

Mr Han 2641

Chapter 2641: Don't Keep Thinking That the Whole World Has to Give In to You

Ling Xiaoen thought that that was true. Shi Xiaoya had the Shi family and Han Zhuoling backing her up, so no matter what, she would not suffer that much disadvantage.

Even if that assistant gave Shi Xiaoya a bad attitude, no matter how bad it was, the worst result would just be that Shi Xiaoya would not manage to get selected.

If they were to really speak of being disadvantaged, there was really nothing much that would happen to her.

If Ling Xiaoen still did not leave now, she would not be able to make it in time for her work that was coming right after this.

So she could only say goodbye to Shi Xiaoya and say, "Okay, then I will wait for your result."

"Sure." Shi Xiaoya waved and sent Ling Xiaoen off with her gaze.

She and Guo Yujie then continued waiting there.

Finally, it was the last person's turn to be interviewed.

After that assistant called the last makeup artist in for the interview, she glanced at Shi Xiaoya.

She then hardened her face and said coldly, "Why are you still here?"

Hearing her words, Guo Yujie felt really enraged.

What do you mean still here?

Guo Yujie then said right then, "Why we are still here, would you not know? We are just waiting here for a reply."

What was this assistant playing dumb for!

They had just heard Ling Xiaoen say that this assistant's attitude towards other people had been pretty good all around, and she only treated Shi Xiaoya with her nose turned up. It made Guo Yujie angry.

People here knew that she was just an assistant.

People who did not know might even think that she was Wu Mosen!

That assistant seemed to have only remembered it right now and said, "Oh, I kept forgetting to tell you. I went to ask the person-in-charge here previously. She said that Director Wu is not free. How perfect. You didn't attend the interview, so there is more time for them to end early and start preparing for the work to be done afterward."

That assistant rolled her eyes and said, "If we have the time to interview you, we might as well end earlier and go do other things. So, you should just go back."

“You already asked early on, so why didn’t you tell us until now?” Guo Yujie said angrily.

She even made them wait here for more than two hours.

Unexpectedly, that assistant just casually said, “I forgot.”

“What forgot, I think you might not even have asked!” Guo Yujie said furiously.

“Of course I asked,” the assistant said. “The person-in-charge said that she just would not see you. It’s a fact that you came late. If we let you make up for your interview, then we will be making an excuse for you. If we don’t let you make up for your interview, it’s in accordance with our rules.

“Why is it that when it comes to you, not letting you make up for it seems to be as if we committed some grave mistake and I became the one making things difficult for you?” The assistant scoffed mockingly and said, “This is not your house, not everything revolves around you such that other people would have to listen to everything that you say. Since you stepped out into society, don’t keep thinking that the whole world has to give in to you. There will surely be people who won’t give in to you.”

“You!” Guo Yujie was incensed.

Shi Xiaoya quickly stopped Guo Yujie.

Guo Yujie was so incensed that she said to Shi Xiaoya, “This person is deliberately picking on you! I really don’t understand. We didn’t know you at all before now, much less offended you in any way. Why are you making things difficult for us?”

“Woah, look at your logic. If I don’t agree to your request, I am the one making things difficult for you.” That assistant scoffed and said, “You really got pampered quite severely.”

Shi Xiaoya held Guo Yujie back and said plainly, “It’s fine. Anyway, Director Wu has to step out of this door sooner or later. I will just keep waiting here until Director Wu comes out. I will ask him myself whether he can give me a chance.

“I think that if I only take up 10 minutes of Director Wu’s time, he probably would not decline,” Shi Xiaoya said calmly.

When the assistant heard that, her expression indeed changed.. “Stop pestering us here!”

Chapter 2642: Just Shameless

“You said it yourself. Now that we have all stepped out into society, of course I can’t hope that everyone will help me. So, without anyone’s help, and with someone even blocking my path, I can only fight for myself.”

Shi Xiaoya pulled Guo Yujie to sit back down on the chair with her. “I will just wait here for Director Wu to come out. I want to hear Director Wu say it himself, whether he wants to give me a chance or not.”

Shi Xiaoya could be so confident, and it’s naturally also because of Han Zhuoling.

Wu Mosen would more or less give Han Zhuoling some face.

“You... you are really just shameless!” that assistant scolded.

But clearly, Shi Xiaoya’s move really made her unable to react in time and left her at a loss for what to do.

