

Chapter 494

Sylvia looked in the direction of the voice and saw a young woman in a long red dress standing behind her. The young woman had a bright-red lipstick on her lips, which made her pretty charming.

Behind the woman in the red dress stood a young man, who was 1.75 meters tall, with sword-like eyebrows and star-like eyes. He was handsome.

"Little Red, don't be rude." The young man said softly, with a magnetic force in his voice.

The woman in the red dress obediently lowered her head and stood behind the young man.

The young man came forward and stretched out his hand to Sylvia. "Hello, Miss Lin. I'm Steve Xiao."

Megan pulled Sylvia's sleeve and introduced it to her, "Miss Lin, this is the Young Manor Master of the Xiao Manor."

"Hello." Sylvia smiled at him, but did not reach out her hand.

Sylvia had heard of this Xiao Manor. It was said that over 80% of the ancient kungfu families in China would use the weapons made by Xiao Manor. Xiao Manor was the largest military factory in the ancient martial arts world of China.

Seeing that Sylvia didn't even reach out her hand, Little Red rebuked her on the spot. "Sylvia Lin, you're a little too presumptuous!"

"Little Red!" Steve turned around and glared at her with reproach in his eyes.

Little Red quickly bowed her head and explained unwillingly, "Young Master, even the people of the Ji family would not ignore you. She is only the future Master of the Su Family.

She has nothing to be proud of!"

"That's enough!" Steve scolded discontentedly. "I'm here to make friends with Miss Lin. There should not be too many formal manners between friends."

After saying that, he looked at Sylvia and asked, "Miss Lin, how was your trip this time?"

"It was good." Before Sylvia could open her mouth, Megan responded immediately. Then she whispered to Sylvia, "Miss Lin, the young master Steve is still single. Xiao Manor has an extraordinary status in the ancient martial arts circle. It's also a good thing for the Su Family to have a close relationship with him!"

Sylvia pondered for a few seconds and then nodded. "Okay."

"Thank you, Miss Lin." Steve gave a fist and palm salute to Sylvia, and then made a gesture of inviting her.

At this time, the cruiser had arrived at the port. Under the guidance of the Ji family, all the well-known families in China gradually boarded the cruiser.

Megan said to Sylvia, "Miss Lin, Young Master Steve has been to Radiant Island before. Under his guidance, the journey will be much smoother."

Sylvia nodded and didn't say anything.

The cruiser belonged to that kind of luxury cruisers, which could carry thousands of people. The people from the ancient kungfu families sat on the ship but it still looked like the whole cruiser was empty. On the cruiser, there were the chess room, the leisure room, and the meals were all made of the freshest and most expensive ingredients.

At two o'clock in the afternoon, the sun was high above them and the sea breeze was slightly blowing. Sylvia stood on the deck. She knew that in four hours, the cruise would

arrive in front of the legendary island.

Looking at the blue sky, Sylvia asked Megan curiously, "What kind of place is Radiant Island?"

Just as Megan was about to speak, Steve's voice came from not far away. "It's heaven, but also hell."

Steve slowly walked to Sylvia's side, looked at the sea in front of him, and said, "That island is said to have the highest military level in the world. The scenery on the island is beautiful. I haven't seen anything more beautiful than it. However, under the beautiful scenery, a strong killing intent could be felt!"

Sylvia looked at him with suspicion and didn't say anything.

Steve seemed to have guessed what Sylvia was thinking and continued to say, "As we all know, Radiant Island was established based on strong forces. Everyone there is unforgivably evil. It can be said that if you see them outside and hear their deeds, you will only think of one word... scum!"

"There are strict rules on the island. If you accidentally walk to the forbidden area, you will die. There is no one in the world who dares to ignore the rules of the island. Even if the leaders of each country come there, they must be careful."

Sylvia couldn't believe what he said. Even the country leaders had to follow the rules of the island? What kind of person was the owner of that island?

"Have you ever met the owner of Radiant Island?" Sylvia asked.

"No." Steve shook his head. "In the world, there are a few people who have really seen the owner of Radiant Island, but this time, people are very hopeful. They received the news that during this year's underground world meeting,

the Lord of Radiant Island, the legendary King Of Hell, The Conqueror, who is known as the strongest man in the world, will show up!"

