

Mission To Remarry Chapter 732

Chapter 732 Troubling Alfred

In the evening, after kindergarten class was over, Archie and Benny stared at their father standing before them in confusion. "Your mommy has something to do, so I'll be in charge of sending you to school for the next few days," Lucian explained in a deep voice.

The boys exchanged glances upon hearing his words but did not give it much thought. After all, from their perspective, whichever of their parents doing that was the same.
