

Mr Han 3421

Chapter 3421: What's Their Relationship?

"I came by to see you, so I can tell them how you are doing."

His sisters-in-law, especially Lu Man, really thought of Xie Jiling as her own little sister.

Ren Linna and the other two saw that he was here to see Xie Jiling. They knew about Han Zhuofeng, but they only knew the things revealed about him online.

They didn't actually know him.

Therefore, the three felt embarrassed to abruptly greet him.

They left secretly and sent Xie Jiling a WeChat message. They told her that they would be going to the canteen.

If Xie Jiling wasn't going to eat with Han Zhuofeng, then she could find them at the canteen.

If she was eating with Han Zhuofeng, then she just needed to let them know.

Xie Jiling replied to them with one word, "Okay."

She asked curiously, "The film crew and cast get days off as well?"

"Of course," Han Zhuofeng said, "Even office workers get two days off. Although we are in the middle of filming, we can't do it without taking a day off. It will be really tiring if we continued filming every day. We have to give people the chance to rest. However, we don't get to take two days off like office workers, but getting a day off per week is possible."

"After all, we have a budget. The filming period can't be too long. You might think a day is short, but you can film a lot in a day," Han Zhuofeng started rambling again.

Xie Jiling nodded. His talkativeness didn't bother her at all.

She then heard Han Zhuofeng say, "It's my day off today, so I came to visit you."

"Since you dealt with the fox spirit last time, I haven't gotten the chance to officially show my appreciation." Han Zhuofeng scratched his head as he said, "I was really disrespectful last time."

"You were really tired, but I dragged you around and even asked you to check the hotel and the studio," Han Zhuofeng said embarrassingly, "Actually, that's not how I normally act."

He was usually a considerate person.

He was just... too scared last time.

That was normal, right?

Han Zhuofeng didn't think that his cowardice was something embarrassing.

After all, the supernatural wasn't something he could resolve.

Who wouldn't be scared of ghosts?

Those unafraid had to be heartless!

Xie Jiling nodded and responded earnestly, "I got it. You already paid the exorcism fees."

Xie Jiling said earnestly, "I do have to provide after-sale service. Therefore, it is my job to check the studio and hotel."

In just a few sentences, Xie Jiling described everything that happened as a mere transaction!

Knowing that this was merely a transaction, Han Zhuofeng felt a little sad.

It was very considerate of her to not only exorcise but provide after-sale service as well.

"However, you can thank me," Xie Jiling said, "If it were someone else, I would still accept the commission, but I wouldn't leave overnight. That was very tiring."

Not to mention that she had exhausted her mental powers to draw so many talismans, which were priced at 600,000 per piece for outsiders.

Yet, she sold it to Han Zhuofeng and the others for only 3000 per piece.

"..." Han Zhuofeng smiled and said, "That's true."

"Since I am here at this time, let's get a meal together." Han Zhuofeng said.

Xie Jiling's eyes lit up. Although Han Zhuofeng hadn't known Xie Jiling for a long time, he had never seen her interested in anything.

Her eyes were so bright.

"There is something I have been wanting to eat. But I'm embarrassed to eat it," Xie Jiling said, "I have told my roommates before, but they have expressed that they would never go there. It's too lonely to eat there by myself."

The corner of Han Zhuofeng's mouth twitched. What could it be that she found it repulsive?

However, Han Zhuofeng asked, "When you are out exorcising, you will definitely leave the city."

When Xie Jiling exorcised for Han Zhuofeng's sake, she had rushed back from another city.

"Don't you eat alone when you're traveling alone?" Han Zhuofeng asked while they were walking.

"If I'm going to a foreign place, I would order takeout and eat at the hotel. It's not awkward for me to eat in my room," Xie Jiling said, "I can eat while watching dramas with my iPad. That's more comfortable to me."

Han Zhuofeng laughed and said, "Sure. I will keep you company. It's my treat today."

"But what do you want to eat? Why won't your roommate want to keep you company?" Han Zhuofeng asked curiously.

“You will know when you get there!” Obviously, when Xie Jiling wouldn’t miss out on the chance to get a fool to accompany her for this.

What if she told him too early and scared him away? Who else could Xie Jiling find?

Therefore, Xie Jiling didn’t say anything. She grabbed Han Zhuofeng’s arm and dragged him out of the school.

Han Zhuofeng thought to himself. Did she really think he would run away?

He had promised her.

As a man, his promise was worth a thousand gold.

However, Xie Jiling didn’t think much. She just didn’t want Han Zhuofeng to run away.

So, she held onto Han Zhuofeng’s arm and didn’t let go at all.

Even Shi Xiaoya and Yan Zhiqing thought that Han Zhuofeng and Xie Jiling were a great match, not to mention other people.

It was noon right now, and the campus was particularly crowded with students going to and fro.

The passerby saw them together.

Especially the sight of Xie Jiling grabbing Han Zhuofeng’s arm and acting really intimate with him.

Did Xie Jiling have such a good relationship with Han Zhuofeng?

What was their relationship?

Were they dating?

If not, why were they so close to each other?

Even though Xie Jiling was grabbing onto Han Zhuofeng’s arm, Han Zhuofeng was smiling, unbothered by it.

The spectators had no idea just what kind of a person was the third son of the Han Family.

The third son of the Han Family had previously been in school.

He then started learning from various famous directors.

The third son of the Han Family had always kept a low profile because Han Zhuoli and Han Zhuoling were too popular.

Their fame overshadowed the youngest son of the Han Family.

So, many people didn’t know Han Zhuofeng well.

But by looking at his two older brothers...

Those two didn’t allow other girls to simply approach them.

Considering the existence of the two older brothers...

Han Zhuofeng should be on par with his brothers.

His temper toward women should be similar to his brothers.

Although the media didn't know Han Zhuofeng well, they paid close attention to these wealthy and famous families.

If any member of these wealthy and famous families were in a relationship, there would have been a news report about it.

But none of them have heard of such a news report about Han Zhuofeng.

Therefore, could Xie Jiling actually be Han Zhuofeng's girlfriend?

The University of B City had a very huge campus with a lot of students.

Of course, not every student was friendly.

Xie Jiling had a good relationship with the students in her class.

Especially the ones who had received a lot of help from Xie Jiling.

Even the ones of the same year as Xie Jiling were familiar with her because they were part of the same school.

Some people didn't believe what Xie Jiling had been saying.

However, some people received help from Xie Jiling to resolve their issues.

And so, the students in the same year and major as Xie Jiling were very friendly to Xie Jiling.

However, she was a stranger to the students from other majors and from different years.

As for the people who knew about her, they only knew her because they had heard that there was a young shaman in their class.

A shaman who often said nonsense.

A shaman who often talked about vengeful spirits.

As people of the modern age, they didn't believe in such things.

But for some reason, some students took it seriously and trusted Xie Jiling.

Chapter 3422: It Doesn't Matter

They even said that Xie Jiling's talisman was useful.

It was being sold at 3000 per piece!

Wasn't she just a scammer?

This was why they didn't tell the school management.

She would have gotten punished if they had reported her.

As a student at the University of B City, how dare she do something like that?!

As such, the people who didn't know Xie Jiling well didn't have a good impression of her.

They looked down on her.

Some people were secretly asking, "What's her relationship with Han Zhuofeng?"

"What's the situation with this little shaman?"

"She usually babbles some nonsense. I didn't expect that she could do something like this."

"Han Zhuofeng isn't taking the initiative. She grabbed Han Zhuofeng's arm."

"Does she have a good relationship with Han Zhuofeng?"

"I have never thought that she was so flirty."

Xie Jiling didn't hear their words

Although she knew how to exorcise, she wasn't clairvoyant.

She dragged Han Zhuofeng to a food street near the school.

"Because this food street is near our school, business is good for the restaurants on this street. Plus, the food in the restaurants here tastes good, and they don't cost a lot because they are near a school." Xie Jiling said to Han Zhuofeng while they were walking.

