

Medical road

Chapter 101

After the operation, Zhang Fan called Shaohua and Shaohua had gone home. When Shaohua got home, Zhang Fan was relieved. I was happy eating and drinking with several friends, but I was tired after an operation. Back to the dormitory, I washed casually and went to bed.

Dermatology transfer time will be another two weeks. Zhang Fan plans to ask for leave after graduation. He can also take May Day holiday, annual leave, family visit leave and together at home for about a month. I have to talk to Shaohua sometime.

Fortunately, with Shao Hua, Zhang Fan alleviated many thoughts about home. It's not unreasonable to have a daughter-in-law and forget his mother. Zhang Fan has become famous in various county-level hospitals for half a year. The price is cheap, and he can give half of it to the doctors on stage. Doctors in F County, whether you are the director or not, as long as you can do the operation and divide it. The surgical director of Teka county has called Zhang Fan. There are three laparoscopic operations at the weekend.

Zhang Fan is also willing to have more surgery, which not only improves the amount of surgery, but also improves his income. Recently, the cost has been a little big. Although Shaohua said that two people take turns to pay for each meal, who will remember who paid the money last time when the relationship is getting closer and closer.

When a single dog, eat the canteen every day. The hospital has 400 late meal expenses every month. The food is good. The subsidy of the hospital is enough for dinner in one month. I really can't afford to fall in love without money! Fortunately, Shaohua doesn't pay much attention to eating and drinking. As long as it's clean, if Jia SuYue, Zhang Fan really can't stand it.

The physical examination of the sports school is becoming more and more formal. Zhang Fan's physical examination and massage effect are really good. In the past six months, the children's pain has been reduced a lot. Even if they are injured, they know who to go to. Zhang Fan, who specializes in sports medicine, is still alone in tea vegetable city.

"I have a senior brother. He is engaged in basketball and worked as a teaching assistant in the frontier team. He was injured in sports and his knee was also injured. If you have a chance, you can show him. The operation you performed on Guli was really good. At that time, I was worried that she would never have a chance to exercise again. As a result, she has recovered well and has no impact at all. " Wu Yanchao of the sports school said to Zhang Fan after seeing Zhang Fan finish his physical examination.

"No problem. Just contact me then. " Zhang Fan likes these little guys very much. Like little tigers, staying with them all afternoon can reduce the gloom in his heart.

At the weekend, Zhang Fan is going to take Shaohua to Teka county. The county is more than 100 kilometers away from the urban area. There is a large area of virgin forest. Although Shaohua is from tea vegetable City, he has never been there.

Three operations were completed in one morning and noon. You can take Shaohua around in the afternoon. Now it's too late to get back to the city after dark. The plan was good. As a result, Jia SuYue heard a call on Friday and they went shopping together.

"I'm going too. I haven't been there for a long time. The scenery there is very beautiful. We'll stay in the county all night and come back. " Jia SuYue was not polite at all. However, her parents in Shaohua will be relieved that Zhang Fan and Shaohua can stay a little longer.

Although Jia SuYue was a burden, Zhang Fan had a way to summon Wang Yanan every minute, "I'm going to Teka County for surgery at the weekend. Whether you go or not is a general surgery. It's not bad for you to see more. "

"OK, I'll go. I haven't turned around yet. Will it embarrass you if I go away! Let the doctors in the county laugh? "

"It's all right. Don't worry."

Make an appointment with Wang Yanan. Jia SuYue has a partner and won't haunt Shaohua. Shaohua said this to Shaohua. Shaohuajiao said with a smile, "I don't see it. You have a lot of heart."

"Hehe! No way, forced. " One side is a best friend and the other is a prospective boyfriend. Shaohua is not easy to do. Zhang fan understands Shaohua, and Zhang Fan knows Shaohua through Jia SuYue. He is also a matchmaker.

At the weekend, after checking the room in the morning, Zhang Fan drove to pick up Shaohua and them. Because he had to hurry, he asked them to gather at Shaohua's house in advance. After entering the community, he stopped and went upstairs. It was originally a phone call, but Zhang Fan had to go up and say hello to Shaohua's parents. This is a matter of courtesy and respect. We can't be careless.

"Have you eaten yet?" After running in the morning, Zhang Fan didn't eat and hurried to the ward round.

"No!" Zhang Fan smiled awkwardly.

"Sit down quickly, drink some water, and I'll cook for you. Don't eat in the morning. You have to have surgery. Your body will collapse over time. The old man took out the bacon and steamed it. "

"Aunt, I'm really not busy. I can just eat. I have to be in a hurry. The county hospitals are waiting."

"Stop dawdling. Go and beat two eggs and have some steamed bread. Xiao Zhang is still busy. " Shaohua's father said.

In just a few words, Wang Yanan and Jia SuYue were stunned. Jia SuYue quietly said to Shaohua, "it's too exaggerated. It's already the standard of a son-in-law! Don't you think about it? "

Shao Hua didn't speak. After pinching Jia SuYue, she gave Zhang Fan chopsticks and pickles, and then prepared some salted duck eggs. She also knew that there were too many emergencies for the doctor. She had a full meal in the morning, and prepared something not easy to break in the car, so that Zhang Fan could have a bite at the critical moment.

Jia SuYue looked at Shaohua's busy appearance. It was really a bit like being a wife. Suddenly, she thought she should have a home, and also wanted to prepare breakfast for the people she loved. Wang Yanan has a big nerve. She is also immersed in why the relationship between Zhang Fan and Shaohua is so fast.

Cherokee has few advantages and is not famous, but it works really well in the West. On the muddy road, where the cart can pass, Cherokee can almost pass, but it's a little bumpy. All three girls sit in the back. When I was just out of the city, I was still chirping. My face turned white.

It's almost 9 o'clock to get to the county hospital. Why should we arrive early? Because the patients of the operation that day can't eat, if the operation is done too late,

the next two patients will faint from hunger. This kind of elective surgery, usually half an hour before the infusion. So you have to be early in the morning.

Fortunately, the hospital is ready. The first patient is ready to enter the operating room. After Zhang Fan read the checklist and found no problems, he agreed to start the operation.

Zhang Fan is still inexperienced. If he wants to have an operation, he must see the doctor's number first and then operate. After all, the checklist is an auxiliary examination.

For laparoscopic surgery, the assistant is to help the mirror with the operator's steps. The doctors in the county don't like to do it. There is no technical content to say, and it's boring to death. But they can't do it with technical content, and slowly they are more and more reluctant to work.

Wang Yanan's advantage is that she likes surgery, whether it's orthopedics or not. As long as she has surgery, she likes it. This is a natural hobby. The ultimate success of a career depends not on your efforts, but on whether you naturally like it or not. If you don't like it, you can't reach the peak.

Shaohua finally came to the county. Zhang Fan didn't want to hurry back. He booked the hotel through the doctor of the county hospital early. Zhang Fan and Wang Yanan went for surgery. After Shaohua and Jia SuYue put their things away, they went shopping.
