

## Chapter 706

Facing the middle-aged man's saber, Henry quickly retreated, with a serious look in his eyes. He had just struck out countless Qi-shaped beasts, but he couldn't cause any damage to the other party. He couldn't even break through the other party's saber, so the beast figures all dissipated under the other party's saber.

Henry was very clear that the time he had mastered the Qi was very short, and he did not have a reasonable cultivation direction. If he wanted to improve himself, he would have to slowly explore the Qi.

In the past, it was easy to deal with the weaker clans, but now, it was not enough to fight against the ninth clan, the Zhu clan.

It should be known that there were only a small number of people from the Zhu clan present in Zhu family's mansion. More people were still in the clan. The middle-aged man in black, who could lead a team in front of him, must have quite a high status in the Zhu clan, but he was definitely not the strongest, and there were many people stronger than him!

Although the middle-aged man said that he didn't want to be Henry's enemy, every move he made was clearly aimed at Henry.

Another two fierce tigers rushed out to help Henry out of the siege, and Henry barely avoided the two stabs from the middle-aged man in black.

The middle-aged man's offensive was particularly fierce. His two Qi-shaped sabers forced Henry to retreat step by step.

Compared with the disadvantage of Henry's side, Wade and others had gained the upper hand.

Though the Zhu Clan had more experts in Qi-controlling Realm, Wade and the others had a rich experience in fighting. Under the lack of numbers, they could even fight to a draw. However, most of the Reapers had gained an overwhelming victory. Those ordinary warriors of the Zhu Clan were all killed cruelly. After all, the difference in numbers was too large.

These Reapers were scattered to different places in the Zhu Family's residence. They were searching for clan members everywhere.

"Although your strength is not very good, I have to say that your management is very good." The middle-aged man in black sneered. A giant Qi-shaped blade quietly formed behind Henry, and the blade was aimed at the centre of Henry's back.

Facing the middle-aged man in black, Henry experienced some difficulties, but there was no despair. He was thinking about how to

break through the enemy's sword net.

"Come on, let me see how powerful Master Lu's inheritance is!" The middle-aged man waved his Qi-shaped saber again and rushed toward Henry.

Facing the middle-aged man's Qi blade, Henry subconsciously dodged, but as soon as he moved, he felt that something was wrong.

"Oh no!" Henry was shocked. The muscles all over his body shook, and a layer of Qi shield instantly covered his whole body.

As soon as the Qi shield formed, an extremely strong penetrating force attacked Henry from the back. The Qi-shaped saber pierced through Henry's protective shield.

At the crucial moment, Henry suddenly turned around. The Qi blade that was aimed at Henry's back cut Henry's sleeve, leaving a bloody mess. Blood immediately flowed out from Henry's arm.

"Oh, ah." The middle-aged man in black looked at Henry with a smile on his face. "It seems that you haven't got Master Lu's inheritance. Is it because Master Lu didn't teach you, the only descendant, or you have been lying to me? I don't think Master Lu has left you anything in inheritance!"

When the middle-aged man in black said this, his pupils suddenly shrank.

Henry quickly reached out and pressed on two acupuncture points on his shoulder to stop the blood. Under such a high-intensity fight, the blood and qi surged up. If the blood did not stop flowing, it would definitely make him weak because of the loss of blood.

"Boss!" Wade, who was battling on the ground, saw what was happening in the air above them, and let out a cry.

Henry waved to him, and then looked directly at the middle-aged man in black, carefully looking at his actions.

The smile on the middle-aged man's face grew wider and wider. He waved his hand at the void. "As the successor of Master Lu, you can't just run."

As the middle-aged man waved his hand, the Qi blades formed one after another from the void. There were hundreds of them. They were as small as daggers, but each of them was sharp and could cut iron as if it were mud.

Henry could clearly capture the formation of these air blades and it had completely surrounded him. The sharpness, even through the air, could be clearly felt by Henry.

The middle-aged man stretched out his arm and opened his palm. "I really want to know how you'll escape this."

The middle-aged man grinned and showed his white teeth. At the same time, he clenched his fist. Countless Qi blades flew toward Henry at the moment when the middle-aged man clenched his fist, covering the sky.

Henry, who was surrounded by the Qi blades, had nowhere to hide.

The sharpness of the Qi blades merged together and Henry felt a strong tearing force before it got close to him.

