

Chapter 684

Henry's words made the two young men tremble. They looked at each other with a hint of surprise in their eyes. Then they turned to Henry and said, "Boy, you know quite a lot! Since you know that we are from the clan, do you still dare to oppose us?"

One of the two young men took out a walkie-talkie and said, "There are some issues. Tell people to come here."

As soon as the young man's words ended, a flurry of footsteps and voices of rebuke could be heard from the first floor.

"Get out of the way!"

"Hurry, leave if you don't want to die!"

Loud scolding sounds rang out one after another. Hearing this, Henry couldn't help but laugh. Why was a clan doing things just like a gang?

Very quickly, the dense sounds of footsteps stopped, because at this moment, these people had all come to the second floor of Stone Temple, tightly surrounding the second floor.

Carlos laughed and said, "Stone King is really capable. The people he invited dare to go against the clan. Boy, since you know the existence of the clan, I really can't understand where your courage comes from?"

Henry smiled and said, "I'm also wondering where did the courage of a clan come from. It's obviously a group of people who are constrained everywhere, yet they think they're superior to others?"

"Kid, what did you say?" A young man of the Huang Clan stared at Henry with an angry face.

Henry did not answer him but asked, "As far as I know,

the Huang clan is ranked 14th among the clans, right? It's between the Tang clan and the Zhao clan."

"So?" Upon hearing this, the faces of the people from the Huang clan became slightly ugly. 14th was the bottom of the clan list. "As long as we get this Spiritual Stone mine, sooner or later, we will surpass the second-ranked Hong Nong Clan!"

"Pffftt." Henry couldn't help laughing.

"What are you laughing at?" a person from the clan shouted.

"I'm laughing at your incompetence." Henry shook his head. "Before I destroyed the Zhao clan, the Zhao clan's goal was to trample down the Li family of Longxi. After your Huang clan found such a Spiritual Stone mine, your goal is only to be the second place. No wonder the Zhao clan's ranking was higher than yours."

The young man's body trembled.

Destroyed the Zhao clan!

It could be said that the destruction of the Zhao clan had caused a great disturbance among the clans.

At present, the valley of the Tang clan was buried under the ruins, and then the Zhao clan was destroyed before dawn. These two things happened, which surprised the clan members, and also made them feel a sense of crisis. They did not know who had secretly taken action.

"It turned out to be you!" The young man of the Huang clan stared at Henry and clenched his fists tightly. Although he looked full of confidence, the serious fear he showed from time to time betrayed him.

Although the ranking of the Huang clan, compared to the Zhao clan, was only one rank lower, the difference in strength was not small. In the Huang clan, there were only two Qi-controlling Realm experts. In the entire Zhao

clan, there were several Qi-controlling Realm experts, and the head of the Zhao clan was a master of the Transforming Realm!

Even the Zhao clan was destroyed overnight. How could his own Huang clan resist this man?

Henry stepped forward and caught the throats of the two young men like lightning. "Do you know? Your clan is just wearing a mysterious coat. After taking off this coat, you are nothing. No matter how strong you are, you are restricted everywhere, and I have nothing to fear!"

Henry suddenly squeezed with his hands and broke the necks of the two youths. At the same time, he said coldly, "Destroy the Huang clan!"

When Henry finished his words, there were screams in the corridor outside the office.

The shrieks were like the purgatory. Blood slowly flowed from the ground to the door of the office.

When they saw the thick pool of blood, the several people in the office felt their legs go weak.

Sarita felt like a fool the moment she thought about how she had threatened someone like this yesterday. How could she threaten someone like this? Thick blood was flowing on the ground, yet he was still laughing!

The miserable cries did not persist for a very long time. A minute later, the entire Stone Temple was plunged into a deathly stillness.

Henry fixed his eyes on Connor Tang. At the moment when Henry looked at him, Connor couldn't help stepping back.

Henry sighed and said, "Tell me, why are you so greedy? If you didn't participate in this matter regarding the stone mountain, you would not have to die."

