were clearly passed into Henry's ears.

Henry smiled. He did not pay attention to Orfeo in front of him, but focused his eyes on the person behind Orfeo.

"Master Niu, what a coincidence. We meet again."

All of a sudden, Orfeo's face was full of surprise. What was going on? Did this person know Master Niu? Orfeo immediately became worried. If this person knew Master Niu, how should he deal with him?

Master Niu had an extremely high status in Ensver City, comparable to Derbey. He wasn't as good as the Meng

Family, to be specific he wasn't as good as Juda Meng. The other members of the Meng Family had to be polite when they saw Master Niu, and when the Meng Family's younger generation saw Master Niu, they were all even more respectful.

"Haha, I also think it's quite a coincidence." Master Niu also laughed. "You really have no taboos. I was just thinking that it was you who said that you wanted to kill the junior of the Meng Family."

Orfeo asked cautiously, "Master Niu, do you know him?"

"Of course I know him." Master Niu nodded. "How could I not know him? Twenty-eight of my men were killed by him. How could I forget such a person?"

"What?!" Orfeo's body trembled.

Likewise, Zylvia was standing beside Henry, also changed her expression. She stared at Henry with wide eyes. In the past two days, Zylvia did not know what had happened to Henry. She thought that Master Niu had not come to make trouble again, but now she knew that Master Niu had done something to him several times!

Zylvia had heard of Master Niu's behaviour and that he would never be merciful to the enemy. What had happened in the past few days was definitely a danger that she had never imagined. But this person had never mentioned it to her. Every time she met him, he greeted her with a smile and even prepared a table of good food for her.

The most ridiculous thing was that Zylvia still thought that she had transferred 300,000 yuan to him, which was enough to pay for food. But now it seemed that compared with the danger brought by her, 300,000 yuan was nothing.

Orfeo's eyes widened as well. However, his thoughts

were completely different from Zylvia's. He had originally thought that this was just a young lad who relied on the power of the Divine Realm and dared to look down on him. However, now he heard that this person even dared to provoke Master Niu! Moreover, he even killed twenty-eight subordinates of Master Niu! This was not a young punk at all! This was definitely a solid power! Moreover, his strength was definitely not as simple as the early stage of the Divine Realm. Otherwise, Master Niu would not have let this person live! This person's strength was at least at the late stage of the Divine Realm! Even if he was at the middle stage of the Divine Realm, he would have died a long time ago!

Orfeo's originally proud expression immediately turned into fear. He had actually provoked an expert from the late stage of the Divine Realm, this...

Henry shrugged his shoulders. "I'm always like this. Whoever provokes me, I'll kill him. If I let everyone shit on me, why should I practice Qi? Am I right, Master Niu?"

Master Niu put on a false smile. He certainly understood the threat in Henry's words. He opened his mouth and said, "Younger generation, there are big shots here today. I won't argue with you. I hope you can maintain your arrogance."

"Of course." Henry nodded, then looked at Orfeo and said slightly, "Kneel down."

Chapter 1412

Henry's voice full of indubitability.

Orfeo, who was already afraid, subconsciously bent his legs. If it weren't for Master Niu's help behind his back, Orfeo would have knelt down directly.

It was not until then that Orfeo realized that just now, he almost knelt down in front of everyone. If this matter was spread out, let alone himself, even the entire Meng Family would be covered with shame.

Orfeo turned back and showed a grateful smile to Master Niu.

Master Niu nodded to Orfeo, and then patted Orfeo on the back.

After being patted by Master Niu, Orfeo immediately felt less stressed. Master Niu was obviously supporting him! Orfeo took a deep breath and looked at Henry.

Henry said again, "I said get down on my knees, don't you understand?"

"Kid, you're a little too arrogant!"

Orfeo, who was backed by the Meng family and Master Niu, took the courage to face Henry.

"I will give you one last chance."