"Miss, I think it's better not to see that person." Megan said on the side, "It's said that The Conqueror requested people to offer him many young girls as a sacrifice every year. After those young girls came to the island, none of them could safely return home. He is a devil..."

Time passed slowly. When it was 5:50 p.m., they could feel that the wind on the sea had become a little cold.

In the distance, an island slowly appeared in people's sight. Sylvia walked out of the cabin and went to the deck. At this moment, many people did the same thing as Sylvia did. They walked out of the cabin and looked at the island in the distance.

That island was the Holy Land in the eyes of all the underground forces.

This event had two names. Some people called it Big Undeground World Meeting. While others called it Paying Respects To Heaven!

An island floating on the surface of the sea gave people a strong feeling of magnificence.

From a distance, they could see the wall on the island. The wide walls were made of granite and steel. Even the cannonballs of the battle-cruisers could not break through the wall easily.

The wall was 2 meters thick and 25 meters high, completely surrounding the island.

Around the island, there were countless warships. Just one look at them was enough to make people panic. When these warships headed in one direction, they could raze any known port in the present world to the ground in a short

time.

The people standing on the cruise ship felt extraordinarily small at the moment.

By looking along the wall, they could see that there were four radars slowly rotating in the two corners of the wall.

"No one is allowed to go to the island from the sky. These four radars are using the most advanced technology known in the current world. Within 100,000 meters above the surface of the island, they can accurately sense the danger. And the people from the island would strike first!" The voice of the person in charge of the Ji family sounded on the deck.

The people on the deck were all shocked. Some people thought that the ancient kungfu families were already detached from the outside world, but now they realized how small they were.

Chapter 495

As the cruiser approached, they gradually got close to the island. Looking at the place, they could feel an invisible majesty pressing on them. They could not help slowing down their pace, and even subconsciously, their voices became lower.

The warship parked in front of the island, at this moment, slowly made way for the cruiser to pass.

The cruiser that Sylvia was riding on was moving slowly between the warships. The muzzles of the warships on both sides were aimed at the cruiser. As the cruiser moved slowly, the muzzles of the warships were also changing their direction.

Everyone standing on the cruise could feel a huge pressure.

Sylvia couldn't help but show a nervous look on her pretty face.

Steve saw the nervousness on Sylvia's face and said with a smile, "Don't worry. I have a few friends on somewhat high positions on this island."

When Steve spoke, his face was full of pride. After all, it was a kind of honour for many people to know the people on Radiant Island.

The cruiser was gradually approaching the port. Sylvia saw that the wall, which was 25 meters high, moved slowly. A gap slowly opened. There was a huge stone door.

When the door opened, people felt that there was a glimmer of light in the dark.

The tall wall made people feel a bit depressed, but the

flower garden inside the wall was like a colourful feast, which made people's eyes brighten.

Sylvia saw a girl of 13 or 14 years old with blond hair, in a snow-white dress and a corolla on her head. She shuttled through the flower garden like an elf.

Before stepping on the island, Sylvia had thought about this island a lot. She guessed what kind of place the island was. She had thought that there might be a steel castle full of tanks and armoured vehicles everywhere.

Sylvia also thought about it. There were fierce people walking everywhere, and their eyes alone were enough to scare people.

But now she found that this place was as beautiful as a painting.

There were no high buildings. Behind the steel wall, there was a paradise, wooden houses, and green hills. They could be seen clearly. The people here were almost all wearing linen clothes, giving people a very simple feeling.

Not only Sylvia but also 90% of the people present thought so.

The person in charge of Ji family had already expected what they would think, so he said, "If the island was open to the public, this would be absolutely the most beautiful tourist attraction in the world. But remember, on the island, you are not allowed to take photos. The flowers and vegetation planted by the islanders are likely to be their food for the second half of the year. If you step on their food, it is equivalent to their lives. I don't think I need to say more about how the people on the island will react to those who want their lives."

After stepping on the island, the underground forces of each country would be separated from the other countries,

which meant that they were divided into several areas.

Tonight, everyone would stay on Radiant Island. The next day morning, the underground world hall would be held.

There were several forbidden zones on the island. In the centre of the island, there was an ancient castle designed in European style, which was absolutely beyond the reach. There were restricted zones within five meters of the wall of the island. No one was allowed to get within five meters of the wall.

