

Chapter 1424

The door of the room where Henry and the other two people were in was knocked loudly, but the people outside did not dare to break the door with their Qi. The reason was very simple. Once they used their Qi, the Evil Spirit puppets would sniff it and then rush over.

Nazario, who was trembling with fear, breathed a sigh of relief. When he knew that the target of those puppets was not himself, he felt a lot relieved.

"No, we can't let this go on. We will die when we get outside. Let's fight."

A man's voice came from outside the door. Then, with a bang, the door of the room where Henry and the other two people were located was completely broken, and two figures, a man and a woman, appeared in the eyes of Henry and the other two. At the same time, the two people at the door also saw Henry.

The two people at the door were wearing the same school uniform as Nazario's. Henry recognized the woman. When he first arrived in the Core world, Henry also told her that he belonged to the War Academy.

"You..." At the first sight of Henry, the woman made a loud and surprised voice.

Pa!

A crisp sound came from the woman's face and stopped her from talking.

Absalon stared at the woman and said with a gloomy look, "Shut up. If you want to die, don't drag me down!"

"You dare to hit my junior sister?!" The man from the Thunder Academy, who was with the woman, roared and rushed towards the Absalon.

The roar completely startled the puppets, and they could see that all the slowly moving puppets began to run toward the building where they were in.

When Absalon saw such a scene, his face was already gloomy, but his eyes were full of killing intent.

"Idiot!" Absalon growled, and then threw a punch at the man.

"Senior Brother Zhao, Senior Sister Wu!" Nazario said hurriedly at this time.

At the same time, Henry also used his Qi to get to Absalon's ear "We can't kill these two. Let's leave them alive. There are many people living in this city. If we kill them, it's estimated that they will blame Radiant Island for what had happened here. Monitoring in this room was still working."

Henry pointing vaguely to some cameras in the room.

Absalon's half-drenched fist suddenly stopped. He glared at Senior Brother Zhao and strode to the side.

"Nazario, why are you here?" It was only then that Senior Brother Zhao and Senior Sister Wu noticed Nazario.

"They saved me." Nazario explained, and at the same time, he said to Absalon, "Big brother, they are also students of our academy."

Absalon sneered, "Are the students of the academy stupid to this extent now? If you want to die, don't drag us down!"

"You..." Senior Sister Wu pointed at Absalon and Henry and said, "I know you two. You are the bandit from the other side of the mountain, and the other broke into our hunting ground. He is the man from the Seven Protectors of Mountain Heng!"

Henry glanced at Senior Sister Wu, but he did not speak. He glanced through the glass and then said, "Let's go, those puppets will come soon."

Absalon didn't say anything but just followed Henry.

Senior Sister Wu intended to talk to senior brother Zhao, but was hurriedly stopped by Nazario with a gesture. Senior Sister Wu took a deep breath and said nothing more. After all, it was more important to save her life now. Those puppets had rushed over, and she would die if she stayed there any longer.

At this moment, there were dense footsteps coming from the stairs. Obviously, those puppets had rushed up. They didn't dare to use the elevator at the moment. Once it made a sound, there would be no escape for them and they would be trapped in the elevator.

"There is a large terrace above this building. We can go there to avoid them first," Absalon suggested.

There were few ways to get into the terrace on the top floor. Henry and the other four people walked around the top floor for a long time before they found the entrance to the terrace. At this time, the figure of the puppet even appeared in their sight.

Fortunately, the five people were not too slow. Before the puppets

completely found them, all of them came to the terrace.

On the open-air terrace on the top floor, there were a lot of potted plants. There was also a large-scale swimming pool and a buffet restaurant. Obviously, this was a place for rich people to have fun.

As soon as Nazario, senior brother Zhao, and Senior Sister Wu saw the buffet restaurant, they rushed in like crazy. They had a very good hiding place. Now they ran out because they wanted to find food.

Henry and Absalon stood at the edge of the terrace, looking down.

In the dark night, the building was surrounded by dense puppets. In the room that was separated from Henry and others, the roar of the puppets came from time to time, which was particularly chilling.

Even though these puppets wouldn't completely tear them to shreds, they would turn into walking corpses after being eaten by them. To some extent, this was even more terrifying than death.

Absalon frowned. "My Lord, someone wants to deal with us, but I don't know where the so-called War Goddess comes from. Obviously, she has been prepared for a long time, waiting for the appearance of our Radiant Island."

Henry was silent and did not say a word.

