

# 《Medical road》

## Chapter 31

Batu also has a fluke mentality. He has been fishing for ten years. He stopped the last time, and the result is the last time. Zhang Fan doesn't care whether others are greedy or not. Batu is really good to him. If he can help, he must help. The Batu family is deeply rooted in the county, and each authority has its own people. But at the section level, they will reach the top. It will be easy for these people to help inquire about the news. If they really want to contribute, they can't.

Zhang Fan came to the frontier less than a year ago and only knew Kang Hua and Wang Qian. Kang Hua was not so approachable at ordinary times, but now this situation must be asked. I called Tang Jingjing and said that the leaders had gone to a meeting. It was inconvenient to answer the phone, and I didn't have time recently. The meaning is very clear. The leader is very busy. In fact, Kang Hua is really inconvenient. There are small officials and big corruption in her area of responsibility. She also has a certain responsibility and is now being questioned by her superiors.

Kang Hua has no hope, leaving Wang Qian. In the past, it was very convenient for Zhang Fan to go to their house without saying hello. The situation is different now. We have to call in advance“ Sister Wang, I've come back from my studies. How's your waist recently? ”

"Zhang Fan, my waist is much better. Are you calling today for you, Dean Batu? " Because of Zhang Fan's relationship, Wang Qian is also very interested in the progress of the Batu case. Although it is still in the confidentiality period, there is no confidentiality for her husband's level.

"Yes, sister Wang, there's nothing I can do now."

"I didn't misjudge you. You are affectionate and righteous. Although you don't distinguish right from wrong, I just tell you today. Return the compensation quickly and strive for leniency. Come home and play when you have time. Go to work now. " She said this sentence. It's all the face of heaven. Zhang Fan is not brainless. Please help.

Although Batu is a dean, his real level is not high. The understanding of official career remains in the concept of running, sending and seeking. The government usually ignores you, but if you take it seriously, the violent organs are not idle.

"Sister-in-law, hurry to return the compensation." Zhang Fan hung up and said. Batu's daughter-in-law nodded disappointed. Now it's the only way. Zhang Fan couldn't help, so he went back to the hospital.

Within three days, the appointment came down. A director of internal medicine of the municipal hospital came down to be the president. He was almost 50 years old. It is said that he had someone in the Municipal Health Bureau. The vice president of the county hospital had been idle before. He was appointed together this time. Shi Lei didn't know the way to run and was promoted to vice president.

The meeting lasted three days, and the hospital held a full meeting. What should we do? First of all, we should calm the people. After Batu's accident, people are in panic. The doctor in the hospital didn't get a rebate, so it's just a little different. Then there is the arrangement of seats and fruits. The pharmacy department, imaging department, logistics director and finance director have to be reappointed. Zou Pingshan, the new president, was born in the Department of internal medicine. He is not young. He can't stand out in the municipal hospital. He simply came down as the president. It's good to be a vassal in this ten mu land.

As soon as you take office, let's stand up first. Zhang Fan first came into his sight and went to Qingniao for further study less than a year after he entered the hospital. He is Batu's staunch running dog. The hospital has never introduced college students. They are the first batch. In order to reflect his management level, Batu took him everywhere and said to everyone, you see, this is a college student in our county hospital. He went to Batu's house the day he came back. "Turson, the deputy director of the finance department, took refuge in Zou Pingshan early. Turson's sister-in-law had a good relationship with Zou Pingshan in the municipal hospital.

"What's the matter? Where is he from?" Zou Pingshan asked. In the past, he didn't want to take care of it, but something happened to Batu. If you still come to the door, it doesn't make sense.

"From Su Province, there are no relatives here. This boy will come. It's very popular with Batu." Although Turson was the deputy director of the finance department, he was not popular with Batu. He was not interested in the work of the hospital and was ready to be transferred. But pie fell on his head, and he could finally stand out.

"Send him to Su mutai village. Now that you have studied, go to the countryside and learn something useful." It's best to bully new college students who have no relatives and no reason. Old doctors are usually honest and don't hum or ha. But if he really wanted to send people to stay in the countryside dozens of kilometers away, he would

dare to take people old and young to the dean's house for dinner.

As soon as Shi Lei heard the decision, he subconsciously refused, but he didn't speak again. As soon as he became Vice President, he took the bull with the president. It was his problem of Shi Lei. Besides, the personnel arrangement was not under his control. Moreover, the background of the new dean is better than Batu. When Batu was in office, he dared not talk nonsense, and now he dare not. But he knew that Zhang Fan was not simple. Before he studied, he went to the city to see a doctor every day. The doctor must be not simple, otherwise Batu wouldn't be careful.

It's hard to say when Zou Pingshan does this. Shi Lei thought so, so he called Zhang Fan: "teacher Zhang, I didn't pick you up when I came back from my study. How about having dinner together in the evening"

"Dean Shi, I'm still in the city. There's something wrong. I can't come back today. I'm really sorry"

"It's all right. It's still a long time. However, I just want to remind you that you should pay attention to the change of the dean" Shi Lei mentioned it vaguely.

"OK, thank you, Dean Shi. I'll pay attention" Zhang Fanzhi is not in his official career, so he doesn't care. What's the matter with changing the dean? I don't have much to do with me as my little doctor.

The next day, the surgical morning meeting. Although the Dean has changed, old Nur is as drunk as ever in the morning, squinting his eyes and standing unsteadily, "we invite the new dean Ba to speak" Then he began to applaud. The people below clapped and didn't clap. They raised their hands and didn't know what to do.

"Well, everyone is busy. I'll just say a few words" Zou Pingshan couldn't help it. This old slick can't be said or beaten. " In the past, no matter what, we must correct our working attitude. Considering the lack of surgical sources, the hospital committee decided to send Dr. Zhang Fan to the countryside. Dr. Zhang has just returned from Qingniao's study. With the new technology of big cities, he will certainly bring more sources of disease to our surgery after going to the countryside. I hope Dr. Zhang Fan will bend down and make due contributions to the development of the hospital"

"Uh" Everyone was surprised. " Who will do the surgery" Lao Chen is on the rise. After Zhang Fan came, the number of operations increased sharply, and he could do what he couldn't do before. Indirectly, his income also rose several steps. So he was worried and said it.

"The earth needs no one to turn wrong. He's not an official doctor yet" Zou Pingshan was a little angry, but some people dared to question him. But this is tantamount to

exposing Lao Chen's shortcomings, and he is not yet a formal doctor. " I'll go to the countryside, too. Contribute to the county hospital" Lao Chen was also angry. What he cared about most was his face, which was a little distorted.

The two brothers went to the countryside together. " Lao Chen, why do you think you need it" Zhang Fan was a little moved. It's not easy to be the dean for him.

"Hey! I'm in a hurry, too. Besides, just go. Just a few days off" He's a little regretful. There's no drug rebate when you go to the countryside.
