

Chapter 530

Who was the king of Radiant Island? There was only one person in the world!

If Sylvia were the King's wife, then her husband would be...

The father and son of the Jiang family looked at Henry in disbelief and gasped.

At the same time, the ten people from Radiant Island turned to look at Henry and shouted in unison, "Greetings, my king!"

The moment the two words "my king" were heard, the father and son of the Jiang family's legs went limp, and their faces suddenly turned pale, without a trace of blood.

Was this man The Conqueror? How is this possible? How could this be?

The Jiang family didn't go to the island last time, so they didn't know the relationship between Sylvia and The Conqueror.

Including those who were on friendly terms with the Jiang family and who had just put pressure on the Su Family, they were also in a panic now. They even doubted whether this thing was real!

After the ten people from Radiant Island said in unison, all the forces that had arrived, including the heads of the three well-known families in China, also bowed and greeted Henry, "Greeting, My King."

After greeting Henry, they looked at Sylvia and said, "Greetings, My Queen!"

The last hope of the father and son of the Jiang family was utterly shattered by the actions of the many big shots present!

This man was really The Conqueror!

Henry didn't say anything and waved his hand to the people present, indicating for them to be free from

salute.

Everyone stood aside and looked at Henry respectfully.

After the battle on the Radiant Island half a month ago, Henry had been entirely regarded as a real God by all the people on the island. He destroyed hundreds of battle jets with his own strength. This battle record was shocking enough to make people feel shocked.

Henry stood next to Sylvia with a smile at the corner of his mouth. He looked at Saul and asked, "Did you just say that you want me to kneel down?"

Saul looked at the smile on Henry's face. He only felt that a cold wind was coming to him. His legs were soft, and he didn't have the courage to continue standing and directly knelt down! He never thought that this person was the legendary The Conqueror, and Sylvia was his wife!

The deeds of the battle on the island had been spread everywhere. The Conqueror was willing to risk his life to fight against the whole world for his loved one. Now, what would happen if he offended the King's wife?

Saul knelt there, shivering all over. His lips were pale, and his whole body was sweating.

Saul's father forced himself not to kneel, but his face was also pale, and he couldn't say a word.

"I'm asking you, do you want me to kneel and kowtow?" Henry looked at Saul.

Saul didn't dare to say a word and shook his head slowly.

"Speak!" Henry suddenly shouted.

This shout completely scared Saul. It could be seen that Saul's pants had been wet, and the smell of urine spread.

Hearing this, Saul's father could no longer hold back and knelt directly.

The power of The Conqueror was too strong. Just his name was enough to make people respect him.

Henry gently jumped and came to the one-meter-high

copper clock.

"Who did you give this clock to?" Henry looked at Saul.

"I... I... give it to me," Saul answered in a trembling voice.

"Since it's for you, then you..." Henry put his hand on the top of the clock as he spoke. With a little force in his arm, the clock was grabbed by him. "Enjoy it."

As soon as the word "enjoy" fell, Henry grabbed the copper clock and fiercely pulled it toward Saul.

Saul was kneeling there. The width of the copper clock itself was not big, so it could not wholly cover Saul. However, under the power of Henry, this copper clock, without any hindrance, was pressed entirely to the ground.

A scream was heard. Saul's knees and half of his feet, which were exposed outside the clock, were directly cut by the clock.

Saul's screams lingered, making people's hair stand straight.

Blood spread along the bottom of the clock.

Jiang's father's face was pale. Listening to his son's scream, he didn't dare to move at all.

Henry said softly, "Kill."

When the ten people from Radiant Island with the Ghost Face Mask hearing Henry's voice. With a chilling atmosphere, they walked out of the hall of Su Family.

The door of the hall was closed from the outside, and screams could be heard outside the entrance.

The people who were still in the hall couldn't see what was going on outside at all, and they didn't dare to look at it. Everyone sat there with a pale face.

The Conqueror deserved to be called The Conqueror. Anyone who angered him would definitely not have a happy end! The screams outside the hall told everyone that the Jiang family was over! Those small families who had just stood with the Jiang family would not have a happy end either.

A few minutes later, the screams outside the door

stopped, and the door was opened again. A strong smell of blood filled the air, but there was nobody outside the door, not even a trace of blood. The nearly 100 people of the Jiang family seemed to evaporate from the earth.

Such a scene shocked everyone. The people on the island could make people quietly evaporate from the mortal world!

Henry picked up the clock in front of him. Saul, who had been screaming, did not make a sound at the moment. His eyes were wide open, but he was not vivid at all, and his seven apertures were bleeding.

When father Jiang saw this scene, how could he not know how his son was now? Tears suddenly flowed down from the corner of his eyes, and he still did not dare to say a word.

"I'm delighted with the Jiang family's big gift. Since this is the clock you gave to yourself, then take it back!" Henry waved his hand and no longer looked at the father.

"Thank you, My King." Jiang's father bowed his head and said. He slowly stood up, held the clock in one hand, picked up his son from the ground with the other hand, and slowly walked out of the hall.

The people in the room looked at the back of the father of the Jiang family, and everyone's heart was trembling. This was the consequence for offending The Conqueror! From now on, the ancient kungfu families would be under the rule of the Su Family!

As soon as Jiang's father walked out of the mansion of Su Family, a massive truck roared from the side and directly rolled over him and his son. The clock made the last sound.

In the hall of the Su Family, Henry sat on a chair casually and said to Victor, "Let's continue."

Victor nodded and shouted, "Let the ceremony continue!"

With the intervention of the father and son of the Jiang family, there were no other mistakes in this inauguration

ceremony. Everyone respectfully congratulated Sylvia. The Su Family, from today on, also leapt to become the top family in the world.