So the moment she spoke, she felt so anxious that she stuttered.

At first, Lian Qingyin had got her to come out to humiliate Shi Xiaoya.

Yet Shi Xiaoya actually continued pestering them!

If Shi Xiaoya really sat there and waited, when Wu Mosen came out in a moment, wouldn’t they blow their cover?

The assistant’s face paled. She gritted her teeth and went back in.

She whispered beside Lian Qingyin’s ear softly, “Shi Xiaoya is staying outside and doesn’t want to leave at all. She said she wants to wait until Director Wu goes out and then speak to him herself. She suspects that we didn’t report it to him at all.”

Lian Qingyin curved one side of her lips up, revealing a crooked and gleeful smirk.

With her around, could Shi Xiaoya still dream of entering the production crew?

Dream on!

“I’ll go out and take a look,” Lian Qingyin said, then stood up to leave.

The assistant quickly followed behind her.

Wu Mosen had been listening to a makeup artist’s explanation right then and glanced out of the corner of his eye at Lian Qingyin and that assistant’s actions before frowning once.

Right from the start, Lian Qingyin could not even just sit still quietly in her seat.

She would either go to the washroom or chat in hushed whispers with her assistant.

He could not hear what they were saying clearly as Wu Mosen was trying his best to focus his attention on the makeup artists’ interviews.

He could only hear them whispering in hushed tones at the side but could not hear what exactly they were talking about.

But this was really very annoying.

And it was really very distracting for them.

He saw Lian Qingyin and her assistant not caring to watch the interviews at all and just chatting on their own at the side, affecting their judgment.

Wu Mosen felt really vexed.

Since that was the case, since Lian Qingyin felt that this was so boring, then why did she insist on coming to be a judge here?

Now that she came, he did not ask for her to be a serious judge, but at the very least, she should not cause trouble.

Yet now, she could not even keep quiet and even affected their selection process and the makeup artists' focus.

Quite a few makeup artists had been distracted by Lian Qingyin's actions during their interviews and made mistakes or fell short of their expectations.

Things have already reached this point when the interview was about to end.

Lian Qingyin actually could not even keep quiet for this last moment and could not even wait until it all ended before she went out.

Indeed, the makeup artist who was giving the presentation right then got distracted and stopped presenting.

After a while, the makeup artist then forcibly continued but forgot what he originally wanted to say.

He stuttered and stammered, which really affected his results.

Wu Mosen pursed his lips, feeling frustrated and annoyed.

Why did Men Xue Films send such an unprofessional person to come and be in charge!

Up until now, besides not helping out at all, she had even added to their trouble!

"Don't panic, don't be nervous. Relax, take it slowly," the screenwriter at the side said to that makeup artist. "Slowly think about what you originally wanted to say, and continue from there.."

Chapter 2643: Once the Opportunity Is Gone, It's Gone

Wu Mosen also said, "Don't be nervous. I know you got cut off just now. Gather your focus again and don't worry about the disturbance around you."

Wu Mosen could be said to be very obvious with his words.

No matter how dense someone was, he or she would know whom he was talking about.

Moreover, the people in the room were not dense at all.

Lian Qingyin had already reached the door. When she heard Wu Mosen's words, she stopped in her tracks.

Wasn't Wu Mosen talking about her right now?

Saying that she had disrupted the interviews?

Ha!

Lian Qingyin pretended as if she did not hear Wu Mosen's words and left the room.

Without Lian Qingyin and her assistant's disturbance, this makeup artist's performance returned to normal.

On Lian Qingyin's end, the moment she stepped out of the door, she saw Shi Xiaoya.

Of course, Shi Xiaoya also saw her.

When she saw Lian Qingyin, Shi Xiaoya immediately knew why that assistant was giving her such a strange attitude.

If she was Lian Qingyin's assistant and Lian Qingyin was the person-in-charge she was talking about, then everything made so much sense.

No wonder that assistant's attitude towards her was the complete opposite of how she had treated other people.

"Shi Xiaoya, you're still here?" When Lian Qingyin saw Shi Xiaoya, she gave a very surprised expression.

Shi Xiaoya could not help but wonder whether it was also Lian Qingyin who had sent people to cause the car-crashing accident she had met with on the road earlier.

She did not expect that Lian Qingyin would actually be one of the judges.

Since Lian Qingyin was a judge, she would definitely know that she was coming for the interview and when her interview time slot was.

