

Medical road

Chapter 130

In the evening, Zhang Fan came to the door with a gift. Li Xiao had already invited the cook to cook at home, which was something Zhang Fan loved to eat.

"Ah! It's very kind of you to bring something for such a long distance. Come on in. Today, my nephew also came. Let me introduce him to you. "

"Hello!"

"Hello!" Zhang Fan said and shook hands with Ma Wentao. Li Xiao pointed to Zhang Fan and said, "this is Dr. Zhang. My lumbar spine was looked after by Dr. Zhang. Last time I went to Hong Kong Island, I almost had an operation according to your words. You see, I'm cured now. Dr. Zhang, this is my nephew. He just returned home, not long ago. "

Ma Wentao was a little disappointed when he saw Zhang Fan. Zhang Fan is too young. No famous doctor is under the age of 40. In the Royal Hospital in Britain, people like Zhang fan are still in school. But he also knows about his aunt.

At that time, a professor of spine surgery at the Royal Hospital said that surgery was necessary. So he can keep a certain courtesy to Zhang Fan. At his level, if it's useless to him, he's too lazy to be polite, because it's not necessary!

"Is Dr. Zhang a medical family?" Li Xiao has introduced Zhang Fan's experience to Ma Wentao. Those who have this ability are estimated to be inherited from their families, otherwise they can't explain.

"No."

"Oh, your rehabilitation technique is really powerful. My aunt met foreign experts in Hong Kong, and they all decided that surgery was necessary."

"Hehe, he may want to make some money!" Zhang Fan kept silent on the problem of rehabilitation techniques! If you don't steal or rob, you don't need to explain to him.

"Does Dr. Zhang focus on rehabilitation?" Zhang Fan doesn't explain, and Ma Wentao doesn't care. He's seen a lot of talented people with a little personality and some experts with quirks!

"I'm not sure yet. I'm still transferred." Zhang Fan replied.

"Well!" There's no way to talk. Ma Wentao is looking for competent and skilled doctors. This guy has transferred to another department! But he cured his aunt's lumbar spine again. Contradiction!

"Well, let's talk while eating. Today, we invite a special tin chef to let you taste the tin cuisine. " Li Xiao beckoned them to take their seats. With Li Xiao's participation, their conversation slowly became a little harmonious.

"Dr. Zhang, for example, can you treat other people with lumbar diseases like me?"

"It depends on the degree of lumbar bulging."

"Oh! In other words, as long as it is lighter than my aunt's condition, it can be treated, right? "

"Well! It can also be said that, but the specific situation should be treated in detail. "

After dinner, Li Xiao asked his assistant to send Zhang Fan out of the community " Aunt, please help me find out how many expert directors are retiring from the municipal hospital. I want to open a private hospital in chasu city to accumulate experience. "

"OK, it's also a serious thing. Talk to your father. Your father is not young. He's angry. It depends on how you do it. How much are you going to invest? "

"Three or four million first. After all, it is also the first time to intervene in the medical industry, but I am really optimistic about this industry. The health market is the biggest market in the future. My father, ah! " Ma Wentao said. These are people with good reincarnation skills. They practice and accumulate experience with millions of businesses.

"OK, let me ask for you."

Li Xiao called Ouyang. She didn't have to hide her level from Ouyang. She asked directly, "President Ouyang, are you busy? Let me ask you something. How many expert directors are retiring from the municipal hospital? "

"Oh, there is only one director of the digestive department. Other directors take years. " At this time, Ma Wentao quickly said, "ask who rescued Qin Nuo last time. It was a soldier last month."

"Oh, President Ouyang, there's another thing. There was a soldier last month. Who rescued him? His surname is Xiao."

"Zhang Fan, Doctor Zhang. OK, thank you! "

Hung up, Ma Wentao was amused "Qin Nuo was rescued by Zhang Fan? Really? How could it be! "

"What's the matter?" Although Li Xiao is a real estate developer, his business is just in the frontier and he doesn't know some figures in the capital circle.

"The only boy of the Qin family was seriously injured in the exchange of fire between the frontier and foreign hostile elements. He still lives in 301 and has not been discharged from the hospital, but he has recovered well. My father doesn't know what path to take. It made me associate with Qin Rongyu, the girl of the Qin family. Last time she came to the frontier, the old man took the initiative to contact a helicopter. "

"Is that the Qin family?" Li Xiao pointed his finger above and said.

"Yes. It was an emergency. I was in the capital. It is said that if it were not for the doctors in the frontier, there would be no one. Hey! I thought I could earn this Doctor Zhang with a high salary, but I didn't expect his level and luck to be so good. His kindness to the Qin family is not small! " Li Xiao doesn't pay attention to others. He is very interested in Ma Wentao's marriage. Ma Wentao began to fall in love early in junior high school, but now he is in his thirties, but he doesn't even have a formal object. Li Xiao's sister and brother-in-law are worried.

"How old are the girls of the Qin family? Are you making progress now?"

"He is the same age as me, alas! Strong woman, it's a political marriage. There's no progress. Wait for the old men of both sides to talk again. It's estimated that I'll be packaged and sold! " Ma Wentao said a little lonely.

"What are you talking about! To your status, marriage is a little involuntarily, but people are slowly contacting and associating. The girls of the Qin family should be excellent. What else are you unwilling to do? "

"Aunt, don't talk about it. Do you understand Zhang Fan? You can see from his speech and behavior that he is very calm and comes from an ordinary family, right?"

"I know him very well. I know how to advance and retreat and understand accidents. People are also very cautious and never talk much. So far, I have never asked for anything because of seeing a doctor. I don't contact him. He never contacts me. The conditions at home should be bad. I sold him a house at a low price. My assistant said he did a little decoration. "

"Aunt, use snacks to win over Doctor Zhang. According to experts in the capital, ordinary doctors in the capital can't do it. I really despise people! Ah! "

"It's all right. We get along well!"

"It seems to cost a lot. If you can pull Dr. Zhang into my chariot, it is estimated that the road in the future should be relatively flat. Aunt, is there a suitable place? I'm going to invest in a hospital recently. You help me find a place. I'll go to the bird market to find experts. There are still too few talents here! "

"OK!" Li Xiao said.

In the bird market, although Ma Wentao can get a hospital, he knows his father's temper and will definitely intervene. Moreover, the relationship between the bird market is complex and has a lot of help, but also a lot of trouble. In the tea vegetable City, the mountain is high and the emperor is far away. If he pulls up his father's flag, the official will not have any problems. Zhang Fan didn't go to Shaohua's house after going out. Shaohua and Jingshu traveled. He went back to the dormitory directly. Because he came home, he didn't read well in the last month. Medicine is a matter of sailing against the current. If he doesn't study hard, he will eventually become a doctor like old Nur!