At this point, Henry couldn't make a decision. He didn't know who was taking the lead behind Sylvia and who the chief of Sword Valley was. Henry didn't know at all what role the valley chief was.

To first cause Radiant Island to rise to prominence, and then push Radiant Island into the centre of the storm...what exactly was hidden in this?

Henry was now very clear that Sylvia definitely knew about his arrival. Did someone really restrict Sylvia's freedom, or did she have some goal? Henry could not explain this point clearly, but he was clear that he could trust Sylvia a hundred per cent. The rise of Radiant Island was because Sylvia had given him a hint. No matter what would happen now, Henry would still place this matter in the main position.

More than half an hour later, Nazario and the other two came out of the buffet restaurant. They looked like they have eaten enough. They jumped directly into the swimming pool and washed their bodies.

"Nazario, come here." Absalon called Nazario, "Tell me, what did you learn from your senior brothers and sisters?"

Nazario looked back at the two people who were still soaking in the swimming pool and said in a low voice, "There are still many living

people in the city now, but they are all hidden and dare not show up."

"Strange." Absalon was puzzled. "Since these puppets won't appear during the day, why aren't they leaving?"

"We can't go." Nazario looked bitter. "Some people wanted to leave during the day, but the danger during the day is no less than at night. The people from Radiant Island will appear during the day to kill people living in the city. We are not allowed to spread the news that they have opened the mine by themselves. They want to destroy the entire Thunder Town."

Absalon looked back at Henry.

Chapter 1425

The night gradually passed. Due to the roaring of the puppets all night, the three students of the Thunder Academy couldn't fall asleep safely.

Absalon looked through his communication device all night and saw the comments about Radiant Island on the Internet.

Now, everyone in Ensver City, including all the towns and villages in the northern part of the city, knew what had happened in Thunder Town. All of these events had been aimed at Radiant Island.

Now the biggest statement was that some people on the Radiant Island had already opened a coal mine in Thunder Town in order to destroy the entire Ensver City. The people from Radiant Island were involved with evil and said that these people hid their heads and didn't dare to show up. Once people saw the faces under the mask, they would kill them.

Henry listened to Absalon's reports one after another. He realized that he had underestimated the Core civilization before. The academies represented the government and possessed supreme strength. This seemed simple, but, in reality, it was full of loopholes. An authority that possessed military strength was completely weakened in terms of political power and should pay more attention to military strength, and some basic rules would be ignored. The law of the jungle ruled, but unfortunately, there were people in extremely high positions living in every town. Therefore, taking care of the citizens became the academy's most difficult thing to control. When such a situation was formed, any movement on the Internet would form a wave among the residents.

Just like right now, there were people discussing all sorts of things regarding Radiant Island on the internet. Even if the three major academies in Ensver City were to say that this matter had little to do with Radiant Island, the residents of Ensver City would not believe it. When the three major academies in Ensver City continued to make noise for a day, they didn't say anything else. There was already some kind of power that prevented them from speaking. Currently, the three major academies in Ensver City were stuck in this crack.

To the three major academies of Ensver City, this was yet another sleepless night. That night, the higher-ups of the three major academies stayed together. Although they had been talking about a meeting, they were actually reporting to the group to keep calm. This

was because they were afraid, afraid that Radiant Island would be angered by this matter and afraid that one of the Supremacy Masters of Radiant Island would suddenly come looking for them.

The next day, when the sky was about to brighten, the roar of the puppets that had been ringing for the whole night disappeared completely. The puppets gathering under the building also began to retreat in the direction of the Evil Spirit.

At this moment, Henry clearly saw where the feet of the python came from. Those feet were human legs!

Such a scene made Henry feel a little nauseated. That kind of nausea couldn't be described with words.

The Heretic God made a sigh and said, "Every Evil Spirit is like a kind of medicine. Whenever this civilization is about to get sick, the Evil Spirit will come out to cure it and eliminate something that wants to destroy it. What is under the ground is the biggest mystery to the entire Core. In order to get to the mine, people need to dig. If we dig to the deepest part, what we will see will be destruction. After all, the Evil Spirit may just be a guard in the underground hell."

Henry asked curiously, "Are there many strange things underground?"

"For sure." The Heretic God gave a positive answer. "But no one knows exactly what it is. This is just like the ocean on the surface. Everyone knows that the depths of the ocean are very terrifying, but no one can tell just how terrifying it is."

The three students also fell asleep after the roars faded away.

Henry glanced at Absalon and nodded. They were about to leave.