Then the possibility of her sending men to ambush her on the roads was way too big.

Lian Qingyin walked over and gave Shi Xiaoya a fake smile, saying, "I heard the assistant call your name previously for the interview and was quite surprised. I didn't think you would come too. But I think you were late. My assistant called your name quite a number of times, but you didn't come.

"So, even if I had the heart to help you, I can't possibly waste everyone's time. We really can't afford to delay things anymore, so we could only pass over you." Lian Qingyin checked out Shi Xiaoya from head to toe and said, "From the looks of it, you came late."

Guo Yujie did not know who Lian Qingyin was, or about the things that Lian Qingyin had done.

But she could tell that Shi Xiaoya's expression was cold, so she clearly did not look like she was on good terms with Lian Qingyin.

So Guo Yujie did not say a word.

From Lian Qingyin's words, it sounded as if she was being quite considerate of Shi Xiaoya.

But her words just sounded really off, as if she just did not want to wish Shi Xiaoya well.

Guo Yujie more or less understood what her attitude was like then.

Shi Xiaoya gave a small smile, then stared squarely at Lian Qingyin's eyes and said, "We were met with an accident along the way, but luckily, we came out fine."

Shi Xiaoya knew that Lian Qingyin would definitely not help her.

So she decided not to say things like giving her another chance after the interviews ended. She just stopped talking after giving a brief explanation.

Anyway, Wu Mosen had to come out from this door.

She could just say that to Wu Mosen directly.

Lian Qingyin could guess what Shi Xiaoya was planning to do. How could she let Shi Xiaoya see Wu Mosen?

If she really saw him, Wu Mosen might really give Shi Xiaoya a chance.

Lian Qingyin then said, "Weren't you told to leave early on? Since you're late, you missed your chance for an interview, so you won't be able to participate in this anymore. Shi Xiaoya, once the opportunity is gone, it's gone. You should quickly go back. Stop staying here and wasting your time."

Shi Xiaoya raised her eyebrow and said, "Didn't you say you wanted to help me just now? Now that I'm here, you can just help by giving me another chance."

Chapter 2644: See If They Dare to Touch Me

"Because you guys didn't interview me, you should have an additional 15 minutes to spare to begin with. Now, you can make up for that period of time, so it won't take up additional time from Director Wu. In this way, you won't be put in a difficult position."

Lian Qingyin pursed her lips. She just casually said some niceties just now to annoy Shi Xiaoya.

Shi Xiaoya actually took it for real?

How shameless was she!

"These are completely separate issues," Lian Qingyin said coldly. "You came late yourself. You missed this chance. How can you ask someone else for help and still sound so indignant about it? If the opportunity is gone, it's gone. I can't help you with that. You should just go back quickly. Don't stay here and waste your time."

Shi Xiaoya sat down and did not move. She stared at Lian Qingyin with mockery in her eyes and said, "I hope you can remember what you said yourself. If you missed the opportunity, you simply missed it already."

Lian Qingyin's expression changed drastically. She suddenly glared at Shi Xiaoya with a look full of hatred.

It scared Guo Yujie, who was sitting beside Shi Xiaoya, and she quickly shifted a little closer to Shi Xiaoya's side.

Seeing the hatred in Lian Qingyin's eyes, Guo Yujie was really scared that she would suddenly hit her.

So she sat closer to Shi Xiaoya. If Lian Qingyin really struck, she could help Shi Xiaoya in time.

But Lian Qingyin did not turn violent in the end.

She just got really mad and enraged by Shi Xiaoya's words.

Shi Xiaoya was mocking her for missing the chance to be together with Han Zhuoling. Once she missed it, the chance was gone, so she could forget about pining for Han Zhuoling.

Lian Qingyin thought hatefully in her heart, what was Shi Xiaoya gloating about!

She had been overseas previously, that was how Shi Xiaoya managed to find an opportunity.

Now that she was back, Shi Xiaoya could forget about getting her way anymore!

"What are you talking about? I don't understand," Lian Qingyin said and scoffed. "Shi Xiaoya, if you still have some sense of shame, don't stay here and pester us. You came late, so you missed the chance this time. You should quickly leave. I won't let you go for an interview."

"I won't leave. I will stay here and wait for Director Wu to come out." Shi Xiaoya sat very comfortably on the chair, not moving at all.

