

Chapter 724

A well-decorated teahouse was located beside the river in Du Hai. In this place, every inch of land was worth a piece of gold. Although this teahouse was not large, the price was unaffordable to ordinary people. A pot of tea was worth a thousand yuan.

Sylvia was wearing a black coat, sitting in a wooden chair leaning against the window. She put a light makeup, and her flawless facial features added more charm to her appearance, which made the rest people in the teahouse look over at her frequently.

Two young men were seated across from Sylvia. The two of them were dressed in ordinary clothes and there was no sign of wealth or riches to them. However, the confidence overflowing from their faces was enough to overwhelm the people who had arrived by driving a luxury car that was worth a few million.

The two young men sized up Sylvia, who was in front of them. Their eyes were a little aggressive, and one of them licked his lips from time to time.

"You say, the Su clan wants to cooperate with our Zhu Clan? Your Su Clan is only ranked tenth, and we are ranked ninth. Even if you want to cooperate, why would they send you, an ordinary member, to negotiate?" A young man spoke. This young man was the one standing beside Joshua when the Zhu clan attacked Radiant Island that night.

Sylvia smiled and shook her head. "Be careful. It's not the Su clan that wants to cooperate with you, but the Su Family. I'm the master of the Su Family, Sylvia Lin."

"The Su Family?" A young man sneered. "You're the master of an ancient kungfu family. What gives you the right to say want to cooperate with the Zhu clan? Your face?"

Sylvia took out a blueprint and placed it on the table.

The two young men of the Zhu clan looked at each other and then opened took the plan. Just at the first glance, their pupils contracted fiercely.

"Is this the Spirit Gathering Formation?"

The two youngsters from the Zhu clan looked at Sylvia.

Sylvia smiled and didn't say anything. In her mind, she didn't know what the drawing was. Today, she took this drawing to look for the people of

the Zhu clan because she wanted to make a deal.

When the two Zhu youths saw that Sylvia did not speak, they naturally thought that Sylvia had tacitly approved of it.

"The Su clan, why would you build a Spirit Gathering Formation?"

"What's so secret about this place?"

One of them made a guess and then turned to look at Sylvia.

Sylvia smiled and said, "Take this blueprint back. As for what's going on behind this blueprint, we will continue talking once you've thought it through."

After Sylvia finished speaking, she directly stood up and picked up her handbag, wanting to leave.

"Wait!" A young man of the Zhu clan called out to Sylvia. He frowned and asked, "What do you want?"

Sylvia said without looking back, "I want the Su Family."

"The Su Family? If you want the Su Family, I'm afraid this blueprint isn't even enough to be a bargaining chip." The man from the Zhu clan smiled. Of course, he understood what Sylvia meant. Now there was only the Su clan in Yanjing. If she wanted the Su Family, there was only one possibility- the Su clan should disappear!

"It doesn't matter." Sylvia shrugged her shoulders. "As soon as you make your decision, we can continue to talk about the deal."

"Is that so?" The corners of the Zhu clan youth's mouth curled into a playful smile. "What if I were to say that I want you?"

"Whatever." Sylvia replied and then strode away.

The young man from the Zhu clan looked at Sylvia's wonderful back and licked his lips again.

Another one of the Zhu clan said, "Big brother, if you really want this woman, I will tie her up now, you..."

"No need." The young man from the Zhu clan shook his head. "This woman is good, but now, the most important thing is that if this map is real and Su Clan really wants to build the Spirit Gathering Formation, it will prove that they have found something incredible. This thing will fall into the hands of our Zhu Clan. We will have no worries about having no women in the future."

In the Zhu family manor, the buildings that had been destroyed by the last battle had been rebuilt.

Joshua Zhu, the head of the Zhu clan, sat in the main seat of the head

of the Zhu family's hall, knocking on the table with his fingers.

A young man bowed and came to the main hall. "Patriarch, the master of the Su Family has delivered a blueprint."

"The Su Family?" When Joshua heard these words, he thought that he had heard it wrong, so he deliberately looked at the young man in front of him. After the young man nodded hard, Joshua showed an intrigued expression and said, "Come on, let me have a look."

The young man respectfully handed the blueprint to Joshua.

Joshua opened the blueprint. After a few seconds, the corners of his mouth curled up into a smile. "Interesting, interesting. Spirit Gathering Formation. Did the Su clan arranged the Su family to deal with Spirit Gathering Formation?"

"That's right." The youth nodded.

"Hehe." Joshua laughed. "The old bastard in Freud hasn't settled down for the past few years. He's unwilling to accept the current situation, so he's investigating everywhere. It seems that he's found out a lot of things. What did the master of the Su Family say?"

"She said that she wanted the Su family." The young man answered truthfully.

Joshua snorted and said, "She is brave. Does she want the Su Family just because of this thing? Tell her to bring more things tomorrow and come to look talk to me!"

"Okay." The youth withdrew.

"By the way." Joshua suddenly said when the young man was about to leave the main hall, "What do the ancient kungfu family say now?"

"Patriarch, in the eyes of the ancient kungfu family, we have sunk Radiant Island. I believe that these ignorant people do not know about the existence of the Recluse Association. Patriarch, the reason why the Recluse Society has remained silent is to deliberately make everyone think that we are the ones responsible for that matter. They are trying to put us in an awkward situation and put us down on the spot."

Joshua sneered and said, "The Recluse Association. They have been playing tricks for so many years. It's better to let them hide. I'd like to see how long they can hide! I don't believe that the group of people who are playing tricks will be able to sit still during this ancient kungfu family meeting. There will be a time when they will be anxious!"

"I understand. Are we going to get someone to set off now?" The young man asked.

"Tell them to get ready to go to the capital city!" Joshua said with a hint of coldness in his eyes.

Numerous figures, on this day, flooded into the capital city.

In this huge city, many unfamiliar faces suddenly appeared, but they did not have much impact on the people in the city.

However, the underground forces of China were holding their breath, concentrating, and being cautious. Everyone knew that tomorrow might be the day to determine the fate of the ancient kungfu families. If the clans were really invincible and unrestricted, they would ride on the heads of the major ancient kungfu families. With their strength, they had destroyed Radiant Island in one night. Then there was no hope for ancient kungfu families.

This time, it was called the meeting of the ancient kungfu families, but in fact, all the underground forces, big or small, would attend it. Even the Sharp Knife would send people to the capital city.

This was a great shuffling of the whole underground forces. What was determined in this Grand Meeting was the overall direction of the underground forces in the future, which was related to the interests of everyone from the underground forces.
