

# 《Medical road》

## Chapter 48

Zhang Fan was half an hour later than 120 in the county hospital. Zou Pingshan, President of the hospital, was familiar with Lao Li, and he was more familiar with the two main doctors of internal medicine. The medical expert group was specially organized at the gate of the hospital to welcome the arrival of the medical expert group. When he found that Zhang Fan was not among them, he asked the director of the hospital office, "what about Zhang Fan? Didn't he say he would come too?" Wang Hongmei had a bad time in the hands of old Zou. After all, she is an old man in Batu and is very cautious now, "Dr. Zhang Fan drove by herself, probably later."

Because it was a government organized activity to send doctors to the countryside, the county Party committee specially sent a section chief to welcome them. Moreover, a special conference was held in the hospital office to emphasize the particularity of this medical action. When Zhang Fan arrived at the hospital, the meeting was over. Shi Lei and Wang Hongmei had a good relationship. He also knew about Zhang Fan's late arrival, so he kept a heart. As soon as Zhang Fan entered the hospital, he saw it in the office. Not many people come to the county hospital to see a doctor and drive a good car.

Shi Lei specially sent Zhang Fan to the second Department of foreign studies, "you left and didn't come to see us again. Everyone misses you very much." Holding Zhang Fan's hand, Shi Lei was very enthusiastic. "Thank you, Dean Shi. I miss you too." Zhang Fan is telling the truth. After all, the county hospital is his first stop in medicine.

After entering the Department, Lao Chen, tuxun, Li Liang and even Yang Chengming were very enthusiastic, especially the head nurse, who directly gave Zhang Fan a warm hug. The little nurses are chattering around Zhang Fan. Lao Chen is now the acting director. After asking the nurses to go to work, he held a doctor meeting in the Department. Now there are a lot of staff in the second Department of foreign studies. Zou Pingshan has low conditions and many people. There are more than 20 people admitted to the hospital, and there are four assigned to the second Department of foreign studies.

After Chen Qifa was promoted to acting director, his speech level was improved. "Our basic hospital looked forward to the stars and the moon, and finally director Li, my master Dr. Zhang Fan, and the female surgeon Dr. Wang Yanan. The arrival of experts is an opportunity for us to learn. We should be modest, enthusiastic and fully cooperate, so that the experts can feel the enthusiasm and studiousness of our second

Department of surgery. Now let's ask director Li to give us a few words“

Lao Li stood up with a smile and said, "when I was in the municipal hospital, I heard director Gao say that the second Department of surgery in Quark county is the best surgical development in county-level hospitals. Today, I finally saw director Chen. You doctors are so studious and modest. What director Gao said is true. Let's learn and make progress together in our next work“ With that, Lao Chen led the audience to applaud.

Then he said, "master, please say something“ He regarded Zhang Fanzhen as a master, but these words made Zhang Fan ashamed. He quickly waved his hand: "director Chen is kidding. I can be your master. Director Li said, I don't need it. We are all acquaintances. You just arrange the next work“

Seeing that Zhang Fan really didn't say anything, he smiled and said to Wang Yanan, "Dr. Wang, you can also say a few words. Women doctors who can do surgery are the elite of heroes“ Wang Yanan, who had met such an enthusiastic colleague since he went to work, hurriedly said, "director Chen, thank you. I won't say it“ She's shy.

”All right. I won't introduce the staff of the Department one by one. I'll get to know them slowly in the future. Next, let director Li take us on rounds“ The ward round started. A group of Hula people participated in the ward round today, and the nurses of the Department also participated. In the corridor, Li Liang quietly walked up to Zhang Fan: "brother, how are you doing in the city? I'm going to review this year and try to pass the exam next year“

”OK, come on, I'll wait for you at the city hospital“

The number of patients in the Department is OK, and Lao Chen's work is good. The enthusiasm of the Department staff of the county hospital turned out to be that the director of the Department called Zhang Fan as the master. Wang Yanan was surprised. Moreover, on the way to ward round, several doctors and little nurses turned around Zhang Fan, with worship in his eyes. " That's bullshit“ She doesn't understand. But the surprise is still behind.

After checking the room, Lao Li went to rest. The county hospital opened a hotel for experts. He was in poor health and couldn't stand it. There happened to be a ulnar and radial fracture in the Department. Lao Chen showed this film to Zhang Fan, "master, this is the operation today. You take us“

”Lao Chen, why are you estranged from me? You call me master. I'm really blushing“

”Oh! It's right to call the master. I spent some money. I've heard about my grades from the examination center. It's over! Haha, ”Lao Chen whispered the last sentence. Zhang Fan thought to himself, no wonder Lao Chen changed his obscene temperament and became energetic.

There are many people, and Zhang fan can't pester the master, so he said, ”really! Congratulations, you finally made it. You can make great plans in the future. The hard days are over“ The voice is not loud. Lao Chen's eyes are red.

Lao Chen insisted that Zhang Fan arrange the operation. He sincerely respected the master who was half his age. There was no way. Zhang Fan no longer refused and directly arranged the operation. Zhang Fan, the main knife, helped Lao Chen and Li Liang. As a result, Wang Yanan also wanted to go, so she became the third help.

In the operating room, Ma Lihua, an anesthesiologist, was also very happy to see Zhang Fan. She took Zhang Fan's hand and looked at it for a long time. ”Oh, there are people in the city. I haven't seen them for half a year. It's much whiter. Have you found someone? You've never been to the hospital again. Have you forgotten us all“ Zhang Fan's popularity is really not bad. Zhang Fan is also happy to see Ma Lihua.

At the beginning of the operation, the disinfection shop sheet did not need Zhang Fan to start directly. Li Liang and Wang Yanan scrambled to do it. ”Xiao Zhang Fan finally came out. Now he has the posture of an expert“ Ma Lihua looked at the busy little doctors and thought with emotion. Anesthesia is good, Zhang Fan, they start the operation. ” Master, my craft is becoming more and more refined. Do you think I should go abroad to study and see the world“ The operation went well. Lao Chen asked.

”Go and have a look. You're almost a breakthrough now. Go outside and see it. Maybe you can go up a step“

”Oh, when did Lao Chen worship the master. Whether the teacher worship banquet has been held or not, you can't just get cheap and don't pay out of your pocket. Invite us all to witness it for you“ Ma Lihua joked.

”There you are. Let's go to Chinese food. Are you going“ They have a good relationship and talk casually.

”Fuck you, Zhang Fan. I'll treat you to dinner in the evening. Lao Chen is an old buckle. Absolutely not“

”Who said, the boxes in the county hotel are booked. You go too. Don't worry. It's Halal“

cozy! Absolutely warm. Zhang Fan's heart is warm. In the president's office, Zou Pingshan asked the director of the office, "how did the expert group arrange in the evening"

Li Hongmei takes this Notepad, and Lao Zou cares about it. You must keep a complete record of what he said, and sometimes he will specially ask you to repeat, "the second foreign language department wants to invite experts to dinner. It has been reported to the hospital office, and you are invited to attend"

"Isn't this nonsense. On the first day of the expert group, how can the second foreign science department come forward? You can book a box and inform the directors of all departments to attend. "

"OK, inform president Shi not."

Old stone thief is very. After winning the surgery, he cooperated with Zou Pingshan very much. At present, they get along quite well" Let me know. " Old Zou used to be the director of the municipal hospital. Now his role has changed and he also wants to show off in front of his former colleagues.
