

Chapter 748

Henry did not answer Aaron's question immediately, but said, "Let's leave here first. What has happened during the past month? You have to tell me everything because I haven't heard anything from the outside world while I was in that place."

Aaron nodded. Just as they were about to walk out of the bronze door, they heard a rumbling sound behind them.

Everyone turned their heads subconsciously, only to see two small bronze doors slowly opening in the middle of the stone chamber. The blood of thirteen Qi-concentrating realm experts had fallen to the ground, slowly flowing into the bronze doors.

Aaron looked at the bronze door that opened automatically with a dull look and asked, "What's the matter? Master's corpse came back to life?"

Henry shook his head and said, "He wasn't buried here."

"What is inside?" Aaron asked curiously. He had no idea what was inside the bronze door.

"I'm not sure either. Let's take a look." Henry strode towards the bronze door.

Aaron didn't take any reckless action. He stood in front of Wade and the others, in case of any emergencies. Henry just showed his strength, so he didn't need help at all.

A dark golden longsword appeared in the void in Henry's hand. Holding the sword, Henry slowly approached the bronze door.

Inside the bronze door, there was also a stone hall. The stone hall was totally empty, and its walls were neatly constructed.

Henry picked up a piece of rubble casually and threw it to the wall. When the rubble entered the stone room, it did not cause any change. It hit the wall with a muffled sound, proving that the wall was solid and that there were no hidden traps.

Only then did Henry walk into the stone room with ease.

In the centre of the stone room, there was a stone table. On the stone table, there was a scroll. This scroll was made of black paper. It was very old and wrinkled as if it was pinched into a ball by someone and spread out again.

The scroll was twenty centimetres long, ten centimetres wide, and about five millimetres thick.

Henry put his hand on the scroll and wanted to pick it up, but he found that the scroll was so heavy that Henry failed to pick it up in the first

try.

After using his strength again, Henry successfully grabbed the scroll. He felt that it weighed at least two hundred pounds, but the material was clearly the same as the normal paper, which made Henry full of doubts.

He flipped open the scroll and there was nothing in it. There was nothing written on it.

Just when Henry still wanted to continue exploring, his feet suddenly shook violently, and pieces of gravel fell from the top of his head.

Aaron's voice came from the outside hall. "Junior brother, let's go. The cave is going to collapse."

"Let's go." Without hesitation, Henry rushed out, pulled Helen with him, and ran out of the cave.

The rest of the people were very strong, and they didn't need Henry to take care of them.

After the last person ran out of the cave, a violent shock came from under everyone's feet. The cave, which was originally like a beast, suddenly collapsed and was buried by huge rocks. The bodies of the descendants of the clans and the five people from the Recluse Association were completely buried in this mountain.

The powerful clans had disappeared in the blink of an eye.

"Let's go. Someone from the Recluse Association will come soon. Let's get out of here first," Henry said.

Everyone's feet were very fast, and soon they went out of the uninhabited area of Shen area to the ordinary tourist area. There were so many people having fun, and no one paid much attention to the ten people who suddenly appeared.

"Sister-in-law, take off the detonator first. Otherwise, if you go out like this, I'm afraid someone will call the police immediately." Sea God gave a wry smile.

Only then did Helen realize that there were so many high-explosives attached to her body. She quickly tore them down and put them away.

A group of ten people walked out of the tourist area.

In a hotel near the Shen tourist area, Henry and other ten people gathered around a dinner table. There were some vegetarian delicacies on the table. The door of the private room had been closed, all kinds of good wine were placed on the table, and more than a dozen empty white wine bottles were thrown aside.

The ten people drank more than a dozen bottles of white wine. If they were ordinary people, they would have already fainted and wouldn't be able to get up. But it was nothing for these people. Last time Henry

drank this much was when he was in a bar with Helen. Most of the drinks at that time were low-quality wine and that type of wine would make people drunk easily.

