

# Medical road

## Chapter 125

Although LV Shuyan came through the motions and was still a graduate student, she didn't have any pride. A real person can't judge by appearance. Zhang Fan doesn't have to say that she has done it.

Several attending doctors are ready to see what Zhang fan does when they see that Zhang Fan has received an operation patient for electroresection of the prostate. This operation is not difficult, but it can't be done in a few years. Novices can't grasp the strength. A little force can scrape through the prostate.

If Zhang Fan doesn't do it himself and let Wang Zong, vice Gao, be ashamed to do it, they will have something to say. They can't even do the basic urological surgery. What to take the group, the most important thing is to get the score.

To improve the examination, Zhang Fan made another special finger examination. Few people do this examination. They have to insert their fingers into the patient's anus to touch the prostate. The patient is unwilling and the doctor is unwilling, so fewer and fewer people do this examination slowly. Zhang Fan doesn't want to let go of every patient. One more examination may lead to one more perception.

Lao Wang is also waiting for Zhang Fan to speak. A transferred doctor doesn't specialize in urology. He can't even fit a mirror and say what to do for surgery. However, Zhang Fan was specially explained by the director, and he also has a practice certificate, so everyone is watching.

LV Shuyan's three years in the top three at the provincial level were not for nothing. She said to Zhang Fan, "you're a little attracted. You see, everyone doesn't speak to this patient. Just wait to see your operation. Are you sure? If not, don't try to be strong. The medical industry is also accumulated with age and experience. Don't feel embarrassed. If you can't, go to the director. "

Everyone is young and has just entered the hospital, so LV Shuyan will mention Zhang Fan, otherwise she won't talk.

"It should be OK. I studied in Bluebird!" Zhang Fan said.

"It's you! Shall I hit you or thank you? "

"Well?" Zhang Fan wondered.

"My boyfriend graduated with a master's degree in spine. He was going to apply for orthopedics here, but he didn't come at the first sight of the conditions. Finally, he went to the South and asked me to go to the south, but my parents didn't go here. Then there will be no more! "

"Oh, you have good conditions. Just look for it! Don't worry. " Zhang Fan is repeating the electron microscopic resection of the prostate in his mind. He has no intention to gossip with her. Casually perfunctory with her.

"They are all old girls." The inspection results in the afternoon were normal. Zhang Fan reported the operation to the director. Li Jianguo looked at the operation list in his hand and asked Zhang Fan, "how are you? Are you sure? Do you need me to stand for you?"

"It shouldn't be a big problem. If the director is not busy, help me stand. I'm more confident!"

"Pull, if you say so, it's no problem. I wonder. You can even do urinary surgery! It's really not easy! "

"Hehe, it's the director who gives the opportunity, otherwise it's useless to do it."

"Don't fill me with ecstasy soup, or I'll be transferred to urology. At the right time, several of their attending doctors are about to be promoted to vice high school. How about you come to give you a hospitalization?"

"Well! I have to ask President Ouyang. I can't be the master. "

"Oh, forget it! Go and prepare! " Crackling, Lao Li withdrew. He was not uncomfortable before. Since Ouyang became president, he was really sad! As long as Ouyang can be avoided.

Zhang Fan took the director's signature sheet and handed the operation form to Wang Zong ashamed, "Oh, let's prepare before operation. Tomorrow morning, the family sincerely gave it to Zhang Fan. Zhang Fan really didn't dare to ask for it! After refusing for a long time, Zhang Fan's attitude was firm. As soon as his family really didn't want it, they went back. As soon as the family members came out of the doctor's

office, LV Shuyan said, "I don't see it. You are still a person who comes out of the mud and doesn't dye. Depending on their economic conditions, this money should not cause them any burden. Why don't you do it."

Zhang Fan is really afraid to ask for it. It's not good to tell LV Shuyan about the respiratory department. Is the condition of temperate people bad? Therefore, this matter does not lie in whether the conditions are good or not. It's not necessary to accept it if it shouldn't be. If there's another upside down thing, it's really shameless to stay in the municipal hospital.

Zhang Fan wrote a medical record and said, "it's not something that comes out of mud and doesn't dye."

"What's the reason?" LV Shuyan asked again.

"Well! I'll see the patient! " Zhang Fan was asked speechless and couldn't speak. It's too right and wrong!

In the afternoon, it's almost off duty. The director of the imaging department came. The old man's child and the director of the imaging department were classmates. Zhang Fan didn't charge money. They were a little worried, so they found a classmate. As soon as the director of the imaging department heard that it was Zhang Fan, he said, "don't worry, that young man is very powerful. I'll see. Did your old man offend others?"

"Doctor Zhang, are you off work? Have a meal together in the evening." The director of the imaging department blocked Zhang Fan in the corridor.

"Director Zhao, what's the matter? Just talk to me. Don't be so polite. "“ It doesn't matter. Didn't you stop an old man with a bad temper? His son is my high school classmate. They want to express their thanks and invite you to dinner today. " Lao Zhao didn't say anything about money. He pretended not to know such things in a hospital.

"Oh! It's really unnecessary. My sister is here. Director Zhao is really sorry. Forget it today. Even if you don't say it, I'll pay attention, not to mention your friend. You can rest assured and do your best. "

"Ha ha! I'm very relieved of you. Don't you really eat? Why don't you bring your sister?"

"No, director Zhao! I accepted it. Tell your family that it's really unnecessary. "

"OK, then wait until the operation is finished." Lao Zhao knew about the respiratory

department and didn't force Zhang Fan.

Zhang Fan confiscated the red envelope, which caused a little confusion to the patient's family. The old man of his family was really bad tempered. He had lived in the hospital once before and went to the doctor in charge for the second time. He didn't accept it directly. He said he wanted to find another doctor. He was scolded and afraid!
