

Chapter 741

In this world, evolution was divided into two types.

The first type was to adapt to the flow of the world. It was called survival of the fittest.

The second type was to let the world change according to its own will. This was called changing the world.

Each evolution in history gave birth to two different evolutions.

During the first one, Apeman evolved into a capable person who knew how to use tools. He changed the world and became a capable Apeman. This was called survival of the fittest. Those that didn't succeed in the evolution were eliminated.

Then, the capable once again evolved, evolving into a standing person, evolving into a wise man. Now, it was like this again.

Each evolution would change the world, and a large part of the world would be eliminated. Those who were not eliminated would face the new world after the change.

The word "evolution" was too powerful.

Aaron leaned against the gate and said softly, "Evolution is a must and it is inevitable. Do you want to see the clans change the world or change with it? In your family, you can disregard the present Zhu clan. But you must be clear that compared with a real big clan, these three clans are just a group of cats and dogs. Can the soldiers of your three families resist the people of those big clans?"

Hearing Aaron's words, Soul and the other two didn't know how to answer for a moment. They knew that what Aaron said was the fact. When the big clans appeared, even if the three families from the capital sent their soldiers, it would be of no use.

However, they did not have to worry about this problem for the time being. The more powerful a clan was, the more restrictions they would face. It would not be so easy for them to emerge into the world.

Aaron continued, "The emergence of these three clans is not only a good thing, but also a bad thing. Although they suppress the underground forces, they can also make them feel pressure and crisis. The Emperor has ruled the underground world for many years, and was overthrown from Radiant Island. And the island has sunk into the deep sea. Those who are a little lighter have been too comfortable. It's time for them to think again about the survival of the fittest!"

At the same time when Aaron spoke, the screams in the hall were heard one after another, which was especially horrible.

Blood flowed out of some of the stone chambers. Not only were people from different forces fighting over it, but even two people from the same force would also fight over a Spiritual Stone.

The temptation of changing one's life was too great! It was so great that it could make the closest friends become enemies.

However, no matter how fierce the struggles here were, it was only limited to the various underground forces. No one dared to provoke the people from Radiant Island or the clans. After all, everyone knew that no matter how big the benefits were, there weren't qualified to fight against those big shots.

Barry and the other three people stood in the hall and saw with their own eyes a man running out of the bronze door with a fist-sized Spiritual Stone. Their eyes were red. Even the four of them had never seen such a big Spiritual Stone!

Why did Barry and the other three people deliberately frame Henry and imprison him in hell to take charge of Radiant Island? Wasn't it because of the Spiritual Stones?

But now the Spiritual Stone was in front of them. Barry and the other three people could not touch it because they did not belong to the ancient martial arts world or the underground forces of China. They belonged to the Recluse Association, an organization with special status in the world! They could not touch anything here!

Barry rolled his eyes and suddenly stood in front of the bronze door. A Chinese underground gangster was about to rush out of the bronze door, but he was stopped by Barry.

"You're not allowed to leave!"

Everyone had seen the skills of Barry and the other three people on that rainy night.

Barry stretched out his hand to stop him. The man was so scared that his legs went weak. He did not dare to say anything and just stood in front of the bronze door.

When Soul shouted, the three families from the capital, as the leaders of the ancient martial arts circle of China, had to make a sound at this time. "You people from the Recluse Association are too greedy. Is it your turn to intervene in the business of our Chinese ancient martial arts world?!"

"No, no, no." Barry shook his head. "Aaron Bai has just said that as long as we enter this door, there will be no distinction between the ancient Chinese martial arts world and the clans. Everyone will be integrated with one another. In that case, we will certainly take charge of the meeting. Now I am telling you as the Punishment Messenger of the Recluse Association, I suspect that what you are doing now is to

take the initiative to cause a war between the practitioners of Qi around the world. So it is necessary for me to report the things here to the top management of the association. Before the top management makes a decision, all the things here will be kept by us."

"Haha, Recluse Association, you look down upon our country." Joshua walked out of the stone room. In his hand, there were two Spiritual Stones as big as a baby's fist, and he kept playing with them.

Barry said, "Patriarch Zhu, if you have any opinion, you can bring it up to the special emissary of Chinese area." He directly mentioned the person at the top to put the pressure on Joshua.

Sure enough, upon hearing the words, Joshua gave a cold snort and did not say anything.

