

Spoiled by Mr. Russell Chapter 1005

Alexander's mood instantly changed when he saw her laughing.

'How can she tease me like that?!' He looked at her smile and immediately grabbed the back of her head and pulled her in for a passionate kiss.

The couple was out of breath when it was over, but their body heat soared.

Alexander had been extra meticulous ever since she was pregnant.

Not only did he not do anything intimate, he also tried his best to avoid kissing her.

According to him, they should not play with fire as it might get out of control.

However, this time, it was obvious that both of them were on the verge of losing control.

"Alex..." Lily called out softly with a hoarse voice.

That voice had an extra bit of charm and seductive power to it.

Alexander quickly raised his hand and put his finger on her lips to prevent her from talking again.
