

## Spoiled by Mr. Russell Chapter 711

Just as Lily was about to speak, Alexander stepped forward to stand before her, "Mr. Richards, if you have any questions, La Beauté Group's legal department will contact you.

Still, as far as I know, the Perfumers' Society does not have that power yet."

After speaking, he stopped Lily directly, turned around, and left backstage.

Noah wanted to catch up, but the La Beauté Group staff stopped him, "Mr. Richards, please stay."

Raising his eyebrows, Noah did not follow up but stood there looking at their backs, smiling meaningfully.

"I didn't expect the Perfumers' Society to send him here."

Lily sighed, rather emotional.

She was already mentally prepared to receive a phone call, but it came earlier than expected. She also did not expect Noah to attend the press conference.

What he said just now was to embarrass her on purpose and to make things difficult for her.
