

Medical road

Chapter 82

It's Zhang Fan's turn and Wang Yanan's turn to receive the patient. The expert clinic is Chen Qi. There happened to be a retired veteran whose right knee was deformed. Chen Qi mobilized for a long time before he agreed to do knee arthroplasty.

At present, knee arthroplasty is one level more difficult than hip arthroplasty. Although Chen Qi is the deputy director, director Wang Dehua has not let him take the lead in knee replacement, hip replacement and lumbar surgery.

They have a good relationship, but in business, these are the director's private plots and won't let others intervene at all. Chen Qi is about the same age as Wang Dehua. He has reached the age of achievement. He is also looking for opportunities and opportunities for a breakthrough. Zhang Fan's arrival, let him see the opportunity.

It is said that Zhang Fan once performed hip replacement surgery in the first Department of orthopedics, which scared the two attending doctors into the joint group. If Zhang Fan did the knee joint today, Lao Wang would have no reason to stop him. Chen Qi doesn't want to make the relationship too rigid, but the benefits of this major operation are too great, so he can't help being unmoved.

Lao Gao has Li Qiong and Lao Wang has Niu hailing, both of which are at the level of provincial equipment manufacturers. And he just added one additional word, and the level of equipment manufacturers immediately decreased by several levels. Last time his children went to the island to play, his equipment manufacturer didn't even pay a ticket, because the profit he brought to the equipment manufacturer was not big enough.

This retired cadre is said to be an old worker before liberation. There are not many old people at this level. There are no more than 30 people in the city. The old man was in his nineties and was not in good spirits. In the past two years, his knee joint failed and he couldn't walk. His body began to get worse slowly. In order to let the old man live a few more years, his family finally agreed to change his knee surgery.

The old man had three sons and three daughters, and his wife died early. Three daughters-in-law and three girls serve the old man full-time. There is only one reason

why he is so filial. The old man's salary is too high.

The salary of more than 10000 a month is reimbursed for taking medicine in hospital. Not to mention his daughter-in-law and daughter, even the next door neighbors have to please him. They reimburse more than 100000 medical expenses a month. There is no problem at all.

In the Department, the old man's son came to the Department with the hospitalization list. "Please ask who is Zhang Fan and Doctor Zhang."

"Oh, I am." Zhang Fan took the list and looked at it, darling! Directly open the suite of special needs ward, and you have to go to the Chartered ward for ward round.

"The old man at home is old. It's inconvenient to live here. I'll trouble Dr. Zhang." His son speaks politely.

"OK, I'll go and check the old man's body and make a list now. Why don't you go first and I'll be right behind you. "

"OK."

Zhang Fan knows it's a patient of his knee. He hasn't had a serious operation for months. His hands itch badly“ Wang Yanan left. We went to the special needs ward for ward rounds, and a new patient came. "

"What patient?"

"Surgical patient."

"Isn't it troublesome to live in special needs? We should run every day."

"Let's go. Is it useful to say something?" Zhang Fan and Wang Yanan went out of surgery to the special needs ward.

In the largest suite in the special needs ward, a very energetic old man was sitting in a wheelchair, and several women were making their beds. Such a luxurious ward needs to be sorted out. The quality of life is really high. Zhang Fan murmured into the ward.

"Oh, here comes the doctor. Please come in. Didn't director Chen come?" One of the women asked when she saw that Zhang Fan and Wang Yanan were young.

"We ~" Wang Yanan wanted to speak and asked Zhang Fan to suppress her words. Those who can live in this suite are either rich or expensive. There is no need to make trouble for themselves for one word.

"Let's do a preliminary inspection first. Later, the director will come for a special ward round." Zhang Fan said casually, then took Wang Yanan and went in. He grabbed Wang Yanan's arm and pinched it.

Wang Yanan looked at Zhang Fan, but she didn't open her mouth again. She just played with her temper occasionally. It really made Zhang Fan angry, and her chance to practice her hand was gone.

Old man, there are a lot of ears. I have to speak loudly. Zhang Fan has done a basic physical examination. His heart and blood pressure are OK, that is, his right knee joint is deformed badly and is about to turn over. The men in the family are very polite, but several women have shallow eyes and high toes. Zhang Fan and Wang Yanan are young and their tone is not very good.

After checking, Zhang Fan took Wang Yanan and left "You can't have a little backbone. What do they look like? They mutter that I didn't hear them! "

"So what, quarrel with them? Is it a little bad? Do you have to pull yourself to the same level as them. Girl, sometimes it's hard to get confused. If you keep fighting every day, the old will be very fast. "

"Hum!"

In the Department, Chen Qi looked at Zhang Fan. After they came back, he said in front of everyone: "Dr. Zhang, how can the patient be ok? Since you are in a separate group, are you sure of the operation? Choose which doctor to be your assistant. I will make full cooperation. You just want the principal to be your assistant. I can tell you." What he said was vague, just to arouse the curiosity of other doctors in the Department.

"Hehe, the patient's condition is basically OK. Why don't you help me sweep the array, director Chen? 2、 Three assistants, you decide? "

"Newborn calves are not afraid of tigers. Well, I'll be your help today. I'll match other people for you. I'll see what Dr. Zhang does." Zhang Fan's words went to Lao Chen's heart.

Chen Qi especially hopes that Zhang fan can do it. The first assistant is himself, the second assistant and the third assistant are written to Yuan Tao and Luo Jin respectively. Chen Qi is not afraid of Lao Wang's unhappiness. Anyway, he said to

weigh Zhang Fan. As long as Zhang fan can do this knee replacement, Lao Wang will not let go. He can't explain to the doctors below.

The residents of the first Department of orthopedics have begun to do replacement surgery. Your old Wang is still clinging to it. I'll see how you can be the director in the future. Even if you let go, you should give it to Chen Qi first. After all, when the director of the department comes down, his qualifications are the highest.

This is really a contest of IQ.

After the morning meeting, Wang Dehua looked at the operation list in his hand and didn't speak for a long time“ Is this operation a little too big? ” He pointed to Zhang Fan's knee surgery in a deliberative tone and said to Chen Qi.

Chen Qi covered it up very well. He smiled and said, "it should be no problem. I specifically asked Gu Yi's Lao Li. This boy's hip is very slippery. If you don't trust me, you can go on the stage and I'll come down. If not, you can do it directly. " Chen Qi is going to die.

"Besides, if you really can't do it, look at his old high. It seems that Zhang fanduo is so powerful all over the world. It seems that his old high vision is the most poisonous! His eldest disciple can't get off the stage in the second Department of orthopedics. It's a laughing stock to see what he says in the future. "

"Yes! That's it. I'll go to the stage for tomorrow's operation. If I can't, I'll replace him. " His own private plot was used to weigh a resident doctor. Lao Wang had a little liver pain. But compared with Lao Gao all his life, he is willing to make Lao Gao lose face. Chen Qi just grasped his psychology and dug a hole.