Lian Qingyin laughed scornfully and said, "Shi Xiaoya, I gave you face but you didn't want it. I told you nicely to leave, but you refused, so don't blame me for being rude. I will tell the security officers to chase you out, then!"

Shi Xiaoya rolled her eyes nonchalantly. "Call them. Call the security officers over and see if they dare to touch me."

Because Han Zhuoling kept showing off their relationship online all the time, as long as they went on the Internet nowadays, there were really few people who did not know about her relationship with Han Zhuoling.

And the staff in the production crew, along with the security officers, were people who were in contact with people in this industry all the time.

They were slightly more familiar with these people in the industry than the average person.

When she came in with Guo Yujie just before, the security officer had even asked what happened when he saw how badly her car had been damaged from being rammed into.

The whole time while she was walking in, almost everyone had recognized her.

That was why Shi Xiaoya dared to say those words.

As long as they recognized her, they would not dare to touch her.

Shi Xiaoya sat there very calmly, not feeling nervous at all.

Seeing how confident Shi Xiaoya was, Guo Yujie also stopped feeling nervous.

She had already been admiring Shi Xiaoya very much before. Whatever Shi Xiaoya said or did, she had always been mature about it and nothing ever happened to them.

After she got together with Han Zhuoling, she even grew to have some of Han Zhuoling's aura.

Even if she only had one or two percent of Han Zhuoling's aura, it was imposing enough.

Guo Yujie then sat beside Shi Xiaoya with ease.

Lian Qingyin could not take it lying down. Shi Xiaoya was not scared, right?

Chapter 2645: It's Not Really Trouble

She was so arrogant, saying that even if the security officers came, they would not dare to touch her.

She wanted to see whether Shi Xiaoya was really as arrogant as she made herself sound like!

Don't get slapped in the face because of that!

Hence, Lian Qingyin really called the security officers over.

She definitely had to chase Shi Xiaoya away before Wu Mosen finished interviewing the last makeup artist.

She definitely could not give Shi Xiaoya the chance to meet Wu Mosen!

Not long after, the security officers came over.

Lian Qingyin did not tell them why she wanted them to come, she just told them to bring more men over.

So six security officers came at once.

Xiao Yu had been waiting in the car at first, then he suddenly saw six security officers going in in a single file. This made Xiao Yu worried.

He was afraid that it might be related to Shi Xiaoya, so he followed them in.

He was thinking, it would be best if it was not related to Shi Xiaoya.

But if it really was related to Shi Xiaoya, he could be of help too.

One can never be too careful.

The accident on the road today had really shocked Xiao Yu.

He definitely had to protect Shi Xiaoya well, or else he would not be able to be accountable to Han Zhuoling.

When Guo Yujie saw that Xiao Yu also came, she instantly heaved a sigh of relief.

No matter what, with a man bolstering their presence over here, it would make them feel a little more assured.

Seeing that Shi Xiaoya looked like she was facing off Lian Qingyin, Xiao Yu quickly hurried over.

“Miss Shi, are you facing some trouble?” Xiao Yu asked.

“It’s not really trouble.” Shi Xiaoya finally stood up.

Lian Qingyin was seen pointing at Shi Xiaoya and saying, “This person here is making a scene and disrupting our work. Chase her out!”

Xiao Yu frowned and immediately stood in front of Shi Xiaoya to protect her.

Luckily, the security officers indeed recognized Shi Xiaoya.

“This...” the security officers said uncomfortably. “Miss Shi, this...”

Lian Qingyin’s expression changed. These security officers indeed recognized Shi Xiaoya and did not dare to touch her!

Instantly, she recalled that all of this was because of Han Zhuoling!

The reason why Shi Xiaoya could be so arrogant was all because of Han Zhuoling!

“It’s nothing much. It’s because I came late and missed my interview time slot, so I wanted to stay here and wait for Director Wu to see if he can give me another chance. This Miss Lian just refused for some reason and insists on chasing me away,” Shi Xiaoya briefly explained.

“I think, no matter what, you should just let me meet Director Wu and hear what Director Wu has to say. If Miss Lian makes decisions on Director Wu’s behalf like this, it won’t be very appropriate, right?” Shi Xiaoya said mockingly.

Lian Qingyin’s expression was extremely ugly. “I am the representative of this film’s main sponsor, Men Xue Films. I still have the right to reject a mere makeup artist. It is very appropriate for me to be making this decision!”

