

Spoiled by Mr. Russell Chapter 1023

Heather naturally did not hope for Ralph to help her get some justice. She was more concerned about where Alexander had learned kickboxing and what kind of secret handbooks he hid.

After practicing kickboxing for many years, she suddenly felt that everything she learned was all a fraud.

Thinking about it was driving her crazy.

Although she was injured, she could not wait any longer and hurriedly asked someone to find out where Alexander got sent to when he was a child.

The company's affairs had been put on hold recently as all focus was on finding the handbook.

Heather's assistant even took all the company's calls.

Albeit, there were still things she would have to deal with personally, She let out a few coughs as she was about to get up.

Her chest felt stuffy and painful.

She had no idea how much strength Alexander had used in their fight, but because she had pushed herself too hard, the injuries she had sustained were more severe.