"Is this the top master of the Transformation Realm?" Henry was shocked. The attack from the middle-aged man was beyond his expectation. He didn't expect that the Qi could actually be controlled in such a way. In theory, as long as the Qi was strong enough, as long as the control of Qi was accurate enough, then it would be able to kill people thousands of miles away!

Looking at Henry, who was surrounded by the air blades, the middle-aged man in black seemed to have seen the scene of Henry being killed by the blades.

A Qi blade cut through Henry's protective Qi shield, Henry's collar and chopped toward his neck. When the blade of Qi was about to touch Henry's neck, it seemed to have fallen into a swamp and could no longer go forward.

So did the other hundreds of Qi blades. They were already in front of Henry, but they couldn't do any harm to him.

"Ah, it seems to be effective." Henry's laughter came, and his tone was full of a relaxed feeling.

"How could it be possible?!" The middle-aged man in the black, who was originally smiling, now opened his eyes wide, and the smile on his face disappeared completely. He was full of horror. He stared at the top of Henry's head and found that there was a lotus flower in full bloom.

The lotus sprinkled down some substance like Qi rays, and it was these Qi rays that resisted the Qi blades made by the middle-aged man in black.

"Heavenly Lotus, how can you form the Heavenly Lotus?!" The middle-aged man in black muttered as if he had seen the most incredible thing in his life, "Impossible! The Heavenly Lotus should have disappeared a long time ago. It can not appear again!"

"It turns out that this thing is called Heavenly Lotus." Henry smiled softly. "I have to say that your attack method has really helped me to solve a lot of doubts, and has given me a lot of inspiration."

Henry raised one hand, put it on the lotus above his head, and then gently pulled it. A petal was held in Henry's hand.

Henry looked at the petal in his hand, which was emitting a kind of crystal light. He aimed them at the middle-aged man in black and flicked with his hand. The petal, like a bullet, shot towards the middle-aged man in black. On the way where the petal was flying, all the air blades dissipated as if they met an unbeatable enemy.

## Chapter 707

A single petal caused the countless Qi blades to dissipate. With an indomitable momentum, it headed straight for the middle-aged man in black.

The moment this lotus petal shot out, the middle-aged man did not have any thoughts of resisting, but the voice in his mind told him about it.

"Run!"

The middle-aged man did not hesitate and instantly fell to the ground. That petal could be said to have brushed past the middle-aged man's hair and then hit the Zhu family hall behind him.

After the petal hit the main hall, there was no sound at all.

One second.

Two seconds.

Three seconds.

At the fourth second, the main hall of the Zhu family collapsed. It could be seen that the walls of the hall were all cracked at this moment. With a loud bang, the walls were broken and collapsed.

Just a small petal could completely destroy a building in an instant. Such a powerful destructive force made the middle-aged man in black swallow his saliva. What would be the consequence if this petal hit him? The power of the Heavenly Lotus was really worthy of its name!

Henry waved his hand, and with a flash of light, all the blades in the air were dispersed.

Henry seemed to have discovered something interesting. He never thought that this lotus could be used in this way.

In the battle with the middle-aged man just now, through the attack mode of the other side, Henry felt a kind of feature of Qi, variability!

Henry had tried picking up a lotus petal, but he hadn't expected to succeed and to be able to create such a huge amount of power.

"I didn't expect it! At that time, Master Lu didn't disperse the Heavenly Lotus, but he passed it to you!" The middle-aged man's eyes were full of seriousness and fear.

Henry's eyes narrowed. For a long time, he was very confused about the formation of the lotus flower above his head. Now he realized that the old man left it especially for him. But, how did the old man make the lotus flower form on the top of his head?

Henry shook his head. Now was not the time to think about this

matter. The most important thing was to defeat the person in front of him first!

The Heavenly Lotus's brilliance protected Henry's body, giving him a sense of unscrupulousness. The middle-aged man's most effective attack was unable to pose any threat to Henry.

The corners of Henry's mouth hidden under the mask curved. Since this middle-aged man in black was able to control Qi across the air, then he could also do it! The reason why he could create a fierce tiger was because of the connotations of his fist intent. In this case...

"Die!"

Henry roared, and his whole person rushed towards the black man.