Henry raised his right hand and put it in front of himself. "If you don't kneel, I'll cut your head off."

Orfeo only felt a chill on his back. His whole back was instantly wet with cold sweat.

Orfeo's legs were constantly trembling. He looked back at Master Niu, but Master Niu, who just stood behind him, had already gone far away.

"To kneel or not to kneel?"

Henry's voice sounded again.

Orfeo was taking deep breaths nonstop. He didn't dare to look at Henry anymore. He shook his head slightly and said, "I won't..." "Okay, I know your answer."

Henry suddenly reached out a hand and grabbed Orfeo's neck. "To be honest, I appreciate a man with a backbone like you. Not bad."

Orfeo's face suddenly turned red, and his hands subconsciously grabbed Henry's wrist.

"If there is a next life, I hope you can keep this backbone."

The corners of Henry's mouth curved up, and then he pinched hard with his fingers.

"Crack!" a sound rang out.

A crisp sound was heard, and the whole hall fell into silence.

Orfeo, who was struggling in Henry's hand a second ago, was completely paralyzed at this time. He tilted his head sideways with his eyes fixed on the front, and his protruding eyeballs were full of red blood streaks.

With a flick of his hand, Henry threw Orfeo aside like throwing rubbish. Then he took the tablecloth on the table beside him and wiped his hand and said, "Sometimes I really can't understand why weak people like to yell so much."

"What exactly is the confidence?"

The whole banquet hall was completely silent. Everyone's eyes were on Henry and Orfeo who was already out of breath. This was the young master of the Meng Family! He was killed in public! Was this person crazy?! How dare he kill a member of the Meng Family?! And it was a slap in the face of the Meng Family in front of so many people! Henry looked around. He clearly

captured everyone's expressions.

Henry smiled, turned to the entrance of the banquet hall, and strode forward. He had asked Derby to organize this banquet, because he wanted to see what the situation in Ensver City was like. Now he had almost seen all of it. He had only killed a so-called junior of the Meng Family, and he was only in the Qi-concentrating Realm, which made these people feel incredible. Among these people, there was no lack of Divine Realm experts. However, each of them feared a junior of the Qi-concentrating Realm. It seemed that the so-called dignity of the so-called big family had been deeply rooted in the hearts of the people.

From this point of view, Henry thought that these people might not be as good as some forces on the surface. Those forces would not be like this when facing the disciples of the big families. After a long time, they would decline. Although the Core civilization seemed to be developed, their thinking had already been closer to the feudal states. The members of the big families must not be offended.

Henry felt that such a civilized system was even easier to deal with than he had imagined.

For Henry, it was meaningless whether he would attend the banquet or not. It would be better to go home and watch the drama if he had the time.

When Henry walked out of the banquet hall, some people wanted to stop him, but they did not dare. This person had no taboo. He killed twenty-eight people under Master Niu first and still dared to talk and laugh. This showed that his strength was so strong that even Master Niu did not dare to easily deal with him. And what he did, in front of so many people, could get him killed by the Meng Family. Who dared to provoke him?

When she saw Henry leave, Zylvia stepped forward and followed him. She couldn't stay here anymore! When she walked out of the banquet hall, she looked at Henry with a worried face and said, "You're too impulsive. That's a member of the Meng Family. If you kill a member of the Meng Family in front of so many people, you won't be able to live in peace in the future."

"So what?"

Henry smiled and was not afraid at all. "How can they kill me?"

"However, I suggest that you hide for a while."

"I won't hide!"

Zylvia acted like a female hero. "Although I'm not very smart, I'm not stupid. It's obvious that Orfeo has been bewitched by Master Niu today. The reason why you have a conflict with Master Niu is also because of me. I'm not the kind of person who leaves friends behind when there's danger! You can rest assured that although I'm not as strong as you, I have some ideas!"

Henry couldn't help but look at Zylvia with a high look.

Zylvia puffed out her chest and asked, "What, you don't believe me?"

