

## Spoiled by Mr. Russell Chapter 673

Henry waved, and Lily immediately felt people surrounding her and rushing toward her from all directions. She instinctively bent down, quickly attacked one of the men who approached her from her side with a whirlwind kick, and sent him flying.

After that, she punched her opponents behind her. Three to four people were lying on the ground when she finally landed. She quickly glanced at Justin's side and noticed he was also fighting. She did not have the time to look at him for too long because more opponents were rushing toward her.

Their skills were not as good as Lily's, but they were one level higher than the Lodge family's disciples. It was not because they had better foundations but because their moves were ruthless.

The Lodge family had a long tradition as an ancient kickboxing family, and in their principle, practitioners must first cultivate their virtue before learning kickboxing. Therefore, they learned to be benevolent when using their learned kickboxing skills. Their moves were a combination of attack and defense.

However, their opponents used extremely vicious and deadly moves in all their attacks. That was the first time Lily had met such opponents. She learned kickboxing when she was young from her grandfather and only exchanged blows with members of the Lodge family.

fought was when Nathaniel threatened her in an alley. That

at Justin's side. She saw Justin was also blocking and repelling his share of opponents. Justin did not seem to be in danger

'This can't go on!'