Guo Yujie frowned beside Shi Xiaoya. Who exactly was this Lian Qingyin? Why did she keep picking on Shi Xiaoya?

But this was not a good time to ask, so she could only hold it in.

“Why are you all still standing there? Quick, chase her out!” Lian Qingyin shouted at the security officers.

The six security officers exchanged glances, but they all knew that Shi Xiaoya was Han Zhuoling’s fiancée.

Given the Han Corporation’s standing in the entertainment industry, even if Wu Mosen was standing right here, he would still have to be polite as well.

So, there was really no one who dared to move.

“Is this how you guys do your job as security officers? You don’t even dare to maintain basic order now?” Lian Qingyin questioned furiously.

Xiao Yu said coldly, “We didn’t disrupt any order. Miss Shi is just waiting over here and didn’t disturb anyone. How is that disruptive?”

“What right do you have to talk!” Lian Qingyin said scornfully.. It was clear that she was utterly disdainful of Xiao Yu.

Chapter 2646: Unfair

Xiao Yu did not get angry. He just smiled plainly and said, “I am here to protect Miss Shi on Young Master Ling’s orders. No matter when, I have to secure Miss Shi’s surroundings and must never let her get bullied by other people.”

Lian Qingyin found his words ridiculous.

Could Shi Xiaoya get bullied?

In all this time, Shi Xiaoya’s arrogance had never diminished.

Even after a bunch of security officers came, Shi Xiaoya did not even get scared.

Given her demeanor, could she get bullied?

“What’s going on here? Why is there such a ruckus?” Wu Mosen’s voice sounded.

Everyone looked over. It turned out that Wu Mosen had already finished interviewing the last makeup artist and was walking out together with that makeup artist and the screenwriter.

Yet he saw such a rowdy scene on the corridor outside.

Lian Qingyin was afraid that Shi Xiaoya would speak, so she quickly spoke before Shi Xiaoya could.

“Director Wu, one makeup artist came late and missed her interview slot, but she’s refusing to leave and insisting on staying here.”

Wu Mosen frowned slightly and heard Lian Qingyin say, “At first, it’s nothing big. As she said, because she wasn’t here, all the makeup artists scheduled behind her slot got their timings pushed forward, so when the interviews end, we could still leave 15 minutes out for her to come for her interview. It won’t delay anything.

“But I feel that even though she was only coming for an interview to receive a chance to join the production crew, she even came late. This shows that, actually, she does not cherish the opportunity this time around and this opportunity is not important to her at all. She doesn’t even treat it with importance.

“There were so many makeup artists. Which of them didn’t come early and treat the interview this time with so much care and importance? There were even many people who came an hour earlier. And Shi Xiaoya? She actually came half an hour late. This already showed that she does not cherish this opportunity. If everyone was like her, coming late and wanting to make up for it with another chance,

then other people would also learn from her. Wouldn't everything be in a mess like this? Anyway, they didn't waste anyone's time. They were just shifting their interview time back.

"Then in this case, what's the point of setting a scheduled time that we agreed on earlier? Shi Xiaoya could just say and do whatever she wanted to," Lian Qingyin said. "If we can make an exception for her, we will have to do the same for others as well. For the other makeup artists who abided by the rules and came punctually, even coming way earlier to wait, this would be very unfair.

"They all came to compete fairly. Why should we make an exception just for her?" Lian Qingyin said with a hint of agitation in her voice.

Indeed, the last makeup artist who went in for the interview also looked a little upset and indignant.

When Lian Qingyin saw that, she quickly added fuel to the fire and said, "Shi Xiaoya just wanted to rely on the fact that her fiancé is Han Zhuoling, so she thinks she has special rights and is one class above other people. She thinks she can do whatever she wants and acts unscrupulously. She even treats this interview like a mere formality she has to go through, having long thought that the position she is competing for belonged to her already. That's why she does not care about it at all.

"I think she even thought of which lead character she wants to do makeup for long ago, so she came without preparing anything at all," Lian Qingyin said.

"I came prepared," Shi Xiaoya said plainly. "I have been preparing for very long."

Shi Xiaoya asked her coldly, "If you're done talking, can you let me say a few words?"

"Hmph! What else do you have to say! You're just finding excuses for yourself!" Lian Qingyin glanced at Wu Mosen before saying to Shi Xiaoya, "Stop wasting our time.. We still have a lot of work to do."

