

《Medical road》

Chapter 13

The second Department of surgery became famous in the first World War. The number of operations is not only much more than in previous years, but also praised by the county Party committee and county government. Batu believes that if you want to be famous, you have to do a good job in surgery. The two new college students who have been admitted to the second Department of surgery are sent directly to the second Department of surgery. Both of them are local people in the frontier. One of them lives in the next county. His name is Li Liang and the little fat one. My father is a small civil servant. He took many ways to send xuezha Li Liang to quark county hospital. His father spent most of his life in the national team. Although he didn't get a position, he was also close to officialdom. Before leaving, he said to Li Liang, "learning good or bad is a thing of the past. There are great differences between units and schools, especially for technical units like you. After entering the Department, you will keep up with the technology, and there is no shortage of your salary at home, Try to make friends and deal with the relationship with the technology magnate. Even if I can't help you become an official, people can help you at a critical moment in a place like a hospital that is related to human life. " The other is Yang Chengming, who lives in the urban area. If he wants to take the route of curve saving the country, he will first be admitted to the county hospital and then transferred to the urban area when he has the opportunity. He has been working in the hospital in the urban area for half a year. He just came to quark County in order to prepare, so he doesn't care about the county hospital.

The dormitory has two bedrooms, one large and one small. The small one belongs to Zhang Fan. The big one lives with four girls, Wang Sha and three new girls. Chen Lulu of the pharmacy department looks ordinary, but her family is from quark county. One of her relatives is the head of an organ and unit. She could have lived at home, but she hated my mother's nagging and simply lived in the house rented by the county hospital. The pharmacy department of the county hospital was purely a drug seller without any clinical pharmacy research. Through the relationship, she went to the hospital office, "is Zhang Fan a relative of the president? He lives in one bedroom alone. What kind of relationship should he be very close to? He can't be the president's brother-in-law. " She seems to have found something secret. She holds on to Wang Sha. The other two also pay attention. If they are really the dean's brother-in-law, they will have a good relationship in the future.

"I don't think so. He came with us from Su Province, and he is Han, and the president's wife is Mongolian." Wang Sha didn't want to tell them how awesome Zhang Fan was. "I won't tell you. Let you guess." It's not about anything. It's just a natural evil taste of

women.

After the morning meeting in the morning, Yang Chengming felt a wave of unhealthy tendencies“ Miss Zhang, did you have dinner? I bought some steamed stuffed buns with big meat on my way to the hospital today. It's still hot. " Chen Qifa took the steamed stuffed bun and gave it to Zhang Fan. After eating steamed stuffed buns, I didn't count. "The Dean gave me a few packs of cigarettes left over from yesterday's meal. My brother gave me a few points." Shi Lei gave Zhang Fan and Chen Qifa a bag, and the two new ones were directly blocked.

"What's the origin of this guy? The dormitory lives in a single room, and the doctors in the Department are getting close to him. The section director drank it early in the morning and his tongue straightened. Hey! The hospitals in the county are at this level. " He didn't care. Anyway, he was going to leave, so he didn't have to do anything. At the critical moment, he showed them what he had learned in the city. Stop these guys. Don't let me do all the work. I have to read books and take exams. What he really thinks of is a mallet. A county-level hospital is at least 200 people. Not to mention you, a newly graduated undergraduate, even the doctors stationed in the urban area should be polite and not arrogant. If you can't point out, a big cow will pop up and swell your face.

The little fat man is also single. Anyway, he is new and looks like a new man. He went to fetch water with a thermos. Tuxun is in the outpatient department. The next director of the Department is Shi Lei. He has nothing to do with him. He doesn't want to be involved. If he can't be on duty, he won't be on duty. If he can go to the outpatient department, he won't go to the Department. In the morning, a man with a fracture of his forearm was lazily cast and sent directly to the Department.

"It's just a matter of plaster. You can sit and smoke, and I'll plaster." Chen Qifa doesn't have a practice certificate and is embarrassed to instruct new college students.

