

Mission To Remarry Chapter 933

Estella was confused, but she still smiled innocently, for she knew Roxanne was praising her. The former then retracted her hand obediently.

Subsequently, Roxanne took out the tools she had prepared and carefully scooped out the yellow flower along with its roots.

Estella cocked her head to one side, confused by what she saw. "For medicinal herbs like this, we need to preserve their roots as well," Roxanne explained patiently.

Hearing that, the girl nodded even though she did not understand Roxanne's words completely. Now that Estella knew Roxanne was looking for that kind of flower, the former quickly got up and scoured the area.

It did not take long for Estella to find a huge area of it, so Roxanne collected a few more to be preserved. Soon, noon arrived. The children were clearly hungry because their pace had slowed.

Noting that, Roxanne brought them back to the tent to prepare food for them. She had woken up early that morning to prepare a various selection of food for the children.

The sight of the children feasting on the plates of food she prepared made her beam. "Essie, this is for you," said Benny while taking out some sweets from his bag.
