

# 《Medical road》

## Chapter 49

After the operation, Li Liang gave the doctor's advice. Zhang Fan told Lao Chen and Wang Yanan and was ready to go back to the city. Li Xiao is not busy now. When Zhang fan starts, she will call, and she will push off all activities and wait for Zhang Fan to give treatment.

Wang Yanan resented Zhang Fan's driving to the county, "what are you doing in the city. We came down to work, not to play. " She gave Zhang Fan a lesson in righteousness“ All right, I have something to do. I'll be back in the afternoon. " Zhang Fan is in a hurry. Go and get back quickly.

"Next time you encounter a simple fracture, let me take the lead. Or I'll call the hospital right away and say you're off duty. " Seizing the opportunity, Wang Yanan began to beg for benefits. Zhang Fan had an operation too fast. Generally, she would get a suture. After half a year, she felt that she should be able to do a simple fracture.

Zhang Fan smiled, "OK, you can't do it. Don't lose heart if you can't do it at that time. Say it first, but you can't cry."

"Go to hell."

There was not much snow on the road. Zhang Fan arrived at Li Xiao's house after an hour. In the past, Li Xiaotong often had insomnia. If it weren't for the fear of surgery, she would have had surgery early. Now Zhang Fan recovers her and replies very well. She is also very grateful to Zhang Fan. While treating, Li Xiao chatted with Zhang Fan. Li Xiao lay on his side and her posture was not very comfortable. She said to Zhang Fan, "Lao Huang of your hospital is going to retire. The new president is Ouyang of internal medicine. Do you want me to say hello in advance and take care of you."

"Vice President Ouyang has become president. I thought it was the vice president engaged in general foreign studies. Don't say hello. "

"Ouyang is a health care doctor of the municipal Party committee. They have been serving the primary school for three years. They have a good relationship. Your vice president of surgery has no chance."

Zhang Fan may be an ordinary doctor. He was the first to know the candidate for the new dean, but it's useless. Zhang Fan doesn't need to manage in advance and eat by craft. After the treatment, Li Xiao wanted to leave Zhang Fan for dinner. Zhang Fan

didn't eat. He had to hurry back to the county. It was early in winter and it was hard to get on his way after dark.

When I got to the hospital, I had finished work, and Wang Yanan's phone came: "where are you? The president of the county hospital invited me to dinner. I need you alone. Come quickly, in the largest box of the county Party committee hotel." Just after hanging up, Shi Lei called in: "Mr. Zhang, I heard you went to the city, so I asked the waiter to serve later. Are you coming soon? You can't have the party without you."

Shi Lei knew that Zhang Fan's energy was not small and deliberately flattered Zhang Fan. Zhang Fan quickly said, "president Shi, I'll be there right away. Don't wait for me. It's very polite." Zhang Fan hurried to the hotel again. After stopping the car, the fat manager saw Zhang Fan and came out of the hall: "rare guest, I heard that Dr. Zhang was transferred to the municipal hospital, but I didn't see him off. It's really impolite. If you stay here for a few days this time, you must let me be the host"

Zhang Fan shook hands with the fat manager, smiled and said, "we're welcome. How's the knee? Do you have any sequelae?"

The fat man said with a smile, "well, it's easier to use than before. With a steel claw inside, I feel like a robot now. OK, I'll contact you after that. It won't delay you to eat. All the people in the hospital are in the big box. I'll take you in"

Just after the cold dishes were served, Zhang Fan went in. Zou Pingshan stood up and said with a smile, "our youngest expert is coming. Hurry, Zhang Fan, sit next to me and leave a special seat for you" His right hand is Lao Li and next to Lao Li is Shi Lei. It seems that his left hand is really left for Zhang Fan. " Dean Zou, you're very kind. I'll just sit down"

"How can you be casual? You are half the master here, and some come to help us on behalf of higher-level units. You must sit here" Then he pulled Zhang Fan to his seat. The two attending doctors of internal medicine were a little unhappy. He sat on the seat in a small hospital and represented his superiors. He didn't even want his face. You didn't understand the rules after you left the hospital for a few days. They have no opinion on Zhang Fan's arrival. Old Zou used to talk about superiors and subordinates in the Department, and he had many rules.