Usually, you would see a lot of tourists on a food street.

However, a food street near a university was different.

It wouldn't be a street frequented place by tourists.

However, Xie Jiling had forgotten...

She forgot that since this food street was near school, the small restaurants here had delicious, reasonably priced food, and there weren't that many students.

However, most of the customers here were students from the University of B City.

Some had already been here while some were following Xie Jiling and Han Zhuofeng.

They were going to eat anyway, so they decided to follow along and watch the hottest gossip.

At this moment, the students who were already in the restaurant were surprised to see Han Zhuofeng and Xie Jiling.

They were all making their own guess about Xie Jiling and Han Zhuofeng's relationship.

They had good and bad thoughts.

Eating here was more conspicuous than eating at a food street usually visited by tourists.

Xie Jiling didn't think about that at all.

Actually, Xie Jiling never really knew the ways of the world.

She was simple-minded with simple thoughts. She simply followed her heart.

She grew up in the Xie Family house.

She had always been surrounded by family members and rarely interacted with people outside.

Aside from her family members, she only interacted with vengeful spirits.

Aside from learning, she would often go out with her father to exorcise spirits.

When she became older, she started traveling the world, representing the Xie Family.

As such, Xie Jiling was a naive, simple-minded, and straightforward girl.

And that was why she often spoke what was on her mind.

If it were someone else, they wouldn't have been so straightforward when accepting commissions.

So, Xie Jiling didn't think much about the current situation.

"What's that smell?" Han Zhuofeng sniffed and thought that the smell was pungent.

"Why does it smell so bad? Is there a restaurant on this food street that failed the health inspection? The smell is so bad you can smell it outside the restaurant. It's so obvious." Han Zhuofeng frowned and said.

Why did the health department not do anything about this?

This definitely wasn't the smell of stinky tofu.

Han Zhuofeng could recognize the smell of stinky tofu. He had never had stinky tofu before, but he had smelled it before while passing by.

"No." Xie Jiling hurriedly said. She didn't expect that Han Zhuofeng would have no idea about this. Clearly, he wasn't as knowledgeable as she thought.

"This is it." Xie Jiling dragged Han Zhuofeng to a restaurant.

As expected, the pungent smell became even worse.

The smell was coming from this restaurant.

Han Zhuofeng lifted his head and stared at the signboard of this restaurant.

[Best River Snails Rice Noodle.]

“What?” The puzzled Han Zhuofeng asked Xie Jiling, “River Snails Rice Noodles?”

It smelled so bad!

Han Zhuofeng couldn't help but cover his nose.

The smell was so pungent...

This horrible smell was different from the smell of stinky tofu.

“Let's go in.” Xie Jiling dragged Han Zhuofeng inside.

Han Zhuofeng was a big man. If he didn't want to, Xie Jiling wouldn't have been able to drag him inside.

It was all because he could tell that Xie Jiling really wanted to eat this.

Even if it smelled horrible, Han Zhuofeng decided to endure it.

The worst-case scenario would just be him not eating and simply watching Xie Jiling eat.

The restaurant wasn't big. It smelled really bad, but there were a lot of people.

There was only one empty table left.

Xie Jiling quickly dragged Han Zhuofeng to take a seat.

“Is this the restaurant you wanted to try?” Han Zhuofeng asked.

It was no wonder her roommates wouldn't come with her.

“They think it's too smelly, so they don't want to come with me.” Xie Jiling felt a little embarrassed as she said, “Since it's your treat, shouldn't you ask me what I want to eat?”

“I want to eat this for lunch today.” Xie Jiling looked at Han Zhuofeng with her eyes brimming with anticipation. “Buy this for me, will you?”

Han Zhuofeng thought that it was really easy to satisfy Xie Jiling.

As a wealthy lady who could earn millions with just a commission, she actually just wanted to eat a bowl of river snails rice noodles that cost 15RMB and 20RMB if you add meat.

However, when Han Zhuofeng heard what Xie Jiling said, he felt like Xie Jiling had taken advantage of him.

She had finally found a fool willing to accompany her here for this food.

Han Zhuofeng laughed and said, “Sure. We have been in this restaurant for a while. I'm starting to get desensitized to this horrible smell. What do you want to eat?”

Han Zhuofeng didn't even tell Xie Jiling to order whatever she wanted.

After all, no matter how much she ordered, it shouldn't cost much.

“I want a bowl of their best dish river snail rice noodles with fried egg and vegetables.” Xie Jiling already knew what she wanted, so she answered immediately.

No one knew how long she had been wanting to come to this restaurant.

Han Zhuofeng finally understood why Xie Jiling didn't dare to come here by herself.

Because this restaurant was near campus, most of the people here were students at the University of B City.

Everyone came in pairs. If Xie Jiling came here by herself, it would seem a little sad.

At this moment, someone came to get their order. Han Zhuofeng then ordered a bowl as per Xie Jiling's request.

Xie Jiling asked in surprise, "Are you not going to eat?"

It was already really difficult for Han Zhuofeng to sit here.

Han Zhuofeng didn't care about the dining environment. He didn't care if it was a high-class restaurant or a food stall.

Usually, the dining environment on set was even worse than the food being sold in food stalls.

Sometimes, he would have to eat by the road.

If they were filming at a place that wasn't too remote, he could order a takeout.

However, if the place were too remote, they would need to hire an auntie who could cook at a canteen. The auntie would make a big pot of rice for the film crew and cast, then everyone would eat together.

If they were in the city, things would be better.

Sometimes, they would have to eat outside with the wind blowing at them.

In fact, there were times when the weather was worse, and they would eat their food with sand blowing into their mouths.

So, Han Zhuofeng wasn't really a pampered son of a rich family.

The dining environment didn't matter to him.

Han Zhuofeng scratched his nose and said, "You haven't had this before, right?"

Xie Jiling shook her head and said, "I was watching a mukbang, and many mukbangers were eating this. They were eating it like it was really delicious. Although there were comments saying that it smells really bad, I'm still really curious. Since there's a restaurant selling this near my school, I wanted to give it a try."

"That's why you should just order one bowl and give it a taste and see if it's good. If it's good, I will order another bowl. If it's not, we will go to another restaurant. If you don't think it's good, you don't have to force yourself to finish it," Han Zhuofeng said.

Chapter 3423: No Title

Xie Jiling didn't expect Han Zhuofeng to have thought it through.

She nodded.

Soon, a bowl of river snail rice noodles was served.

The restaurant reeked of the smell of this river snail rice noodles.

And now that the river snail rice noodle was served, the smell was coming straight from their table.

Han Zhuofeng didn't dare to try it.

But Xie Jiling was so excited to try it. "Actually, these rice noodles smell good."

With this, Xie Jiling took some rice noodles.

The surface of the soup was floating with a layer of red and spicy oil, and it looked really spicy.

The customers sitting at other tables were all wiping their noses from time to time.

They were also making huffing and puffing sounds. Obviously, the noodles were spicy.

Xie Jiling blew on the bowl of noodles until it wasn't that hot before she took a bite.

Then, her eyes lit up. "It tastes so good. Do you want to give it a taste? It's really good! If you taste it, you will definitely like it. You will want another bowl."

Han Zhuofeng was really doubting it. You could see the skepticism on his face.

Xie Jiling took out a pair of chopsticks and handed them over to Han Zhuofeng. Then, he asked the waiter for an empty bowl.

"Why don't you try it?" Xie Jiling said.

The doubtful Han Zhuofeng used his chopsticks and moved some noodles into his empty bowl.

Xie Jiling then gave him some sour bamboo shoots, sour bean curd, and dried sour radish.

The smell really wasn't pungent when the food was near his mouth.

However, it could be because he had already been desensitized to the smell.

When he took a bite, he realized that it was really delicious!

Han Zhuofeng didn't bother if it was smelly or not.

When he ate it, it didn't smell bad at all.

