

Chapter 531

The ceremony lasted for several hours, and there were many steps, such as worship the ancestors and so on.

It was Henry's first time to participate in this kind of ceremony. If it were someone else, even if it were the leader of the biggest country, he would have left. But today, he had been sitting there for a few hours. As long as he looked at that woman, Henry couldn't help but feel delighted.

When the ceremony ended, it was already five o'clock in the afternoon. Victor was responsible for arranging accommodation for the major forces, so Sylvia didn't have to worry about these things. After taking over as the Master of the Su Family, Sylvia only had a title. Victor was almost in charge of the Su Family's affairs. This was what Sylvia asked for. Although the Su Family was big and had a big business, and she had such a powerful husband now, Sylvia still couldn't let go of the Lins Group. After all, it was her own business, and she devoted everything to it.

Sylvia still wanted to manage Lins Group well. Generally speaking, taking over the Su Family's didn't have much influence on her life. She could only say that she would have more confidence in her business in the future.

On the day after the inauguration ceremony, Sylvia, together with Henry, took the Su Family's private plane back to Yinzhou City.

It was now autumn, and the daytime was shorter. When Henry and Sylvia arrived in Yinzhou, it was already dark.

Looking at the familiar but somehow strange airport in front of her, Sylvia sighed with emotion. It had been more than a month since she left last time.

"Honey, are you feeling okay? Why do you look a little worried?" Henry took Sylvia's hand and walked out of the airport.

Sylvia shook her head. Suddenly, she stopped and

looked at Henry.

"Honey, what's wrong with you?" Henry turned his head and asked strangely.

"I..." Sylvia opened her mouth, took a deep breath, and said, "Honey, I have heard a lot of rumours outside. People are saying that you want to be an enemy of the world because of one woman. They say you are not qualified to be a king at all."

"Tsk!" Henry curled his lip and waved his hand indifferently. "If they say it, let them say it. There had nothing to do with me."

"No." Sylvia shook her head. "Dear, do you think it's worth it?"

"Worth what?" Henry asked with a puzzled look.

"For me." Sylvia stared at Henry's eyes. "If one day, you really become the enemy of the whole world because of me, do you think it's worth it?"

Is it worth it?

Henry looked at Sylvia. He pulled up Sylvia's two soft hands with a smile and shook his head slightly. "Honey, I won't be an enemy of the whole world for you."

"Oh." When Sylvia heard this answer, there was a sense of loss in her eyes, but she could understand. When she was about to say something, she heard Henry's voice again.

"You are my world."

It made Sylvia's pretty face suddenly turn red. She immediately turned around and threw away Henry's hand. "Your cheesy words are disgusting."

Although Sylvia said so, there was a lot of sweetness in her heart.

Henry laughed and took Sylvia's hand again. "Honey, let's go."

Sylvia rolled her eyes and let Henry pull her out of the airport.

The two of them returned home. No one had lived in the house for more than a month.

Henry stood at the door and looked at Sylvia.

"Why are you looking at me? Open the door." Sylvia stood behind Henry and said.

Henry showed a bitter smile on his face. "Honey, you changed the door lock."

"Ah!" Sylvia covered her mouth, and there was an embarrassment on her pretty face. It was she who had indeed changed the lock. But one month had passed, she had forgotten about it. At that time, she wanted to cut off contact with Henry completely. Now, it was brought up, which made Sylvia feel incredibly embarrassed.

Sylvia pouted and snorted. "Then why did you deliberately walk in front of me? Get out of my way."

She grabbed Henry's sleeve and pulled him behind her.

Henry blushed with shame. Sylvia's look made him really unable to resist.

Sylvia opened the door. Noone had been here for more than a month. There was noticeable dust in the corners. There was also a smell of mildew on the sofa cushion. If they wanted to live here, they had to clean it first.

As soon as Henry entered the house, he skillfully took two buckets of water, twisted the rag, and wiped the table.

Looking at Henry who was skilled in cleaning, Sylvia felt a sense of unreality. Was this man in front of her really the king who made people kneel and were able to destroy hundreds of jets by himself?

When Sylvia thought of the scene when she deliberately alienated Henry, she blushed. At that time, in order to make him completely give up, and...

Sylvia's eyes suddenly froze. She thought of one thing. What happened after drinking in Paris that night?

Sylvia stared at Henry, who was wiping the table. Could it be that he and Milan...