Just after sitting down for a few minutes, Tang Jingjing called in. It was inconvenient for Zhang Fan to go out, so he answered it in his seat. Tang Jingjing said on the phone, "Zhang Fan heard you came to the county, didn't he"

"Yes, sister Tang. Just arrived today"

”Oh, have you eaten yet? I'll treat you to dinner“

”I'm really sorry. The hospital gave us a welcome banquet today. Ready to eat“

”OK, you eat. The leader will meet you later and contact me after dinner“

Old Zou was next to Zhang Fan. He heard what he said on the phone clearly. He knew that the leader was Dong Hua, but he didn't move. At the banquet, he said a few words, nothing more than welcome, but today he didn't let Zhang Fan drink. He said that Zhang Fan would drive, so he didn't drink and didn't let Zhang Fan drink. If it weren't for this phone call, he would definitely get Zhang Fan drunk. Although he was very enthusiastic about Zhang Fan, he was helpless. Otherwise, he wouldn't pay attention to a small hospital.

Zhang Fan didn't drink, so Lao Zou focused his fire on Lao Li. He and Lao Li are both high and have the same title. He is now the Dean, and all his department directors look at him. Lao Li drank too much, but not too much. He was too enthusiastic. But he doesn't care. He can't drink several times a year. When he comes to the county, he can relax. During the meal, the director of the first foreign surgery department complained to Zhang Fan, "the president has little support for surgery. The laparoscope has been used several times when you were there, and has not been moved again. Put dust in the operating room“

Old Zou was criticized by his superiors as soon as he became president, which made him disheartened. He has been busy recruiting the team for the past six months. As long as there is no accident in surgery, he is really afraid of another accident. Nor does it organize the study of new technologies, as long as everything is stable and nothing happens. It's no use for several doctors and directors of general surgery to worry. Lao Zou has been frightened. Lao Yang, director of the first foreign medicine department, said, "it's good if you come. In winter, you eat greasy, especially many gallbladder and appendix. You can take us more. Laparoscopy is the trend. Now as soon as the patient heard that we also opened the gallbladder and appendix, he went directly to the superior hospital. Can't keep the patient“

After dinner, I was drunk for several hours. Zhang Fan went up to the third floor and called Tang Jingjing, "sister Tang, we're over. Is it convenient for leaders now“ As he spoke, the door opened. Tang Jingjing looked at Zhang Fan and said with a smile, "come in, the leader is busy, waiting for you“

After entering the room, Tang Jingjing entertained Zhang Fan. After sitting down, he said, "the leader is inside. I'll call you a little“

After Tang Jingjing went in, Dong Hua came out. " Doctor Zhang, sit down quickly.

How are you recently? How long are you going to stay this time“

”Everything was fine. I don't know how long I'll stay. The superior didn't inform me“

”Yes, I'm afraid of heavy snow. The strength of county-level hospitals is not good. Have you seen sister Wang lately“ She just wants to lead Wang Qian to Li Xiao.

”I met at President Li's house before I came“ She and Wang Qian call one day. Don't you know.

”Oh. Really? How is Mr. Li recovering now. Still in treatment“

”Very good. I'm still doing it now. I go back every afternoon and come back after treatment“

”That's good. The heating in the house is not hot. If it's not hot, ask Xiao Tang to call the property“

Zhang Fan's dormitory is still Dong Hua's house. "It's very hot. Thank Dong county for your concern“

”Yes, next time if President Li goes to the provincial capital, if it's convenient for you, let me know in private“ This is her ultimate goal.

”Well, good“ Zhang Fan was stunned. What's the situation, spy?

"Hehe, I just want President Li to do me a favor in the provincial capital. I'm sorry to ask. It's more convenient to meet when I go to the provincial capital. I hope Dr. Zhang doesn't mind“
