

Chapter 611

"It's a pity that you didn't suck all her blood." Henry shook his head at Leo.

"It's still... enough!" Leo's pupils suddenly contracted, and he rushed toward Henry.

"So fast!" Henry was shocked. Before he could see Leo's movement clearly, the other side had already come up to him.

The next second when Henry saw Leo, he felt a strong sense of oppression coming from in front of him.

Leo's seemingly casual punch directly broke through Henry's protective Qi curtain, allowing the punch to land on Henry's body.

How powerful was a punch that could break the protective curtain? Henry flew backwards like a cannonball and fell heavily on a wall. Because of the violent collision, the wall was cracked.

After Leo sent Henry flying with one punch, he stopped chasing him and stood where he was, looking at his own fist. "Power! This is the power that I've always dreamed of. I've waited for this day for twenty-one years. Even a Martial Emperor will bow at my feet!"

Several bones on Leo's body were broken by Henry's kick, and even his spine was broken. At this moment, he stood there, crooked, like a puppet that was tied up by threads.

Leo's body bled non-stop, but he didn't care at all. His face was immersed in joy. He could feel that the power of his bloodline was boiling!

This powerful strength made Leo feel as if he could trample the whole world under his feet. He looked at Lam, who was lying on the ground, and walked over again, revealing his fangs.

A fierce tiger pounced from Leo's back. Henry held the tiger and crane in his hands and attacked Leo from two

different directions.

The fierce tiger opened its big mouth and bit Leo's body. The white crane spread its wings and rushed toward Leo with an indomitable momentum.

"Ah!" Leo made another scream of pain. A large piece of his shoulder and the flesh on his chest was torn off by the tiger and crane that were formed out of Qi.

Henry's attack was successful. Without hesitation, he launched another attack. The Qi in front of his leg turned into a long whip, lashing at Leo in two different directions.

"I want you to die!" Leo let out a deep roar and stretched out his hand suddenly. His speed was as fast as lightning.

Henry's face changed, and he was about to withdraw his move. But Leo's speed was too fast. Before Henry finished his move, Leo's hand was around Henry's neck.

Leo stamped hard on the ground, and his body swooped down. Grabbing Henry's neck with one hand, he directly rushed to the wall next to him, and then slammed Henry hard on the wall.

"Cough."

Henry felt a sweetness in his throat, and a mouthful of blood spurted out from his mouth. He was smashed into the wall by Leo, and the wall gradually cracked. If someone was outside the tower, he could see some stones falling from the top floor of the pagoda.

"Do you know? You should feel honoured. Since I became a god, you are the first person who is able to hurt me, and also the last one. I will turn your bones into souvenirs to remind me of you all the time." Leo let out a hoarse voice, raised his fist high, and then smashed it on Henry's body.

A lotus emerged over Henry's head, sprinkling a layer of a Qi- shield. The Qi- shield seemed fragile, but it successfully resisted Leo's punch.

"Hmm?" Leo gave out a voice with doubts.

At the moment when Leo was confused, Henry gathered his strength and kicked Leo in the chest. Leo flew out in response and fell on the wall opposite to Henry.

Henry climbed out of the broken wall and saw that his jacket had been torn countless times. He wiped the blood from the corner of his mouth. Henry clenched his fists and rushed to Leo again.

"You are making me angry! You are making me angry!" Leo roared. His eyes were full of blood. Facing the attack from Henry, he seemed to be committing suicide. He opened his arms and let Henry punch him in the chest.

Henry's punch was so powerful that Leo was embedded in the wall. This time, the whole wall began to collapse.

Huge stones fell from the top of the pagoda and hit the supercar on the ground. The expensive supercar, which cost millions of dollars, turned into a pile of scrap iron. Half of Leo's body was also exposed outside the tower.

Henry threw a punch, but he didn't stop. He raised his fist again and punched Leo in the face. Each time, he used the greatest strength.

Peng!

With a sound of cracking stones, Leo's head smashed the stone wall behind him and was knocked out of the tower by Henry's fist.

"Ha, ha, ha, ha." A low voice came from Leo's mouth. "Are you that weak? Is it painful or itchy?"

Henry clenched his fist and threw it at Leo again. Now more than half of Leo's body was outside the pagoda. Henry's punches aimed to throw Leo out of the tower completely. From the height of 63 meters, Leo would definitely be smashed into a pile of meat if he was to fall down.

Just as Henry's punch was about to hit Leo's face again, Henry realized that he could no longer move forward and he was less than a centimetre away from Leo's face.

Leo's hand grabbed Henry's wrist tightly.