"I'll go. I often have a cast in the municipal hospital. Our director said I played well." I don't know whether it's a character force or a deliberate force. When Yang Chengming said this, everyone looked at him in surprise. Shi Lei smiled. It's really strange. There's an evil spirit. Is Zhang Fan another genius“ Well, since you've worked in the city, go anywhere. Lao Chen will have a rest. " After Yang Chengming went out, Shi Lei whispered to Chen Qifa, "weigh it?"

"No, it's just a mallet. Don't be frightened. Look at Zhang Fan. He also likes to rush to work when he first came, but what do people say? Before and after the teacher, he

started to pull the flag before he did anything. Don't worry, it's definitely a mallet“ An old doctor of Zhang Fannong began to fear college students.

"Radial head subluxation is a kind of trauma that is easy to occur in children after violent traction. Why don't you go to Huanfu! " Lao Chen began to step on Yang Chengming. Although he lowered his head to Zhang Fan, he was a big winner in the orthopedics department of the second Department of surgery before Zhang Fan came. Although I don't have a practice certificate, I'm not a little grumpy. "I can't breathe if I'm already pressed by Zhang Fan. If you're also forced, I'll transfer to the emergency department."

"This, this I haven't learned." The child cried bitterly, the parents asked anxiously, and then looked at Chen Qifa's expression of being slow and dying. Yang Chengming said with a black face and biting his teeth: "Doctor Chen, I haven't learned this yet."

"This is not taught in the city?"

"I didn't learn!"

"After that, learn well. Don't aim too high. People should be modest." As he spoke, the child screamed and listened to a "click". Lao Chen clapped his hands and said, "OK, qihuo. I said, "can you parents serve snacks? Can children pull hard with such a small arm?" After training Yang Chengming, he taught the child's parents a few words. Yang Chengming blushed. He didn't know how to get out of the doctor's office in front of the patient's family.

On a cold day, the fat manager of the H County Hotel accidentally slipped down the steps, knelt down and cracked his patella. It was more than two hundred kilograms. It's going to kill me all of a sudden. 120 to the county hospital, four nurses and an emergency doctor were stunned and didn't lift them up. Unable to call the two men from the security section again, they reluctantly took a film for inspection“ There's no way. It's broken into several pieces. You have to put on the patella claw. " Zhang Fan looked at the film and said.

"Install B, who doesn't know to put on patella claw" Yang Chengming just can't see Zhang Fan's confident appearance. There is no way that people are not envied. They are mediocre. Zhang Fan stands out among the new students.

"Is this a big deal?" The wife of the hotel manager is obviously several grades higher than the ordinary people in the county.

"No problem, minor surgery." Zhang Fan said. Originally, it was best to carry out the operation of two patella at the same time, but there was no one in the Department. Zhang Fan did one leg and Lao Chen did one, but there was no assistant. There's no

way. We can only come one by one.

"Well, is he the master knife? Are you kidding? " On the operating table, Yang Chengming looked at Zhang Fan standing at the position of the main knife and was stunned for a long time.

"What are you thinking about? Go and wash your hands." Lao Chen began to disinfect and roared when he looked at Yang Chengming in a daze.

"Cut and clean up blood accumulation, broken bones, bone joint and upper patellar claw." Zhang Fan moves more and more skillfully, sometimes mentioning Lao Chen or two, "the patella is fixed, but you must remember to touch the inner surface of the patella to see if it is flat, otherwise there will be sequelae in the future."

Lao Chen nodded and was not slow at hand. Yang Chengming didn't have a chance to practice sewing. From beginning to end, Zhang Fan did it alone " God, is this a fresh graduate. Evil spirit, Buddha, take it quickly. " Now Yang Chengming knows why several old doctors are so polite to Zhang Fan. This guy is so awesome, "I'd better hurry up to read. I can't make a head with this demon."