At the table, Wade called Henry Big brother and Aaron father, while Aaron called Henry younger brother. This way of addressing each other could not be more chaotic, but everyone seemed to have been used to it and did not feel weird.

Henry listened to the crowd's stories about what had happened during the past month. Radiant Island had already started its relocation plan, and the major underground forces remained dormant, while the clans were strong.

"Where is Old Zhu? How is he now?" Henry took a sip of wine and asked.

Future replied, "He came to the island and was in a coma for half a month. He has already woken up, but his Qi seems to be very weak. The Second Elder is making some new medicine, and he will be fine after a while."

Hearing what Future said, Henry felt relieved. He and Wilbur had always been good friends. The Second Elder, who was the second elder of the Tang clan, was good at using poison, and the person who was good at poison, also knew how to use different herbs correctly.

"Senior Brother, you called everyone to the old man's tomb this time because you wanted everyone to enter the Qi-refining world, didn't you?" Henry guessed.

"Yes." Aaron nodded. "The three clans were too strong. They have been suppressed for too long. As soon as they came out, they felt like they would dominate the world. These are only three small clans. If those big clans come out, it's uncertain how messy it will be. Instead of being alone, it's better to let everyone practice Qi together."

Henry heard this and asked again, "Senior brother, will the rest of the clans appear in the near future?"

"I don't think so." Aaron shook his head. "The stronger the clan, the more restrictions they will suffer. The Zhu clan should be the most powerful clan that would appear at this time. Moreover, you have beheaded the heads of the three clan leaders this time, and the rest of the clans will not show up. However, there is not much time left. After another six months, new clans will appear."

Henry frowned slightly. "Do you know what they want to do?"

"I don't know." Aaron said, "I didn't expect that the clans would suddenly appear. I'm afraid that only the Recluse Association knows what these people want to do."

"All right," Henry said in a low voice.

"Boss." Wade poured wine for Henry. "The clans are too arrogant. They've suppressed the underground forces so much that they couldn't breathe. You've slapped them in the face this time. If word gets out, our Radiant Island will surely have higher prestige."

"We can't spread the news," Henry said.

Chapter 749

"Why?"

Hearing Henry's words, everyone was stunned.

"Indeed, you can't spread it out. You can't even tell anyone about my junior brother's whereabouts." Aaron said, "This time, my junior brother was exiled to the Hell prison. Since the establishment of that place, no one has been able to come out. If the people from the Recluse Association know that my junior brother has come out, there will be some big trouble."

"Yes." Henry nodded. "Not only can't the Recluse Association know, but also the clans and the underground forces can't spread out news of my return. Also, Radiant Island should take this opportunity to hide and not show up. I will provide you with a new place. You can go to An family."

Henry looked at the wine glass in front of him. "This time, all the underground forces have found the opportunity to come in touch with Qi. Most of the people in the Qi-controlling realm of those clans have died in the cave. This is an opportunity to reshuffle the cards and also an opportunity to let the underground forces break out their potential. We don't need to care about the things in the underground world and let them fight for it. According to my senior brother, in half a year at most, there will be a new clan coming out. Let's see what the underground forces can achieve in the next six months."

All the people present were smart. When they heard Henry's words, they immediately understood Henry's meaning.

"Boss, are you..."

"We don't know how strong the clans are. We can't compete with them just by ourselves. Now we don't know what they want to do and have no means to control them. We can only take precautions. The underground forces will have the chance to get into the Qi-controlling realm. Then we'll have more combat power." Henry sighed. "You have to remember that in six months when a clan appears again, all the people that have not reached the Qi-controlling realm will be nonentities."

All the people that had not reached the Qi-controlling realm would be nonentities.

Henry's words reverberated in the hearts of the crowd. The world was about to change, and it was no longer the world before. The emergence of Qi had already made a change in the whole pattern.

In the future, it would not be the era of many people, nor the era of

guns and cannons. It would be the era of experts above the Qi-controlling realm!

Everyone was thinking about Henry's words. Suddenly, a cell phone rang.