It tasted sour and spicy. It tasted refreshing and appetizing.

The rice noodles were smooth and chewy.

Han Zhuofeng quickly called the waiter over and ordered another bowl of what Xie Jiling had ordered.

While he was waiting for his bowl of noodles, Han Zhuofeng couldn't endure anymore and took some of Xie Jiling's noodles again.

He filled his small bowl to the brim with Xie Jiling's noodles.

It resulted in Xie Jiling protesting, "No one treats a meal like you do! You're taking all my food away!"

"When they serve my bowl of noodles, you can take some back," Han Zhuofeng said.

Xie Jiling pouted. Fine. She would accept it.

And so, the two shared a bowl of noodles and finished the noodles together.

When Han Zhuofeng's order was served, they still ate by sharing the bowl of noodles.

The two didn't realize that their way of eating...

In other people's eyes, their way of eating showed that their relationship was special.

When the two finished their food, Han Zhuofeng sent Xie Jiling back to campus.

"I wanted to treat you to a good meal, but we only had two bowls of river snail rice noodles." Han Zhuofeng felt ashamed as he said, "This was not my intention."

"No! I'm really happy. It has nothing to do with a fancy meal. I was really satisfied with that small meal." You didn't have to treat someone to a fancy meal to show sincerity. The important thing was the other party's satisfaction.

"Even so, this won't do. This doesn't count." Han Zhuofeng insisted.

Since he said so, Xie Jiling stopped arguing.

Han Zhuofeng was a busy person. Who knew how long she would have to wait until the next time?

But then, Han Zhuo Feng then said, "We are going to Ta Town on the 10th of next month to film a location because there is a scene in the movie that shows the landform of the planet. I think the Danxia landform at Ta Town would be a great match for it."

"However, there is a very famous ghost town near that place," Han Zhuofeng said, "There is a scientific explanation. It's because the wind is blowing against the rocks and making noises that sound like the cries of a ghost. That is why it sounds so scary. But in reality, there are no ghosts."

This scientific explanation sounded very reliable.

In the past, Han Zhuofeng would have believed it.

But now that he had learned so many things, Han Zhuofeng felt skeptical of that rumor.

What if something was really there?!

And so, Han Zhuofeng asked, "Is the phenomenon at the ghost town really what the experts had explained? Or is there something there?"

Xie Jiling felt the corner of her eye twitch. She wondered if Han Zhuofeng had become a little crazy because of her.

The third son of the Han Family could now see an issue with everything.

She wasn't responsible for this!

"I have heard of the ghost town, but I haven't heard of anything existing there," Xie Jiling said, "When I was young and curious about everything, I asked the soul reapers about it, and they said there was nothing there."

"Don't worry. There won't be a problem," Xie Jiling said, "Not every place with a rumor or story has issues."

Han Zhuofeng still felt worried. "Just because there aren't any problems when you asked them in the past does not mean that there aren't any issues now."

"Erm... are you free on the 10th of next month? If you are, why don't you go with us to take a look at it?" Han Zhuofeng asked.

Xie Jiling raised her brow and said, "You said that you came today to treat me to a meal, but you really came here to discuss this with me, right?"

"Of course not," Han Zhuofeng said in an earnest manner, "I bought you food because I wanted to express my appreciation. I really came here to express my gratitude."

Han Zhuofeng said in a helpless tone, "I just didn't expect you to only eat river snail rice noodles."

"I told you about Ta Town because it came across my mind. I thought the timing was good for us to talk about it. You can't flip the sequence. Buying you a meal was the first thing I did and asking you to come with me to Ta Town was the second thing. This second thing just happened conveniently."

Xie Jiling grinned and said, "Alright. I believe you. I am not trying to blame you for anything. The sequence does not matter to me."

"No. This concerns my sincerity and intention," Han Zhuofeng said, "I don't want you to feel like I wanted to visit you because I needed something from you. That is not true."

Chapter 3424: No Title

Xie Jiling smiled and said, "Alright. I got it."

Han Zhuofeng stopped looking serious. He then asked, "Are you free that day?"

"I won't let you go for free. I will pay you for checking that area!" Han Zhuofeng said.

Maybe it was because she was getting paid, but Xie Jiling agreed without any hesitation. "Sure. Send me the address, and I will go take a look at it later on."

It was almost as though Han Zhuofeng was worried that Xie Jiling would change her mind because he quickly sent her the address.

"Since the production crew will be going as well, why don't we all go together?" Han Zhuofeng suggested.

"Sure." Xie Jiling thought about it and realized that this was more convenient.

Whenever she accepted a commission, she would always do things by herself, including traveling.

She had always been by herself while she was on the road and it had always been really lonely.

She had never once experienced the liveliness that usually happened whenever people traveled in droves.

Her class had organized a trip once, and she was planning on going...

But suddenly, there was a commission, and she couldn't join them on the trip.

This would be her first time having the opportunity to travel with so many people.

With there being so many people on the production crew, Xie Jiling thought that this trip would be really lively.

And so, Xie Jiling agreed without any hesitation.

"I will book your plane ticket and hotel room." Han Zhuofeng was really happy.

He would leave with Xie Jiling and stay in the same hotel as her.

He would be the safest with her.

By then, he could arrange for Xie Jiling to stay next door.

If something really happened, Xie Jiling would be next door, and he would have nothing to fear!

"Sure." Xie Jiling nodded and agreed without any hesitation.

She didn't think that there would be anything in the ghost town.

Places with such obviously scary names were usually safe.

Vengeful spirits were not foolish.

They knew that famous places like those attracted not just adventurous humans but exorcists as well.

As such, who would dare to stay there?!

However, Han Zhuofeng would pay and cover her food and living expenses.

Honestly, such carefree clients were few in number.

After making an agreement with Xie Jiling, Han Zhuofeng went back on set.

When Xie Jiling went back to the dorm, Ren Linna and the others were there.

They were playing PUBG together.

It just so happened that they all died one after another. The only one who remained was the teammate randomly assigned to their team.

However, the three felt lazy to watch the fight. So, they all left.

The moment they left the game, they saw that Xie Jiling had returned.

“Eh? You came back so early?” Ren Linna asked in surprise.

They thought that Xie Jiling would stay outside with Han Zhuofeng for a little longer.

It had only been a short while.

She came back so quickly.

“I came back after we were done eating.” Xie Jiling checked the time on her phone and saw that she had been gone for over an hour. How was that early?

Kuang Xiaorou, who had the best sense of smell, sniffed around. She inhaled a couple of times and moved closer and closer to Xie Jiling.

“...” Xie Jiling dodged to the back and asked, “What are you doing?”

“You smell like river snail rice noodles,” Kuang Xiaorou said.

Feng Yaqing was surprised as she blurted out, “Please don’t tell me you brought Han Zhuofeng out to eat river snail rice noodles?”

When Feng Yaqing said that, Ren Linna and Kuang Xiaorou were both shocked.

Amazing!

She brought the third son of the Han Family to eat river snail rice noodles!

That wasn’t just a food stall.

It was a very smelly food stall!

If she had brought Han Zhuofeng to eat crayfish or barbeque, it wouldn’t be as shocking as eating river snail rice noodles!

In addition, Han Zhuofeng actually agreed!

They couldn’t even imagine how Han Zhuofeng sat in the restaurant and ate noodles with Xie Jiling.

“Yeah,” Xie Jiling said, “He said he wanted to treat me to a meal. Since he was going to treat me to a meal, I obviously get to choose what I wanted to eat.”

Xie Jiling didn't think there was anything wrong. And while her roommates were staring at her with their eyes wide and mouths agape, she said, "I have been wanting to get a taste of the river snail rice noodles, but you three wouldn't go with me because you three said it reeks."

The noodles didn't just reek. Ren Linna and the other two also thought that eating those noodles would ruin their image.

They were girls. They obviously had to smell good and look good.