"Don't... don't..." Conner retreated to the corner. His lips

quivered and he stammered, "I beg you... don't kill me..."

Henry smiled and said, "Give me a reason not to kill you."

"I..." Connor opened his mouth, but he didn't know what to say. He looked at Sarita and begged, "Sarita, I beg you, please, don't let him kill me. I admit that I was blinded by a moment of greed, but I still have feelings for you."

Sarita glanced at Connor with a complicated expression. Just as she was about to say something, Henry said, "I think your car should have a remote start. Do you want to try it?"

"Remote start?" Sarita listened to Henry's words doubtfully. She didn't understand why Henry suddenly said this.

Henry pointed to the window of the office and said, "Your car is parked below. You can start it. Go, try it."

Sarita subconsciously followed Henry's words because of the current situation and Henry's aggressiveness.

When Sarita took out the car key, Connor's face looked very bad. When Sarita pressed the button, the fiery Ferrari parked downstairs instantly turned into a ball of fire, letting out a violent explosion. The explosion shook the glass window next to Sarita and cracked it.

Sarita stared blankly at the red Ferrari, which had been completely blown up.

"It's a little old trick to kill someone." Henry shook his head at Connor. "If a clan wants to kill someone, they can just kill him directly. Why would they still order you to place the bomb under her car?"

Henry's voice roused Sarita from her daze. Two lines of tears rolled down from the corner of her eyes. Sarita slowly turned around and looked at Connor. Her eyes were calm and her face was as pale as death.

"Sarita, let me explain. It was not my intention. It was not my intention!" Connor waved his hand.

Henry silently walked to the back of Sarita. He stretched out a hand and wrapped it around Sarita's neck. He covered Sarita's eyes and said softly, "Do it."

Two cold lights flashed and slashed towards Connor's and Carlos's heads.

There were two "Knock, knock", and the sound of sobbing came from Sarita's mouth.

A few seconds later, Henry removed the hand covering Sarita's eyes. There was no blood in the office. Everything was as neat as if nothing had happened.

Chapter 685

Henry's voice came from behind Sarita, "Do you want to go out on your own, or do you want me to help you?"

Sarita took a deep breath and didn't say anything. She silently walked out of the office. As soon as she walked out of the office, Sarita smelled a strong smell of blood, and there was a sharp blade inserted into the floor in front of her.

Sarita looked back at Henry, then stretched out her hand and grabbed the sharp blade. She stopped for a few seconds before she let go of the knife.

Henry smiled when he saw this scene. Stone King was a smart man and his daughter was also a clever person. Sarita deliberately left her fingerprints on the blade handle to show her attitude.

Stone Temple was completely empty, without a single guest. The blood that had previously spread to the door of the office had already been cleaned in the shortest amount of time. The smell of blood that had not yet dispersed in the air proved that a massacre had just taken place here.

Henry walked out of Stone Temple and returned to his own residence.

At four o'clock in the afternoon, Henry received a text message. The content of the message was only one number "1".

Henry stood by the window and looked at the mountains in the distance. He murmured, "In this way, there are only twelve clans left from the current list."

First, the Tang clan was buried in the canyon, and then the Zhao clan was destroyed before dawn. Now, the

Huang clan was ruined by its desires.

Henry shook his head, took out his mobile phone and dialled Future's number.

"Where are you now?"

"Boss, we'll be there tonight. There is a lot of equipment."

"Okay, I'll wait for you."

Henry said and hung up the phone. Before he put the phone into his pocket, it rang again. He looked at the caller. It was President Ma.

Henry suddenly remembered that he had promised President Ma last time to participate in some medical exchange.

"Hello, President Ma."

"Magical doctor, are you busy?" President Ma's voice rang from the phone.

Henry asked directly, "Is it about the exchange?"

"Yes, yes, yes." President Ma quickly replied on the phone, "Magical doctor, our conference will be held in Germany, the day after tomorrow. Will you come with us or..."

President Ma left a lot of room for Henry's answer.