Barry said to Aaron, who was not far away, "Aaron Bai, we, the Recluse Association, are very clear about your identity. No matter what kind of identity you had after following Justus, you are still a member of the Temple Guardians. At this time, if you want to violate the rules, I am afraid that the special emissary from the association will not sit by and do nothing."

Aaron shrugged his shoulders. "Your Recluse Association is really shameless. I can't do anything about it. I said that the strength of you four Punishment Messengers is so weak. It turns out that you put your mind on the word game."

"Ha." Barry smiled and did not care. "Although the strength of the four of us is not as good as yours, there are too many people stronger than you in the Recluse Association."

Barry quietly mentioned other members of the Recluse Association to suppress Aaron.

"Aaron Bai, as a member of the Temple Guardians, if you really want to cause the war, I will keep you company to the end! Today, I, Barry Zhu, even if I die here, I will kill these unstable factors!"

With Barry's shout, a blue long sword formed in his hand, and the murderous intent spread out.

Standing in front of Barry, the man's legs were trembling. He could clearly feel the killing intent in Barry's eyes. He handed the Spiritual Stone in his hand to Barry with trembling hands.

"Don't kill me, please, don't kill me."

Barry took the stones with satisfaction and then shouted, "All of you, give me all the stones you got!"

"I'll give it to you. I'll give it to you. Just don't kill me!" A clear voice rang out.

A wonderful figure with short hair walked towards Barry, shivering.

Chapter 742

Sylvia hadn't participated in the fight for these treasures. She knew very well that she didn't want to get any benefit from these people at all. She had been standing in the centre of the hall. When she saw the graceful figure walking towards Barry, a hint of doubt appeared in Sylvia's eyes. She felt that she had seen this person before, more than once or twice.

The short-haired woman trembled and walked to Barry. She handed a Spiritual Stone that was only about four centimetres long. She begged, "Please, don't kill me. I don't want anything. I don't want anything..."

It could be seen that the woman's beautiful face was full of fear. The scene of bleeding in front of her scared her.

Barry looked at the Spiritual Stone handed by the woman with satisfaction. This was the first person to admit defeat after his demonstration.

After receiving the stone, Barry nodded with satisfaction and said, "Not bad. You're a smart person."

"Then... then..." The woman looked up at Barry and asked uncertainly, "Can I go now?"

"Yes. We will keep these stones for you. After the decision is made, I will return them to you," said Barry.

Everyone could understand what he meant by his words. All the people present were not fools. Who didn't know what Barry was thinking?

The short-haired woman nodded her head in trepidation and walked out of the bronze door quickly.

Barry played with the two Spiritual Stones in his hand. He glanced at the people from the other underground forces and said, "Who is next?"

Barry was also very smart. He did not aim at the clans and Radiant Island, but only at the underground forces. He used the loopholes of the Qi-refining practitioners' world to suppress the ordinary people who had entered the Qi-refining practitioners' world a few minutes ago.

These ordinary underground forces who had just entered the Qi-refining world naturally did not have the ability to compete with Barry and the other three people. As for the three big clans, they would not provoke them and would go against the Recluse Association.

The underground forces looked at each other, all of them grabbing onto the things they had just obtained. This was a supreme treasure

that could change their entire lives, so how could they give it to others so easily?

"Master Bai, these things are left by Master Lu. Are we really going to give them to this so-called Recluse Association?" One man spoke to Aaron. They had no ability to fight against Barry and the other three, so they could only put their hope on Aaron.

Aaron crossed his arms over his chest and leaned against the door, saying, "It seems that you still don't understand what I said. Before entering this gate, I have told you that once you enter this gate, what you have to face is a brand new world. In this world, there are you, clans, and the association. If you don't want to hand over the things in your hands, you can resist. It's a very simple truth."

Aaron's words were very clear and cruel, but also very realistic.

Soul and the other two opened their mouths but did not speak in the end. If they really wanted to prepare for evolution, then everything that was happening now was something these underground forces had to experience. They agreed with what Aaron had said before. There was no difference between being destroyed one day earlier and being destroyed the other day. Instead of letting the world change according to the clans, it was better to let the clans change with the world.

Aaron's high-profile attitude made all the underground forces tremble. In this case, they couldn't ask for anyone's help in the present situation.

