

## Chapter 734

Based on Wade's state, it was clear that there was no way for him to withstand the attack again. His entire body was covered in wounds, making one's heart tremble in fear.

"You seemed to be a bit tough. Peasant of Radiant Island, prepare to die!"

Barry shouted again, and the four men attacked again. This time, there were eight beams of Qi-sword, which covered Wade's whole body and cut toward him.

Facing the eight streaks swords, Wade could only stand on the spot. He could see that his legs were constantly trembling. It was not because he was afraid or excited, but because his muscles were on the verge of breaking down.

Wade had been under tremendous pressure after forcibly gaining power, but now he was under joint attacks from Barry and the other three people. It was already impressive that he could hold on for a while. Now he was still standing here, relying on his muscles to support him.

Flames burst out from beneath Future's feet, and she flew in Wade's direction, intending to save him.

Red hair and the other three kings, also struck out their Qi-shields to block the attack.

"Get him out!" Alex shouted.

The four people tried their best, but the difference in their strength was too great. The long whip that Moon Goddess drew was easily cut off by the sword, and the power of the sword did not decrease. It went straight to Wade.

During this time, Future rushed to the front of Wade, grabbed Wade's hand, and dodged aside.

"Then you will die together." Barry sneered and spread out his hand. A blue Qi-net formed next to Future and directly trap Future into the big net.

Not to mention Wade, even Future could not escape the attack range of the eight Qi-swords.

Barry and the other three people, with a smile in their eyes, discarded these people. They wanted to ask about the whereabouts of Radiant

Island, grab the Spiritual Stones, and wait for the next Recluse Association's grading. The four of them would definitely be able to make a breakthrough in their current position.

No matter how anxious Red Hair and others were, they could do nothing when facing the eight Qi-swords. Unlike Future, they did not have technical support, so they could not even keep up with the speed of the Qi-sword. They could only watch the eight swords converging with the blue Qi-net.

Later, a strong wave of Qi spread around the place where Wade and Future were standing. The eight swords bombarded together, the power formed made Wade collapse suddenly. The ground cracked and cracks spread around. Wherever the waves of Qi passed, several disciples of the Zhu clan who were in the Qi-controlling realm were knocked out. Red Hair and others were also pushed more than ten meters away by the waves of Qi. The tables and chairs placed next to the forest park had long been broken into pieces by the great power of Qi.

Smoke and dust billowed up to the sky. Even the heavy rain couldn't suppress the smoke and dust in such a short time.

Barry and the other three people gradually fell from the sky. They were confident that the man and woman hit by the Qi-swords were dead.

The four Qi-condensation experts had attacked without reservation. Even if Wade truly was in the Qi-condensation stage, there was no way he could have survived.

Red Hair and others, who had been blown up by the waves of Qi, quickly climbed up and rushed toward the place where the smoke and dust was billowing.

Barry glanced at the four of them, waved his hand, and shouted.

"Get lost!"

As the words "get lost" were uttered, another row of Qi-swords was formed by Barry and went straight to Red Hair and others, blocking the four people to take steps forward.

The other three Punishment Messenger walked in the direction of smoke leisurely.

A flash of lightning lit up the sky, which made everyone present shocked and fearful. Did Radiant Island really lose? There were so many strong enemies, one after another. The four people who had just appeared all had the ability to be called immortals.

The rain became even heavier, washing away the bloodstains on the

ground. Even though the rain was so heavy, it still could not conceal the scent of blood emanating from the air. Many of the Zhu clan's disciples had already died and were lying on the ground.

The people of the underground forces stared at the place where smoke and dust were rising, expecting that there might be a miracle.

The dust gradually settled, and a figure vaguely appeared in the dust.

When they saw the figure in the smoke, several leaders of the underground forces couldn't help but cheer.

Red Hair's eyes were also full of joy.

Barry and the other three people looked at each other doubtfully and then walked toward the figure under the smoke.

A faint voice sounded in the smoke and dust. "You four old things, you dare to bully a child. Don't you feel ashamed?"

The moment they heard the voice, Barry and the other three stopped immediately.

There were three old men standing in front of the cabin in the distance.

The elder in white smiled and said, "See, I've said that you don't need to worry about the descendant of the Temple Guardians. Although this clan doesn't have many people, no clan can catch up with us in terms of protection."

Barry and the other three people stared at the figure in the smoke with a serious look and asked, "Who are you?"

"Me?" A figure gradually came out of the smoke. He was about 1.75 meters tall. In November's weather, he wore a white vest and cropped trousers and a pair of slippers. He had a beard and cigarette in his mouth. He lit the cigarette up under the night sky. "How can I let you bully my son? Otherwise, wouldn't you all ask what kind of person I, Aaron Bai, am?"

Aaron Bai!

The moment they heard the name, Barry and the other three people had a look of horror in their eyes because the name was too well-known!

The ranking of the forces had existed since ancient times. It did not only exist in the underground world but also among the clans. All the forces were divided into several levels.

The fifteen clans were considered strong in the eyes of the low-level clans. However, after entering the top fifteen clans, one would discover that the fifteenth clan was completely different from the first. There

was even a difference in essence between every clan on that list.

Above the fifteen clans, there was a Chinese organization. And this organization was called the Guardians.

What the Guardians did was the same as the Recluse Association. Generally speaking, they had to maintain the balance between the clans and families. The difference was that the Recluse Association was working on a global level, and the Guardians were only responsible for China.

The status of the Guardians among the clans was similar to the status of Radiant Island among the underground forces.

Aaron's name among clans was exactly the same as Wade's name among underground forces. 

Barry looked at Aaron and swallowed hard. Then he said, "Aaron Bai, as a Guardians, you and your descendant joined an ordinary underground force, and that is considered a violation of the law..."

Barry was interrupted by Aaron before he finished speaking.

"It makes us happy. What can you do about it?"