"I have something to do in the next two days. Send me the address when you get there."

"Okay, then we'll go to the place and send a message to you. Sorry for bothering you."

"No problem." Henry smiled and said, "Stay in touch."

"Okay, okay." President Ma answered repeatedly.

The sky gradually darkened, and many strange figures appeared in Spring City. Henry got the mining rights for the stone mountain and everything was ready.

Henry came to the edge of a stone mountain, which was bought by Stone King.

Several drones hovered over the stone mountain and swept down the green light net.

Standing next to Henry, Future smiled bitterly to him and said, "Boss, the result this time is worse than I thought. I only did some small modifications, and the magnetic field does not have any influence on the drones, which means the number of spiritual stones is really limited."

"Even one piece is enough. How's the preparation for mining going on?"

"When the exploration is over, I will ask someone to mine it. I estimate that there is no more than 30 Spiritual Stones."

Henry touched his chin. "30 is a big number. Future, your expectation is getting higher and higher. If you give the Great Patriarch 30 Spiritual Stones, I think he will be so excited that he will not be able to sleep for a few days."

"It's not that my expectation is high." Future had a bitter look on her face. "Boss, the expectation is too high this time. I thought that the whole mountain was filled with Spiritual Stones."

"All right, be modest." Henry rubbed Future's head. "If a mountain is full of Spiritual Stones, it would be impossible to wait for us. It would have been destroyed many years ago. I have something to deal with over the next two days. After these stones are all dug up, hand them over to the Great Patriarch directly."

"Alright." Future nodded.

"By the way," Henry asked, "did Wade said anything about the meeting?"

"Yes, the idiot said that he was waiting for his father to come out of his retreat. After my grandfather knew this,

he also went to get the ancestral weapon. Boss, what on earth is the ancestral weapon?" Future looked at Henry curiously. "I asked my grandfather several times, but he didn't tell me."

"It is related to the life and death of the ancient kungfu family. It seems that your grandfather has waited too long for this day. He even took out the ancestral weapon." Henry raised his head and looked at the starry sky. He said to himself in a voice that only he could hear, "What did this old guy find?"

The mining work of the stone mountain was carried out overnight. Future arranged airplanes and flew all the stones they had dug back. They did not even leave time for the excavation at the scene. All kinds of large machines were operated. A quarter of the mountain had been emptied before dawn.

Henry had been staying here, observing everything, ready to deal with any sudden trouble.

Two days passed in a flash, and the excavation work was very smooth. When the last stone was delivered to the plane, Henry was relieved. He informed Peze and asked him to arrange a plane to send Stone King back to the country. At the same time, he also decided to take the plane directly to Germany.

As the most representative country in Europe, the economic system of Germany had always been at the top of the world. The European style architectural style gave people a feeling of grandeur and was loved by everyone.

Bai City, the capital, was also very famous in the world. It had been isolated from the outside world for nearly 30 years. It was a history that the European people didn't want to mention.

Henry had been to this European city more than once.

Different from the past when he was surrounded by Red Hair, this time Henry came alone and did not disturb anyone.

President Ma's sent the location to Henry. It was a Chinese Clinic in Bai City.

Henry still remembered the map of Bai City very clearly. In addition, he spoke German fluently, so it was easy for him to find the place.

Henry looked at the four-storey high and 230,000 square meters big Chinese style building in front of him. In the streets where foreigners came and went, this building had a sense of the treasure recorded in the books.

Although it was known as a Chinese Clinic, it was actually a large Chinese Hospital.

Walking into the hospital, Henry saw that most of the doctors and patients here were Chinese. In this country far away from China, this building gave them a feeling of indescribable intimacy.

After Henry came to the hospital, the first thing he wanted to do was to contact President Ma. As soon as he took out his mobile phone, he heard a scolding from the side.

"Those Chinese people say that Chinese medicine is better than Western medicine. Let's let them make a fool of themselves this time."

"Exactly. If those people know their own position, why do they come to the exchange meeting? Just because of a few needles? Ridiculous!"