"Weak! Weak! You are too weak!" Leo pulled his head back from outside the tower. It could be clearly seen that his face had been completely deformed by Henry. The bridge of his nose collapsed, the cheekbones were broken, and even his eye sockets were completely broken.

Leo stared at Henry and licked his lips. He suddenly opened his mouth, revealing his sharp teeth, and bit into Henry's arm.

The pain of the sharp piercing skin appeared. Henry's pupils suddenly shrank. At this moment, he clearly felt that the blood in his body was rapidly pulled out by Leo.

Leo's wiggling throat proved that he was swallowing large mouthfuls of blood.

"Let go of me! Let go of me!" Henry lifted his knee and slammed it into Leo's face. The violent impact made Leo's face bend and his whole face was destroyed, but he still bit down on Henry's arm.

"I told you to let go of me!" Henry grabbed Leo's hair with his other hand and hit him with his knees again. Each time he hit Leo, he used a huge amount of Qi.

This time, the place where Henry hit was Leo's jawbone. Under the impact, Leo's jawbone was completely broken as expected, and he opened his mouth.

Henry quickly pulled back his arm. At this moment, Leo suddenly exploded. He launched a powerful attack, like a thunderbolt, hitting Henry madly.

Facing Leo's attack, Henry could only struggle to resist and had to step back.

Henry looked at Leo in front of him, whose face was distorted and his eyes were red. He felt that this was not a person at all, but a beast!

Chapter 612

Leo's attack was very violent. Although his body looked dilapidated, the power of his fist at this time was out of this world. If he hit a normal person, he could turn the person into the blood mousse with one punch.

The Qi-shield in front of Henry was like a thin layer of paper under Leo's fists. Henry was able to resist until now because of his super-strong physical ability and the lotus over his head. Every time when Henry was in danger, the lotus would sprinkle the Qi-shield. The strength of the Qi-shield was far stronger than what Henry had condensed, and it could resist Leo's attack.

But as Leo's attacks became more and more fierce, the lotus flower over Henry's head seemed to become weaker and weaker, and the intensity of the Qi-shield became smaller and smaller.

The moonlight passed through the window and shined on Leo. Leo let out a roar, and the power on his fist became more violent.

"I didn't expect that you would be so lucky. The energy in your blood is far beyond my expectation. I feel that my blood is boiling. Don't worry, I won't let your blood be wasted." Rose showed a cruel smile at the corner of his mouth. He stared at Henry as if he were a plate of delicious food.

Above the whole Zhao's county, an invisible Qi condensed into a spiral and began to gather at the top of the high pagoda in the centre of the county.

This city based on Eight Trigrams and Nine Diagrams, which had taken dozens of years to be built, began to play its role.

A huge amount of Qi was piled up at the top of the pagoda. All of a sudden, it drilled into Leo's body as if it had found a hole.

When the huge amount Qi poured into his body, a gust of wind rolled up beside Leo, and a huge airflow burst out

of his body, pushing Henry three metres away.

A strong wind completely enveloped Leo. This was a storm formed by Qi, which could tear a person to pieces.

Leo, who was in the wind of Qi, let out a miserable roar.

Henry seized the opportunity and endured the pain all over his body. He bent over and rushed to the place where Lam was lying. He wanted to take Lam to a safe place first.

Henry had just rushed halfway. When he passed by the wild wind, a badly mutilated hand stretched out from the wind and grabbed Henry's arm directly.

Henry turned his head and saw Leo walking out of the fierce wind. The flesh and blood on his body were all torn apart by the fierce wind. His whole body was badly mutilated, which looked extremely horrible.

Moreover, Henry also noticed that Leo was much taller than before. He was at least ten centimetres taller and his arms were thicker.

Leo tried hard to squeeze out from the raging wind. His bloody chest kept rising and falling, which meant that he was still suffering tremendous pain at the moment.

"You want to save her?" Leo bared his teeth. His face, which was covered with blood and rotten flesh, suddenly showed a touch of white teeth, which was especially scary. "You, a nonentity, make me feel very annoyed. That's why I decided to eat you first and then enjoy that woman, hah hah hah!"

As Leo's voice fell, he suddenly reached out with his other hand and grabbed Henry's Adam's apple. At the same time, he opened his mouth, revealing his sharp fangs, and bit Henry's shoulder.

The tusks penetrated Henry's skin without any resistance. Henry's whole body was firmly controlled by Leo, and there was no way for him to resist.

Layers of Qi-shield fell from Henry's head, but before the shield could be condensed, it was torn to pieces by the wind behind Leo.

