

## Chapter 670

After Sylvia finished speaking, she turned her head to the side and no longer looked at Jessica and Katie.

Sylvia's words were like a clap of thunder to Jessica and Katie. They never thought that the person who they thought was a driver, was actually Sylvia's husband, the decision-maker of the Lins Group!

In this way, they had a conflict with the Lin Group's owner from the moment they got off the plane.

Katie's face was a bit gloomy. It was not that they really wanted to break the deal with Lins Group, but they just wanted to gain the greatest benefits. If they fought with the Lins Group, it would not be good for them. The agency would definitely blame it on them.

Katie glanced at Jessica.

Jessica raised her head and did not look at Katie. Her intention was obvious. She wanted Katie to deal with this matter by herself, she could not say anything because of her pride.

Katie said to Sylvia, "President Lin, are you sure you want to end the cooperation with us? You know, our Jessica is now ranked first among the most searched hashtags. Her influence can bring huge benefits to your Lins Group. If this time..."

Before Katie could finish his sentence, she was interrupted by Sylvia.

Sylvia looked at Katie with a cold face. "I think what I just said is very clear. My husband's words represent the decision of the Lins Group. Please leave right now, now!"

Listening to Sylvia's resolute tone, Katie suddenly panicked. She subconsciously looked at Jessica. There was also a little panic in Jessica's eyes, but her pride prevented her from showing it.

What the Lins Group had shown was totally unexpected for Jessica and Katie. It was not the first time for them to raise the price on the spot. In the past, those companies would start bargaining. But the attitude of the Lins Group was beyond their expectation. The Lins Group signed a contract with an agency. If they left now, even if they broke the contract privately and the agency blamed them, they would not be able to get what they wanted.

"President Lin, I think it's better for everyone to be friendly and make money. We are also considering for you. Think about it, now Jessica is ranked first in the most searched hashtags. If the endorsement fee is leaked, what will Jessica's fans say? They will think that you don't take Jessica seriously. If it is more serious, they will collectively denounce the Lin Group and refuse the products of the Lin Group. This is also

not good for the Lin Group. You don't need to add too much to the price, just add a little bit more." Katie's tone was softened a lot.

"Get out." Henry waved his hand impatiently.

Now, Katie did not dare to take the initiative to say anything to Henry. After all, what she had done before had already offended Henry thoroughly. She could only pin her hopes on Sylvia.

"President Lin, you really should consider what I said." Katie continued to work hard. "If the Lins doesn't care about this negative impact, we can go according to the previous agreement. I will take Jessica to makeup now."

After Katie finished speaking, she didn't wait for Sylvia to say anything more and quickly pulled Jessica to the dressing room next to her.

"Come on, come on, put on makeup. Everyone should get off work early after taking pictures." Katie shouted at the makeup artist.

The makeup artist stood at the side and took a special look at Sylvia's face. When she saw Sylvia shaking her head, the artist put down the foundation she had just picked up.

Seeing that the makeup artist did not move, Katie picked up the foundation. "Jessica is not feeling well today. We went to the hospital. Everyone is really tired. Add a bit of makeup and she will be ready."

At this moment, Katie no longer had the previous arrogance. The attitude of the Lins made them unable to be arrogant at all.

Although Jessica was a first-class celebrity, there was still a big gap between her and a colossus like the Family Lin. What she relied on was only her huge number of fans. But under the current situation, no matter how many fans there were, it seemed that they could not change the decision made by the Lins.

If they put aside the fact that she had fans, Jessica was nothing compared to the Lins Group!

With a flustered look, Katie picked up the eyebrow pencil. Her movements were also very flustered, and her hands and feet were uncontrollable.

"Secretary Lee, go, arrange the car and see them off!" Sylvia ordered Secretary Lee.

The secretary nodded and stepped forward. She grabbed the eyebrow pencil from Katie's hand and said, "Miss Zhou, Miss Shang, it's time to leave."

"We... we..." Katie looked at Secretary Lee in front of her, and there was an obvious look of begging for mercy in her eyes.

Jessica sat there without saying a word.

"Please, you two." The secretary made a gesture after saying "please".

"Bang!" With a loud bang, Jessica, who was sitting there, threw the cell phone in her hand to the ground and stood up suddenly. "Don't push us too far!"

"Too far?"

When Jessica said these words, everyone present felt that the bully was complaining. Who was it that had been bullying others to the extreme? The first sentence she said to the crew which had been waiting for seven hours, was not an apology but to raise the fee, scolding the shameless Family Lin! It was difficult for anyone to accept such a thing, let alone a big enterprise like the Lins.

If this was the case, then could it be considered that the Lins had gone too far in bullying others? Then, how should Jessica's actions be classified as?

Sylvia directly ignored Jessica's words.

Henry stood still and waved his hand. The two security guards immediately came out. The two walked uniformly, and their eyes looked around vaguely. They could easily deal with any sudden problems.

These two people were not ordinary security guards but were specially arranged by Henry to be around Sylvia. These two people would only obey Henry's orders and would not show any mercy to outsiders.

The two walked to Jessica, grabbed her arm on both sides, directly lifted her up and pushed her out of the dressing room.

Jessica staggered and took a few steps back. The first thing she did was to look around. When she found that everyone was looking at her with a sneer, shame and anger welled up in her heart. She could no longer control her emotion and screamed, "You, the Family Lin, wait and see!"

Katie also ran out in a hurry and first appeased Jessica's mood. "Jessica, don't worry, don't worry."

After comforting her, Katie said to Sylvia, "President Lin, isn't it a bit too much for your company to do this?"

"Too much?" Henry snorted coldly. "To tell you the truth, if you don't get out now, there will be something more excessive waiting for you. Get out!"

## Chapter 671

Henry said the words "Get lost", and the Qi from his body also came out.

