

# 《Medical road》

## Chapter 16

Gao Shijun was a little depressed. He met such a strong college student for the first time. He did the surgery faster than him just after graduation. Quark County orthopedics is so powerful that it doesn't seem to be of much use to him. Although Zhang Fan performed the operation a little faster than Gao Shiming, it does not mean that Zhang Fan is more powerful than Gao Shijun. But the results of the competition were told by the nurses in the operating room and big mouth Chen Qifa the next day.

"Hehe, that's good. You can't be proud of Gao Shijun." Batu said he wouldn't let Zhang Fan be proud, but his expression had shown that he was very proud and happy.

Zhang Fan was very happy to see Batu, so he didn't say a word. Let him continue to be happy for a while“ In the evening, we went to see k county with me. It is estimated that we will treat her. What to prepare, prepare in advance. Don't be busy eating after work. Let's go first. "

"OK, Dean, I see."

Because of the arrival of experts in the city, many people see doctors, including the second Department of surgery, which has surgery almost every day. After a few days of contact, Gao Shijun liked Zhang Fan more and more“ He is skillful and talented. He is willing to study hard, and he is very modest and cautious. "

"Steel nails can't be nailed here. Although it's not wrong, it's easy to cause steel plate fatigue. If the quality doesn't pass, it may break. " Gao Shijun helped Zhang Fan in the whole process of the operation in recent days and gave him instructions from time to time. "This boy has made rapid progress. If he gives advice once, he won't make a second mistake. Talent is enviable. " Although Zhang Fan has a systematic blessing, he lacks some small details and experience. After all, Zhang Fan is also making a car behind closed doors. In this way, Gao Shijun is very satisfied and loves talents. During the operation together, Gao Shijun said while pulling the hook: "Xiao Zhang, there are not many operations in the county hospital. It's not interesting to have one operation this day."

"Director, the patients come to you these days. We made one several days before you came." After Zhang Fan became familiar with Gao Shijun, he talked a lot more casually.

"After all, it's a county-level hospital, but if it goes on like this, it will waste your

talent. Do you want to use a higher platform in the past?" Gao Shijun asked tentatively.

"Hehe, I don't have a license, and the atmosphere in the hospital here is also very good." Zhang Fan must want to go to a bigger hospital. There are many sources of disease. But he doesn't have a certificate now. He also works as an assistant to others. He might as well be in Quark county. At least he can decide here.

Gao Shijun understood that the boy didn't want to be an assistant. Anyway, he had to stay for a few weeks. Slowly, he didn't believe that he was not interested.

After work, Zhang Fan and Batu went to the quark County Hotel. Kang Hua's family is in the urban area, and her husband is the principal of a school in the urban area. She stayed at the quark County Hotel. When the fat manager saw Zhang Fan and Batu, he began to say hello from a distance: "Pakistan hospital, does Dr. Zhang have a party today? Has the box been booked? If not, I'll say it."

"Today is not a party. I report to K county. I don't know if she has come back." Batu asked, holding the fat man's hand.

"I've just come back. I've just come back with your front and rear feet. After the report, we'll have a good drink. There are a lot of things here after discharge. I didn't thank Ba yuan and Dr. Zhang. I must give face today and let me express my gratitude."

"Forget it today. I'll have a few drinks with you next time."

"All right. You hurry in, and I won't delay you. "

After Kang Hua's female secretary opened the door, Zhang Fan and Batu entered the room. The hotel opened a suite for Kang Hua and a reception room outside. After pouring tea, the female secretary went to the next room. After these days, the superior came down to inspect more, and the meetings were one after another. Kang Hua's waist was a little unbearable. She felt that Zhang Fan was reliable, so she treated him first.

"These days, I have been busy and rebellious. Please see Doctor Zhang today. This was reviewed in the city a few days ago. " Then he took out a CT film and said to Zhang Fan. The film is still the same. It hasn't intensified, but it hasn't improved. "Let me check it for you first." Zhang Fan said after watching the film.

"OK, I'll do what you say, and follow the doctor's command. Do you think it's dean Ba? " She didn't ignore Batu either. In the bedroom, Zhang Fan gave Kang Hua a lumbar physical examination, and the tenderness was obvious“ K County, let me have a

rehabilitation massage first. Do you feel the effect? "

Along the muscle texture, first straighten out the muscles and excite the muscles. If you don't do these actions, you can directly massage the lumbar spine, which may hurt the patient. Position, pull and separate the upper and lower vertebral bodies. More than 40 minutes later, Zhang Fan with a sweaty face said, "K County, you go down and try."

"Hey, it's hot. It doesn't seem to hurt so much. oh dear! It's really much better. " Kang Hua looked surprised. In the Municipal Hospital of traditional Chinese medicine, acupuncture and moxibustion were not as effective as today“ Go sit outside and I'll be right out. " Kang Hua wants to tidy up. When Zhang Fan goes out, she calls Xiao Tang, the secretary next door“ Xiao Tang, you can book a box and invite the president of the county hospital and Dr. Zhang to dinner today. "

"How's it going?" Batu looked at Zhang Fan and asked quietly, looking at the bedroom door.

"Not bad." This disease cannot be eradicated unless surgery is performed. Even if the surgical effect is hard to say, Zhang Fan's answer is vague.

"Is it effective or not?" Batu was a little worried“ Can't the dead child feel the feelings of others? "

When Zhang Fan was thinking about what to say, Kang Hua came out of the bedroom. Smiling, much more enthusiastic than when they first came“ Dr. Zhang's level is very good and the effect is good. My lumbar spine feels much better. I would also like to thank President ba for his attention to his work. You recruited Dr. Zhang. "

"I should do all this. The satisfaction of the leaders is the affirmation of my work." Batu's heart flew.

"You just came from work. You certainly didn't eat. I'll be the host today. Thank you both."

In the box, Kang Hua took up red wine and said to Batu and Zhang Fan, "I can't drink enough. Let Xiao Tang drink more with you. I'll trouble Dean Ba and Dr. Zhang today. I'm too busy to go to the hospital. It's inconvenient to go there. It's like this if I drag. If it weren't for Doctor Zhang, I would have to ask for leave with the Secretary in a few days. "

"Leaders still need to pay more attention to their health. Set a time and let Dr. Zhang treat you. In this way, your time will not be wasted."

"Won't it affect Dr. Zhang's work?" Then she looked at Batu and said, "it's not convenient for me to go to the hospital every day. I'll trouble Dr. Zhang. Let Xiao Tang contact you in time." she still has room to rise and doesn't want others to know that she has a physical problem.

"You can rest assured that ensuring the health of leaders is also the main responsibility of our county hospital. Xiao Zhang is not only good at medicine, but also stable in character. It is the object of vigorous training in our hospital. " Batu is a human spirit. You can know the meaning of Kang Hua as soon as you hear it.