Either hand over the things in their hands or resist the Recluse Association.

But everyone knew that the first person who stood out to resist would definitely be punished as a warning to others. Therefore, no one dared to stand out to say anything and waited for others to lose their cool.

In the huge stone hall, there was a strange silence. The underground forces that had been fighting for treasures had stopped at this moment. After all, if they didn't solve the problem with the Recluse Association, no matter how many things they could get, it would not be theirs.

At this moment, everyone shared a bitter hatred for their enemy.

Barry saw that none of them spoke first. He said, "I am the Punishment Messenger of the Recluse Association. If you don't come to your senses, don't blame me for being merciless!"

As Barry was surrounded by the light blue Qi, everyone could feel the power of the Qi.

Barry cast his eyes on the person closest to him and said lightly, "Make your choice."

Under Barry's gaze, the man's legs suddenly went soft and he almost fell to the ground. His hand, which was holding the Spiritual Stone, kept trembling.

Barry said again, "Either you obey the rules of the Recluse Association, or you die!"

Barry said the last word "die" using Qi, and then he rushed toward the person.

The enemy's already unstable psychological barrier was completely defeated by Barry's words. He took out the Spiritual Stone in his hands and handed it to Barry.

This was the third Spiritual Stone Barry had gotten from them.

The other three members of the Recluse Association also began to emanate their own Qi, suppressing everyone present. The pressure they unleashed grew stronger and stronger, and the people from the underworld took the initiative to walk over and hand the Spiritual Stones over to them.

"No! You don't have the right to do this! No!" Finally, one of them could no longer withstand this kind of pressure. With a mad roar, he grabbed his Spiritual Stone and swiftly rushed out of the bronze door.

"Ha." Barry chuckled and waved the blue longsword in his hand.

In the blink of an eye, the head of the man who tried to escape fell to the ground. With a long trail of blood, the head slowly rolled to the outside of the bronze door.

"If you want to leave, you can choose this way." Barry continued without looking at the man whose head was cut off by him.

Looking at the person who died, the people who had not handed over the Spiritual Stones could not help swallowing saliva. Those who had the courage to resist a moment ago, did not have the courage anymore. Their strength was nothing compared to Barry and the other three people.

"My time is limited. If you don't make a choice, I'll help you." Barry said impatiently. The blue long sword in his hand became more and more solid. "From now on, I'll count to three. After three, I'll randomly make a choice for one person."

After Barry finished, he looked at a woman. "Hmm, you. If you don't tell me your choice within three sounds, I will understand that you are going to go against the rules of our Recluse Association and become our enemy! One!"

As soon as the word was uttered, the woman stared at by Barry immediately opened her mouth, and her face was full of panic. "I choose to listen to you, but I didn't get any Spiritual Stone. I only found

this. Here you are!"

Chapter 743

The woman took an ancient martial arts manual and handed it to Barry.

Barry was very dissatisfied when he saw that the woman had no Spiritual Stone, but he could not say anything more. When he reached out to take the manual, he suddenly opened his mouth and looked at the woman in front of him.

A second later, when the blue storm was sweeping around Barry, Barry shouted angrily, "B*tch, die!"

Everyone saw that on Barry's back, there was a dagger inserted at this time. The person holding the dagger was the short-haired woman who first handed over the Spiritual Stone to Barry and begged for mercy.

Under the sweeping of the blue storm, the woman holding the dagger flew backwards like a kite with a broken string. She fell to the ground and spat blood.

The dagger that pointed to the back of Barry's heart also popped out of his body at this moment.

Sylvia's eyes narrowed. She finally remembered why this short-haired woman looked so familiar. She was the policewoman, the policewoman in Yinzhou. This policewoman was responsible for Henry's many cases! Her name was Helen Han!

No one had expected that the woman who was begging for mercy at first would suddenly attack Barry. Everyone could feel that this woman was not very powerful. Not to mention comparing with Barry, even in ordinary underground forces, she was only ranked on the bottom.

Even Barry himself did not think of this. He was too strong and proud. He would not think that these ants of the underground forces dared to attack him. Otherwise, with the strength alone, Helen's dagger could not hurt Barry at all.

Helen struggled to get up from the ground. She was just an ordinary warrior, but her physical quality was stronger than that of ordinary people. Under Barry's attack, she suffered a serious internal injury.