If they ate that and came back smelling pungent, that wouldn't be good.

"It was rare for him to say that he wanted to treat me to a meal, so I obviously dragged him there with me. If not, I doubt that I could find another person willing to go there with me," Xie Jiling said.

Xie Jiling looked a little proud of herself.

She thought that it was really smart of her to be able to find someone.

She was really smart.

Everyone: "..."

Xie Jiling clearly had no emotional intelligence.

They didn't even know what to say.

Initially, they were going to ask Xie Jiling about her relationship with Han Zhuofeng.

Now, there was no need to ask.

Just by looking at Xie Jiling's reaction, they knew that they wouldn't be able to get any answers.

They didn't know if Han Zhuofeng liked her or not.

However, Xie Jiling definitely felt nothing for him. At least, there was nothing, to begin with.

She probably didn't even know if she potentially had feelings for him.

As Xie Jiling's roommates, they were the people who had spent the most time with Xie Jiling aside from the members of the Xie Family.

They remembered that Xie Jiling had been really naive when she first enrolled in school.

She had been so naive she seemed like she had just emerged from the forest.

Xie Jiling knew nothing. She had been curious about many things they considered common knowledge.

She was also really simple in the way she dealt with relationships.

You would know based on the way she talked.

As such, they really liked Xie Jiling.

Who wouldn't like hanging out with someone so straightforward and simple?

When everyone became more familiar with each other, they also found out about Xie Jiling's capabilities.

In the beginning, Xie Jiling would provide solutions for avoiding disasters and calamities. Until a while ago, they saw her exorcise with their own eyes.

They then found out about the Xie Family.

Of course, Xie Jiling had told them these things.

Xie Jiling was simple, but she was not stupid. As such, she told them the things she was allowed to say.

To Ren Linna and the others, the Xie Family was a family of exorcists.

They couldn't think of any other way to describe the Xie Family.

And so, Xie Jiling's relationship with the other classmates deepened.

She became the most favorable existence in class.

Although they didn't ask Xie Jiling about her relationship with Han Zhuofeng, Ren Linna still reminded Xie Jiling, "Many people saw Han Zhuofeng visit you today, and they will surely gossip about it. I am guessing that the whole school knows about what happened already."

"You have a good relationship with everyone in our class because we have seen what you are capable of doing. However, the people in other classes of other years and of other majors think that you are a scammer who spouts nonsense," Ren Linna said.

"Many people are gossiping about you." Kuang Xiaorou said.

Xie Jiling nodded and said, "I know, but it doesn't matter to me. They can gossip about me. It won't hurt me anyway."

"In addition, if something actually happened to them, they would be begging me for help." Xie Jiling didn't care at all. She had thought it through.

She had no conflict with them. And their gossip about her wouldn't hurt her.

Seeing that Xie Jiling was aware of it, yet she was showing no concern, Ren Linna stopped talking about it.

Chapter 3425: Going Together

Ren Linna then said, "Anyway, just know that many people are gossiping about you. Our university is an elite school, and the students here are all elite students. Elite students excel in their academics, but they might not be good people. They might think that they are really exceptional people and can't stand it if there are other people more brilliant than them."

“They can’t stand it if there are people living a better life than them. And there are many people who gossip,” Ren Linna said.

“Because you were with Han Zhuofeng today, there will be many people guessing your relationship with Han Zhuofeng. And they’re probably saying really mean things about you,” Ren Linna said, “Let me tell you this so, you will be mentally prepared.”

“You know that they were previously gossiping about you. And now, with Han Zhuofeng’s existence, they will only say even meaner things,” Ren Linna said, “Therefore, you should prepare yourself. If you hear them saying mean things, don’t you tolerate them.”

“Yes.” Feng Yaqing nodded heavily and said, “Don’t let them be too idle. They were accepted by University of B City. Instead of improving themselves, they became jealous of others instead. If you meet anyone gossiping about you, just slap and scold them on the spot. People who gossip shouldn’t be given justice!”

“Alright. I will remember that.” Xie Jiling nodded. She looked really serious as she noted down these lessons.

Ren Linna and the others froze.

They had never seen Xie Jiling argue with anyone.

Because the atmosphere in their school was really good. Everyone shared a harmonious and loving relationship with each other.

No one would bully Xie Jiling.

Aside from going to class and spending time with these classmates, Xie Jiling would just leave for exorcism work.

She was being protected by her classmates as well.

If anyone dared to gossip about her, they wouldn’t do it in front of her.

And so, Ren Linna wondered if Xie Jiling even knew how to win an argument.

With regards to this, they had not much faith in Xie Jiling.

As such, Ren Linna said, “I think we should be with you at all times. If anyone talks bad about you, we will just scold them for you.”

Xie Jiling nodded. She really didn’t know how to do something like that.

However, Xie Jiling was a very inquisitive child.

Xie Jiling then said, “I will learn at the side. When I eventually learn to do it, I will scold them by myself in the future.”

Everyone: “...”

She really didn’t know how to curse people out.

“Then, we will find an opportunity to teach you.” Feng Yaqing said.

They didn’t ask Xie Jiling how she knew Han Zhuofeng.

Although Xie Jiling was very simple-minded, the things she would eat and wear had always been very expensive.

In addition, they knew how much Xie Jiling would charge outsiders for an exorcism commission. And they also knew that Xie Jiling’s family was very rich.

If Xie Jiling’s service was already that expensive, how much money could the Xie Family, which was known as the family of exorcists, had earned so far?

The Xie Family was a big family. It wouldn’t be weird for her to know Han Zhuofeng.

After they took their lunch break, they still had a class topic group discussion to do.

They had to discuss in groups.

The members were grouped together at random. These groups weren’t formed based on friendships.

And so, because of this random assignment, Xie Jiling and her roommates separated.

Xie Jiling and Ren Linna were in a group. The others that were assigned into this group were Zheng Binzhou, Zhang Tonglin, He Yuliang, and Feng Wenxian.

Although Feng Wenxian had never seen Xie Jiling exorcise...

However, He Yuliang and Chen Xing had took on the role of publicity coordinator and had told everyone the story of Xie Jiling exorcism acts.

The two had seen it with their own eyes as well. In fact, they had witnessed it happened two times.

And so, they described what happened in such a vivid manner.

They swore to the heavens that they saw it with their own eyes.

All the classmates believed it!

Feng Wenxian obviously believed it very much.

While the group discussion was going on, they took the chance and started talking about it.

However, Xie Jiling didn’t have much chance to speak.

Because Ren Linna was talking...

Ren Linna had been present back then!

She knew everything.

And so, Ren Linna started speaking for Xie Jiling.

Occasionally, Xie Jiling would add a few words for the things Ren Linna could not explain.

Xie Jiling thought this was good. It saved her a lot of energy.

After all, these things were considered strange and new to other people. However, to Xie Jiling, this was basic knowledge.

She didn't know how to explain it.

When the group discussion officially started, they stopped talking and started working seriously.

When they were taking a break from the group discussion, Chen Xing approached.

"Did you guys tell Jiling?" Chen Xing asked He Yuliang and Zheng Binzhou.

"We haven't gotten the chance." Zheng Binzhou explained, "Why don't you tell her?"

Chen Xing rubbed his hands and stared at Xie Jiling and the other girls. "Isn't the Dragon Boat Festival holiday on the 10th? We will be getting three days off and an extra two days off because we won't have classes for those two days. We are thinking about using these five days to go out for fun."

"Where do you guys want to go?" Xie Jiling had a bad feeling.

Considering how the boys were looking like they couldn't wait to try something and couldn't wait to do something that could potentially kill them...

"Ta Town." Zheng Binzhou said, "The scenery there is magnificent and beautiful."

Xie Jiling listened quietly until he was done talking. And then, she asked, "Are you thinking about going to the ghost town near Ta Town?"

The three immediately showed a surprised expression, conveying "how did you know?"

Xie Jiling was speechless.