Chapter 2647: Who Knows if You're Telling the Truth

"I haven't even said anything, and you just pinned a whole lot of accusations on me. Seeing how anxious and upset you are that you can't wait to chase me away, it's as if you don't dare to let me speak. Are you afraid that I might say something that can be used against you?" Shi Xiaoya asked plainly.

Lian Qingyin's heart stopped for a moment. What did Shi Xiaoya mean by this?

Don't tell her she caught some weakness of hers which she could use against her?

But what weakness did she have that Shi Xiaoya could get hold of?

She thought about it but did not think that there was any weakness of hers that Shi Xiaoya could get hold of.

Could it be the car accident that had happened today?

But how long had it been since it happened?

The police had not even investigated thoroughly, so how could Shi Xiaoya know!

Shi Xiaoya was just using the chance to scare her.

Although Lian Qingyin reacted very quickly and regained her composure almost immediately, Shi Xiaoya still managed to catch those few seconds of pause and guilt.

Shi Xiaoya's mind started thinking at the speed of light.

This meant that Lian Qingyin had indeed done something, and it might even be something quite serious. If not, her expression would not have changed so quickly.

Shi Xiaoya had no time to dwell on it now and could only keep this at the back of her mind for now.

She looked at Wu Mosen and said, "Teacher Wu, I am very sorry. I did come late today, but it's not because I don't treat this opportunity with importance. It's because I met with a car accident on my way here.

"I set off two hours in advance to begin with. From my house to here, normally, I will be able to arrive in less than an hour. I was worried that I might run into some special situation on the roads, which might cause a delay, so I left my house two hours early," Shi Xiaoya said.

Lian Qingyin scoffed at the side. "Ha! You make it sound so nice. You are late and found an excuse for yourself. Who knows if you're telling the truth."

Guo Yujie was so enraged that she wanted to say something, but Shi Xiaoya stopped her.

Shi Xiaoya still did not look at Lian Qingyin and treated her as if she did not exist.

Lian Qingyin was making a ruckus all on her own, but Shi Xiaoya just refused to care about her.

It actually made Lian Qingyin look like a clown at the side.

And Lian Qingyin still did not sense it right now.

"But I met with a car accident on the road. To put it more accurately, two cars came and rammed into ours from both sides," Shi Xiaoya said. "I had made a narrow escape from death. When I was being rammed into in the car, I already called the police. The police station has a record of my report that was filed. I am not finding an excuse for my coming late. There is really a reason for it.

"I also don't treat the interview this time as a mere formality and do not think that it was my spot to begin with. For the interview this time, I had prepared for a very long time and designed many makeup styles for the various characters. And to make my designs more visual, I even drew some makeup portraits."

Shi Xiaoya took out the kraft paper envelope file folder from her bag.

She took out the drawings from the folder.

She did not need to be scared that other people would see it.

Anyway, she would show it to Wu Mosen first. It did not matter if other people saw it afterward.

Wu Mosen reflexively took the drawings.

When he realized what he had done, he had already started skimming through the drawings piece by piece.

Wu Mosen could not help but laugh. He actually got led away by Shi Xiaoya unknowingly. He had not decided whether to give Shi Xiaoya another chance to make up for her interview. Yet as Shi Xiaoya spoke, he just took the drawings from her subconsciously and started looking at them. He actually got led away by Shi Xiaoya just like that. When he realized it, it was already too late. But when Wu Mosen saw Shi Xiaoya's designs, he forgot about wanting to return the drawings to her. He could not help but continue flipping through the drawings to look at the next piece..

Chapter 2648: I Did Not Lie

"Director Wu." Lian Qingyin saw that Wu Mosen looked at every single page carefully. He even took a long time doing so.

Lian Qingyin had a bad feeling and called him immediately.

Wu Mosen raised his hand. "Don't talk."

The screenwriter beside him also came to look with Director Wu.

The screenwriter pointed at the paper with a surprised look. "This one looks good. It suits my imagining of the character's appearance."

Director Wu nodded.

He did not understand a lot about makeup and design.

Nor about choosing for the characters and confirming the character's makeup.

These were all tiresome work that had to go through repeated scrutiny.

These drawings of makeup were also the same.

The spot would not be hit just by drawing them once. Not to mention, there were many details included.

So Shi Xiaoya definitely scrutinized and revised repeatedly to complete these final drafts.