Wiping the blood from the corner of her mouth, Helen looked at Barry with killing intent in her eyes. She shouted unwillingly, "I want you to die with my man!"

Helen tore off her black coat.

As soon as Helen took off her coat, everyone present, including Aaron, was shocked. They could clearly see the highly explosive lightning tube on Helen's body. At the moment, Helen was in the middle of the mountain. As long as these explosive lightning tubes were ignited, the

mountain would instantly collapse, and everyone would be buried in the mountain.

All the people present were well aware of the height of the mountains and the size of the mountains. Once the mountains collapsed, even Aaron couldn't be sure that he would survive.

Barry's blue sword, which had just been raised, stopped in the air. He was afraid.

In terms of his own life, Barry believed that he was much more powerful than these ants who did not even have the ability to control their breathing.

Helen put her hand on the detonator with a bitter smile on her face. But more than that, she felt relieved. She murmured, "I'm here to accompany you. I hope you can walk slowly and wait for me on the way to the netherworld."

"Sister-in-law, don't be impulsive!" At the crucial moment, Sea God shouted and rushed straight to Helen.

Sister-in-law?

Sea God's words stunned Wade and the others. They didn't know Helen, but Sea God had seen her once. When they were on the sea, Henry had come forward and helped her and the Sharp Knife.

Sea God quickly rushed toward Helen. Barry didn't stop him at all. Fortunately, not far away, before Helen activated the detonator, Sea God grabbed Helen's arm and shouted, "Sister-in-law, don't be impulsive!"

Seeing that Helen stopped detonating the detonator, all the people present let out a long sigh of relief.

"Impulsive?" Helen said with a sad smile, "I came here to avenge Henry. I am not acting on impulse. Both the Recluse Association and the Zhu clan are murderers who killed Henry. I want all of them to die with my man!"

Helen's eyes were filled with firmness and determination as if she was going to die.

In the hall, Sylvia's body trembled slightly. She never thought that this policewoman was also related to Henry.

Wade and the rest clearly heard Helen's words. Their gazes subconsciously went toward Sylvia. When they saw the indifferent expression on Sylvia's face, Wade and the rest did not know what to say for a moment.

Before the war between Henry and the Zhu clan, he had informed everyone to cut off all relationships between Radiant Island and the Su Family, including Sylvia.

From the perspective of the relationship level, the present Henry had nothing to do with Sylvia except for a marriage certificate. But anyway, everyone's previous relationship was still there.

Sylvia lowered her head and did not say anything. The world that she had come into contact with had become increasingly vast and mysterious. The relationship between people was also not as pure as it had been in the past few decades. To the people present, what was a marriage certificate?

Sylvia clenched her fists slightly.

Sea God took a deep breath and said, "Sister-in-law, we just lost contact with him. I don't think he is dead."

"Yes." Barry said repeatedly, "I didn't kill him. He is also a member of the Recluse Association. He violated the rules of the Recluse Association. I put him in prison and sentenced him to nine years. After nine years, he will be released from prison. At that time, he will still be the king of Radiant Island."

Nine years!

This number gave a different feeling to the people present.

If it was only nine years, it didn't mean that she couldn't wait for him.

But for the major forces present, nine years was a lot. What would the world become like? In these nine years, everything that the Emperor of Hell was building could be completely destroyed!

"Nine years later, he will be released from prison. By then, do you want him to only see your tomb?" Barry said. He really wanted to kill the woman now, but the high-explosive and detonator on her made Barry restrain from killing her. He didn't want to die here.

Helen removed her hand from the detonator slowly. Seeing this scene, Barry was relieved. He had decided that he would kill the woman as soon as he left the mountain.

"Nine years..." Sylvia murmured this number. How many blocks of nine years were there in our lives? Nine years later, everything would be changed. If he came out, would he be able to live as an ordinary person?

No!

Even if Henry himself could accept it, Sylvia couldn't accept it!

Nine years!

There was a hint of determination in Sylvia's gaze as she looked at the ground. "After you come out, I'll still be the same. I'll make you a king of the underground again!"

Sylvia took two steps forward and walked to Joshua's side. She spoke softly. Her voice was like the humming of a mosquito, and only

Joshua could hear it.

A few seconds after Sylvia spoke, Joshua's face suddenly changed, and he looked at Freud not far away.