The person in charge of the Ji family gave a map to everyone. On the map, all forbidden areas were marked and no one was allowed to go there.

The place where Sylvia stayed was a courtyard built entirely of wood, which was fully in accordance with Chinese style. There were several forces living in each courtyard. Outside the courtyard lived the inhabitants of the island, who would prepare food for the people who came to the island.

These exquisite delicacies and rare fruits would not cost the people who came to the island a penny. There was no currency on Radiant Island.

When it was seven o'clock in the afternoon, many people walked out of their rooms one after another, ready to enjoy the exquisite dinner, and then went to explore this mysterious island.

"Miss Lin, may I be your guide?" Steve came to Sylvia and offered himself.

"Thank you so much, Master Xiao." Megan said directly, "Our lady has never been on the island."

"Don't worry. I'm familiar with this island!" Steve took the initiative to sit opposite Sylvia.

After dinner, they walked out of the quadrangle courtyard and headed for the walk around the island.

The island was filled with flowers everywhere, and the air was filled with a special scent. People would feel relaxed and happy when they took a deep breath.

Sylvia, Megan, Steve and Little Red walked around the island, feeling the atmosphere of this island. The most interesting thing for Sylvia was that she didn't know why she felt so relaxed after coming here.

Sylvia turned her head and looked at the centre of the island. There was a European-style castle, and everyone looked at it in awe.

At this moment, in this ancient castle, there was a rectangular table full of exquisite delicacies.

"Boss, you must drink more!" Wade raised his glass.

"Hahaha, I also think so. If you don't drink a lot today, I won't let you go." Red Hair wore a long robe and shook the red wine in the glass.

Future was holding a chicken drumstick. "Boss, you drink first, and I'll drink with you when I'm full."

"That won't do!" The bald man, Sea God, shook his head vigorously. "What's the point of just us drinking?"

"Then make sister Moon Goddess accompany you." Future's mouth was stuffed, and she looked at Moon Goddess who was sitting opposite her.

Moon Goddess, who was wearing a purple trailing dress, smiled and said, "Future, can you bear to let your sister drink with these rough people?"

"Come on!" A strong black man curled his mouth. He was holding a bright machete in his hand. The handle of the machete was inlaid with a black gem. The knife was sharp and it could cut through the iron like it was the softest thing in the world. At this moment, the black man was cutting a lamb leg with it.

"Alex, can't you smell the blood when you cut meat with this machete?" Felix looked at the strong black man with a disgusted look. "There have been at least 9000 people who died under that machete, right?"

"What do you know?" The black man cut off a piece of meat and put it into his mouth happily. "The more people I kill with this machete, the more I enjoy eating."

This strong black man was one of the leaders of Reapers, Alex.

A slightly thinner man with white skin shook his head and said, "I agree with with Felix. Alex, I've already sensed the strong smell."

"Azra, if you dare to talk to me like that again, I'll twist your head off and put it in your ass!" Alex raised the machete in his hand.

Chapter 496

At this time, the people sitting at the table were the most powerful people on Radiant Island.

Wade White, Red Hair, Future, Moon Goddess, Felix, Sea God, and Azra.

These eight people were the owners of the King's rings.

The door of the banquet hall was pushed open, and a slender old man with grey hair came in. He said to Henry, "My lord, Madam has arrived. Would you like to send someone to pick her up?"

"No need." Henry shook his head. He didn't know why Sylvia was angry with him now, so it was better to figure it out first. He said, "Peze, arrange someone to follow her. The scenery on the island is good, let her have a good look around."

"Understood." The old man nodded and was ready to go out.

"By the way," Henry suddenly said, "I haven't seen you for a long time, Peze, come join us."

Peze's body shook. "My lord, I..."

"Uncle Peze, what are you doing? It's not easy for Big Boss to come back. Every time, only you can drink with him to the end." Future swallowed the things in her mouths. "Just come drink with Boss."

Peze shook his head slowly, and his face was full of apologies. "My lord, I'm a sinner on this island. I'm not qualified to sit..."

"All right!" Henry suddenly waved his hand and slammed the table in front of him.

Henry's action scared everyone on the table to tremble. Everyone stopped their actions. Even Wade and Future, who liked to joke with Henry, were sitting with scared faces and looking at Henry.

