

Spoiled by Mr. Russell Chapter 702

The impact of this incident was too significant. This is not just about La Beauté Group. You should know that the entire perfume industry was affected due to Ms. Christian.

This affects our reputation! Who would dare to buy perfumes in the future? Who knows if there's any poison in them? She's an alarmist. She's spreading rumors and deceiving the public!

Some radicals voiced their harsh condemnation and the facial expression of the PR department's employee changed. She immediately comforted the public, "Everyone, please calm down. The reason our company is holding this press conference today is to give you an explanation. We'll definitely give you an answer today. However, there's a small incident, and Ms. Christian hasn't arrived yet. I hope all the reporters present can please give us some time, okay?"

La Beauté Group had a very high status in the beauty industry. Moreover, the public relations department's statement sounded sincere.

Everyone looked at each other and calmed down for a while.

However, there were always people who liked to find fault and raised their voices to ask, "Is she afraid to come?"

The questions spoke to many people.
