

Chapter 626

"That's easy to say!" The judge sneered. "Although we are testing theoretical knowledge, we also need to base it as if it was actual combat. You can also say that you would mobilize an army to protect the employer?"

"Yes..." Henry thought for a moment and said, "If it was allowed by the government, it could be done."

"Nonsense!" The judge slapped on the table in front of him. "Well, let me ask you. If it was an ordinary robber and you had some strength, you could directly kill him. But what if it is a super powerful robber, such as these two people!"

The judge reached out and pointed at Hyman and Griffith.

Henry took a look at them and replied with a relaxed expression, "Same. Just kill him directly."

Hearing Henry's words, Hyman's and Griffith's faces turned pale in an instant.

"How shameless you are!" The judge shouted angrily, "I'm not kidding you! With such an attitude, I can directly make you get out of here!"

Henry had a strange look on his face. "What, is there a problem with my attitude?"

Just as the judge was about to speak, Deputy Mayor Shan's voice rang out.

"Well, since he is so confident, the next round will be a free combat match. Let say the people of Guineay Security and Superstitious Security are kidnapers and Collier Security has to save the victim. If it's really like what he said and Collier Security successfully defeats them, the theoretical round and free combat round will belong to them."

Deputy Mayor Shan stood aside like he was ready to watch a play.

Hearing this, Hyman and Griffith both clenched their fists and looked at Henry unfriendly. Henry's contemptuous words made them feel uncomfortable and they both wanted to teach Henry a lesson.

"It's against the rules, Deputy Mayor!" Director Mu couldn't help saying, "We haven't had such a grading test for a long time. It's very unfair."

"Why is it not fair? He said this, so where is the problem?" Deputy Mayor Shan sneered. "It's decided. If Collier Security feels that it's not fair, they can leave at any time. I won't stop them!"

The attitude of the Deputy Mayor made people from Collier Security completely desperate. Hyman and Griffith were the absolute masters. In any place, they were the elites of the elites. Now Henry had to fight

against two people by himself. How could he possibly succeed? This was deliberately making things difficult for Collier Security! If this was regarded as the third grading project, Collier Security would definitely lose. Once they lost three times, there was no hope for them.

There were worried looks on the faces of the middle-aged captain and others, as well as Director Mu. Only Anna, after hearing the words of the Deputy Mayor, showed a smile on her face. This was a chance for Collier Security.

Free combat!

Although Hyman and Griffith were strong, Anna didn't think that they could be compared with Henry. It was not difficult for Henry to fight with two of them.

The judge who was in charge of the written examination heard it and his face lit up with joy. "Well, that's it. We'll do it in this hall and it's empty, so we can see it clearly. We don't want anyone to play any tricks!"

In this hall?

Collier Security's middle-aged captain looked even worse. If they chose a place similar to the old construction building, there were some blind angles that could help Henry fight against the two people. He had seen Henry's strength on the bus. Although he couldn't say that Henry would win, he would still have some opportunities. But in this hall, Henry would be surrounded by the enemies, so he had no chance!

After the judge finished speaking, he arranged for another man to pick up a straw doll. He handed the straw doll to Hyman and said, "According to the rules, the player who takes part in this round must defeat the two people from Guineay Security and Superstitious Security, before this straw doll gets hurt. If the player is defeated or the straw doll gets destroyed, it is the end!"

After the judge finished explaining the rules, people from Collier Security thought that there was no way for Henry to win. Now the straw doll was handed over to person from Guineay Security. As long as the other side was willing to do so, he could gently pull the straw doll with his hand, and then the straw doll would be destroyed. If Collier Security failed, it was impossible for them to win this competition!

The judge looked at Henry. "You just said it well. Let me see if your strength is as good as you said! Get ready. After ten seconds, we'll start!"

"Hyman!" Mr. Hu said to Hyman, "Don't leave him any chance. I don't want to see any accidents."

Hyman nodded to show that he understood. He was holding the straw doll with both hands now. As soon as started, he would tear it apart immediately. Even if Henry really had the strength to fight against two people at once, Collier Security Company was bound to lose.

Hyman thought it over. He would first win the match and then take the opportunity to teach the arrogant guy from Collier Security a lesson!

Griffith and Hyman looked at each other. They saw the same meaning in each other's eyes, and there was a tacit understanding between them.

Looking at the two people standing in the middle of the hall, Henry slowly lowered his body and rubbed his hands on the ground.

The middle-aged captain looked at the positions of Griffith and Hyman and shook his head. They faced two different directions. No matter from where Henry approached, he could not get the straw doll in Hyman's hand fast enough. This time, he was bound to surrender!

The judge returned to his seat and said, "The last three seconds, get ready!"

He said this to make Hyman prepared.

"Three! Two!"

The judges made a sound, counting down.

"One!"

As soon as the word "one" fell, Hyman began to exert force in his hands in order to tear the straw doll in his hands. He only needed a second to completely tear it up.

One second, for others, was so short, and they couldn't do anything.

But for Henry, it was enough!

Before the end of the judge's "one", Henry had come up to Hyman. Hyman didn't even see Henry clearly, but he felt a pain in his wrist. He subconsciously loosened his palm. The moment he loosened his hand, he felt his hands were empty. When he looked again, the straw doll in his hand was no longer there.

Griffith stood in front of Hyman with his eyes wide open, staring at Henry in front of him. Just now, he didn't see any movement of Henry at all. When he saw Henry clearly, the other side had already caught the straw doll.

Upon seeing this, everyone in the hall, including Anna, opened their eyes wide.

Anna knew that Henry was very strong, but she didn't know how strong Henry was. Now, this scene completely shocked her. She was sure that if Henry attacked her, she would not be able to see him and she would be dead immediately.

