

Chapter 732

With the Wade as the center, the three saber lights slashed in three different directions.

Three cracks appeared on the ground. These cracks were even deeper and longer than the time when Wade had slashed out with his blade.

The red light on Wade's body became more and more intense. As time went by, his strength gradually increased. At the same time, he also became more and more violent. It could be seen from the three Qi sabers he released now that he was not only targeting Joshua, but also many underground forces nearby.

"How dare you, young man?!"

Two people shouted at the same time. They came from both sides and waved their hands to disperse the Qi sabers emanating from Wade. The two of them also had Qi-shaped weapons in their hands, and they were both Qi-concentrating Realm experts.

Freud Su and Dylan Xiao looked at each other. The rankings of the two clans were lower than that of the Zhu clan. They were ranked 10th and 11th respectively.

In the Xiao clan, there was only Dylan, who had reached the Qi-concentrating realm, while there were three masters in the Su clan.

There were already three Qi-concentrating experts in the Zhu Clan present. There were definitely more than three Qi-concentrating experts in the Zhu Clan.

Dylan said, "Brother Su, I think our two clans should visit each other more often in the future."

"I, Freud Su, am flattered to receive brother Xiao's invitation. I must pay you a visit." Freud laughed out

loud.

"I'm honored that Brother Su will visit me."

What they meant was quite clear. The strength shown by the Zhu clan had exceeded their expectations. There were only three clans present in total. Although they took the lead, it was the best time for them to compete for resources. If they were alone, they would be suppressed in many places by the Zhu clan.

The three Qi-concentrating realm experts surrounded Wade. Although the situation was three against one, in terms of momentum, Wade was a rising star, and he was even more outstanding than them.

Wade's body was glowing with the red light. The light that he emanated caused the three Qi-concentrating realm experts to feel goosebumps all over their bodies.

"Take him down!" Freud shouted. The three experts split into three different directions and charged towards Wade.

Facing three Qi-concentrating realm masters, Wade showed no fear and waved the long knife in his hand.

The three experts were forced back by the sky full of saber lights halfway through their attack. Dozens of saber lights charged towards the three of them. Even the three experts were shocked. It wasn't because of Wade's attack, but because of Wade's transformation. They could clearly feel that Wade's saber lights were more powerful than theirs. The last one was even twice as powerful as the first one. Moreover, Wade's Qi was still being magnified. He was about to reach the middle stage of the Qi-concentrating realm.

If Wade was allowed to continue to grow stronger at this rate, even if the three experts of the Zhu clan were to join forces, they would still be defeated.

Wade's roar rang out.

"Wade!" Future, who was fighting with the opponent in front of her, shouted out loud.

"Die! Die, all of you!" The current Wade had clearly lost his mind. He couldn't bear to listen to anyone's words, and his eyes were filled with the red light. It was an extremely bizarre sight. Anyone who looked at him would feel fear.

More than a dozen streaks of light forced the three masters to retreat.

"Don't hold back anymore. Kill him." Freud shouted loudly. He had just noticed that the expressions in the eyes of the underground forces were no longer the same as before. If they couldn't deal with the young man in front of them for a long time, then it would be hard for them to establish their own rules.

In the hands of the three people, a light red gas appeared at the same time. This light was emitted from the hands of the three people and then spread to each other. It formed a big net and went toward Wade.

The means of attack they were displaying were completely beyond the imaginations of the various underground forces.

The red lights emitted by Joshua and the other two were very similar to the color of the light produced by Wade. However, compared to the lights emitted by the three of them, the red lights on Wade's body were even more devilish.

"Kill, kill, kill, kill!" Wade roared, continuously brandishing his blade.

This time, the Qi-shaped blades did not spread out in random directions. Instead, they overlapped and condensed in front of the Wade. When the blades were

extremely red and dazzling, they suddenly rushed out and easily broke through the red net condensed by Joshua and the other two. Then, they chopped toward the sky without any hindrance.

Standing in the distance, White Rose suddenly felt a pain on her cheek. She stretched out her hand and touched it, only to find that there was a cut mark on her face. She was obviously 30 meters away from the battlefield, but she was still affected.

The surrounding trees and some fake leaves, which were made of plastic, also split from the middle and fell to the ground.

Even the sky filled with rain was separated into two large areas, leaving Wade and the area above him in a vacuum zone. Such power made the clans, not to mention the people from the underground forces, feel a little amazed.

"I'll kill all of you! I'll kill all of you!" Wade roared loudly, clearly in a berserk state. His aura was still rising, and his blood vessels were stretched on the surface of his skin. They were bloody red, making him look especially terrifying.

Joshua's eyes were solemn. He did not dare to fight with Wade anymore. It was not impossible to kill him at all. Joshua and the other two were clear that they were also seriously injured. If it were in a place without anyone watching, they would not do it. However, there were not only so many underground forces but also two hungry wolves, the Su clan and the Xiao clan, watching over them. Once their own strength was damaged, these two clans would probably join forces to destroy the Zhu clan.

"Kiddo, I don't know why you said that you want to avenge someone. Our Zhu clan has no conflict with you."

After thinking for a while, Joshua still chose to give in for the time being.

Joshua's attitude made all the underground forces happy. Radiant Island was still the same island. It was so powerful that it could make the clans raise the white flag.

At the same time, the underground forces were also wondering why the Zhu clan had said such words. Were the rumors in the outside world fake? But the rumors were true. Even the kings of Radiant Island had made it clear that the Emperor was killed by the Zhu clan.

Joshua was willing to admit defeat, but now in his current state, Wade could not listen to what he said at all. In Wade's heart, he only wanted to kill the person in front of him.

"Your Zhu clan has killed my big brother. Today, you must pay with your blood. Our Radiant Island has never spared any enemies!" Felix roared. A red-colored bloody claw appeared in front of him and directly killed a disciple from the Zhu clan.

Joshua immediately understood. It turned out that all these people were from Radiant Island. It was somewhat hard for him to believe that an ordinary underground force could be this powerful.