Although everyone here was a top student, their acting skills were bad.

Their reaction was too dramatic.

"You all really wanted to go to the ghost town, right?" Xie Jiling asked.

"No. No. Definitely not. It's just convenient to visit the ghost town as well." He Yuliang said, "We just wanted to see the beautiful nature."

Xie Jiling thought to herself. It would be absurd to believe anything they said.

"We just wanted to visit Ta Town. Since the ghost town is nearby, it would be a waste to not visit that place too." Chen Xing said.

Zheng Binzhou said, "Jiling, since we will have nothing to do, let's go together?"

"We have witnessed two exorcism events. Although we are curious, we really don't dare to go there by ourselves. However, it will be different if you are with us. You can show us something new as well." Zheng Binzhou said.

They were so persuasive even Ren Linna felt like going.

Kuang Xiaorou and Feng Yaqing were next door. They heard it and immediately joined the discussion.

“We want to go, too.” Kuang Xiaorou said.

Zhang Tonglin raised her hand and said, “Can I join as well?”

Feng Wenxian thought about it and decided that he would not be left out this time. He then said, “I want to go too.”

“Wait.” Chen Xing said, “Jiling never even agreed. What’s the excitement all about?”

“We are just thinking about it.” Zheng Binzhou said, “If Jiling goes, we would go. If Jiling won’t go, then we will cancel this trip.”

“It’s fine if there’s nothing. It won’t be good if there’s actually something there.” He Yuliang shook his head.

He was afraid and especially careful about the supernatural!

Xie Jiling smiled and said, “I’m going there. However, it’s because Han Zhuofeng is filming a scene outside Ta Town. He was worried that the film crew might encounter something, so he asked me to check the location.”

Chapter 3426: Your Jealous Faces Are Horrendous

“It’s a coincidence that I’m leaving on the 10th as well,” Xie Jiling said, “If you all really want to go, we can go together.”

Xie Jiling wasn’t worried that something might happen.

They would just treat this as a holiday.

Even if something happened, she was be there, so it would be fine.

If nothing bad happened, it would simply be a fun trip.

No one expected this conversation to go so smoothly. They felt really happy.

Ren Linna was so happy she held Xie Jiling’s arm. “Which flight is the production crew going to buy? When it’s confirmed, can we buy the tickets for the same flight? We will see celebrities on the plane, right?!”

“I think I can ask them to help. I can ask them to book our plane tickets and hotel, right?” Xie Jiling thought it would be fine, “But I still have to ask first. If it’s okay, then I will ask them to book the same flight and same hotel for us. If they can’t do it, then we will just book it by ourselves.”

Whether it was traveling with Han Zhuofeng and his production crew or traveling with Ren Linna and the others, Xie Jiling thought that both were good.

She didn't care.

While they were taking a break, Ren Linna urged Xie Jiling to ask.

The helpless Xie Jiling sent Han Zhuofeng a WeChat message.

Ever since Han Zhuofeng had witnessed what Xie Jiling was capable of doing, he immediately added her as friend on Wechat.

It made him feel as though he had an exorcists with him at all times. which gave him a sense of security.

Xie Jiling then asked Han Zhuofeng, "My classmates coincidentally wants to visit Ta Town and the Ghost Town as well. There are a total of eight people. Do you think you can book our hotel and plane tickets?"

Xie Jiling thought about it and added, "I wasn't the one who suggested this. It was a coincidence. They were going to check out that place during the Dragon Boat Festival Holiday and they wanted me to go with them because they were scared that they might actually encounter something. Since I'm going with you all, I wanted to ask."

"However, there are a lot of people in your production crew. There will be celebrities as well. If it's not convenient for you, it's alright."

After sending these messages, Xie Jiling stopped talking.

She just waited for Han Zhuofeng to reply.

Han Zhuofeng was filming. His phone was on silent and he didn't have time to reply her.

Xie Jiling only got a reply from Han Zhuofeng at 9'o clock at night.

"No problem. I will let you know after the bookings are purchased," Han Zhuofeng said.

"Thank you." Xie Jiling said, "Send me the bill and I will ask them to pay."

If she didn't remind him, he probably wouldn't remember to ask for the money considering his personality.

"Alright." Han Zhuofeng laughed.

At this moment, Xie Jiling was already lying on the bed. Ren Linna and the other two were lying on their beds as well.

This was a quadruple dormitory and all the beds were on the upper bunk.

There was a writing desk and a small cupboard under each bed.

This was a very common university dorm room arrangement.

Everynight, after they turned off the light, they would talk to each other in the dark.

At this moment, Xie Jiling said to Ren Linna and the others, "Han Zhuofeng agreed. He booked the same flight and same hotel for us."

When Ren Linna and the other two heard this, they were so happy.

They immediately told the others.

After they decided to go on this trip, they created a group chat for the convenience of contacting each other.

And now, Ren Linna told everyone else this in the group chat.

Aside from the people in Xie Jiling's dorm, another girl named Zhang Tonglin would join them.

The remaining ones were four guys.

However, regardless of whether they were a guy or girl, even if they weren't starchasers, they would still be really happy to see a friend they rarely meet.

Honestly, this was just something new to them.

When they got the message from Ren Linna, they all started cheering.

The few of them rubbed their palms and waited for the trip to Ta Town, hoping that the day would come soon.

However, even before the time to leave to Ta Town arrived...

The gossips came first.

It was just as what Ren Linna and the other three had reminded Xie Jiling. Many people saw Xie Jiling walk alongside Han Zhuofeng.

At that time, Xie Jiling was even holding onto Han Zhuofeng's arm.

They were curious about their relationship.

Naturally, there were jealous people.

The university had an enlarged class.

You would take this class based on your electives.

Every classmate might choose a different elective.

As such, an enlarged class would usually have students from other classes and even students of other majors.

Xie Jiling and Feng Yaqing chose the same elective.

And so, the two came to the classroom together.

They chose the seats near the end at the edge and sat there.

This elective was quite boring. It was the type of class that was mandatory, yet unnecessary.

Therefore, Xie Jiling and Feng Yaqing chose to sit at a very obscure corner.

They were still listening.

But as top students, for classes that weren't actually important, they could listen without focusing.

They could chat with people or read the news.

Even so, they could still catch the important points of the lecture.

Today, the two had just sat down for a short moment when they heard a discussion between the two girls sitting in the same row but three seats away and another two girls sitting in front.

"Is that Xie Jiling?"

Chapter 3427: No Title

"As a student of the University of B City, you should have some respect for yourself. Have some class," Feng Yaqing said rudely, "Don't be like those losers. You are all acting like a bigmouth, gossiping in such a sarcastic manner because you all can't win against her."

"Who did you call a loser?!" A person stood up. She was so angry that her face turned red.

"I am talking about the person who was gossiping," Feng Yaqing said coldly.

"Jealousy makes a person ugly. Were you not raised well?" Feng Yaqing sneered and stared at them with disdain.

"When were we gossiping? We were just chatting. What does that have anything to do with you?!" someone roared, "You were the ones secretly listening to our conversation. How dare you talk about manners? What about your manners?"

"Yes. If you were raised well, would you eavesdrop on our conversation?"

Feng Yaqing's face darkened as she said, "You all were talking so loudly. You were almost pointing at our faces. Do you think we needed to eavesdrop on your conversations?"

"We were sitting right beside you. We heard every single word you said. There was no need for us to eavesdrop!" Feng Yaqing said in a deep tone, "I am going to tell you the same thing I said: don't be jealous. There's no need for you to know their relationship, and there's no need for you to worry about it."

"If you were jealous and thought that you were capable of doing the same thing, then you should try it yourself!" Feng Yaqing said without hiding anything, "You can only spout nonsense. Besides being jealous, you can only think about it. You don't have any other skills. You are clearly a loser!"

"You..." After being scolded by Feng Yaqing, the four girls were so angry their faces turned red.