Thinking of this, Sylvia felt bitter in her heart. If that was the case, how could she face this matter? In the end,

this matter was caused by her. At that time, she wanted to let Henry and Milan be together. But now, she was still with Henry. How unfair was it to Milan?

Sylvia's heart was suddenly filled with bitterness. She suddenly had a feeling that she was like the kind of shameless woman.

"Hon..." Sylvia was just about to talk to Henry when she heard someone knocking on the door.

"Mr. Zhang! Mr. Zhang, are you back?" Outside the door came an anxious voice.

"Who is it?" Henry did not notice the strange expression on Sylvia's face. He walked to the door and opened it. He saw Director Wei of the City Public Security Bureau standing outside the door.

"Director Wei?" Henry looked at him unexpectedly.

"Mr. Zhang, you're finally back. I've asked the security guards here to pay attention to you half a month ago." Director Wei explained quickly.

"Half a month ago?" Henry frowned. "What happened?"

"It's Ms. Qin. She was taken away by the people of Li's Village. It has been half a month since then!" Director Wei said with anxiety on his face.

"Jenny was taken away? What's going on?" Henry asked in a hurry.

"Mr. Zhang, it's a long story. Why don't you go to the police station with me first? I have some information for you." Director Wei looked at Henry and then at Sylvia.

"Okay, let's go now." Henry nodded.

About the matter of the Li's Village, Jenny only helped last time. Henry thought that the issue was solved, but he didn't expect that the people of the Li's Village dared to take people!

"Honey, what's going on?" Sylvia trotted over. Why did Li's Village take Jenny? She was confused.

"President Lin, come with me. This matter has a lot to do with the Lins Group," Director Wei said.

Chapter 532

Henry and Sylvia followed Director Wei to the Yinzhou City Bureau.

Director Wei directly took them to the office, took out a document, placed it in front of them, and poured tea for them.

Looking at the document taken out by Director Wei, Henry and Sylvia frowned.

"Who allowed construction on this piece of land?" The document in Sylvia's hand was about the piece of land above the ancestral hall of Li's village. At that time, she personally promised Li's village that she would not touch it. But now, the document showed that the land had been completely dug, and the underground ancestral hall had been exposed.

And on the document, it also recorded the reaction of Li's villagers after the construction work, which was beyond Sylvia's expectation.

Henry had long known that land had been dug. What he saw now was about the financial impact on Lins Group. A substantial economic chain kept attacking Lins Group. In just half a month, Lin's assets reduced by 10% and the loss reached nearly 1.5 billion.

Director Wei sat opposite them and said, "Mr. Zhang, on the second day after you left, people from Li's Village rushed into Hengyuan and took President Qin away."

Director Wei's face was full of bitterness.

This Li's village was specially instructed by the higher-ups to be left alone. Naturally, he dared not offend them. Henry's identity also made him dare not offend him either. It could be said that it was very uncomfortable for him to be caught in the middle now.

"Why did they take Jenny away?" Henry asked.

Director Wei shook his head. "I'm not very clear about that. Now even we can't easily enter Li's Village."

Director Wei shook his head. "I'm not very clear about that. Now even we can't easily enter Li's Village."

"Oh?" Henry was surprised. It was understandable that Li's Village didn't allow others to enter, but if even the officials were not allowed, it meant that the land had been taken into custody. How could the government allow such a thing to exist?

"It's gone too far!" A delicate voice came from the side. At this time, Sylvia had thoroughly finished reading the document. About what had happened some time ago, including the matter that people from Li's Village went to Lins Group and smashed down Lin's staff, and that Lin's staff was injured. The behaviour of Li's Village was really arrogant. Even if she promised to sell the land to them, they hadn't signed the contract yet. They had no deposit, even if Lin's touched the land, it was also in line with the law!

Sylvia asked, "Director Wei, you really don't care about this matter? If they have taken President Qin, it means that they have kidnapped her!"

In the document, Sylvia also saw that Jenny had helped Lins Group a lot during this period. She really did not expect that Jenny would make so much effort. Although she knew that Jenny was willing to help because of Henry, she was still grateful. Now Jenny was taken away because of Lin's matter, how could she not be anxious?

Director Wei shook his head and said nothing.

Henry said, "Well, I'll go to Li's Village and have a look. Director Wei, no matter what happens, you just need to report to your superior truthfully. If anything happens, ask them to find me. That's all!"

After Henry finished speaking, he stood up directly. This incident made him extremely angry. This Li's Village had to be taught a good lesson.