Helen picked up her phone and said, "Hello, yes, I'm here. I just came out. I'll be right there."

Helen said a few words to the phone, and then immediately got up.

"Sister-in-law, are you leaving?" Looking at Helen, Sea God asked.

Helen nodded and said, "Yes, the Sharp Knife is looking for me. I have to go now."

"I have something to tell you." Henry also got up and left Wade and others to drink first. Then he took Helen out of the dining room and came to a guest room that Henry had booked before.

Helen looked at the room where only she and Henry were, and her pretty face suddenly turned red.

Henry entered the room, turned off all the lights in the room, and the whole room suddenly became dark.

Helen pursed her lips and sat down on the edge of the bed. When she was about to say something, she saw that the lights were turned on again. Helen finally realized that what Henry had done just now was just to check if there were cameras in the room.

"This is for you." Henry took out a Spiritual Stone that was only one cubic centimetre long and handed it to Helen, "Do you know how to use it?"

Helen took the Spiritual Stone. She had seen the Spiritual Stones when she was in the cave, so she knew what it was. She shook her head to Henry and said, "I didn't take anything regarding the methods of using Qi."

Henry pondered for a while and took another book of cultivation method out. He said seriously, "Most of the words in this book can not be read. They belong to Small Seal Style. You can check them later and it will be a little difficult for you to understand them. But it's better than most of the methods of Qi-refining. Don't tell anyone."

This cultivation method booklet was given to him by the people in the Hell Prison when he came out, hoping that Henry could help them to pass down the cultivation method.

Helen looked at Henry's solemn face and carefully put away the cultivation method and the Spiritual Stone.

Henry stared at Helen's big bright eyes and said, "Helen, remember, in the next half a year, what the most important thing is. Today, my senior brother said that most of the underground forces will get into

the Qi-refining realm. In this way, no matter whether the original underground forces or the Qi-refining realm, there will be a completely new game, and the situation will become very chaotic in this half a year. Everyone will have to find their own position in this half a year. People will have to decide whether they will fight among the ordinary underground forces or in the Qi-refining realm."

"I understand." Helen gently nodded. "The Sharp Knife is going to hold an emergency meeting soon, so they must talk about this matter."

Henry put his hand on Helen's shoulder and said, "Within half a year, a lot of changes will happen. You need to be careful. After the situation becomes chaotic, the Sharp Knife will not be safe either. When I settle down Radiant Island, I'll tell you the new location. If there are any problems, just go there. Do you understand?"

"Don't worry. I'm no longer the blockhead I used to be." Helen smiled slightly. She opened her arms on her own and gave Henry a hug.

After holding Henry, Helen subconsciously tightened her arms, and a look of greed appeared in her eyes. But after a few seconds, Helen hid the greed in her eyes and released Henry reluctantly. "I have to go first, otherwise people from the Sharp Knife may come to look for me."

"Stay safe."

"Don't worry." Helen strode to the door of the room and opened the door. "You, on the other hand, should pay more attention to your safety."

After that, Helen walked out of the room. Resisting the impulse to rush back to Henry's arms, she closed the door and left.

Looking at the back of Helen as she left, Henry felt a little upset, but he knew that it was not the time for him to talk about romance. The whole underground world was going to change, and there were still a lot of things waiting for him to do.

Late at night, Wade and the others were all drunk and lay back in the hotel room. Henry came back safely, which made them feel happy from the bottom of their hearts. The news also spread to Radiant Island. It was said that the people on the island also indulged in drinking, and half of them were drunk.

At two o'clock in the middle of the night, Henry sat by the hotel window and took out the scroll he got today in the cave.

In the beginning, when burying the old man Lu, Henry was still young. He only knew that according to the last words of the old man Lu, he made a fake bronze tomb. Justus's real tomb was not in Shen area. Henry did not know anything about what was in the tomb.

At that time, Henry was not an underground king, and he didn't even know the existence of Qi. In this respect, he could be said to be

ignorant.