Xie Jiling placed her hand on Feng Yaqing's shoulder.

Feng Yaqing then stopped talking.

The space between the table and chair was small, allowing only one person to remain standing.

If the two were standing shoulder-to-shoulder beside each other, there wouldn't be enough space.

So, Xie Jiling stood behind Feng Yaqing and popped her head out from behind Feng Yaqing. She then said, "Actually, it's fine to talk about it. You can say what you want, but you really didn't have to talk about ghosts."

"You might not know, but you really shouldn't talk about these things." Xie Jiling popped her head out from behind Feng Yaqing's shoulder as she said, "While you are talking about it, you would start thinking about it. After all, this is controlled by your brain. If you talk about it, you would think about it."

"As long as you said it, you would think about it." Xie Jiling said as she pointed at her own head. "If you think too much about it, you would start generating energy waves. Trust me. You might think I'm threatening and intentionally scaring you, or you might also think that I'm talking about something bizarre again."

"Anyway, I have said what I have said. If you talk too much about it, spirits will sense it," Xie Jiling said, "It wouldn't be good if they were attracted by your words, and it wouldn't be the spirit's fault. They had never wanted to approach you, but you called them to you by talking about them."

"You.. .what nonsense are you saying?!" Someone scolded.

Although they said that they didn't believe her, they still looked worried and nervous.

Obviously, they believed her slightly.

Feng Yaqing glanced over at Xie Jiling with admiration.

Xie Jiling was such a fast learner!

Xie Jiling didn't curse them out. She just scared them.

The four girls were so scared their faces turned pale.

It might have been because they were scared by Xie Jiling, but as of now, they really didn't dare to talk anymore.

When they were talking about Xie Jiling, they recalled that they did think about those terrifying scenes in horror movies.

However, that had been something they couldn't control. Those images appeared subconsciously in their brains in accordance to what they were saying.

Obviously, she could have avoided saying those keywords.

Xie Jiling actually acted like she was superstitious religious with seemingly bad intentions, so they were really worried that Xie Jiling might actually curse them secretly.

Xie Jiling might curse them with voodoo dolls or stick a talisman somewhere.

Many classmates had bought talismans from her, right?

Regardless of whether those talismans were effective or not, the four girls felt a sense of panic because of what Xie Jiling said.

Therefore, the four really didn't dare to talk anymore.

They became quiet. And Feng Yaqing and Xie Jiling sat back down.

Because of the four girls, Feng Yaqing learned a lesson. To prevent those four girls from hearing her conversation with Xie Jiling, she started chatting with Xie Jiling on WeChat.

"Jiling, you are such a fast learner!" Feng Yaqing said, "Look at how terrified they are."

"Eh?" Xie Jiling was confused as she said, "But I wasn't trying to scare them."

"..." Feng Yaqing was shocked and became silent for a while. Then, she said, "What... you said was true?"

"Of course it's true." Xie Jiling said, "If they talk too much about it, the ghosts will sense it. I just don't know what they might attract."

When Feng Yaqing heard this, she immediately placed her phone down. She put her hands together and started chanting the great compassion mantra.

Xie Jiling was speechless.

What was Feng Yaqing doing?

After a while, Feng Yaqing was finally done chanting.

She then said to Xie Jiling, "Ever since I watched you exorcise, I started going to the temple to pray. I also requested for a buddhist scripture, and I memorized the great compassion mantra. And now, if I sense anything wrong, I would chant it."

Xie Jiling didn't know what to say.

She really wanted to give Feng Yaqing a thumbs up.

As expected of a top student...

The great compassion mantra was really hard to memorize.

When the class ended, Feng Yaqing went back and told Ren Linna and Kuang Xiaorou about what had happened.

However, the details of how Ren Linna and Kuang Xiaorou cursed those four girls out were not worth mentioning.

In the blink of an eye, the 10th arrived.

The Dragon Boat Festival holiday officially started.

He Yuliang and the other guys were already waiting with their luggages in front of the girls dormitory early in the morning.

Xie Jiling and the others came out with their luggages.

Ren Linna and the other girls packed more things than the guys. Each one of them had a 24 inch luggage.

Xie Jiling was the only one carrying a backpack.

Whenever Xie Jiling travelled for work, she would only bring her backpack.

She had never thought of those trips as fun vacations.

To Ren Linna and the others, though, this was a vacation.

However, to Xie Jiling, she was going to work.

It just so happened that He Yuliang and the others chose Ta Town to be their vacation location.

And Xie Jiling conveniently went along with them.

The nine people booked two cars and went straight to the airport.

They first checked in their luggages and passed the security check. Then, they sat and waited at the boarding gate.

After a while, they saw Han Zhuofeng and the others.

The machines and equipments that could go on the plane were checked. The ones that couldn't had already been shipped to the hotel at Ta Town.

The production crew members passed the security check. They didn't have any luggages and looked rather carefree.

However, Xie Jiling's friends looked around and did not see even one celebrity!

"Jiling!" When Han Zhuofeng saw Xie Jiling, he immediately hurried over to her side.

"Young Master Feng." Everyone was a little nervous as they greeted Han Zhuofeng.

This was their first time being so close to Han Zhuofeng.

"There's no need to be courteous. If you don't mind, you can call me Director Han." Han Zhuofeng grinned and appeared to be looking forward to something.

Instead of people calling him Young Master Feng, he would rather be greeted as Director Han.

Everyone: "..."

Chapter 3428: You Deserve To Be Single!

They didn't expect Han Zhuofeng to act this way.

Han Zhuofeng was only a few years older than them.

So, because of what he had done, everyone became more relaxed.

They called him one by one: "Director Han."

"No need to be so polite!" Han Zhuofeng laughed and said.

However, it seemed that he really enjoyed being called as such!

Because they weren't nervous anymore, Zheng Binzhou asked boldly, "Director Han, are the cast members not leaving with us?"

"They are," Han Zhuofeng said, "However, it won't be all the cast members. Some cast members don't have scenes to film at Ta Town, so they don't have to be there. However, there are still quite a few cast members. They are just waiting at the VIP lounge. If they're out here, chaos would ensue."

"That's true." He Yuliang nodded.

On the plane, the cast members would be sitting in first class, and they wouldn't have the chance to meet any of them.

However, that was fine as well...

Since Xie Jiling had such a good relationship with Han Zhuofeng, they should have the chance to visit the studio!

They would just ask Xie Jiling about it later on.

Han Zhuofeng could have waited at the VIP lounge, but he came over because Xie Jiling was here.

However, he bought economy tickets for Xie Jiling's classmates and Xie Jiling's classmates all paid him for the tickets.

Han Zhuofeng had asked if Xie Jiling's classmates were willing to buy first class tickets.

However, even though the tickets were on discount, the first class tickets would still be around 300RMB more expensive than the economy tickets.

And Xie Jiling's classmates thought that it would be best to save some money if possible.

There was nothing wrong with an economy ticket anyway.

Zheng Binzhou's family was pretty well off, so he didn't care about it.

However, he wanted to be with the other classmates, so he bought economy tickets as well.

As for Xie Jiling, she was a rich girl with no need for money.

In addition, Han Zhuofeng would pay for her plane ticket.

Han Zhuofeng was really generous as well. He bought a first class ticket for her.

Xie Jiling knew about this and she had the same thought as Han Zhuofeng.

Just like how Han Zhuofeng had come here for her. Since her classmates were here, the VIP lounge didn't matter at all.

And so, Xie Jiling went with them.

They waited for over forty minutes before boarding finally started.

The people in the first class were called to board first. At this moment, the celebrities going to Ta Town appeared.

Yan Zhiqing was one of them.

She was wearing a fisherman hat and a huge rectangular sunglasses as well as a mask.

If people saw how she was dressed, they would think that there was something weird with her fashion sense, and they might guess that she was a famous person.

However, they wouldn't be able to recognize her.

After all, she covered herself up too well.

