

## Chapter 730

Under the rain, each of the six individuals each held a black umbrella. The voice of the one in the front, as well as the weapon that flew towards Freud, made all of the underground powers here widen their eyes.

In front of the wooden house, the old man in the yellow robe stood there with a smile on his face. "They still came."

Sylvia, who was standing not far away, suddenly trembled. Although she did not hear much of that person's voice, she could immediately tell who it came from!

The fine and dense rain sprinkled down.

The black blade scattered the Qi under Freud's feet and stabbed straight into the ground. The killing intent emitted from the blade made people unconsciously get goosebumps.

"Who are you?" Freud looked at the six people who came and frowned. Although the Qi emitted from the black blade didn't affect him, he could feel its intimidating momentum.

The person who was the leader of the six did not look at Freud. Instead, he said in a low voice, "Tell me, which one is the Zhu clan!"

All the people present guessed the identities of the six people who came, and they subconsciously looked at Joshua.

The six of them locked their eyes on Joshua.

Freud looked at the six people who came and then looked at Joshua. He smiled and stood aside and did not say anything. These people were obviously here to make trouble for the Zhu clan, so Freud naturally did not want to help the Zhu clan.

Dylan Xiao was still sitting by the side with a smile on his face.

Joshua's face changed. He didn't expect that someone would dare to provoke him today. He stepped forward and stared at the approaching six people. "Who are you, a group rascal? How dare you provoke our Zhu clan?"

"We are the ones who will kill you!" The leader waved his arm in the air, and the long black blade inserted in the ground was directly taken back by the leader as if it had been sucked by a suction force.

At the same time, the six black umbrellas were released from their hands and slowly fell to the ground. The human faces under the black umbrellas were clearly revealed in everyone's eyes.

"Ten Kings!" Everyone looked at the person standing at the front. Even though they had already guessed their identities, they still could not

help but cry out in surprise.

Every single one of the Ten Kings of Radiant Island was a legendary figure of the underground world. After learning that the Radiant Island had fallen, everyone's first reaction was to disbelief.

Now that they had returned, they were openly saying that they wanted to kill the Zhu clan. Radiant Island was still mighty!

After the appearance of Wade's and others, the underground forces present seemed to have a backbone. The Sacred Land of the underground world, Radiant Island, wasn't something people could bully!

"Kill!" Wade shouted. The other five people behind him all moved and rushed toward Joshua at an extremely fast speed.

Future waved her hand and countless steel needles shot at Joshua. They were a new type of weapon developed by her combined with modern technology and Tang clan's hidden weapons. Each steel needle contained strong energy that could completely destroy an armoured vehicle.

Wade stepped in the air and slashed at Joshua with his huge blade.

Wade's actions of treading in the air caused the various underground powers' hearts to surge. It turned out that it wasn't only a clan that had such a divine ability to fly through the air. Those from the underground forces were also capable of doing it!

Facing Wade's attack, Joshua did not choose to face it head-on. Instead, he decided to dodge.

The clan, which had been strong since they arrived, began to dodge under the attack of Radiant Island! This scene made all the major forces' blood boil.

"Old man Jiang," said the old man in the purple robe in front of the log cabin, "there's something wrong with the children of the Radiant Island. Your granddaughter, she...."

The old man had a nervous look on his face. "If they forcibly enhance the Qi, although they can get a huge increase in strength in a short period of time, the consequences could be very serious."

The old man in purple frowned and said, "What makes these children so desperate?"

"Only one thing." The old man in white, who hadn't spoken for a long time, spoke. "This time, there's one less person on Radiant Island..."

The six people rushed into the crowd of the Zhu clan. In the twinkling of an eye, they took the lives of more than a dozen disciples of the Zhu clan. Joe, who was standing not far away, joined the battle directly. Pan, Joshua's son, hid behind Sylvia with a frightened look.

Sylvia's eyes were filled with excitement as she stared at the six people who had just arrived from Radiant Island. However, the look of excitement on her face was fading away as time passed.

"Impossible! Wade and the others are here. What about Henry... what about Henry..." Sylvia tried hard to find Henry's shadow, but there were only six people from Radiant Island. She could sweep across the area at a glance, but Henry was nowhere to be found.

The hope that had just been ignited in the woman's heart was shattered again.

"Why didn't the Emperor show up?" Some people also noticed this. Henry was called the Emperor. Whenever there was a battle on Radiant Island, it must be under the leadership of the Emperor. But today, the Emperor was not here.

"Could it be that Radiant Island has truly sunk? There are only six kings left on the island, but the Emperor is no longer around?" Someone spoke, his face carrying a sense of loneliness.

"Impossible!" Someone shook his head vigorously. "How could the Emperor fall?!"

Henry was not only the strong leader of Radiant Island, but also the spiritual leader. Radiant Island without Henry was not the real Radiant Island.

Wade's eyes were scarlet, and even the black broadsword in his hand had a faint red light. "B\*stards of the Zhu clan, today, I want you to pay for my brother's life!"

Wade roared and slashed at Joshua heavily. The blade emitted a violent light, which was red. The grass on the ground were all cut off by the blade.

Future and others were all very irritable, but they didn't have the red light like Wade.

With a complicated look in his eyes, Future looked at Wade and said in a low voice, "Idiot, control your emotions."

"Ah!" Wade threw his head back and roared. His face was filled with madness.

"Today, we will kill the Zhu clan!" Red Hair said in a low voice. He crushed a disciple of the Zhu clan's head, causing his blood to splash. "Your blood will be used as a sacrifice to our big brother."

"Kill!" Alex kept rotating the two machetes in his hand. He pinned them so fast that if a disciple of the Zhu clan would touch them, he would die immediately.

Moon Goddess said nothing, but the ruthlessness in her attacks was no less than anyone else's. Her long whip was covered with barbs, and

with a swing of her whip, everyone had to step back a little.

"Let the Zhu clan pay with blood!" Sea God wielded his blue long sabre. He was the overlord of the sea, so as soon as he felt the water, he had a strange sense of intimacy with it.

The raindrops turned into sharp blades in the hands of Sea God.

An elderly man, even though his figure was graceful, wasn't slow at all. Radiant Island's major-domo Pete, after many years, walked out from Radiant Island for the first time, starting his slaughter again.