Katie took two steps back and fell to the ground.

If Henry really wanted to use his Qi, even a master of Qi-controlling Realm couldn't bear his momentum, let alone ordinary people.

Jessica was also scared to death by Henry's words. She pointed at Henry and said, "Okay! Your Lins Group is very brave. Let me tell you, I will make you regret!"

After Jessica finished, she said to Katie, "Katie, write a post right now and tell all my fans that I am in the film city and have been bullied by the people from the Lins Group!"

Katie got up from the ground, took out her mobile phone and quickly posted. In less than a minute, there were dozens of comments under the post.

Such a little trick of Jessica was not taken seriously by Henry, and he did not care about her at all.

At the same time, Katie's phone rang. "Jessica, it's from Tiffany. Please answer it."

Katie passed the phone to Jessica. Tiffany Zhao, whom she had mentioned, was Jessica's manager and also the boss of Jessica's agency.

Jessica took the phone and began to complain tearfully on the phone, "Sister Tiffany, people from the Lins Group are bullies. They changed the advertisement on their own, forced me to change clothes, and asked me to drink with other people. I really can't stand it!"

These empty things were said by Jessica as if such a thing really did happen.

Jessica dared to say so because she was confident that the agency would never investigate the matter in depth. They would stand on her side immediately. With her current popularity, even if the agency knew what was going on, it would help her solve the problem. She could not deal with the Lin Group, but agency behind her would not be afraid of such a small company like the Lins!

Jessica's crying expression, after hearing the agent's reply on the phone, gradually became proud. "Yes, Sister Tiffany, I know, I will tell all my fans about it!"

When Jessica spoke, she deliberately emphasized the words "tell all my fans". While she was talking to Tiffany, at the same time, she was

also paying more attention to Sylvia.

Secretary Lee took the phone and walked to Sylvia. She put the phone in front of Sylvia with an ugly look on her face. "President Lin, have a look."

Sylvia looked down and saw that on the screen of Secretary Lee's mobile phone, there was the post that Jessica had just posted on social apps. In a short time, there were nearly 200 comments below.

Jessica just climbed to the top of the most searched hashtags yesterday afternoon. At this time, she was extremely popular, and everyone was paying attention to her every move.

Under Jessica's post, all the people were condemning the Family Lin.

"Shameless Lins, dirty, filthy maggot!"

"Shameless Family Lin! Boycott them!"

"Boycott all the products of the Lins Group. They dare to bully our Jessica!"

"The Lins Group is a bunch of trash!"

All kinds of abuses, denouncements, and replies could be seen on the screen. And such comments were increasing every second.

There were even excited fans who spoke directly. They said that they would come to the film city now to find trouble with the Lins Group. They wanted justice!

Sylvia looked at all kinds of comments and shook her head. She had seen such a fan's denouncement before. It was about Henry who directly beat a popular teenager, and he was also denounced in this way. When the truth came to light, these so-called denouncements and so-called abuse were nothing but jokes.

After hanging up the phone, Jessica looked at the comments below and sneered.

"Lins Group, just wait!" Jessica finished her words and strode out.

"President Lin, the current situation is very unfavourable to us. If a new product is released, it will be boycotted by a large group of people. Jessica deliberately smeared it, and it will also be an opportunity for other companies to take advantage of the situation. If she wants to add insult to injury..." The secretary's eyes were full of worry.

"It's okay." Sylvia shook her head. No matter how many fans Jessica had, how many fans of the world's top celebrities were there? Under their huge influence, it didn't matter at all. Moreover, it was impossible for the agency to carry on with this for a long time.

The PR team behind Jessica was powerful. They might not care about Lins Group, but what about the entire Su Family? The Su Family was powerful enough. Last time when she took over the family, there were

countless resources sent by Radiant Island. Now, the Su Family had a higher status among the ancient kungfu families than the three major families from the capital. Jessica's public relations team was nothing in front of the Ancient Martial family!

Jessica and Katie, with a victorious posture, left the set and walked in the film city.

Although it was a little late now, there were still a lot of people in the film city. Some fans of Jessica, who were close, had already arrived at this moment.

When these fans saw Jessica, they called out Jessica's name one after another.

At this time, Jessica did not keep her fans a few meters away from her like she did when she got off the plane. Instead, she waved her hand enthusiastically and said hello to her fans.

"Jessica, don't be afraid. We'll always support you."

"The Lins are trash! How dare they bully Jessica? Let's see who will buy your things in Future!"

"They really are trash!"

All kinds of abuse sounded.

A middle-aged man in his forties, wearing a teddy bear's costume, walked out of the film city with a weary face. Judging from his costume, he was obviously a staff of the film city. He just finished a day's work and was ready to go home.

One curse after another came into the middle-aged man's ears from all directions. The body of the middle-aged man, who was walking tiredly, suddenly collapsed. The shouts from all around made him feel stuffy in the chest and difficult to breathe. He blacked out and fell forward.

"Old Sun, Old Sun!" Behind the middle-aged man, a middle-aged woman, who seemed to be in her forties, saw this scene. She screamed and ran over with a face full of panic.

The place where the middle-aged man had fainted was not far from Jessica.

The middle-aged woman groped around the middle-aged man, took out a bottle, poured it out. The middle-aged woman looked around and took out her cell phone to make an emergency call, shouting loudly, "Doctor, is there a doctor? My husband has acute heart disease, is there any doctor?"

"Jessica! Jessica is a surgeon."

"Yes, get out of the way. Let Jessica help."

Jessica, who was about to pass the middle-aged man and leave, heard these words. Her face froze. "They want me to save him?"

Jessica looked around and saw that the fans around were all looking at her. Then she looked at the middle-aged man and realized that she didn't know what to do.