Because they were worried about causing a chaos, Yan Zhiqing didn't try to find Xie Jiling.

However, she knew that Xie Jiling was here.

When she was at the boarding gate, she found Xie Jiling.

She immediately waved at Xie Jiling.

However, Yan Zhiqing covered too much of her face.

Xie Jiling was confused.

She subconsciously waved back, but she had no idea of Yan Zhiqing's identity.

When Han Zhuofeng saw her reaction, he thought it was pretty funny.

It was rare to see Xie Jiling being so confused.

Previously, when Xie Jiling was exercising, she was calm and did things with an imposing manner.

She looked skinny and small, but she was so powerful.

She stood at the very front. She was like that one general who held back all of the enemy forces.

She made people feel safe.

At that time, Xie Jiling seemed really mature.

After all, Han Zhuofeng rarely interacted with Xie Jiling.

And so, he thought that Xie Jiling was mature and reliable whenever she was exercising.

As such, he didn't expect her to be simple-minded and slightly airheaded at times.

That was why Han Zhuofeng approached Xie Jiling and whispered, "That's Yan Zhiqing."

When Xie Jiling heard that, she hurriedly waved at Yan Zhiqing while the latter still hadn't boarded the plane.

Because Xie Jiling had no idea, she didn't wave with much enthusiasm.

Yan Zhiqing was wearing a mask and sunglasses. Therefore, no one could see her expression.

However, actually Yan Zhiqing couldn't stop laughing.

She waved back at Xie Jiling and boarded the plane.

"No. I have a first class flight ticket. Why was I waving at Sister Zhiqing here?" Xie Jiling thought that something wasn't right.

Han Zhuofeng was speechless. "..."

He had forgotten as well.

If Xie Jiling never said anything, he would have forgotten that he had a first class ticket as well.

He was going to board the plane with the economy class people while holding a first class ticket.

"Let's go. We should board the plane first," Han Zhuofeng said.

Immediately, he stood up and said to He Yuliang and the others, "We will be boarding the plane first."

Han Zhuofeng had bought Xie Jiling's flight ticket. This was a work trip for her and He Yuliang and the others knew about it.

Actually, even if Xie Jiling didn't explain, they didn't think there was anything wrong with Han Zhuofeng buying Xie Jiling's ticket.

Although Xie Jiling had never said anything, they thought that Xie Jiling and Han Zhuofeng would eventually become a couple.

Of course, they couldn't say anything right now.

And so, the group quickly nodded and told Han Zhuofeng and Xie Jiling to quickly board the plane.

Han Zhuofeng and Xie Jiling boarded the plane. Yan Zhiqing still had her mask on, but she had taken off her sunglasses.

She was still wearing her hat.

The brim of the hat was covering her face and blocking her eyes.

When she saw Xie Jiling, she quickly waved and called out, "Jiling! Here."

“Sister Zhiqing.” Xie Jiling walked over and said, “You were covered up too well I couldn’t recognize you at the boarding gate.”

“I forgot about that.” Yan Zhiqing smiled and said, “I was just thinking that I since I had seen you, I should wave at you. I forgot that my face was covered.”

“By the way, what is your seat number?” Yan Zhiqing asked.

Xie Jiling forgot. She checked her flight ticket.

Yan Zhiqing saw it as well. The seat was on the other side of the aisle.

“You’re sitting with Zhuofeng?” Yan Zhiqing glanced over at Han Zhuofeng.

Yan Zhiqing thought to herself, ‘Han Zhuofeng knew that Xie Jiling was coming, so he arranged for Xie Jiling to sit with him?’

Yan Zhiqing immediately thought that Han Zhuofeng had ulterior motives.

Yan Zhiqing then asked, “Zhuofeng, why don’t we switch seats so that I can chat with Jiling?”

But then, Han Zhuofeng rejected her without any second thoughts. “No. I must sit with Jiling to feel safe. This is good. I need to be next to her so that no evil can attack me.”

Xie Jiling was speechless.

So, she existed to defend against evil?

Han Zhuofeng should stop dreaming.

Even if he was touching her, he would never be immune to all evil!

Yan Zhiqing didn’t know what to say...

Hehe. You deserve to be single!

Fortunately, he met Xie Jiling.

If not, Han Zhuofeng would have ended up like his two older brothers.

He would be an old single man.

He actually wanted to sit next to a girl because the girl could protect him from all evil?

Yan Zhiqing was too lazy to say anything. She didn’t care anymore.

And so, Han Zhuofeng happily sat beside Xie Jiling.

Soon, Ren Linna and the others boarded the plane.

Ren Linna’s expression was fabulous.

Although Yan Zhiqing had taken off her sunglasses, her face was still being blocked by her hat and mask.

Chapter 3429: No Title

None of the passengers recognized her.

However, Ren Linna did.

Still, she didn't expose Yan Zhiqing on the spot.

After she found her seat, she sent a WeChat message to Xie Jiling, "Jiling, is Yan Zhiqing sitting on the other side of the aisle?"

Ren Linna had asked this in the group.

Everyone else in the group saw her message.

And they immediately went berserk.

It was especially true for He Yuliang and Chen Xing since they loved Yan Zhiqing a lot.

In their words, Yan Zhiqing was their goddess.

She behaved elegantly and appeared really charming when engaging in conversations. Her temperament was outstanding, and she was beautiful.

Most importantly, Yan Zhiqing was also the kind of person who could go home and inherit her family business if she didn't manage to make it in the entertainment industry.

The Yan Family was really big!

Compared to the others in the entertainment industry, only Han Zhuofeng's family could compete with Yan Zhiqing's family.

Those two families were considered the richest inheritors in the entertainment industry.

If Han Zhuofeng couldn't be a director anymore, he could go back home and inherit the family business.

When Xie Jiling heard the notification sound, she opened her Wechat.

She saw Ren Linna's question and said, "It is her."

He Yuliang was already going crazy. "Ahhhh! Jiling, can you ask Director Han if we can visit the studio? Don't worry. We won't take any pictures of the studio. We won't leak any pictures. We just want a picture with Yan Zhiqing!"

Soon, Xie Jiling replied, "Are you stupid? We will be staying in the same hotel as the film crew and cast. There won't be any outsiders at the hotel. You can just ask for photos. Do you need to go to the studio for those photos?"

Chen Xing smacked himself on the forehead and said, "Aiyo! I was so excited I lost my mind. Yes. We don't have to disturb them at the studio. But they will have to go back to the hotel late at night after filming. Do you think it's okay for us to ask for pictures, then?"

"Do you want pictures?" Xie Jiling asked.

Chen Xing said, "Yes!"

Xie Jiling thought about this issue as well. She turned around and asked Han Zhuofeng, "Will you start filming right away when you arrive at Ta Town?"

"No. Although we have sent someone over there to do the framing for the scenes and set up the filming site, I still need to check the location first and make sure that everything is prepared. We will film after the preparations are done and confirmed," Han Zhuofeng responded.

"And so, when we arrive at Ta Town, I will use half a day to check the filming location and ask the cast members to get some rest in the meantime. If we start filming today, we will be pressed for time," Han Zhuofeng said, "I have prepared everything today, and I will officially start tomorrow."

When Xie Jiling heard this, she looked up and said to Yan Zhiqing sitting on the other side of the aisle, "Sister Zhiqing, my classmates are your fans. If you're free today, can they take a picture with you?"

"Sure. No problem," Yan Zhiqing said without any hesitation, "It's rare for us to have a day off, and I don't have anything else to do, so I might as well do something."

Xie Jiling hurriedly thank her and told her classmates about it. "The filming will start tomorrow. They will be resting this afternoon. You can ask Sis Zhiqing for pictures in the afternoon, but don't take too long. Just take a few pictures. It's rare for her to get a break."

Chen Xing immediately promised. "Don't worry. We definitely won't disturb her for too long. We will quickly take the pictures and leave."

