

## Chapter 516

The strength of Radiant Island was unimaginable to many people. Perhaps, the farmer you saw on the island was a skilful killer. Perhaps, former identity of the aunty that takes care of the plants would make most people in the world look up to her.

Although the hundreds of jets hovered around Radiant Island with great momentum, one should not forget that Radiant Island never relied on that wall, not on the four radars, not on the army of Sea God.

On the contrary, these things existed because of this island!

The smile on Cesia's face gradually disappeared. She looked at the people gathered in front of her. As one of the 10 kings on the island, she was very clear about how powerful her brothers and sisters were.

Cesia raised her hand slowly. The hovering jets slowed down and floated there, ready to fire at any

time.

At this moment, Henry and Cesia opened their mouths at the same time.

"Fight!"

With Henry's shout, Alex let out an angry roar and threw the machete in his hand into the air. Moon Goddess wielded the long whip in her hand. It hooked the handle of the machete. Under the waving of Moon Goddess, the machete cut through the wings. The solid jet was as fragile as tofu and was easily cut by the machete.

An explosion sounded in the air. This was the beginning of the war.

Countless jets circled in the air and fired.

Facing these flames, Future reached out her hand to draw a line on the tablet. With her actions, the ground under everyone's feet shook, and one by one, the artilleries flipped out of the ground and fired in the air.

There were too many jets in the sky, so there was no need to aim. There was an explosion.

"Kill!"

When Cesia pushed open the gate of the castle, countless figures with white masks rushed in from outside. This time, she had made sufficient preparations, she did not count only on the countless battle jets circling around the castle.

The Reapers in armor roared, slapped their armors together, and rushed toward those figures wearing white masks.

A great battle was about to break out!

Red Hair had no weapon. His hands were the most powerful weapon. One person rushed to the front of Red Hair, but before he could make a move, his head was pinched by Red Hair and exploded directly.

The blood splashed all over his body. He licked his lips with a blood-thirsty smile and took the initiative to grab the next one.

The blade in Sea God's hand was invincible. Any weapon would break if it touched his blade.

No one on the island could underestimate the top combat capability of Radiant Island.

Outside the castle, a gardener put down the hose in his hand and sighed. He walked to his log cabin

and picked up a heavy sword, which had two words engraved on it, Wufeng Sword!

In recent years, no one had heard of the "Wufeng Sword". However, 30 years ago, everybody would inevitably be scared. Back then, Wufeng Sword was used by the top master of ancient Chinese antique families. No one would have thought that in his old age, he would be an ordinary gardener on Radiant Island.

The gardener took out his heavy sword and walked out of the wooden house. When he walked out of the house, he saw his old neighbour also come out. The old neighbour took an iron stick in his hand and there was a vague word "Flower" carved on it.

Both of them noticed each other and smiled at each other. Then, they rushed to the people on the island who were raging with white masks.

In the castle, the people from the forces widened their eyes. At this moment, the foundation of Radiant Island burst out and the trump card that they used shocked them. This was just an island that had only been founded a short time ago, and

there were so many mysteries. There were thousands of artilleries rising from the ground. No one knew how many artilleries there were under the ground.

Future was indeed a genius who had been ahead of all human beings in terms of technology. The owner of the Eternal King's Ring was the biggest barrier in this island!

The gunfire landed to the ground. Wade stood in front of Sylvia without moving his feet. His attention was always focused on his surroundings. As long as he was there, no one could hurt Sylvia.

The huge explosion caused a gust of wind, and the sky had long been filled with flames. A strong wind swept over, blowing Henry's robe.

The jets in the sky began to fight back. The gunfire swept to the ground, and the cannon platforms exploded.

Broken stones were rolling on the ground, and a cannonball fell next to Sea God. The powerful shock wave sent Sea God flying several meters away, and he rolled several times on the ground to

stop the impact.

Felix took out a pocket pistol from his suit pocket. The pistol was only the size of a child's palm, but it was very powerful. With one shot, the jet form 40 meters above him turned into a flame. At the same time, a flame swept toward him. At the critical moment, Alex pulled him down and escaped the fatal fire.

"Hey, this time, the gambling debt from last time is cleared." Alex got up from the ground and stretched out his hand to Felix.

"Don't try to escape your debt that easy," said Felix as he propped himself upon the ground.

One by one, bats fell from the sky, Red Hair bathed in blood, and countless cracks appeared on his robe. "Boss, the firepower is too fierce. I can't hold on any longer!"

Red Hair and the others looked embarrassed, but in fact, they were already very shocked.

Although it was a mess to fight against countless jets alone at this moment, no one was injured. This was already a very proud battle result.

"The Conqueror, hand over the Fire Crystal!" A loud

voice came from the side.

Henry turned his head and saw a man wearing a long gown and a white mask. There was nothing on the mask. The man was holding a thin sword, and his action was extremely fast. In a blink of an eye, he was in front of Henry.

The moment this man stabbed out, Henry felt a sense of familiarity. Facing this man's sword, it was just like facing the sword-thrusting picture he saw in the Zhu family's tomb.

"Another person who knows how to use Qi?" Henry snorted. If Henry had faced such a sword strike before, he might have panicked. But since he fought with the old man with a sword last time, such a sword strike could not threaten Henry at all.

Although this sword was sharp, its power was limited. Henry dodged it and then punched at his opponent's face.

The man snorted and said disdainfully, "A commoner like you, how dare you fight with me?"

Facing Henry's punch, the man did not dodge, but let Henry punch his body.

Henry's fist landed on the opponent's shoulder and he felt as if it had hit on an iron plate.

"It feels like tickling." He said in a light voice, "It doesn't hurt and doesn't itch. The so-called The Conqueror is just so-so, hahaha."