However, there was not only one piece in his hand; there was a stack.

Besides, it was not only one or two characters.

He had flipped over some of these and found out that Shi Xiaoya had designed almost every character that was in the movie.

It would take so much effort to design one character, let alone so many characters.

"Oh my god, she even designed the makeup of the student!" said the screenwriter with a surprised look.

The student he talked about only had two scenes and said one sentence in the movie.

Those two scenes and that sentence might be taken out after any editing during the shoot or during the editing at the end.

But Shi Xiaoya still designed it.

Furthermore, it was done very earnestly, without any perfunctoriness.

“You even designed the makeup of the characters who might not stay in the end?” asked the screenwriter, surprised.

Shi Xiaoya nodded. “Since I was doing them, I should be earnest about it and complete it from the start to the end. I’m really striving for this opportunity, so naturally, I wanted to let you see my sincerity.”

“So you’re saying, all these characters, you scrutinized and revised repeatedly each one of them, without any perfunctoriness,” said Wo Mosen.

Shi Xiaoya smiled. “Since I wanted to let you see my sincerity, of course I had to do everything to the best of my ability. Since I had already prepared, it would be of no help to me if it was anticlimactic.

“I was not lying when I said I spent a long time preparing,” said Shi Xiaoya.

Wo Mosen nodded. “I can see that.”

Even the makeup design of these characters was enough to prove it.

Wo Mosen could even see from these papers that the effort that Shi Xiaoya had put in was far more in amount than what she had said.

This stack of paper suddenly became very heavy.

“I do not treat this interview as just a mere formality, let alone something I already possessed. I did not let Zhuoling help me get a place. I only wish for an environment in which I can compete fairly. If I lose under fair competition, that means that I’m not as good as others.

“So in order to obtain this opportunity, I have prepared diligently,” said Shi Xiaoya.

Wo Mosen nodded. If Shi Xiaoya was really like what Lian Qingyin had said, treating this interview as a mere formality...

And if she was treating the position as something that she already possessed, she would not even have needed to prepare these.

These designs could not be expressed clearly just with the word “diligence.”

The hard work that had been put in would not be understood by other parties.

Chapter 2649: It Was All an Accident

Wu Mosen was shocked after seeing such results.

Lian Qingyin kept saying that the others were diligent because they arrived an hour earlier.

But the effort of the others seemed so insignificant compared to Shi Xiaoya's.

Perhaps they also had sleepless nights preparing.

But Wu Mosen could not imagine what kind of preparation would beat Shi Xiaoya's.

The screenwriter whispered to Wu Mosen, "Director Wu, I think this, this, and this..."

The screenwriter secretly picked a few. "They really fit my imagination."

Wu Mosen nodded. He also thought that they were pretty good.

During the previous interviews, there were some things that he had disagreed with with the screenwriter.

Of course, he had different opinions from the screenwriter regarding Shi Xiaoya's design.

But there were also a lot of things on which they agreed with each other.

Then, they heard Shi Xiaoya say, "For this interview, I have prepared for so long and have not allowed Zhuoling to intervene. I even left two hours earlier for this interview. I really want to rely on my own skills to get this job. I have prepared so much, but I didn't expect..."

"I didn't expect that, coincidentally, I would be assaulted on the way here. I go out for work every day but had never been assaulted. The assault just had to happen today." Shi Xiaoya turned around and looked at Lian Qingyin. "I am guessing that perhaps there is someone who did not want me to attend this interview."

Wu Mosen noticed Shi Xiaoya's glance.

Those who thrived in this line of business not only had skills but were also very clever.

But those who were just a little dumber would not even reach this position.

When Lian Qingyin kept trying to stop Shi Xiaoya just now, Wu Mosen already had a few guesses in his heart.

But Wu Mosen did not express his thoughts. He told Shi Xiaoya, "Come and talk to us slowly. We'll provide you with another chance to be interviewed."

Lian Qingyin's expression changed. Knowing that Wu Mosen had made a promise, Shi Xiaoya's chance of winning would be greater.

But Lian Qingyin was not willing to give up; she still wanted to try one last time. "Director Wu, this is so unfair to the other makeup artists who have been interviewed! She had an accident while she was on the way; it's true that she couldn't do anything about that. However, it doesn't change the fact that she's late. If she had left earlier, she wouldn't have been late."