The middle-aged man held two Qi blades in his hands and stared at Henry without the slightest carelessness. As long as he was hit by the Heavenly Lotus slightly, he would be seriously injured.

The situation, which had been completely controlled by the middle-aged man a moment ago, had completely reversed after the appearance of the Heavenly Lotus!

Henry transformed out all kinds of Qi-beasts with his hands. When he approached the middle-aged man, a tiger and a crane were formed. At the same time, Henry punched again. A Qi-snake stuck out its tongue and hid in the air. It could appear from anywhere at any time to give the middle-aged man a fatal blow.

Three beast figures appeared in succession, and together with Henry himself, they rushed to kill the middle-aged man in black.

The middle-aged man brandished a knife net, but it was easily broken by Henry, who was under the protection of the Heavenly Lotus. This was like the absolute suppression in attribution. A small flame could light up a large piece of straw.

The tiger lunged at the middle-aged man in black, and the crane spread its wings. The middle-aged man retreated to avoid the damage, but he was attacked by the Qi snake behind him.

The middle-aged man in black gathered double blades again and tore the spiritual snake with them. As a result, a large piece of flesh from his shoulder was torn off by the tiger.

The middle-aged man knew that he could not continue to fight. With the Heavenly Lotus, his opponent was invincible. With his strength in the Transforming Realm, it was impossible for him to break through the protection of the Heavenly Lotus. If he wanted to kill Henry, he had to be above the Transforming Realm.

Thinking of this, the middle-aged man wanted to retreat. When he saw Henry attacking him again, he produced a simple flaw in his chest and

gathered his Qi here.

When Henry punched the middle-aged man in black on his chest, the middle-aged man took advantage of the great force from Henry's fist and quickly retreated, running out of Zhu Family's manor.

Henry went straight after the middle-aged man without thinking.

Although Henry did not know exactly what this thing was, middle-aged man's response and words told Henry that this thing was absolutely something extraordinary. In this case, this matter could never be spread out. This person must die.

Just as Henry was chasing after the middle-aged man, Wade cut off his opponent's head with a black broadsword in his hand. A master of the Qi-controlling Realm from the Zhu clan was killed by Wade's broadsword.

Wade gasped for breath and shouted at the sky, "Boss, we've found Old Master Zhu. He's still alive."

"Clean this thoroughly and take them back to the island!" Henry instructed as he chased out of the Zhu family's manor.

The middle-aged man in black went out of the Zhu family and ran all the way. He had some scruples that he didn't dare to directly step on air, so he could only step on the ground.

Henry also did not choose to continue walking in the air. This shocking scene would definitely cause a lot of trouble if it was seen by others.

One in the front and one in the back, the two of them chased after each other on Du Hai's streets at an extremely fast speed!

The one escaping and the other chasing. The middle-aged man kept shedding blood from his shoulder. He glanced at the dense crowd in front of him and made up his mind. He sneaked into the crowd, which would slow down his running speed, but because there were so many ordinary people around him, the middle-aged man guessed that Henry would not dare to attack him at will.

The place where the middle-aged man in black ran was the most crowded place. As an international metropolis, almost every place in Du Hai was crowded with people.

The middle-aged man ran for ten minutes and looked back, but he didn't see Henry's figure, which made him breathe a sigh of relief. In a place where there were so many people, it was difficult to track, and it was easy to lose people.

The middle-aged man slowed down and tore a strip of cloth from the corner of his clothes. He endured the pain, bandaged his shoulders, looked in the right direction, and walked toward a building.

The building was very conspicuous, and it was the highest building nearby. A helicopter was parked on the roof of the building, which belonged to the Zhu clan.

The middle-aged man's target at this time was the helicopter.

Looking around, the middle-aged man lowered his head and walked into the building. Instead of taking the elevator, he chose the stairs and slowly walked up.

When he walked to the corner of the third floor, a chill suddenly attacked the middle-aged man in black. He subconsciously stepped back, and then he saw a bright blade in the place where he just stood.

"It's you!" The middle-aged man stared at Henry, who had taken off his mask, with a blade in his hand.

"Is there anything you need upstairs?" Henry smiled.

"How did you know I was here?" The middle-aged man took a deep breath.

"To tell you the truth, if you kept running toward an empty place, I may not catch up with you, but in the city..." Henry was playing with the sharp knife in his hand. "I have more than ten ways to find you, and then... kill you!"