Henry smiled slightly. "Haha, it's rare. Let's go and get some night snack."

"Night snack?"

"Which one?"

"I'm full since this afternoon. "

Zylvia rubbed her flat stomach.

Henry said casually, "We'll get some roasted lamb skewer, and..." "All right, all right, all right, stop talking, I'm almost drooling."

Zylvia, who had said that she was full just now, quickly

took Henry and ran to the car.

On the way home, Henry sent a message to Derby saying that he had gone to the party. He was not interested, so he left.

In the hall, the atmosphere was a little low. In the past, everyone would have left. But today, they were waiting for a big shot. Even Master Niu was waiting patiently.

After more than an hour, Master Niu could not wait. He called his old brother, Derby, in front of everyone. "Old brother, when will the big shot come?"

Derby replied, "The big shot has been there, but he's left."

Derby hung up the communication device as soon as he finished talking.

Hearing Derby's words, the people in the hall looked at each other in dismay. "Did the big shot come and leave?"

"How could he leave?"

"Could it be that the arrogant rascal just now has displeased a big shot?"

"Yes! It must be so! The boy looked like he didn't care about anyone, which made the big shot dissatisfied with him, so he left!"

Chapter 1413

In this technology-developed civilization, the speed of news spreading was far beyond imagination. The news that Orfeo was killed immediately spread, and Syl's name also spread to the ears of many forces on that day.

In the ears of all the major forces, Syl had no taboos and was powerful. He did things without considering the consequences. The whole Ensver City had given him a title: Lunatic! A man who dared to provoke Master Niu face-to-face and killed his 28 subordinates, and a man who could kill a junior of the Meng Family without thinking about the consequences. If he was not a lunatic, then what was he?

At eleven o'clock in the evening, Zylvia left Henry's home after meal.

Henry turned on his communication device, and Derby's face showed up.

"What's wrong?"

Henry lay comfortably on the sofa, switching the program on TV while asking.

"My lord, I heard what happened in the banquet hall today. Are you going to turn against the Meng Family completely?"

Derbey spoke.

"Turn against?"

Henry raised his eyebrows and said, "Tell me about the basic distribution of power in Enver City."

Derbey nodded and said, "Lord, there are five forces in Ensver City without counting bandits. Three of them are the families that run the academies, the Meng Family,

the Sun Family, and the Tan Family, while the other two are Old Niu and myself. Old Niu has a casino in Ensver City to deal with some issues in the grey area. If the three major academies can't handle something, it will be handed over to Old Niu. In terms of status, Old Niu is not much different from the other three forces. I heard that you have some conflicts with Old Niu today."

"Old Niu?"

"From the way you address him, do you two know each other very well?"

Henry picked up the teacup on the tea table, blew a few breaths gently, and took a small sip.

Derbey shook his head and replied, "Not anymore, is it necessary to arrange for someone to deal with him?"

Henry shook his head with a smile. "There's no need. Their presence can help us build up momentum. Well, let's not talk about it. There are some people coming. I'll deal with them."

After Henry finished speaking, he hung up the communication device directly. A second after Henry hung up the device, several figures rushed in from outside the window.

Henry stretched his body and muttered. "The Meng Family, huh? I don't understand. Since you all already know that Master Niu had twenty-eight people killed by my hands, why do you all have to send someone at the middle stage of the Divine Realm to die? There's a total of six people. If you are here, you won't be able to leave."

When Henry finished his sentence, the window of the room was closed.

"Everyone."

Henry got up and opened his arms, as if to make some kind of welcome, "Welcome to the first stronghold of

Radiant Island."

Radiant Island! The six people who had charged into the room suddenly shuddered.

Henry picked up a mask from the corner of the sofa and put it on slowly. The purple light condensed and swirled in front of Henry.

"It's you!"