As for the hunting of Radiant Island that Nazario mentioned, they didn't take it seriously at all. Absalon had absolute confidence in Henry, and so did Henry himself. If there was no Spirit-controller, Henry would be fearless. There was Evil Spirit here, so the Spirit-controlling expert wouldn't take any action casually.

Just as Henry and Absalon were about to leave, they heard the sound of a propeller not far away.

One helicopter after another appeared in Henry and Absalon's sight.

The noise of the helicopter's propeller soon woke up the three students who had just slept.

When the three students opened their eyes and saw the helicopter that was hovering in the air, Nazario's eyes burst into joy. "It's the logo of the academy. The helicopters of the Thousand Blades Academy. They're

here to save us!"

When the three students saw this scene, they all cheered in surprise. They kept waving their hands to the top and began to jump.

"My Lord, what are we going to do next? The school sent someone here. Shall we go together?" Absalon looked at Henry.

Henry shook his head slightly. "They are not here to save people!"

"Not here to save people?" Absalon was taken aback.

Henry nodded and said, "If they are saving people, how can they not arrange large transport helicopters? These helicopters are all armed to fight, and each helicopter can take only five people. Each helicopter is equipped with weapons. Take a closer look, there are almost five people inside. They are not here to rescue people at all, but... to kill them!"

"Kill!" Absalon was alarmed.

Henry glanced at the three students who were still delighted. He whispered to Absalon, "Let's go!"

Without hesitation, Absalon followed Henry to the terrace exit.

"Brother, someone from the academy came to save us. We're saved!" Seeing Henry and Absalon were about to leave, Nazario said quickly.

Henry and Absalon ignored Nazario and strode away. They didn't dare to speed up too fast and were afraid of attracting the other party's attention, but Henry underestimated their killing desire. After seeing Henry and Absalon leaving the terrace, a total of six helicopters were suddenly opened fire.

"Bang bang bang bang!"

The development of the Core civilization was far beyond the surface, and the power of these firearms was also more horrible than the surface. With a burst of an explosion, the balcony, which was originally well-decorated, suddenly became broken. The three students, who were happy a second ago, instantly changed their faces and fled in a panic in the gunfire.

"They... they are not here to save us!" Senior Sister Wu roared.

Senior Brother Zhao's face turned pale. "It's a mobile force! It's the mobile force of the Thousand Blades Academy! They're here to silence us! They want to control the whole of Thunder Town! We can't get out of here! They don't want to let us out. They want to destroy the city. They're even more cold-blooded than the ones from Radiant Island!"

"Look over there!" Senior Sister Wu pointed to the sky. Over a hundred

helicopters were hovering there, densely packed and overwhelming.

In the next second, more than a hundred helicopters fired at the same time, and the artillery shells swept through the entire Thunder Town.

When the Evil Spirit, that was hovering under a building, noticed this, he let out a muffled roar like a buffalo.

"The Evil Spirit, don't be so arrogant!"

Two figures came from the sky, riding on the wind.

"I'm Bogomir Jian from the Sword Valley!"

"I'm Gavriilo Jian from the Sword Valley!"

Chapter 1426

Bogomir Jian and Gavriilo Jian from the Sword Valley! Both of them looked to be in their 30s. Bogomir was a man and Gavriilo was a woman. They stepped on their swords and there was a shadow floating behind them.

"The True Spirit!" Absalon's eyes widened. "These are two Supremacy Masters! The Sword Valley is the largest cultivation force in the Wanshan District. There are countless experts in this sect who specialize in swords and are extremely powerful. I've heard that the people of the Sword Valley are always a bit stronger than the experts of the same level."

At this moment, Henry had left the terrace. He saw that the two sword cultivators went straight to the Evil Spirit below.

Over a hundred helicopters began to set fire and spread through the whole city. The originally quiet town began to be chaotic at this moment. Figures rushed out from some corners and ran around Thunder Town.

Nazario and the other two also ran out of the terrace in a flurry. They were all pale and dusty, with panic and no joy in their eyes.

The helicopter continued to fire, and the glass in the building where Henry and others stayed shattered one after another.

Dust sprang up in all directions. Those below the level of the Divine Realm would die if they were to be met with these flames of fire.

They found a room with several walls and Henry and Absalon hid there.

Nazario and the other two had already been confused by the helicopters. They were running around in the building. Soon, Senior Brother Zhao let out a scream. He was shot in the leg. Fortunately, he was only hit by shrapnel. If he was directly hit by the bullet, one of his legs would probably be completely destroyed.