Han Zhuofeng reminded. "It's fine for your students to take pictures with Zhiqing, but you shouldn't do it."

"Why?" Xie Jiling immediately turned around and asked.

Xie Jiling never wanted to take pictures anyway.

She already knew Yan Zhiqing. They were all friends and often took selfies.

They took a lot of pictures at Shi Xiaoya's wedding.

Xie Jiling didn't have to join the fun now.

However, Xie Jiling was curious as to why Han Zhuofeng said that.

And when she decided to listen to Han Zhuofeng's explanation, the latter said, "I will be checking the filming location. You have to come with me! What if I encounter something? And you also have to check if the area is safe."

Xie Jiling was speechless.

Fine...

Han Zhuofeng had invited her here to do this anyway.

Xie Jiling couldn't help but glance over at Han Zhuofeng.

In her opinion, Han Zhuofeng was really becoming a little bit too extreme.

How could he be scared of something potentially existing there whenever he was traveling to a new place?

The plane was preparing for take off. Xie Jiling changed her phone to airplane mode.

She yawned and said, "Then I will take a nap."

"Alright," Han Zhuofeng responded while organizing Xie Jiling's blanket.

Xie Jiling fell asleep really quickly. Her sleep quality was really good.

While they were still flying, Han Zhuofeng had nothing to do so he started to do some scriptwriting on the plane on his phone.

He had previously written an outline. He was now using the time on the plane to add some details.

But suddenly, he felt something heavy on his left shoulder.

Han Zhuofeng turned and saw that Xie Jiling was sound asleep. At this moment, she looked so relaxed as she leaned on his shoulder.

Han Zhuofeng started laughing, but he didn't move.

Xie Jiling was sleeping soundly. He was worried that if he moved, Xie Jiling would wake up.

Han Zhuofeng turned around and saw that Yan Zhiqing was asleep as well.

Han Zhuofeng then looked down at Xie Jiling again.

He was really curious.

When he first saw Xie Jiling, he thought that she was a young, polite, and pretty girl who looked a little fluffy.

He had never expected that she could exorcise spirits with such efficiency.

When she was exorcising, Xie Jiling looked really cold and determined.

He would forget how old she actually was and would just think that she was very reliable.

But now, she looked like a fluffy little girl again.

He then remembered that she was almost done with her first year of college. She was still really young.

However, it was truly good to be young...

The appearance of a female celebrity would usually be considered the best while they were at their prime.

Female celebrities were chosen by everyone in the country.

People might still pick on their appearance and point out their flaws when they were on cameras.

However, if those female celebrities were seen in real life, no one would think that their beauty could shock the heavens. The difference between their usual TV appearance and their average appearance was crazy.

However, in terms of appearance, Xie Jiling wasn't considered inferior.

Her skin looked hydrated.

To maintain their good appearances, female celebrities would invest a lot of money.

They would work hard to maintain their appearance through skincare products, not to mention minor cosmetic procedures as well as other cosmetic procedures.

Considering all those, it was natural for them to have really good skin.

The ones with average looks were different from them.

As of now, there were many methods that could be used. However, a celebrities' skin would really look like a boiled egg without shell.

However, Xie Jiling had no makeup. This was her natural face.

Even so, her skin still looked so delicate. Even without any makeup, her skin showed no flaws.

Her cheeks were faintly red. She looked healthy and beautiful.

Han Zhuofeng subconsciously stared at Xie Jiling for a little too long.

Xie Jiling was sleeping anyway, so he wasn't scared.

However, while he was staring at her, Han Zhuofeng suddenly felt a pair of eyes staring at himself.

Chapter 3430: I Didn't! I Wasn't!

Han Zhuofeng felt goosebumps on the back of his neck.

His first reaction was that there was something horrible on this plane.

When he looked up, he saw that Yan Zhiqing had woken up at some point.

She propped her elbow on the armrest and supported her chin with her hands.

She sat across the aisle and smiled as she stared at Han Zhuofeng.

The first class seats on domestic flights were not actually standard first class seats. Instead, they had the specifications of a business class seats.

In addition, the plane had limited space, making the aisle very narrow.

And so, even though Yan Zhiqing was seated an aisle across Han Zhuofeng, she was actually very close.

Yan Zhiqing saw everything very clearly.

She raised her brow as she thought to herself. Was this dude thinking about kissing a girl while the girl in question was sleeping?

Han Zhuofeng had no idea that Yan Zhiqing was already awake.

She had been watching them for a while.

In addition, she even took photos of Han Zhuofeng lowering his head and secretly staring at Xie Jiling.

Han Zhuofeng was very near Xie Jiling.

From Yan Zhiqing's point of view, he was almost going to kiss Xie Jiling.

Yan Zhiqing was really curious. If Han Zhuofeng hadn't noticed that she was awake, would he have actually kissed Xie Jiling?

Could this young fellow actually be that daring?

Han Zhuofeng had no idea what Yan Zhiqing was thinking.

However, based on Yan Zhiqing's ambiguous expression, he knew that she had misunderstood.

Because Han Zhuofeng was worried about waking Xie Jiling up, he didn't dare to explain to Yan Zhiqing right away.

Since he couldn't go online, he couldn't even send Yan Zhiqing a message.

And so, Han Zhuofeng tried to gesture and explain to Yan Zhiqing.

I didn't! I wasn't!

I was just looking! I didn't actually want to do anything.

Don't misunderstand!

Yan Zhiqing watched as Han Zhuofeng's face turned red with anxiety while gesturing.

Yan Zhiqing felt satisfied and continued watching them for a while. Then, she turned over, leaned her head on the chair, and closed her eyes. Afterward, she fell asleep.

Han Zhuofeng was speechless. "..."

Did she believe him or not?

Han Zhuofeng had no idea that Yan Zhiqing had even taken photos. If he knew about it, he would have been even more worried.

When noon arrived, the air stewardess started giving their meals out.

When it was Xie Jiling and Han Zhuofeng's turn to be asked about their meal options, the air stewardess didn't disturb Xie Jiling because she saw that Xie Jiling was asleep.

The air stewardess asked Han Zhuofeng first.

At this moment, Xie Jiling was awakened by the conversation.

She opened her eyes in a daze and felt that she had slept comfortably.

There was a wide, firm, and bouncy support that felt even more comfortable than a pillow.

Xie Jiling was still in a daze. She started rubbing her head along Han Zhuofeng's shoulder.

She thought it felt really comfortable.

Han Zhuofeng had been quite relaxed. But now, his entire body felt stiff.

The air stewardess saw that Han Zhuofeng's face had turned red.

The blush had spread to the tip of his ears.

The air stewardess had already recognized Han Zhuofeng. Han Zhuofeng was not reported on the news as much as Han Zhuoli and Han Zhuoling.

However, ever since Han Zhuoling and Han Zhuoli had gotten married, he became the only remaining single man of the Han Family, so he started getting a lot of attention.

Reporters started paying close attention to him everyday because they wanted to know when he would lose his status as a single man.

They cared a lot about his relationship status.

And so, news about Han Zhuofeng started increasing in numbers.

He was almost like a celebrity.

And so, when he boarded the plane, the air stewardess immediately recognized him.

The air stewardess did not expect Han Zhuofeng to be such a pure-hearted boy.

The little girl had only moved a few times on his shoulder. She didn't touch him anywhere else. Why was he blushing?!

At this age, Han Zhuofeng should know about such things and should have some experiences.

Yet, he actually blushed?

Even the air stewardess secretly looked down on Han Zhuofeng.

"Ma'am, are you awake? Would you like to have your meal now?" the air stewardess asked Xie Jiling.

Xie Jiling blinked. She stared at the air stewardess and realized that her posture was wrong.

Xie Jiling felt a sense of foreboding.

She slowly turned her head like a robot.

And her gaze met Han Zhuofeng's eyes.

At this moment, Han Zhuofeng also happened to be looking down.

The two of them were suddenly really close to each other.