Director Wei nodded. What he was waiting for were Henry's words. Now, it was not something that a person like him could get involved in.

"Honey, I..." Sylvia also got up and grabbed Henry's arm.

She wanted to say something but stopped on second thought.

Henry shook his head at Sylvia. "Honey, I'll go to check the situation first. There's something wrong with that village. I'm afraid it's not safe for you to go there."

Hearing Henry's words, Sylvia didn't say anything more. She knew that if she decided to follow him, it would just increase Henry's burden. The group of people in Li's Village who dared to make trouble in front of Lins Group before and now illegally took Jenny was definitely not a group of reasonable people.

"Then be careful." Sylvia walked up to Henry and straightened his collar.

"Don't worry. Don't forget who your husband is." Henry smiled at Sylvia and walked out of the director's office.

Out of the police station, Henry didn't hesitate and went straight to Li's Village.

At this moment, the sky had already darkened, and Henry did not walk on the main road. Li's Village covered a vast area, and Henry sneaked in from the side. With his movement, very few people in the world could find him.

It was not the time to rest yet. There was still a lot of traffic on the pedestrian street in Yinzhou, but the Li's Village was quiet, which made Henry feel a strange feeling.

In the village, only the chirping of birds and insects could be heard. The breeze swept by, causing the leaves to rustle.

A faint light fell from the sky, and through the gap in the leaves, there was a mottled shadow.

Henry walked into the forest. Every time he stepped, he stepped on some dead trees and leaves and made a sound.

Such a scene did not make Henry angry at all. The whole Li's village was dead silent.

Henry slowly walked toward the centre of Li's village.

Along the way, Henry could not see anyone, which made Henry feel something was wrong.

More than ten minutes later, Henry walked out of the woods and came to the place where the village chief lived. Henry still remembered that there was a small altar behind the village chief's residence. Last time, Jenny told him that the altar was used to worship ancestors.

Henry looked at the altar on purpose, and his pupils suddenly contracted.

Although it was dark, Henry could still see clearly that there were two lit torches on the altar. Between the two torches, there was an iron cage. Around the iron cage, countless figures were sitting cross-legged. They were the villagers of the Li's Village.

The people of the Li's village sat there with their legs crossed. They were quiet, like sculptures.

Jenny was in the middle of the iron cage!

Jenny's clothes were intact, and she was locked in the cage. It could be seen that her face was full of gauntness, and her big bright eyes were closed at this time.

Such a scene made Henry clench his fists.

He took a deep breath and walked slowly towards the altar.

This time, Henry didn't deliberately hide his figure anymore. After a few steps, he was discovered.

"Who is it?"

A loud shout rang out from the bottom of the altar.

This shout completely woke up the people sitting around the altar. Nearly a hundred villagers sitting around the altar with their legs crossed opened their eyes. At this moment, Henry clearly saw that there was a flash of red light in their eyes.

"It's you?" A feminine voice sounded from above the altar. The young woman who followed the village chief of Li's Village jumped down from the top of the altar.

Chapter 533

This altar was three meters high. At this height, when an ordinary person jumped down, he would have to bend his knees to keep the balance. However, this young woman stood firmly there, like a gymnast who had got the best marks.

Henry squinted at the woman. Just as the woman jumped down, he obviously noticed the woman's way of exerting strength, as if there was a little Qi.

Those villagers sitting on the altar also stood up one after another and jumped down from the altar. The way they used their power was precisely the same as the woman just now!

Before, Henry had not mastered the Qi, so he was not very sensitive to Qi. But when the airflow appeared in his body, Henry saw at a glance that these people were more or less carrying some Qi when they exerted their strength, but this Qi was very weak.

But no matter how weak it was, it was still there!

This made Henry take a deep breath, and his feeling toward this village was even more strange.

"All the people in a village are in control of Qi?"

The village chief of Li's Village was still sitting cross-legged on the altar, and Jenny in the iron cage was still unconscious.

"We've been looking for you for half a month, but I didn't expect you to come here in person today, which saves us a lot of trouble." The young woman stared at Henry with a smile on her face.

Henry shook his head slightly and said nothing. Just as he saw Jenny being locked up in the cage, he had already killed these people in front of him in his head.

"Take him down!" The young woman shouted, and a group of villagers rushed toward Henry. Every one of them was walking at the same pace and had the same

fist method.