Henry stared at Peze and said, "I've already said that the departure of Cesia has nothing to do with you!"

Peze opened his mouth and said in a hoarse voice, "But still, I adopted her. She has betrayed Radiant Island and betrayed our beliefs."

Henry grinned and said, "You are her adopted father for sure, but don't forget that you are also one of the Ten Kings of Radiant Island! Tomorrow, you will attend the underground world meeting on behalf of Radiant Island and sit on the main seat. At this moment, you are even unwilling to have a meal with me. Peze, are you going to betray me?"

"I don't dare!" Peze bent his legs and knelt on the spot.

"Since you don't dare, so come and have a meal with us." Henry played with a glass in his hand.

"Uncle Peze, come on, sit down." Future walked over and helped him up from the ground. "Boss has long regarded you as his elder. At this moment, we are all here, but you are not. Boss also feels uncomfortable."

Peze looked at Henry and nodded slowly. "Then I'll go out and arrange Madam's affairs first."

"Okay, this glass of wine is waiting for you." Henry filled the glass in front of him.

Peze nodded and walked out of the banquet hall. He ordered the people on the island to take good care of Sylvia, but they must not disturb Sylvia's life. As for the so-called forbidden areas on the island, they naturally did not exist for Sylvia. There was no place where the King's wife could not go.

Outside the castle, on the small road of the island.

Sylvia walked here and looked into the distance. There was a flower garden, which was particularly beautiful. There were colourful flowers in the garden. Behind the flower garden, there was a small lake. This small lake was in the centre of the island. Standing next to this small lake, the whole island could be seen.

Sylvia walked to the front of the flower garden. She was about 30 meters away from it and saw a sign with the word "Stop".

"Miss, this is also a forbidden area on the island. We can't go any further," Megan said.

"All right." Hearing Megan's words, Sylvia's face flashed a trace of loss. She really wanted to go to the flower garden to have a look. Women were particularly interested in this kind of flowers. Especially, Sylvia had never been out to explore since she was a child. She rarely came to such a beautiful place.

There were many types of flowers in the flower garden in front of her. The flowers were blooming so brightly that people could smell the fragrance from the flower garden even if they were 30 meters away from them.

Seeing the disappointment in Sylvia's eyes, Steve gritted his teeth and said, "Miss Lin, I'll talk to my friend. You can go in and you can take a closer look."

Steve didn't dare to brag too much. He knew someone on Radiant Island, but he was one of his father's friends. He was lucky enough to come to the island and do some gardening here.

"No, it's too troublesome." Sylvia waved her hand and was ready to leave.

"Miss, it's not a big deal." Megan grabbed Sylvia's arm. "The

connections of Master Xiao are very strong. Don't you think so, Master Xiao?"

When Megan spoke, she kept blinking her eyes at the Steve.

"Yes, yes, that's right." Steve nodded repeatedly. "Miss Lin, let's go in now. I'll tell my friend."

Steve had a very good impression of Sylvia. Not to mention anything else, Sylvia's outstanding appearance and unique temperament made him fascinated. This time, Megan found a way for Sylvia and Steve to meet.

Now that he finally had a chance to show off, how could he let go of it? He had to do it.

Seeing that Steve had spoken, Megan dragged Sylvia to the garden and stepped beyond the "Stop" sign.

Steve quickly took out his mobile phone and sent a message to ask his uncle to help him.

Soon, the message came back. According to the message, they could get close to the flower garden, but they couldn't stay there too long, at most five minutes, and they couldn't get too close to it!

Sylvia walked to the flower garden and looked at it closely. She once again saw the unknown beauty of the flower garden. All kinds of flowers, like well-dressed girls, showed their most beautiful side in front of their loved ones.

Steve also hurried to the flower garden. He didn't look at the flowers but just wanted to show off his connections in front of Sylvia and he was paying attention to the time.

Sylvia just stood in front of the flower garden for a minute, and then she heard a loud shout coming from the side.

"What are you doing?"

This shout startled the four people in front of the flower

garden. Following the voice, they turned their heads and saw a man in linen clothes walking towards them.

When he saw the man in linen clothes, Steve's face suddenly turned pale.

"It's over!"

Steve knew very well that the people living on the island dressed like this. He had a bad luck. It was a felony to break into the forbidden area!