Deputy Mayor Shan, that judge, as well as Director Mu, Mr. Hu, and President Wong all opened their mouths wide, with disbelief in their eyes. What was happening at the moment had already exceeded their cognition. Could a person really turn into a phantom?

Chapter 627

Collier Security's fellows cheered together after being in a daze for a while. This scene was hard for them to believe, but it happened in front of them. Henry grabbed the straw doll from Hyman before anyone realized what had happened.

The captain cheered and rejoiced at the same time. Fortunately, he did not have a conflict with Henry on the bus before. Otherwise, the people he was with would not be enough to deal with Henry.

"We won, we won!" The middle-aged captain cheered. Originally, he had given up hope, but now hope had come again. This round included the theory round and the third fighting round, which meant that they got two points. If they were to do well in team round later, the crisis for Collier Security would be over.

"Shut up!" The judge shouted. "Who told you that you won? Did you win? Uh?"

"Why didn't we win?" The middle-aged captain couldn't help but respond to the judge.

The judge snorted, "The goal I mentioned was to kill the robbers, not just rescue the hostage. That was what he said just now. Excuse me, did he kill the robbers?"

The judge's words showed that he obviously didn't want to let Collier Security win.

"You!" The captain was so angry that he was about to speak, but Henry stopped him with a gesture.

Henry reached out his hand to point at Hyman and Griffith and then pointed at their necks.

Hyman and Griffith subconsciously reached out their hands to touch their necks, and then they both felt the dust on their hands.

Henry raised his hand. His fingers were covered with dust. Just before the match, he squatted and touched the ground.

This scene made Hyman and Griffith stunned. If the other party could easily wipe the dust on their necks, did it mean that if he wanted to kill them, he could have done it?

Hyman and Griffith took a deep breath.

Henry turned around and looked at the judges. "What do you think? Can it be considered that we have won?"

Hyman and Griffith wiped the dust off their necks. The judges also saw it clearly. There was no excuse for them, so they just flung their arms and said no more.

Deputy Mayor Shan's face was also not good-looking, and the official judge beside him did not say a word.

Director Mu looked at them for a while, then stood up and shouted, "I declare that Collier Security is the winner of the second and third round!"

Director Mu's words made Collier Security's people cheer. As long as they won team round, they would be able to win the competition. With powerful people like Henry, the team round was probably theirs. In the past, the team round was about arranging a task for everyone to work together to complete it.

The Deputy Mayor waved his sleeves discontentedly and got up to leave. Obviously, Collier Security's victory was beyond his expectations. He had tried his best to arrange the worst environment for them, but he did not expect that Collier Security would invite such a powerful person.

"What a good-for-nothing! What a good-for-nothing!" Mr. Hu walked up to Hyman and scolded him rudely, "He retired from the Heavenly Wolf, but he couldn't even last a second. What a f*cking good-for-nothing!"

Mr. Hu cursed and left the place as well.

An official said, "Rest for half an hour, and then the last round of the competition will begin!"

After all the people left, the captain from Collier Security and the others rushed to Henry as soon as possible.

"Brother, you are too fierce!" The middle-aged captain's face was full of admiration.

The female security guards were also full of admiration. In the industry like security, they naturally respected the powerful people the most. The strength shown by Henry just now had already exceeded their cognition.

Director Mu walked up to Anna and said, "President Jiang, this was not a nice thing to do. You made me worry for you in vain."

Anna smiled and said, "Director Mu, I didn't expect this either."

"Well, I am relieved that you have such an expert to help you. In the following team round, three company's teams will compete. With this man here, you are likely to win this time." Director Mu patted Anna on the shoulder. "I hope we can continue to cooperate next year. Since you guys have made a lot of contributions to society, I would like to see you guys get this five-star rating."

Anna nodded. "Director Mu, don't worry. We will always cooperate with the Security Bureau and benefit the citizens as much as possible."

Half an hour passed very quickly.

Everyone gathered in the hall again. Mr. Hu and President Wong showed up with a confident smile on their faces this time.

Watching the smiles on their faces, Director Mu and Anna had a bad feeling.

Standing in the centre of the room, the Deputy Mayor glanced around and said loudly, "Originally, the last round was supposed to be a group project. However, a small accident just happened, so I decided to change the way of this round."

Deputy Mayor Shan reached out his hand and hit the table. "Now, everyone's living standards are being improved, and the employer has a variety of security requirements. People in security companies also need to have a clear mind. Just now, I received a phone call from my office, which told me that the document about the investment for the next three years has been stolen. The three companies should find their own way to get that document back and give it to me tomorrow morning. Whoever succeeds will be the winner. This round is worth 3 points. Whoever wins this round will earn a five-star rating for their company. That's all!"

After saying that, the Deputy Mayor did not give anyone a chance to ask about it and directly walked away from the hall.

Mr. Hu and President Wong followed behind the Deputy Mayor with a smile on their faces.

In the hall, Collier Security's people looked at each other. This was pushing Collier Security to death. The last round was worth 3 points. The winner will be decided by the Deputy Mayor alone. What document did he lose? He could say whatever he wanted to say.

Anna walked up to Henry and sighed. "Mr. Zhang, what do you think of this?"

"Did he really lose or is he just pretending? Anyway, there's nothing that Collier Security can do, right?" Henry smiled.

Deputy Mayor Shan said that he had lost the business plan regarding development investment. To put it bluntly, once there was a better plan, it didn't matter whether he would get this document back or not. He was clearly telling everyone that whoever brought him a plan that would make him satisfied would be the winner.

It would be a high achievement in one's career to propose a business plan to Deputy Mayor Shan.

Collier Security's people all looked depressed. If the authorities really wanted to do something to them, they really had no way of dealing with this!

"It's over. It's really over," the middle-aged captain murmured.