Looking at the villagers rushing towards him, Henry curled his lips and gently clenched his fists. Then, he suddenly punched out!

As he punched out, the airflow in his abdomen rushed toward Henry's fist with a stream of air, spurting out from Henry's fist.

In the past, no matter how powerful Henry's punch was, it could only be fixed on one person and cause harm to one person. With the addition of Qi, Henry's punch turned from a point injury into a face injury. With a punch, Henry flew to the three people in front of him.

This was the first battle in the real sense after Henry had learned how to control his Qi. Henry had to admit that he enjoyed this feeling very much. The strong Qi and the blessing of Qi made him realize the importance of Qi more and more!

The sky was very dark. Many people thought that he was moving too fast when he punched the three people away.

Nearly a hundred villagers rushed towards Henry. Henry combined the Qi in his body with his fists and feet, and his movements became faster and faster. In the fight, Henry found an important thing, which was the assistance of Qi to moves!

Just like when Henry was studying the sword of the man on the mural of Zhu family's cemetery, the sword played an auxiliary role to make his attack more fierce.

But now, the existence of Qi only made Henry's moves full of charm.

Iron Mountain Fist was a mighty move. In the past, when Henry used this move, his strength was high, but Henry always felt that something was missing. But now, with the assistance of Qi, Henry finally understood that the thing he thought was missing before was Qi!

When the Qi was combined with Iron Mountain Fist, Henry made this move. He had a feeling that the Qi emitting from his knees and shoulders had a kind of

invincible momentum! The strength of his back increased, which was not like that before!

Henry gave a whip kick. He clearly saw that in front of his leg, there was a blast of air, which was like a whip, suddenly pulled out in the direction of his kick!

"No wonder!" Henry was shocked and shouted in his heart, "No wonder a lot of cultivation methods gradually declined. All the movements in ancient kungfu were created with the assistance of Qi. It's said that the ancient kungfu of the Celestial Empire is impractical. It's just that people don't know how to control the Qi. With the assistance of the Qi, the power these movements could bring out is definitely not that simple!"

Henry finally understood why there was no use for him to read some ancient books and practice the powerful movements recorded in ancient texts. In the end, it was just because he was lacking the Qi!

After thinking through this point, Henry's face lit up with joy. He was proficient in eighty percent of the ancient Chinese kungfu movements. With the addition of the Qi, all these moves became stronger.

Henry performed a Tiger and Crane Double Fist. This kind of fist had evolved into an act long ago because it had no power at all. But at this moment, Henry clearly saw that there was a crane shadow in his left hand. Qi entirely condensed it. When he waved the hand, the crane shadow spread out its wings. Henry's right hand grabbed a tiger. When the tiger fist was used, the tiger suddenly rushed out.

"This is the real Tiger and Crane Double Form!" Henry couldn't help shouting.

What Henry didn't know was that if the scene he was showing now was seen by the man in the bamboo hat and linen gown on the boat that day, he would be shocked! It was absolutely not possible to integrate the Qi into the Cultivation Method and strike out the shaped punch when one first entered the Qi-controlling Realm. Even in the Recluse Association, few people could do it. Only a few people who could do it couldn't change the

form of Qi as Henry did!

Under the siege of the people of Li's village, Henry did not show any disadvantage. Instead, he was as strong as a tiger in a flock of sheep. Although these villagers were good at fighting, they were no match for Henry at all. Even the ordinary Reaper could deal with them efficiently in a one-on-one situation.

The strength of one's Qi would still depend on a person.

If it was in Henry's hands, it was a killing machine! If it were in the hands of these villagers, in Henry's eyes, it would just be used for some health-preserving skills!

Seeing that Henry was so powerful, the young woman's eyes were full of disbelief. She shouted, "How dare you act wildly in our village! How dare you!"

The young woman rushed toward Henry. Her strength was obviously higher than those villagers, but she was sent flying by Henry's fist.

"Let her go!" Henry shouted and took a step forward.

"Let her go? You disturbed our ancestors' peace, so you have to pay the price!" The young woman shouted angrily.

"Pay the price? I'd like to see what price you can make me pay!" Henry took another step forward and suddenly punched out. This time, he didn't hold back but punched on one person, which directly made the man spit blood and fly backwards.

The young woman's face suddenly changed. She retreated and rushed to the top of the altar in one step. Then she ran to the iron cage in a few steps, grabbed the burning torch beside the iron cage, and shouted, "If you dare to move again, I will burn her to death!"