Nazario and Sister Wu quickly took Senior Brother Zhao to find a place to hide. They covered their heads and shivered with fear.

The shooting lasted for a minute, which was as long as a century for Nazario and the other two.

When the flames stopped, there was smoke and dust all around them. Every single one of them was covered in dust.

Henry looked outside the building. He could clearly see the helicopters hovering in the sky. Figures jumped out of the cabin one after another. These people all wore black grimace masks and looked like Reapers.

When Absalon saw this scene, he said in a low voice, "My lord, the authorities really want to deal with us this time. At most, half an hour later, the news of Radiant Island's Reaper slaughtering the city will be posted on the internet! They're trying to force Radiant Island to stand in opposition to the entire government and the people. We wanted to be white bandits, but they are forcing us to be real bandits!"

Henry shook his head slightly and said, "It is just a kind of statement. Those who are admitted by the people are officials, others are bandits. Wearing a mask doesn't stand for Radiant Island."

Henry stood up, patted the dust on his body, suddenly turned around and asked, "Do you know what is the most important thing on Radiant Island?"

Absalon wanted to open his mouth to answer, but he found that he really didn't have a definite answer in his heart. He shook his head.

Henry smiled and said, "Strength. If Radiant Island wants to slaughter the city today, we can really slaughter it. However, the imposter can't do it."

Henry glanced at the place where Nazario and the other two were. On the top of the three people's heads, a ceiling was crumbling. The three people below did not realize anything. They hadn't even recovered from the gunshot of the helicopters.

Seeing that the ceiling was about to fall, Henry suddenly rushed over and dragged the three people away at the same time. Just as they left.

"Rumble! Rumble!"

With a heavy sound, smoke and dust rose in all directions. A large piece of ceiling smashed where the three of them had just been. Looking at the two square meters wide, nearly ten centimetres thick ceiling, the three of them felt a lingering fear. Just now, they did not feel the ceiling smashing down. In this case, they had no Qi to protect themselves. They were bound to be seriously injured.

Nazario and the other two people all looked at Henry gratefully.

"Let's go. You have attracted their attention just now. Someone will come to search for us soon. Let's get out of here first." Henry said.

Nazario and Senior Sister Wu held Senior Brother Zhao and walked out of the building together. Before they could go down to the first floor, footsteps sounded in the corridor, which scared Nazario and the other

two. They held their breath immediately.

Henry winked at Absalon, who immediately understood and went downstairs first. Then, there was a burst of fighting in the corridor. When Nazario and the other two followed Henry downstairs, they saw Absalon standing there with a few pools of blood on the ground and nothing else. As for the footsteps before, they had completely disappeared now.

When placed in Ensver City, Absalon's strength was nothing. However, in a place like Thunder Town, he was already a bandit leader. Now that someone had come to wipe out the entire Thunder Town, other than two Supremacy Masters dealing with the Evil Spirit, not too many experts had been dispatched.

Although the forces in the Wanshan District were powerful, their opponents were not weak. If they sent out too many masters at once, the other forces would take advantage of the situation and attack them.

Those people wearing masks could be easily taken care of by Absalon.

When they came out of the building, they saw several bodies lying outside the building. Two of them were wearing uniforms of the Thunder Academy, and the rest were ordinary residents of the town. All of them had just escaped to the street and were killed by others.

Senior Sister Wu was looking out of the building.

"A search team is coming. Every time they clean up an area, they will send a signal. There is no signal from here, and they will send more people here."

Nazario's face was full of bitterness. "But where should we run now?"

Senior Sister Wu looked back at Henry and Absalon, and then said, "I know a base. Let's go there now. There are still many people there. One of them once designed the circulation pattern of the underground water in Thunder Town. He knows a way to escape from the town."

After that, she took the lead and ran forward.

Nazario would not doubt anything at all. At this time, the blood on Senior Brother Zhao's wound had been stopped, and he could barely keep up with Senior Sister Wu's speed.

Henry and Absalon were silent. Without saying anything, they just ran with them.

Henry did not care about the regular search team, but he was still a little afraid of Bogomir and Gavriilo. They were two genuine Spirit-

controlling experts, and there were True Spirits behind them. Henry, however, only had two Battle Spirits.

Henry didn't know how big of a difference there was between him and Spirit- controlling masters, but he naturally wouldn't take the initiative to reveal anything about the existence of these two Battle Spirits. His two Battle Spirits were his trump cards in the Core world and at the same time, they were the trump cards of Radiant Island. Once they were revealed, all of Radiant Island's power and influence would vanish. ⁶
