

Spoiled by Mr. Russell Chapter 680

Lily was fair and slender. She did not look very strong, but at that moment, the energy that burst out of her body surprised even herself.

The situation was urgent, and others might not have seen what had happened. Lily knew from her fight with Apollo that she was at a slight disadvantage from the start and did not take much advantage of him.

Although she had practiced kickboxing since she was a child, it was mostly for self-defense, and she had no choice but to learn it. She was unsure of her own capabilities. She had gotten older and stopped training after she entered college. Besides practicing the moves with her peers, she only fought with Justin. Even so, it was just a few moves, so she felt her skills were inferior.

The last time she fought was when she got kidnapped in Westwood. At that time, she was also a little surprised. After thinking back, she speculated that facing a grave threat had stimulated her body, but did it happen again?

"What are you thinking about?" Alexander looked up and noticed Lily was in a daze.