The spinning speed of the cyclone in Henry's abdomen began to slow down, and the lotus flower above his head seemed to be on the verge of collapse.

The Zhao clan had prepared for 21 years to gather the power of the entire clan in order to awaken the bloodline power. How could they be underestimated? They didn't even think highly of the Martial Emperor. The strength of the bloodline power was unimaginable.

At this point, although Leo had only awakened a little bit of the power of the bloodline, it was already beyond Henry's imagination. After all, the time Henry had been in contact with the Qi was very short.

The blood in his body had been taken away, and a sense of weakness went straight to Henry's mind. Henry's face became pale. He gritted his teeth and used all his strength to try to break free from Leo's grip.

Leo's limbs kept expanding with the absorption of blood. This was a phenomenon that could not be explained by science. He was getting bigger and bigger, while Henry was getting weaker and weaker.

Henry's eyes gradually became hollow, and his tight muscles also gradually relaxed. His eyes closed. Leo let go of Henry's hand, but he still clenched Henry's fangs on his shoulder.

Now Henry was held in Leo's mouth.

The moonlight was getting brighter and brighter, and Leo's body was getting bigger and bigger. Before, he was only 1.8 metres tall, but now he was nearly two metres tall!

Leo's eyes were full of enjoyment. He greedily sucked the blood in Henry's body and felt the growth of his strength.

Inside Henry's body, the cyclone had completely stopped. Similarly, Henry's heart was only beating faintly.

Just five seconds after the cyclone stopped, a red light gradually spread from the inside of the cyclone and led the cyclone back to Henry's body.

"Have you had enough?" A cold and emotionless voice suddenly sounded in Leo's ear.

Leo was shocked. As he glanced at Henry, he saw Henry standing there without any resistance.

At the moment, Henry's eyes were full of red blood, and his bare skin was covered with scarlet blood streaks. He looked at Leo, who was sucking blood from his body, indifferently, as if he was watching some show.

Leo saw that Henry still had the ability to resist, so he grabbed Henry's body with both hands.

"Get lost!" Henry shouted softly, and his body suddenly shook.

Leo's sharp teeth, which had been biting on Henry's skin, were all shattered by the force. Leo's huge body, too, was sent flying by the impact and crashed against the wall.

After doing all this, Henry walked slowly toward Leo without looking at the several bloody holes in his shoulders.

Leo let out a beast-like roar and rushed toward Henry. He had no idea what to do. He was like a beast, trying to tear Henry apart with his hands.

Facing Leo's thick arms, Henry was expressionless. He stretched out two fingers and waved casually.

Leo had already stretched the arms in front of Henry, but now they broke from his shoulders at the same time. They were less than 10 centimetres away from Henry and fell vertically to the ground.

This was so amazing and so fast that Leo didn't even have time to react. When he saw his arms falling to the ground, he felt a sharp pain in his shoulders.

Leo made a painful roar and looked at Henry with horror in his eyes. He couldn't believe it. He couldn't understand how Henry, who just had no strength to fight back, suddenly showed such a great power!

Chapter 613

"You're just an ant. How dare you call yourself a god? There is only one god in the world!" Henry was as fast as a phantom and appeared less than three centimetres from Leo. He stared straight at Leo.

Under Henry's scarlet eyes, Leo subconsciously stepped back.

Henry reached out his hand, grabbed Leo's throat, and lifted him up.

Facing Henry, Leo didn't even have the ability to resist. He had no arms, and there was invisible energy around him that oppressed him, making him unable to move at all.

Henry took a step forward. At the same time as he took this step, the walls around the top of the pagoda were all cracked by an invisible force, and countless broken stones fell from the top of the pagoda.

The ceiling over Henry's head had no support, and it also fell down. A huge rock was falling towards Lam, who was lying there. If it was to hit her, Lam's body would definitely be smashed into meat puree.

As for all this, Henry acted as if he didn't see it. He held Leo up and walked to the edge of the platform at his feet.

The huge rock that was about to fall on Lam suddenly turned into powder, including the one falling toward Henry. When it was about a metre away from Henry, it turned into powder.

Henry looked at Leo and tilted his head. "Tell me, do you deserve to be called a god?"

"You... you..." Leo stared at Henry and said with difficulty, "You are not him. You... who the hell are you?"

"I am..." Henry's pupils grew redder and redder. "The ancient God, Dragon Yin, the only god in this world!"

Henry squeezed Leo's neck hard. Leo's whole face

turned red, but he could not do anything to resist.

"Stop!" A loud shout came from the entrance at the top of the pagoda.

