

Medical road

Chapter 123

I'm leaving. The old couple can't even give up. Looking at the far end of the car, Zhang Fan's mother wiped her tears and said, "you're stubborn! When little stone has children, I'll go and live with them. Then you'll live alone! "

"What do you know? Long hair and short insight! They are not married. What's the matter with us? If they don't come back for the new year this year and wait for Jingshu to go to school, we'll go to tea vegetable to live for a few days, meet our in laws and discuss their marriage. Hey! This bastard! "

"What's the matter with the stone? It's not good to buy you a new house to live in. When can you live in a new house? I've had enough of this air leaking house!"

"Look at you, I didn't say no, why!"

"Cook by yourself at noon. I'll see the new house!" Zhang Fan's mother threw away her apron and was going out.

"You got on your bike. It's a long way."

"Don't worry, I'll take the bus!"

Cross the Yellow River! Fanwushaoling is stationed in Weishi for the first stop. Zhang Fan plans to travel in a week. He can go to all the scenery and scenic spots here. Let Shaohua and his sister have fun for a few days. This month, they were busy with exams and buying a house.

There are not many scenic spots in Northwest cities. People in Northwest China are not curious. The most important thing to miss along the way is the Mogao Grottoes. A cultural pearl dotted on the desert.

Grotto murals are rich and colorful, with a variety of Buddhist Scripture stories, mountains and rivers, pavilions and so on Architectural paintings, landscape

paintings, flower patterns, flying Buddha statues and various scenes of production by working people at that time.

It is an artistic reproduction of the folk customs and historical changes of more than 1500 years from the Sixteen States to the Qing Dynasty. In a large number of mural art, it can also be found that on the basis of nationalization, ancient artists absorbed the advantages of ancient art in Iran, India, Greece and other countries, and were the symbols of the developed civilization of the Chinese nation. The murals of each dynasty showed different painting styles.

Tickets are not cheap! There are still a lot of people. Foreign, crooked, Hong Kong, Zhang Fan regrets after reading it. It's better to listen to it than to see it. It's all mud Bodhisattvas and can't understand it.

However, Shao Hua and Jing Shu watched the well and followed the guide all the way. It's not easy for the tour guide. He keeps talking in the desert on a hot day. He's really hoarse.

On the third day, I arrived at the mountain. The Hami melon here is the sweetest and best. It is not famous and outsiders generally don't know it. It's really sweet. Jingshu's lips cracked the next day and she was crying because of the pain. The mountain was too small, so I ate some Hami melon without stopping. Continue to face the West and arrive at the city famous for grapes in the afternoon. Although the grapes are not mature, it will be a pity if you can't pass by.

On the fourth day, when she arrived at the bird market, she looked at the high bridge of nose and big blonde hair all over the street. Jing Shu was surprised that she didn't miss Tianshan and Tianchi. Shao Hua bought a lot of things for Jing Shu. "I'm going to college. The bird market has more things. I'll prepare them for you here. You don't have to hurry when you leave. "

Notebook computers and mobile phones. Although Jingshu uses the apple sent by Wang Qian, Shaohua still bought Jingshu a new mobile phone, and Jingshu's old mobile phone was eliminated to Zhang Fan. There are also suitcases and carry on bags. After a whole day in the mall, the two people who had a good relationship became better and better, "sister-in-law! Sister in law. " Jingshu and Shaohua are not close.

Sailimu, God's tears on earth! This scenic spot is very wonderful. The governments of both States claim to have management and operation rights.

Blue, blue, blue, pollution-free sky and pure lake water lie on the grassland by the lake, breathing the fragrance of green grass. It is a fairyland. In the morning, the fog shrouds

the lake and cries out. The echo is constant, which makes people instantly transparent!

Entering the tea vegetable market, "sister-in-law is a beautiful place. It really doesn't look like the northwest. It's really like Switzerland in the picture."

"Isn't it beautiful? There are more beautiful places. Wait until home for two days. If your brother doesn't have time, I'll take you to see more beautiful places. Where the grassland is like a picture scroll. " I'm home, but I'm not in a hurry this time, and a few people are not very tired. At Shaohua's home, her parents booked a hotel early. Although Jingshu is a little girl, it is also the first time Zhang Fan's family came to the door and should be paid attention to.

Jing Shu is very polite, but her sister-in-law makes Shaohua's father worried. The little girl is also a good eater. She eats much better than Shaohua. She is happy to eat. Su Province and border areas are in the northwest, and Su province has nothing special products to bring. Zhang Fan bought some lilies and local tobacco and wine for Shaohua's parents.

At night, Zhang Fan was going to let Jingshu go back to his place, but Shaohua stopped him. "You go to work during the day. How can Jingshu do alone? Just live in my house and live with me. We'll take Jingshu to Swan Lake on the weekend. If you don't have time, we'll apply for a tour group. "

"That's OK." You can't ask for leave anymore. When Jingshu University reports, Zhang Fan and Shaohua will send you off. You should go to work after two days off. Now that you're back from home, you have to tell your friends. Vacuum lily, bought a lot. The gift is not very expensive. It's also a little thought of Zhang Fan. Li Xiao went to the bird market and didn't meet him.

Wang Qian was not at home either. She went traveling with her classmates. Zhang Fan, who bought a lot of lilies, can't send them out! Lao Chen brought a big bag of things. We must go to quark county to thank him for this friendship.

Quaker county hospital, old Zou's era is coming to an end. He's starting to be a little reckless. However, even places for further education began to be sold, and there were curses inside the hospital.

The only thing Lao Zou is smarter than Lao Ba is not to make big moves. They are all shameless, but shameless, but very safe. This is the Dean has the final say for the quota of study, others have objection and can only say one thing.

Lao Chen is also depressed. There is no place for Bluebird to study“ Master, do you think you can't stay in this county? I can't. I'll find a way to change a place. There's really no way to do it. All the patients were released, and the study was all related

households who gave gifts. If you don't send them, you can't expect them. The director of the first foreign language department didn't go and had a big quarrel with old Zou. "

"Is there a place to go? If you can't do it, find a way. When will old Zou retire? "

"In the second half of the year, I'm old. Now I'm in hospital. I'm not interested in asking questions in the city. I can't make up my mind to go to a private hospital. "

"I'll ask for you, too. What about Shi Lei? Didn't he move? "

"I don't know. I asked me to ask you out a few days ago when I ran in the supermarket every day!"

"Say it again!"

The county hospital has left a lot of people in half a year. The three people who studied with Zhang Fan have left. Although they have entered a lot of new people, a mature doctor cannot be measured by the number of new people.