“Even if she didn’t get into an accident, she could have been in a traffic jam. If she arrived late due to a traffic jam, would you give her another interview? The other people were also concerned about accidents, so that’s why they had arrived early. So does that mean nothing happened to those who arrived early while they were on the way here?”

Guo Yujie said angrily, “How can you compare a traffic jam to an accident?”

“They are both accidents, the size is just different. Why can’t I compare them?” Lian Qingyin sneered coldly. “Besides, since Shi Xiaoya can stand here alive and well, without any injuries, this means that the car accident wasn’t severe and it was just a little scratch.”

Lian Qingyin sneered. “I just remembered. Just now, she exaggerated the accident, saying she had escaped death. Looks like she’s just saying it. Even though the police had filed a case, they have to deal with it even if it’s a normal accident. This can’t say anything about the size of her car accident.”

“It’s possible that your car scratched another car while you’re on the way here. Maybe it happened while changing lanes as you were not driving carefully, so you wasted some time.. Then you came here and exaggerated about what had happened.” Lian Qingyin turned her head and said to Wu Mosen, “Director Wu, you can’t just simply believe these words!”

1

Chapter 2650: Danger

“Our car was heavily damaged. Director Wu, if you have time, you can come and see for yourself,” said Xiao Yu. “We’re fine only because we’re lucky. That car was almost destroyed. Even so, Miss Shi did not even go to the hospital and came to the interview in that car that was almost destroyed.”

“All of you can stop talking,” said Wu Mosen. “I think, because of all the effort that Shi Xiaoya had put in, it’s only fair to give her another chance. These drawings are enough to be compared to the effort that the others had put in to arrive an hour earlier.”

He took a few glances at Lian Qingyin. Lian Qingyin pursed her lips and made her last struggle. “What if I disagree? I am the representative of Men Xue Films. As the production party, I disagree.”

Wu Mosen said plainly, “I am the director. The priority is the quality of my movie. Once we enter the preparation stage for the movie, everything I say counts. Miss Shi is a talented person whom I will not let go of. Much less would I let you affect my movie because of your personal grudge. If you think that you can control my decisions because you’re the representative of the production party, then I can call you president and ask whether I have the power to make this decision.”

Lian Qingyin’s face turned dark. She knew that she could not stop this, so she could only follow them into the interview room.

Wu Mosen looked at her, as if asking her why she followed in.

Lian Qingyin said stiffly, “I am also one of the judges today. Of course I have to carry out the selection.”

Guo Yujie frowned. As long as Lian Qingyin was here, she would definitely try to crack her brain to think of a way to obstruct Shi Xiaoya and stop her.

There were three judges, so even if Lian Qingyin opposed, one vote could not help her reach her goal.

But they were afraid that the two other people, Wu Mosen and the screenwriter, would have disagreements.

If even one person had the same vote as Lian Qingyin, then Shi Xiaoya would be in danger.

If Lian Qingyin was not there and there were only Wu Mosen and the screenwriter, even if the two had disagreements, there was room for discussion.

They were afraid that the third person would team up with one of them and fight against the last person.

But even so, Wu Mosen did not say anything.

What could he say?

He had already agreed that Lian Qingyin would be one of the judges.

During the previous interviews, Lian Qingyin never cared, nor did she express her thoughts, letting him and the screenwriter decide.

But now that Shi Xiaoya was here, it was impossible that Lian Qingyin would not express her opinion.

Wu Mosen could imagine that Lian Qingyin's opinion would be too toxic.

But he had no choice as he could not chase her out.

The three of them sat down.

Xiao Yu sat at the side, without disturbing them.

Guo Yujie was supporting Shi Xiaoya at the side.

Shi Xiaoya saw that there were a few face models inside, which were for the convenience of the makeup artists to explain easily.

If they had used actual human models, they would need to find more models as there were so many makeup artists who attended the interview today.

After all, putting and removing makeup frequently would be too much for the models' faces if there were only a small number of them.

There was still makeup from the previous interviewee on the face models.

Guo Yujie immediately removed the makeup from these face models.

It was uncertain what materials were used to make these models, but they were very easy to be colored, and things like color-smudging would not happen.

Shi Xiaoya started from the main character. She explained her understanding of the main character's makeup while putting the makeup on the model.

Together with the drawing in Wu Mosen's hand, it was even more spectacular.

The makeup on the model was three-dimensional, so it looked even more suitable than the drawing.