A red figure stood at the entrance and looked at Henry.

"Enough, Henry Zhang, you a member of the Recluse Association, but you took the initiative to start a war against the Zhao clan. If you violate the rules, you will be punished by the Recluse Association."

"Recluse Association?" Henry's face was full of disdain. "Is this kind of thing worthy of reprimanding me?"

"How dare you! As a member of the Recluse Association, I have the right to arrest you because you despise the Recluse Association! Let go of the Zhao clan member in your hands!" The red figure stared at Henry.

"Okay." Henry grinned and suddenly loosened his grip.

He was already standing at the edge of the top of the pagoda. Leo was lifted up in the air by him. When Henry loosened his hand, Leo fell directly from more than 60 meters above the ground. Leo's strength was bound by Henry. If he fell down from here, there was no other outcome except death.

"You!" The red figure trembled all over.

"I just listened to you." Henry showed his white teeth. "This man's life is on you."

After Henry said that, he jumped down from the high pagoda.

The red figure rushed to the edge of the tower, but Henry's figure could not be seen. He could only see the unrecognizable Leo. At this moment, he fell to the ground, and blood was everywhere.

After a bloody night of fighting, the sky of the Zhao's County was filled with scarlet.

The sound of shouting and killing lasted for a whole night. Wade and other five kings had slaughtered the two remaining elders of the Zhao clan. The entire Zhao clan mansion had been piled up with corpses.

None of the people from the Zhao clan who came to the courtyard was able to get out alive.

At dawn, the sounds of shouting and killing stopped completely.

The entire area of Zhao's mansion was completely blocked, and no one could enter it. There were special people who dealt with this matter.

The people of Radiant Island left quietly, passing through various channels as they headed towards the island to join forces.

Lam's family was boarded on a plane. On the plane, there were specialized psychiatrists and surgeons who came to help them heal and overcome the shock they survived. What happened last night was too shocking for ordinary people like them.

Lam was found in the pagoda by Future. The top floor of the tower collapsed completely. Without a doubt, Henry fought with someone last night. When Future looked for that person, she could only see Lam.

After telling Lam's parents what had happened, the psychologist said, "You two, I hope you'll keep your mouths shut about last night. I want to tell you clearly that in the next three years, our people will keep an eye on you. I think you don't want to see the consequences if you expose what happened last night. I hope you can also tell this to Ms. Lam."

At this point, Lam was still unconscious. Lam's parents looked at each other and nodded subconsciously.

"That's the best. For the mental stress the three of you survived last night, we will give you 10 million yuan as compensation. Later, we will transfer the money to Ms. Lam's account. I hope that the three of you will abide by the agreement." The psychologist smiled.

Lam's parents understood that this so-called compensation was hush money. It was definitely that they could get the money because of Henry. Otherwise, according to these people's behaviour, it would be easy to take the lives of their family.

The most important thing was that in the eyes of Lam's family, the conflict yesterday was started by Henry in order to help them. As for what happened last night, they would not leak a word even if they were beaten to death.

"Rest assured, we will definitely not say anything." Lam's stepmother nodded her head heavily.

"Nice doing business with you."

In the Zhao family's county.

A figure in red and a figure in linen coat appeared in the Zhao mansion.

"Tut, tut, this kid's methods are really cruel." The figure in linen cloth was wearing a bamboo hat, and it was the man who gave Henry the Recluse Association token.

"The person you recruited has caused such a huge mess. How do you plan to deal with him?" The figure in the red coat somewhat discontentedly asked the man in a linen cloth.

"Take care of him? Why should I take care of him?" The figure in linen cloth asked in a puzzled tone, "The person who died last night had signs of awakening his bloodline. The Zhao clan violated the regulations and used forbidden arts. You have to know that if it weren't for Henry, this time, you would be blamed for negligence. You didn't thank him, but ask me how to deal with him?"

The figure in red waved his sleeve. "You want me to thank a man like him? Who does he think he is? Moreover, he publicly insulted the Recluse Association last night."

"Well, it's up to you. Anyway, Henry has made a great contribution this time. As for the insult you mentioned, young people don't have a sense of belonging to the guild, so it's understandable." The figure in linen cloth chuckled, waved his hand and left.

The figure in red stood where he was, clenching his fists tightly. The scene that happened last night kept replaying in his mind. Henry's arrogant smile and the disdainful look in his eyes even made his heart surge

with endless anger.

"You're just a junior who has just begun to control his Qi, yet you dare to act so arrogantly? You are just the owner of Radiant Island. I want to see what gives you the right to act so insolently!" The figure in red thought to himself.