Fear was written all over the faces of the six people of the Meng Family. At that moment, they understood why Syl was so arrogant and had no taboos. That was because he was the spokesman of Radiant Island! The peak of the Divine Realm! The moment Henry put on his mask, what the six members of the Meng Family were thinking was to spread the news. Unfortunately, they did not have the chance. With a flash of purple light, everything was settled.

Henry sat back on the sofa and began to watch TV.

A night of silence.

The next morning, Henry got up to cook as usual. When it was time, Zylvia did not show up. Henry felt a little strange, but he did not pay much attention to it.

While Henry was enjoying his breakfast, a call was connected directly to Henry's communicator. Without Henry's consent, Zylvia's beautiful face appeared in front of Henry in the form of a projection.

It could be clearly seen that Zylvia's hair was messy and there was an obvious bruise on her face.

From Henry's communication device, a hoarse voice sounded, "Syl, your strength is not bad. You killed six of us. If you want this woman to live, I'll give you ten minutes to show up at the Meng's house."

When the other finished speaking, he immediately hung up.

Henry, who was enjoying breakfast, had a thoughtful look in his eyes. Then he elegantly put down the bowl and chopsticks, walked to the sofa, picked up the mask, and went out.

The Meng Family had an extremely high status in Ensver City. Even in this city that only had less than 30% of the green surface area, the Meng Family still had their own unique courtyard. Inside the courtyard, there were all kinds of green trees, rocks, and fake rivers, which made people envious.

At this time, there were hundreds of people gathered in Meng Family's courtyard. In the deepest part of the courtyard, the swollen-faced Zylvia was tied to a chair, and her hair was scattered.

"B*tch, you dare to set yourself against my Meng Family. Don't worry, I will torture you slowly. I will peel off your skin and pull out your tendons, which will make your life a living hell!"

A woman from the Meng Family stood in front of Zylvia with an evil look on her face. She was Orfeo's mother.

Orfeo's mother raised her arm and slapped Zylvia in the face, making a crisp sound.

"Third Aunt, be gentler. Don't destroy this beautiful face. I have to enjoy it at night."

A young man with a weak body stood at the side. He had deep-set eye sockets, and it was obvious that his body had been hollowed out by alcohol and women.

Orfeo's mother sneered. "After today, you can even use her head as a chamber pot."

"Thank you, Third Aunt."

The young man rubbed his palms and licked his lips.

The Meng Family was fully prepared today, waiting for Henry's arrival.

At nine o'clock in the morning, Henry leisurely stepped into the Meng Family's courtyard. The moment Henry stepped in, he felt that he was being stared at by countless pairs of eyes. Inside the Meng Family's courtyard, the eyes of all the people in the Meng Family were fixed on Henry. They had already remembered this guy who dared to provoke the Meng Family and didn't know the immensity of the world.

"Good. I didn't expect you to actually dare to show up."

The master of the Meng Family, that was, Juda's younger brother, said, "You're more arrogant than I thought. I hope you have the capital to be arrogant."

The members of the Meng Family stood on both sides of the road. They lined up in two rows as if they were welcoming guests. However, their gazes were not so friendly. Everyone's eyes were filled with killing intent. The sharp weapons in their hands were flashing with a cold light.

In the deepest part of the courtyard, Zylvia saw Henry, who was walking into the Meng Family's house. The moment she saw Henry, Zylvia was stunned. She had seen Henry's arrogance and Henry's unimpeachable appearance, but she really did not expect that this person would appear for her.

Henry looked around and then shook his head slightly. He said to the host, "What should we do today?"

"Fight until one of us dies?"

"Ha ha."

The Meng family master sneered. "My Meng family will not stop until we kill you."

Henry shrugged and said, "So, you're going to declare war?"

"What a joke!"

The man in charge of the Meng Family looked at Henry disdainfully. "You also need to have the capital to declare war on the Meng Family. But the question is, do you have it?"

"The capital?"

Henry put his hand behind his waist and slowly took out a mask.
